# Those On Direct Relief In Dominion Will Soon Be Under Million Mark

Government's \$40,000,000 Public Works Program Expected to Further Remedy Situation Which is Already Showing Marked Improvement

OTTAWA, Aug. 13: (CP)-Hopes are expressed in official circles here that the number of persons on direct relief throughout Canada will soon be below the million mark. During the past year half a million have been removed from the rolls, the total for July being slightly more than a million. It is felt that, when the government's \$40,000,000 public works program gets under way, the situation will show a substantial improvement.

be permitted to present the case for my father, E. E. Winch M.L.A., in relation to the facts which occurred at the Winnipeg convention of the C. C. F. It is quite easy to convey a wrong impression by taking an isolated excerpt from a man's remarks or his address and publishing it without the context. Your editorial is evidently based on a quotation from the Vancouver Province which reported an isolated statement without explanation of the circumstances in which the statement was made. This sort of thing is not fair, but it is a weapon! too often used in politics in order to make a point against an oppon-

Here are the facts. A plank of the

new federal platform of the C. C. F. was under discussion at the convention. The plank, as first presented to the convention, contained this sentence: "Not a Canadian shall leave the shores of Canada to fight on a foreign field." Mr. E. E. Winch opposed the inclusion of this sentence in the Peace Plank of the platform. He suggested that many cases might arise in which it would be the desire and the duty of Canadians to go abroad to fight for principle or an ideal. He instanced. as one possible case, the possibility of an attack upon Soviet Russia by some capitalistic nation bent on destroying the experiment aiming at Socialism which is at present going forward in the U.S.S.R. In uch a case he said he would fee called upon to go to the defense of the Soviet. I am certain that Mr. CRUCIAL LAWN Winch had in mind the plan of the present German government, under Hitler, which definitely plans an attack upon and the conquest of the Soviet Union to make room for the surplus German population. No G. Borland's by a score of 18 to 8 at one could possibly imagine Britain the end of the week in a crucial Rupert Tennis Club's tournament Russia may be called upon to take ing League, the MacPhee rink, as a Central Europe.

North Island Trolling Beginning to Fall Off-Pinks on West Coast-Fall Phase of Salmon Canning.

After one of the best runs in years which has proven profitable to several hundred troll fishermen,. spring salmon fishing is beginning to slacken off around North Island and other trolling grounds at the north end of the Queen Charlotte Islands. The run of cohoes is continuing, however, and it is expected will soon show an improvement. With the falling off of the spring run, some of the boats are commencing to drift away from the North Island trolling grounds.

The run of pink salmon in Massett Inlet, which has been awaited since the first of the month, has not commenced but hopes are still held that it will soon materialize. Meantime the Massett Canners cannery at Old Massett and the Nootka Packing Co. cannery at New Massett are getting supplies of pinks from the west coast of Graham Island where it is reported that a run of some proportions had developed.

Skeena River canneries are now beginning to enter the fall fishing phase of the season's operations. .42c The sockeye run has fallen off and the season for this variety will close this week-end. Cohoes are still being taken by the gillnetters, however, and the very satisfactory price of 40c per fish is being paid. The seiners are getting 4c and 5c for pinks and there is considerable demand for this variety. The Cana-1 dian Fishing Co.'s cannery at Haysport is the only salmon packing plant on the Skeena River to cease operations with the closing of the sockeye season.
