A general strike starting today in San mancisco, is the outcome of serious rioting along the docks and piers of San Francisco where longshoremen have been on strike for nearly two months. Violent rioting broke out a few days ago and police were inadequate to cope with the rioters. A hurry call was put in and the militia was called out with orders to shoot into the crowd, if necessary. As a result, at least three were killed and scores wounded. The above shows.
