London Sees Little Likelihood of Fully Meeting Obligations

British Press Comments Upon President Roosevelt's Attitude on War Debt Question—Difficulty is Largely One of Transfer

LONDON, May 11.—The British press, commenting widely on President Franklin D. Roosevelt's declaration on war debts including his intention to recommend to Congress that no further token payments be accepted as evidence of good faith on the part of debtor nations, says that there is little likelihood of Europe paying the billions owed to the United States and asserts further that the real difficulty is not one of payment but one of transfer.

U.S. Not To Be Caught Napping With These!

One of the big barkers of the Panama canal zone defenses says "hello" with a roaring blast at the "enemy" fleet, during the recent U.S. army-navy joint exercises in the zone. The railway gun that is shown in action was manned by the fourth coast artillery. Along with naval expansion, army and navy manoeuvres, it would seem that the U.S. is not to be caught napping in event of war.

Mrs. Gettle Is Advised By Supposed Abductors That Husband is Alive

Authorities Investigating Removal of Millionaire Oil Operator From Party Thursday Morning With View to Apprehending Gunmen

LOS ANGELES, May 11: (CP)—Ransom of \$75,000 for the return of William F. Gettle, kidnapped Los Angeles oil millionaire, who was taken by masked gunmen from a party at his new estate at Arcadia near Pasadena early Thursday morning, was demanded by the purported kidnapers who telephoned an attorney for Mrs. Gettle saying that he was still alive. Meantime, the police are continuing the investigation with a view to apprehending the abductors and securing Gettle's release.

TOWBOAT PLANES TO ASHORE COME OVER

Salvage Princess High and Dry In Grenville Channel—Assistance Dispatched

The Armour Salvage Co.'s big power tug Salvage Princess ran ashore at high water near the lower end of Grenville Channel about midnight last night and, while she is reported to be little, if any, damaged, she is unable to float herself so the company's smaller power tug Pachena was dispatched today to assist her. Further word as to the vessel's plight was being awaited early this afternoon.

The Salvage Princess left here at noon yesterday for Union Pass at the lower end of Grenville Channel to pick up a tow of logs for Georgetown box factory. W. R. McAfee, one of the operators of the box factory, was on board.

CREATION OF CREDIT

Banks Only Secondary Factor
States Local Banker in Address

"The Creation of Credit" was the subject of an interesting address before the Rotary Club yesterday afternoon at its regular luncheon in the Commodore Cafe by W. M. Blackstock, manager of the local branch of The Canadian Bank of Commerce. Credits were not created by the banks, although to a limited extent they can for a period create deposits. In fact, they had only a limited influence over the credit of the country. The banks were the custodians of the deposits of the people and it was their duty to protect those deposits.

Credit was largely created in the form of book debts when goods are exchanged in the course of industry or commerce, bills of exchange, promissory notes, and also capital obtained by the issues of shares or bonds or loans on mortgage. The credit system was largely independent of the banks. It was given sometimes in money and sometimes in goods. Banks were asked to take over the risk of the deferred payments by advancing all or part of the money necessary to carry it through. This money came from the bank's own resources or the saved money of its depositors. Credit created banks rather than banks creating credit. If the banks could create credit, as was sometimes suggested, why did the banks open branches all over the country and compete with each other for the purpose of securing deposits if they could create deposits out of thin air. The bank must retain the confidence of depositors, particularly during the time of a depression. The limit of bank loans was governed by the

COURT IN SESSION

Three New Cases on Calendar For Month of May

Three actions which have been pending for some time were struck off the list of the local County Court which was in regular monthly session yesterday for setting of cases, three new actions being added to the calendar for the month. The list and disposition of cases was as follows:

Canadian Lumber Yards Ltd. vs. H. R. Frost, \$99.76, R. L. McLennan for plaintiff, Patmore & Fulton for defendant, struck off the list.

B. Brynildsen & Sons vs. Dick Snow, \$162.90, Patmore & Fulton for plaintiff, Williams, Manson, Brown & Harvey for defendant, struck off the list.

B. Brynildsen & Sons vs. Timothy Snow, \$46.60, Patmore & Fulton for plaintiff, Williams, Manson, Brown & Harvey for defendant, struck off the list.

A. G. Annan vs. L. H. Brawand, \$48.53, Williams, Manson, Brown & Harvey for plaintiff, R. L. McLennan for defendant, stands.

Rita Evans vs. Cora E. Black, \$32.25, Patmore & Fulton for plaintiff, Williams, Manson, Brown & Harvey for defendant, May 30.

Katherine Clavering vs. Cora E. Black, \$31.15, Patmore & Fulton for plaintiff, Williams, Manson, Brown & Harvey for defendant, May 30.

Three naturalization applications were also dealt with at yesterday's session by Judge W. E. Fisher.

KIDNAPPING AGAIN

Another kidnapping case has been reported from the United States. This time it is a wealthy oil operator in California who was snatched away from a party by masked gunmen and presumably is being held for ransom.

Criminals have taken advantage of modern methods of transportation and operate in a modern way much more effectively than any highwayman of old robbed coaches during the dark ages.

One of the most urgent needs in the United States is to deal with the criminal rackets, not only kidnapping but others which lead to more serious crimes.

BANK SEES GAINS

The Royal Bank monthly report just received says: "Throughout Canada, business activity continues to expand. March, 1933, constituted the low point in the depression and since that month recovery has been rapid, consistent and impressive. In the past three months carloadings were almost twenty-five percent larger than in the corresponding months of 1933, steel production has trebled, automobile production rose from 13,288 units to 29,655 units, and newsprint made a gain of forty-two percent over the volume produced in the first quarter of 1933. The power industry has expanded operations to meet revived industrial demand, and the volume of energy generated has established new records appreciably above the peaks attained in 1929. Gold mining is more prosperous than ever before. The output of base metals bids fair to establish new records. In both the Maritime Provinces and British Columbia there is active demand for more lumber than has been ordered in many years. A remarkable advance has taken place in security prices. The advance registered in the prices of industrial bonds has been sufficient to warrant the hope that the time is not far off when it should be possible to float new securities to finance the requirements of industry, and the advance in the price of government bonds has been of such magnitude as to permit refinancing at an appreciable saving in interest charges."

PROSPECTS FOR CROPS

Outlook in North Central Alberta Good—Iowa and Kansas Are Being Dried Out

EDMONTON, May 11: (CP)—Wheat seeding is seventy-five percent completed in north central Alberta and early sown varieties are now waving green. Moisture generally is ample and conditions are good.

vanish. Farmers are praying for rain.

A survey of agricultural conditions and crop prospects from the Great Lakes to the Gulf of Mexico and west to the Rockies reveals conditions of almost unparalleled devastation from the drought and insects. Crops will be no more than fifty percent normal or under 500,000,000 bushels.

Man in the Moon

Spring is here and summer is coming so let's have a game of softball.

About this time of year
Spring opens into summer;
The birds have all gone north,
The grouse becomes a drummer.
But not for me the change,
All seasons are the same
Until the softball calls
And I sit in at a game,
There squatting on the bank
I feel the spring begin
And blithely cheer the players on
And soak the sunshine in.

When William tried to kiss Louise
Did she with anger thrill?
"Bad boys like these should petted be,
I cannot blame you, Bill."

It's cheering to hear that business is better. In the abstract it probably is but as a concrete example most of us feel it has not improved very greatly.

Another wealthy man kidnapped in the States. So far there has been no case of this kind in Prince Rupert. Possibly the small supply of millionaires accounts for the slight to this community.

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile
—Without Calomel

You are "feeling punk" simply because your liver isn't pouring its daily two pounds of liquid bile into your bowels. Digestion and elimination are both hampered, and your entire system is being poisoned.

What you need is a liver stimulant. Something that goes farther than salts, mineral water, oil, laxative candy or chewing gum or roughage which only move the bowels—ignoring the real cause of trouble, your liver.

Take Carter's Little Liver Pills. Purely vegetable. No harsh calomel (mercury). Safe, sure, ask for them by name. Refuse substitutes. 50c. at all druggists.

SAFETY SPEED COMFORT SERVICE

Quite Frankly, the Object of this Advertisement is to Stimulate Business.

The clouds of depression are gradually rising, and this movement towards better times can be speeded by a greater use of our railroads. In this you, the public of Canada, can help. The more you use the railroads, the more will be spent on wages and supplies, and,—so wide are the ramifications of this industry—every home in Canada will benefit. Besides, as a result of economical operation, you will receive unexcelled value for every dollar you spend.

So make your plans now for greater use of railroads, which were never before in a better position to serve you. For vacations, business trips, carriage of goods by express and freight, for telegraphs and transference of money, the railroads are your willing and efficient servants, not for part of the time only, when conditions are propitious, but all the year round. By rendering this continuous and essential service they deserve your patronage.

Do not think of railroads as transcontinental systems only. True, transcontinental business is important, very important, but the railroads are specially anxious to serve for short trips and on branch lines. You will find that for a surprisingly low expenditure you can go almost everywhere, be it near or far, in comfort and safety when you travel by rail.

"NEWS FLASHES"

Production of General Motors of Canada during March set a new high mark for the year to date and shattered all monthly production records for the past thirty-four months. The output for the month was 70% ahead of 1933.

Domestic and export production for the period January 1st to April 10th, 1934 was 46.8% in excess of the same period during 1933.

Retail sales of General Motors products in Canada during the period January 1st to April 10th, 1934 were 31.6% ahead of the same period in 1933.

Orders on file greatly exceed those of any similar period since 1929.

Business is excellent, and our management are doing everything that is humanly possible to meet the unprecedented demand for General Motors products.

Yours very truly,

Simple Rules prevent INDIGESTION

Eat in moderation, work and sleep with windows open, take daily exercise in the fresh air, not forgetting recreation. Do not worry. Go to bed in decent time, and enjoy a sparkling glass of Andrew's Liver Salt once or twice each week.

These simple, sensible rules should keep you free from indigestion and the headache and body weariness that go hand in hand with this disorder. They will help you to become really healthy and stay healthy, for this very natural reason.

Even though you may be regular in your habits, you may be the unconscious victim of incomplete elimination. Thousands of people suffer from periodic headaches and digestive trouble because they do not realize that regularity alone does not indicate complete functioning of the eliminative organs.

The Andrew's Health Rules do assure this complete functioning. Follow them faithfully. Go to bed early to-night after a refreshing, sparkling glass of Andrew's Liver Salt or take your Andrew's first thing in the morning. Then bid goodbye to recurring indigestion, headache, and body weariness, for Andrew's helps Nature to purify and invigorate the whole system. All druggists sell Andrew's—35c and 60c in tin—75c for the new, large bottle. Sole Agents: John A. Huston Co., Ltd., Toronto.

PRESIDENT OF TOBACCO COMPANY THROWS BOMBHELL IN SENSON OF COMMITTEE ON MASS BUYING.

(Continued from Page 1)

Co. of Montreal was asked to donate money to Conservative campaign funds in the 1930 federal election. Naming Ward Pittfield of Montreal, whom he described as "a man close to the Prime Minister," as the solicitor, the tobacco manufacturer said he was left with the impression that a contribution would be interpreted as meaning that he wanted the excise duties on cigarettes reduced. It was inferred, he said, that other tobacco manufacturers had donated but he refused to "chip in."

Mr. Stewart said that at least one of his competitors in the tobacco business had advanced information when the excise tax was reduced from \$6 to \$4 in 1932 and stopped manufacturing cigarettes in anticipation of the impending reduction. He said this was the

AMERICAN BOAT HERE

In advance of a large squadron of air and naval craft which is on its way from San Diego to the Aleutian Islands on special duty, the United States Navy mine sweeper Gannett arrived in port at 7 o'clock last evening from Seattle and continued her northward voyage, leaving here at 11:45 this morning for Ketchikan. The vessel moored overnight at the Canadian National dock off headquarters of the Royal Canadian Naval Volunteer Reserve.

Capt. Brown U. S. N., commanding officer of the Gannett, paid an official call this morning upon City Commissioner W. J. Alder.

The remaining vessels of the squadron have not yet passed north and there is some doubt as to whether or not they will call here.

Chicago Cubs jumped back into the leadership of the National League Wednesday, by winning a close free-hitting game over the Brooklyn Dodgers at Wrigley Field, the New York Giants dropping into second place as a result of a shut-out defeat at the hands of the Cardinals in St. Louis. The Pittsburgh Pirates lost to the Phillies at Pittsburgh and were in third place. So closely were the first division teams bunched together in the standing that only one full game separated the leading Cubs from the fourth place Cardinals.

Chicago Cubs and New York Yankees Improve Leads in Major Baseball Leagues

CHICAGO, May 11. (OP)—With Chicago Cubs defeating Brooklyn Dodgers in a free-hitting game here yesterday to retain first place by an increased margin of a game and a half, Pittsburgh Pirates, although idle with the Phillies on account of rain, went into second place in the National League standing while the New York Giants, losing again to the Cardinals at St. Louis, are now sharing third place with the Cards.

In the American League, the New York Yankees scored a heavy-hitting victory over the Chicago White Sox at the Yankee Stadium to increase their American League supremacy to three full games. The Athletics trounced the Detroit Tigers again at Philadelphia and moved into second place along with the idle Washington Senators. Cleveland Indians outslugged the Red Sox at Boston to take exclusive possession of fourth place, the Red Sox going to fifth ahead of the Tigers.

Native Baseballers Hike Thirteen Miles For Kitwanga-Cedarvale Baseball Game

CEDARVALE, May 11.—Don't for one moment think that Bill Lambie or Nick Chenoski of Prince Rupert have a monopoly on enthusiasm for a game of baseball! Last Saturday the Kitwanga team played a game with Cedarvale and the majority walked thirteen miles, played a strenuous game and immediately started for home by foot. The game produced quite a lot of latent talent so Prince Rupert, beware, the championship of Northern B. C. is in danger of changing hands! The star players for Cedarvale were Wilson, Harris, Wright and Mason and for Kitwanga, Redmond, Milton, Wegits.

The teams were: Cedarvale—A. Harris (c), A. Mulwain (2b.), A. Williams (3b.), J. Wright (1b.), P. Mason (ss.), R. Paulis (rf.), H. Wilson (lf.), P. Mulwain (p.), W. Thompson (cf.). Kitwanga—T. Wegits (2b.), C. Russell (rf.), Redmond (c.), E. Tate (1b.), R. Morgan (ss.), E. Benson (cf.), D. Milton (rf.), G. Morgan (3b.), S. Williams (p.).

From the Waterfront

Due to conditions that have developed since the opening of the season, the halibut landings from Areas 2 and 3 have been at a rate that, if continued, will result in closure even earlier than in 1933. At present the rate of landing is about three-quarters of a million pounds greater per month from each area than in 1933. More intensified operations by the fleet and the prevalence of shorter trips make it immediately apparent that curtailment to care for this situation is necessary if it is desired to prevent such early closure.

A good deal of halibut has been going to the Butedale plant of the Canadian Fishing Co. lately from the Canadian fleet. The majority of it goes into the cold storage plant here while some is shipped to Vancouver for the fresh fish market in the south. The Sea Mail sold 51,500 pounds at Butedale on Wednesday at 6c and 5c.

C. P. R. steamer Princess Adelaide, Capt. S. K. Gray, is due in port at 6:45 this evening from the south and will call at 10 p.m. on her return to Vancouver and waypoints.

When Arsenal and Huddersfield Huddled

My! My! What a mess! It really isn't an octopus as you might suspect as first glance, but actually a tangle of arms, legs and bodies emerging from a simultaneous flying leap. The picture was snapped during a recent match between Arsenal and Huddersfield, with an Arsenal forward in the act of bouncing the ball from his head to his opponents' goal.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism. Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication. Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

WILL HOLD FIRST SHOW

Horticultural Society Decides on Rose and Flower Show During July and Possibly Dahlia Show Later

The Prince Rupert Horticultural Society at a general meeting last night in the Council Chamber of the City Hall, H. F. Pullen presiding, decided to put on its first annual rose and flower show and the executive was empowered to proceed and make all necessary arrangements and to set the date for the show as soon as it was determined when the roses would be at their best bloom.

It is planned to have other flowers as well as roses but to particularly stress the rose exhibit. Possibly later in the season a dahlia show may be held or a general flower show. Much depends upon the success of the first effort.

A proposal made by Mrs. J. T. Mandy was that a slogan competition should be held in connection with the rose show in which a prize should be offered for the best slogan symbolic of horticulture in its relation to Prince Rupert such as "Prince Rupert, the City of Roses" or "The City that Rains Roses." The proposal will be adopted and a suitable prize will be secured and rules for the contest laid down.

A proposal coming from Dr. J. T. Mandy was that an effort be made to secure a challenge cup to be up for competition, either as a perpetual challenge cup or to be won so many times before becoming the property of the winner. This would be awarded in connection with the rose exhibit, possibly to the person making the best individual exhibit or the best display of roses. It was suggested that possibly one of the parliamentary representatives for the district or some other person interested in rose culture might wish to donate such a cup.

On motion of Frank Dibb, a committee was appointed to have charge of the collecting of data in regard to the time of year when flowers were in bloom and the dates when planting should be carried out. This committee consists of Tom Silversides, Theo Coltart and Laurie Lambly.

The name of F. J. Fuller was added to the executive of the association.

Secretary Charles Evitt reported on the recent importation of rose trees which was very successful. A vote of thanks to those who helped in connection with the distribution and with the importation generally was passed, those specifically mentioned being F. J. Fuller, Fred Rif-

Wedded at Swan River, Manitoba

Alexander McLeod of This City is Married to Miss Edith Wright

St. James Anglican Church in Swan River, Man., was the scene of a well attended wedding on Saturday, April 28, when Edith Margaret, youngest daughter of Mr. and Mrs. S. R. Wright, became the bride of Alexander McLeod, third son of Mr. and Mrs. D. McLeod of Prince Rupert.

The bride entered the church on the arm of her father who gave her away. Mrs. Gardner presided at the organ. The bride was becomingly attired in a fine beige tweed swaggar suit with ivory satin waist and a handmade hat of brown silk. She wore a corsage bouquet of roses and lily of the valley.

After the ceremony a reception was held at the home of the bride's parents.

Mr. and Mrs. McLeod left by car for Dauphin enroute to Winnipeg where they will reside.

Lars Johnson, for intoxication, was fined \$25, with option of ten days' imprisonment, by Magistrate McClymont in city police court yesterday afternoon.

TWO PLAYS FEATURED

Adventurous Romance "Son of Kong" and Musical Comedy "Hips, Hips, Hooray" Here This Week-end

The spectacular jungle romance "Son of Kong" and a gay, hilarious Wheeler and Woolsey comedy "Hips, Hips, Hooray" comprise a double bill which is being presented at the end of this week at the Capitol Theatre here.

The fantastic spectacle of a man a girl and a gigantic ape united in a treasure hunt in a land of prehistoric monsters, warlike natives and colossal sea serpents is the unique dramatic theme of "Son of Kong." The huge creature's life is saved by Robert Armstrong, friendly relations thus being established. The animal and the men, together with a girl, Helen Mack, who has smuggled herself aboard a ship, have a startling series of conflicts and adventures, an earthquake sequence climaxing the production.

Beautiful girls, smart wise-cracking and plenty of laughs make "Hips, Hips, Hooray" very acceptable entertainment. It is a musical extravaganza starring Bert Wheeler, Robert Woolsey, Ruth Etting, Dorothy Lee and Thelma Todd.

Mother's Day This Sunday

Flowers Can be Sent to All Parts of World—Special Telegraph Greetings

Mother's Day, which this year falls on Sunday next, has taken a world-wide tradition of sending flowers. These may be telegraphed to all parts of the world and arrangements can be made for their speedy delivery at any time of the day. Although roses are the most popular mother's gift, carnations and other flowers are also growing in popularity.

The telegraph companies have made arrangements to handle many personal messages of greeting to mothers and have prepared attractive telegraph forms and envelopes for this purpose. Officials of the telegraph companies state that greeting messages to mothers have steadily increased in popularity from year to year.
