The total distance covered is 6,000 feet, the first being 5,050 and the other taking up the balance of the distance. The large span takes the ore across the Bear River. Trips from the mine to the foot of the line take eight minutes but this will be reduced to six when the tram is in full operation.

Fifteen Police Officers Saw Bandit Enter With Lady Companion and Trapped Him as He Came Out

CHICAGO, July 23.—John Dillinger, arch-criminal, was shot dead last evening by operatives of the Justice Department about 10 o'clock as he was coming out of a movie theatre. The police watched him buy a ticket for himself and lady friend to see the "Manhattan Melodrama," a picture showing the activities of crooks. Fifteen men surrounded him as he came out and although Dillinger whipped a revolver from his pocket, a withering gun fire dropped him, mortally wounded. Two ambulances were at hand, one of which frisked the criminal away and the other took care of the lady friend. A few minutes after the shooting Dillinger died.

WOULD FIGHT FOR RUSSIA

In a despatch published in the Vancouver Province from a Canadian Press staff writer dealing with the C. C. F. convention at Winnipeg appears the following:

"E. E. Winch, M.L.A. for Vancouver, declared he would take no part in capitalistic wars but he was prepared to leave the shores of Canada to fight in defence of Russia."

The convention had been discussing the rights and wrongs of war and there was a division of opinion as to whether war was ever right or not. Mr. Winch is one of the leaders of the C. C. F. in this province. As a socialist he was bound to support a country where they had "the dictatorship of the proletariat" as carried out in Russia.

We have no fault to find with Mr. Winch holding any views. He has a right to them. That is the right of any individual. But Mr. Winch is a public man taking part in making the laws of Canada and has taken the oath of allegiance to His Majesty, King George. In the event of a war between Canada and Russia, Mr. Winch would, presumably, abjure his allegiance and take the side of Russia.

It is not at all likely that such a war could take place but it is well to know where our leaders stand in such a case. They not only would like the enemy to win but would leave this country to fight for the other country.

In view of the methods which are being adopted in Russia by the Lenin administration, Mr. Winch would not have dared make such a remark in the country he loves, had he been a Russian citizen. His life would not have been worth even as much as a Russian rouble if he had done so. We also doubt if he should be allowed to utter such sentiments here and at the same time hold a position where he is constitutionally called upon to swear allegiance to the King. We think that a man who would fight for Russia should go to live in Russia and not try to dictate to Canadians how they should manage their affairs.

Suppose the C. C. F. should come into office in this country, he would be one of the dictators of Canadian policy. As a socialist he is pledged to the "dictatorship of the proletariat" and he, as one of the leaders of the proletariat, would be ready to desert his country and fight for Russia.

We abhor war, but there are times when it is a disgrace not to fight. If Canada should be attacked, we should all expect to take part in her defence. We should do so because it is our country, our home, and it would be disgrace to allow it to be ravaged by an enemy. Men of the Winch type who prefer the dictatorship of Russia to the liberty of a British country are a festering sore in the body politic and should be given proper treatment.

Because it doesn't pay to advertise poor products, It does pay to buy those advertised.

SPORT CHAT

To the self-governing M. C. C. rain checks mean nothing and there is never any "money back" on account of rain. No exception is made in any case, even in a Test match, as a considerable number of cricketers were coolly reminded at Lloyd's.

Thousands of tickets had been sold for the fourth day of a recent Test match, which was finished in three days, and the unlucky buyers could not get their money back. They had fair warning. Every ticket bore the legend "No cricket guaranteed; no money back." But there was much talk and writing to the papers about it.

In this respect Test match cricket seems to be unique. When a football match is postponed owing to frost or an open-air boxing match owing to rain, the tickets are valid for the new date. The man who buys a book of Wimbledon tickets is given spare ones for any extra days to which the tournament may have to be extended. In county cricket the spectator buys his ticket on the same morning, when he can judge the prospects of play for himself.

Only in Test cricket does one buy "a pig in a poke." The surprising thing, the papers say, with such a patient and faithful public, is that cricket authorities do not build accommodation for bigger grounds. Test match crowds would be considered small at a good League football match.

TERRACE

Saturday, July 14, marked the inauguration of the new management of the hotel at Kalum Lake. A dance was held in the pavilion, and other attractions provided. Boats were placed at the disposal of visitors.

Terrace is being enlivened these days by holiday visitors, numbers of whom are camped at Lakelse Lake, and who come in to Terrace to do their shopping.

Dr. LeRoy and family have been staying for a holiday at Sand Lake, a cabin for their use being provided by Mr. Treston, who has a fur farm there. The LeRois are from Anyox.

Terrace people have been taking advantage of the wonderful crop of wild raspberries. Many pickers are filling their requirements on Ferry Island. Other berries also present a phenomenal crop this year. On Defontaine's Mountain there is a prolific patch of saskatoons.

Mrs. M. A. Burbank left Saturday by the Prince Rupert for Vancouver on a holiday.
