## 50c SILVER IN GOTHAM

Foreign Market Gains - First Time Since Nationalization Price Has Been so High

NEW YORK, Sept. 28: (CP)-Heavy speculative buying sent bar silver up 3sc to 50c per ounce today.

This is the first time that spot market prices have touched the level at which speculative and hoarded stocks were nationalized by the United States Treasury and evidently reflects further gains in foreign markets.

The present spot market for silver is entirely for foreign metal. For industrial use domesticallyproduced metal still commands a special price of 6412c per ounce at the Treasury.

# Three Queen Charlotte Camps to Double Crews Giving 600 Men Work

More Logs Produced This Season Than at Any Time Since War and Output in 1935 to be Doubled-New Camps Opened by Borgan and Kelley

More logs have been produced on the Queen Charlotte Islands this year than in any season since the war and next year it is expected the output will be twice as large as this, making 1935 the banner year in the history of the industry on the Islands, it was stated this morning by John R. Morgan, well known Island logging operator, who

as Acre on his way to Vancouver on from the Islands on the Prince OUTLOOK Charles and will go south on the Princess Adelaide tonight.

More logs were taken off the Islands this year than on the entire mainland between Queen Charlotte Sound and Alaska, it is said by Mr. Morgan. Increased demand of the Powell River and Ocean Falls paper mills, both of which are now proauchig up to the last pound of their capacity, is responsible for the expanding logging activity on the Islands, said Mr. Morgan.

Mr. Morgan announced that, having cleaned up the timber available there, he would be closing the camp at Crescent Inlet, near Lockeport, on October 15 and would move to a new location at Sedgewick Bay near Lyell Island, about twenty miles south of Crescent Inlet. Already some of the camp equipment is being moved. There will be no more interruption in log production than is necessary in connection with the moving. The crew of the Morgan camp will be doubled next year to a strength of about 200 men.

The Allison Logging Co., operating at Cumshewa Inlet, and the T A. Kelley Logging Co., which has been running a camp at Atli Inlet, will also be doubling their crews next year. The Allison company is expected to expand operations at Matt Videck Passes Away on Thursthe present site while the Kelley company has already opened a new camp at Sewell Inlet, about twenty miles north of Atli.

# Engineers Working his condition became such while travelling that it was necessary to Logging Railway for hospital treatment.

#### PREMIER'S STATEMENT

On this page today we are publishing an advertisement. which contains a statement by Premier R. B. Bennett in regard to the financial condition of Canada. We suggest that everyone interested in the welfare of Canada should read the statement and those that will follow in connection with the refunding loan that is being floated next week.

The success of the refunding loan is essential to the progress of Canada and no political or other considerations should influence citizens in connection with supporting it. While many will not have agreed with Mr. Bennett's policies, they should show themselves Canadians rather than politicians. Mr. Bennett is the Premier of Canada and as such his words will carry weight. He is asking that full support be given the loan in the interests of Canada and not in the interests of his particular administration. We feel sure the appeal will meet with public approval and that the quarter billion dollar loan will be subscribed in a very short time.

#### HEALING OLD WOUNDS

The depression caused much worry to many people and in some cases resulted in suicide or death from strain or stress. In many cases scars have resulted, business scars and personal scars, civic scars and national scars. The first work of returning prosperity is to heal these scars. That they are being healed is evident. Men who have been idle for years are again at work. Others will go to work soon. Businessmen who have been unable to pay debts are gradually recovering and are paying up. While the country may not yet be said to be prosperous it is well on the ways to a more prosperous condition. interest and a traditional of at master a ministrative training appoint to when the angular and

# A FURTHER STEP on the Road to Recovery

#### A Statement by the Prime Minister of Canada

HE Dominion of Canada will offer for public subscription within the next few days the 1934. Refunding I can. It is an undertaking of such significance to every citizen that I think it fitting to present this brief explanation of its close relation to the welfare and continued progress of our country.

The 1934 Loan is not an incidental effort. It is a part -and an essential part-of the great debt conversion programme in which Canada has been engaged since 1931, and by which we are refunding at maturity the large sums borrowed for wartime purposes. The national importance of this programme—and of the 1934 Loan as part of it-cannot be over emphasized. It is important from three aspects: 1-National Credit 2-National Economy; 3-National Recovery. I shall deal with each of these in turn.

#### 1. National Credit

National credit means to a nation what an honest reputation means to a man. Its maintenance is primary essential and necessitates that each obligation be met, fully and promptly, as it comes due. Our debt conversion programme is then, in the first instance, our method of meeting our obligations and thus maintaining our credit.

By this programme Canada has already refunded \$858,000,000 of maturing wartime debt, and completion of the 1934 Loan will bring the refunded total to over one billion dollars. As a result, Canada's credit stands notably high, both at home and in the great money markets of the world.

Striking evidence of our high credit standing was given within the last few months when Canada secured immediate over-subscription of a long-term loan in London at a price to yield the investor less than 312% and, in New York, obtained a one-year Loan of \$50,000,000 bearing interest at 2 per cent. And there is equally striking evidence at the present moment in the fact that every internal issue of Dominion of Canada Bonds now outstanding is selling today at substantially above its issue price. The twelve-year 4% Bonds of the 1933 Refunding Loan, issued at 961/2, are now selling at 104 to yield approximately 31/2%.

#### 2. National Economy

The debt conversion programme, in the second place, is providing substantial savings in public interest charges. The debt which we are refunding was incurred with interest rates at artificially high wartime peaks. Refunding is now being accomplished with interest rates throughout the world moving steadily downward toward more normal levels an encouraging world movement which is essential to business recovery. refunding under these conditions Canada has already obtained a reduction of the previous interest charge amounting to more than \$9,000,000 per annum, and completion of the 1934 Loan will provide a further saving of over \$5,000,000 per annum.

The annual saving of over \$14,000,000 thus secured has direct cash benefit to every tax-payer. This saving has much more than offset the interest charges on the debt which has been incurred to meet the extraordinary burden of unemployment relief. It has, to a consider-able extent, offset the heavy burdens which the depres-

sion period has imposed with respect to railway and other current requirements. It will also pave the way to tax reductions with the return to better times.

#### 3. National Recovery

The debt conversion which Canada has achieved since 1931, by thus maintaining national credit and securing national economy, has been a major factor in our progress toward business recovery.

A year ago, preliminary to the 1933 Refunding Loan, I took occasion to express the belief that Canada had passed the low point of depression and was definitely upon the road to recovery. Today, our progress toward recovery is a matter of established fact. Since the low point of February 1933, the trend of business has been moving steadily upward in an improvement so marked and so consistently sustained that we need no longer doubt its reality.

The facts of business recovery are written beyond dispute in our statistical records. The most significant indices relate to physical volume of business, industrial production, carloadings, electric power production, employment and prices. Here is the record in each case:

PERCENTAGE INCREASE

		COLUMN TO A COMPANSAGE
	During Page Yours	Since Law Point of Departments February 1958
Physical volume of business	13.8%	42.8%
Industrial Production	15.7%	56.9%
Carloadings	10.3%	29.1%
Electric Power Production.	12.4%	32.7%
Employment	14.79	17.1%
Wholesale Prices	4.0%	13.7%
Farm Products Prices	7.7%	43,3%

Our external trade figures are equally encouraging. During the first eight months of the present year, exports of Canadian products increased approximately \$99,000,000, or 32.7% over the same period last year. The corresponding increase for imports has been slightly under \$93,000,000, or 38.2%.

#### A Further Step

Anyone who reflects upon these three aspects of credit, economy and recovery will at once appreciate that the debt conversion programme is vitally important to every Canadian and that, consequently, the success of the 1934 Loan is the personal concern of every man and woman in the Dominion.

The 1934 Loan is a further step in a great national undertaking; its success means a further step on the road to recovery. I know that I need not stress the attractiveness of the Loan as the soundest possible investment, for that will be universally recognized. do, however, earnestly call upon my fellow Canadians to support this Loan to the limit of their abilities as an opportunity to promote our national welfare. I know of no way in which the individual citizen can render greater service to himself and to his country.

Bringing a large parcel of canned salmon from the three Queen Charlotte Island canneries, C. N. R steamer Prince Charles, Capt. Edward Mabbs, arrived in port at 12:30 midnight last night from Vancouver via the Queen Charlotte Islands. After having been in service for the past two and a half months, the Prince Charles is now being withdrawn from the run and wil be tied up for the winter at the local dry dock. The Prince John, having completed overhaul here goes south via the islands in place of the Charles tomorrow night.

Completing her final voyage of the season, C. N. R. steamer Prince Rupert, Capt. Neil McLean, arrived in port at 12 noon today from Vancouver. Powell River and Ocean Falls with a light list of passengers and will sail at 10 o'clock this evening for Stewart whence she will return here tomorrow evening to be withdrawn from service and tied up for the winter at the local dry dock. Members of the crew will leave on Thursday for their homes in Vancouver.

NEWS OF THE MINES

Premier Production About Same Value This Year as

Last-Hydraulicking Project at Hixon Creek

-Premier-B.C. Silver Negotiations

Production at the Premier mine in the Portland Canal

listrict this year, while lower in volume, is of about the

same value as last year, according to figures just issued

covering operations for the first half of 1934. The figures

show that recovery from 91,850 tons in the first half of

1934 was 21,696 ounces of gold and 357,730 ounces of silver.

\$758,794 or approximately \$8.26 per tion to the B. C. Bilver Mines Ltd.,

n gold and silver has offret decline

n output of these me' is per ton

if ore treated. Indications are that

the value of 1934 production will

approximate that of 1933. In the

entire year 1933 the company mill-

the Premier could work the mine.

Replying to a statement made at

have expressed their readiness to

entertain any scheme that would

deal equitably with the interests of

Selukwe shareholders. No mining

work is being carried on but the ore

so far developed is estimated by C.
