Object To Death Vessel For Entertainment

As thousands continue to crowd the beach at Asbury Park, N.J., to look at the hulk of the Morro Castle, wedged on a sand bar, bitter criticism of the plan of the city commission there to use the charred liner as an entertainment museum was started by women's organizations.

Fertile Farming Land In McBride District Gives Splendid Crops

Productivity is Wonderful and Failure Has Not Been Known in Twenty Years—Town, Bound to be Important Some Day, Cries For Highway Connection

(By H. F. Pullen)

McBRIDE, Sept. 22:—This town is located in the centre of a wonderfully fertile valley with thousands of acres of land still available for settlement. All that is needed is connection by highway with the outside world to cause a great influx of settlers, according to leading citizens here.

McBride is on the direct route of the highway between Prince Rupert and Jasper but the construction of that highway has been so slow that the people are tired of waiting and say that their only hope of immediate relief is to connect up the unfinished sections of the highway leading to Kamloops, a total distance of from 35 to 40 miles of comparatively easy construction which would enable them to get to the outside by motor car but, what is more important still, would enable settlers to come in and bring their stock and equipment with them.

McBride people would also like to have the Mount Robson provincial park handed over to the Dominion government to administer in order that the federal government may build a highway through it to the Alberta boundary. They think that the park is an encumbrance rather than an asset to the province and that any benefits accruing to the province would be as great as ever if the Dominion owned the park just as they own Jasper Park. This is their viewpoint and is worthy of consideration.

In regard to the productiveness of the farms in this district I have seen a few of them and can say I have seldom seen better crops anywhere. I visited among other places the Dominion Government Illustration Station conducted by J. T. Oakley near here. Mr. Oakley has farmed there for twenty years and confirms the statement that there has not been a crop failure in that time. He says that occasionally the elements are against them but they always have a crop. Last year the potatoes were a failure but they had grain and hay. Oats yield 80 to 90 bushels to the acre and wheat 35.

(Continued on Page Four)

PRICE FIXING BY N. R. A. GIVEN UP

WASHINGTON, D.C., Sept. 21:—The principle of price fixing has been abandoned by the National Recovery Act administration, it is announced by Secretary of Commerce Roper, although minimum prices set by the government in some industries will still remain in effect.

No boats being in with catches, there was no sale of halibut on the local fish exchange this morning.

SEEKS AID FOR BLIND

Major W. H. Watts of Vancouver Is Visitor in City For Ten Days

Making a tour of the district to stimulate interest in the work of the Canadian Institute for the Blind, Major W. H. Watts of Vancouver is a visitor in Prince Rupert.

Major Watts, who is accompanied by Mrs. B. F. Harmer, spoke before the children of Booth Memorial School yesterday, and will be heard in the First United Church tomorrow morning and in First Presbyterian Church in the evening and on Monday evening will speak before a meeting of women in the I. O. O. F. Hall. Major Watts will speak briefly and, with Mrs. D. C. Stuart, regent of Municipal Chapter presiding, the program will also include vocal solos by Mrs. Ernest Anderson and Dr. R. G. Large as well as piano selections by Major Watts.

Although 76 years of age and suffering the incapacities of blindness as a result of his service in the Great War, Major Watts is very alert and carries on his office work with an ordinary typewriter and also by the Braille and Moore systems for the blind.

Prior to his misfortune the Major was a music teacher and he plays the piano with great skill that is not marred by his disability.

Woman Admits Arson Charge

In View of Physical Condition, Mrs. Ida Pearl Hanson of Nadina Gets Suspended Sentence

Divisional headquarters of the provincial police here have been advised of a case in County Court at Smithers on Wednesday of this week in which Mrs. Ida Pearl Hanson of Nadina River was given a year's suspended sentence on a charge of arson by Judge W. E. Fisher. The woman pleaded guilty but, in view of her physical condition, was allowed to go on suspended sentence.

Mrs. Hanson admitted having set fire to an old homestead dwelling and store which was owned by her husband, who is dead, on June 19 just before the insurance expired.

Rainbow Comes Up From Behind to Snatch Win From Endeavour Today

British Boat Crosses Finish Line Flying Protest Flag, American Defender Having, Apparently, Violated Regulations Governing Overtaking Boats

NEWPORT, R.I., Sept. 22: (CP)—The American defender Rainbow snatched victory from the British challenger Endeavour in today's America's Cup race, making the series to date two wins each. The next race will take place on Monday and, with the sensational closeness of the contest to date, interest is becoming exceedingly keen.

The two yachts got away at 10:40 this morning with a fourteen knot breeze blowing. The course was triangular with the first ten miles a beat to windward. The Rainbow crossed the starting line three lengths ahead, working out to a 300 yard lead, but the Endeavour started overhauling the Rainbow and rounded the first mark in the lead by twenty-seven seconds.

Endeavour lost the advantage early in the next ten mile reach to the second turn which the Rainbow rounded with a lead of fifty-nine seconds, crossing the finish line one minute and sixteen seconds ahead of the challenger.

The Endeavour was flying the protest flag as she finished the race. Apparently, the Rainbow had passed the Endeavour to windward and failed to meet the latter's luff as required by the rules governing overtaking yachts.

Ernest Ringholm, well known local salmon troller, sails on the Prince Rupert tonight for Vancouver whence he will proceed to New York where he will embark October 3 aboard the steamer Gripsholm for Gothenberg enroute to his native home in O Amtervik, Sweden, for a visit. He expects to be away for several months, possibly until next summer.

One Hundred Coal Miners Are Doomed

WREXHAM, Eng., Sept. 22: (CP)—Hope was abandoned at dusk tonight for one hundred coal miners who had been caught in an explosion and fire in Gresford Colliery. Rescuers had worked unsuccessfully all day to enter the pit but were unable to reach the miners. The miners were trapped nearly two miles from the mouth of the pit in which they were working. Two members of a rescue party were overcome and had to be carried from the mine but died on the surface as a result of the flames and flood of poisonous gas. Nearly three-quarters of the 400 miners working in the mine at the time of the explosion escaped. Heartrending scenes were enacted at the pit mouth as the women of the miners watched and waited throughout a heavy rain as the bodies were being brought out.

TRAVELLING IN WINTER

Special Fares Being Offered Again By Railways

VANCOUVER, Sept. 22:—Following the practice of former years, numerous winter fares from all stations in British Columbia will be authorized this year by the Canadian Pacific and Canadian National Railways, according to an announcement made by the secretary of the Canadian Passenger Association, western lines.

These low excursion fares will be effective to Eastern Canada covering all points east of Fort William, Port Arthur and Armstrong, Ont.

Tickets to Eastern Canada will be on sale from December 1, 1934, to January 5, 1935, with a return limit of three months. For passengers going overseas, to the West Indies, Bermuda or on a world cruise, tickets will be on sale from November 15, 1934, to January 5, 1935 with a return limit of five months.

It is anticipated that the low fares, lengthy time limits and generous stopover privileges will encourage winter travel by providing a vacation at a low cost.

## THE DAILY NEWS.

PRINCE RUPERT - BRITISH COLUMBIA

Published Every Afternoon, Except Sunday, by Prince Rupert Daily News, Limited, Third Avenue

H. F. PULLEN - - - Managing-Editor

### JOHN REDPATH DOUGALL

Sixty-four years the editor of his million-dollar paper which paid him neither salary nor dividend was the record of John Redpath Dougall, M.A., LL.D., of the Montreal Witness, who died in Montreal this week at the age of 98. Doyen of Canadian Journalism and for 63 years editor-in-chief of the Witness, he was the last surviving editor in Canada whose term of service dated back to pre-Confederation days. Indeed, in his case, it dated back to 1860, when, fresh from the university, he joined the Montreal Daily Witness, started in that year by his father, John Dougall, a Scottish-born Montreal merchant and fur trader.

Under J. R. Dougall, the Montreal Daily Witness was nothing less than an effort to be in fact what practically every paper claims to be, an independent journal devoted to the public interest. In an intensely Protectionist and Conservative city, the Witness espoused free trade and liberalism; in a city dominated by brewing and distilling interests, it was a strong temperance and prohibition advocate; in an area where strong sectarian feeling flourished, it opposed inter-credal barriers between Christians; and in a province overwhelmingly Roman Catholic, it was an upholder of Protestant rights and a defender of complete civil and religious equality. To have all political groups lined up at once in opposition was no uncommon experience for J. R. Dougall and the Witness.

What gave John Dougall's editorials their unparalleled moral authority in journalism was the recognition of his fellow-citizens that they were totally disinterested—the work of a man whose loss of the sight of his own personal interests had endowed him with undimmed vision to discuss the questions of the day purely from the view of the highest good. His perennially youthful outlook was well illustrated by his vigorous advocacy during the past three years of an intelligently managed currency in place of an outworn gold standard.

### ITALY PREPARES FOR WAR

Any idea that Italy is not actively in the forefront of the nations which are preparing for war can be abandoned with receipt of news of the latest decree from Rome, making military service compulsory for all Italians from the age of eight to thirty-three. Such an edict means that Italians are not only to be educated for war from a tender age but are expected to devote their lives to military service.

Whether the decree has been made in the spirit of offensive or defensive makes it none the more or less significant. Italy expects war and is not going to be left behind if war comes. Her latest move can be construed in no wise as a gesture of peace but places her on record as one of the leaders in the promotion of armed conflict and the education of man for war as a business. Unfortunately, too many nations seem to be similarly inclined today.

RELIEF SCRIP PLAN ABANDONED; ORDERS ON STORES COMING

Effective October 1, there will be a change in the system of distributing relief from the City Hall whereby the scrip plan will be abandoned and a system of issuing orders on various stores instituted. The change is being made on instructions from the provincial government at Victoria. Details of the operation of the new plan have not yet been finally worked out.

## Rest of Bowling Matches Likely To Be Cancelled

With D. A. MacPhee's rink having cinched honors for the season, it is likely that, if the remaining scheduled matches cannot be played off within the next few days, they will be cancelled altogether. Recent rains have interfered considerably with the activities of the league. It is hoped to be able to finish off the single-handed elimination competition this week-end.

## The Letter Box

### OUR TAXATION

Editor, Daily News:—

Is this a subject that interests Prince Rupert property owners? We have paid the general taxes. Now we have the improvement taxes confronting us. These two taxes surely make a colossal load and very severe drain on our earnings.

Two years ago a commissioner was put in charge of our affairs. He did a lot of necessary house cleaning which could have been done long before by councils with backbone and common sense but we have learned by bitter experience that these are two qualities lacking in city councils. The last two years have been eye-openers and taught us that commission government is the only workable one for Prince Rupert. A reversion to the comic council meetings would be a most backward step. The commissioner is to be congratulated at getting the city free of immediate debt with wages and bond interest paid up. But the taxpayer has had no relief yet and those who have stood by it and kept the city on the map are much overdue for consideration. Our earnings have greatly decreased during the past several years but we are still taxed as heavily as ever. True, the millage was reduced this year by five. The tax on buildings was increased five percent which made it about a stand-off with Mr. Ordinary Citizen Taxpayer. Are we satisfied with this state of affairs? If we are there is no use doing anything about it. There is quite a lot of complaining on the street but no definite steps are taken to remedy the situation. It is, therefore, to some extent our own fault that we are taxed so much. There is something wrong when a residence owner has to pay as much in taxes, fire insurance and repairs as he could rent a place for.

We understand that the commissioner is employed in the interest of the bondholders. Therefore, we cannot expect him to do anything detrimental to their interests. Everyone is getting less now except the bondholders. So far, they have been an ultra-privileged class, protected by law. But now a change is coming about. The provincial government is enacting legislation that can be used to relieve the municipal taxpayer, provided action is taken by them to take advantage of it. But if we sit still and appear satisfied, we will never get any relief. This is a workingman's town just as much as Burnaby and the two North Vancoverters. We learn from the press that they are likely to get relief from bond interest to the extent of paying only one percent for a few years. We are just as badly in need of the same assistance. We really cannot pay anything more than that. But we will never get such a concession by asking the bondholders for it. Note what they told Port Moody when they approached them. It will have to be done by government legislation. If we are bound for larger payments, in a few years, when another thousand lots have reverted to the city at tax sales, we will again have to call for a new agreement and subject ourselves to a lot of unfavorable publicity while other defaulting

municipalities are sailing right ahead. A good job should be made now and the property owners of Prince Rupert given a new and better deal. We have been persecuted long enough.

There is still a lot of juggling can be done with our taxation. Two years ago the provincial legislature amended or rather demanded the statutes to permit taxation on buildings up to 75% of their assessed value or three times as much as what we pay upon at present. Previously the limit was 50%. In other words our millage can be reduced considerably while the levy on buildings is increased and a big majority of those living here will pay more than they are doing now. Such a change would benefit mostly those who own our downtown dilapidated business section who mostly live outside of Prince Rupert and never did anything more for the city than build those shacks from which they have drawn enough rents to pay their value and the lots they are built on many times over. On the other hand such an increase in the levy on buildings would penalize those who have stood by the town all this time.

While some levy on buildings is fair and necessary to make all property owners tax conscious, a further increase in Prince Rupert would be disastrous and a catastrophe. There are a lot of buildings in Prince Rupert which should be demolished and new ones erected in their places but, under present conditions, this cannot be done. Who is going to construct new ones knowing that scarcely enough can be produced from them to pay taxes, fire insurance and repairs, never mention taking care of depreciation. The records of our last two years' building operations prove this point. Outside of the new cold storage, there have been only an eye-fel of repair jobs.

Some action should be taken without further delay. The premier and his cabinet would not refuse to take notice of some responsible body of Prince Rupert citizens. There is not an organization here now that can take care of this matter. One needs creating. Such an organization would strengthen the hands of the commissioner and should be able to count upon his support. It should endeavor to obtain terms for Prince Rupert on a parity with Burnaby and the North Vancoverters. Also see that there is no juggling between millage and the levy on buildings but that there is an actual substantial reduction in taxation to all property owners alike. It is now Prince Rupert citizens' turn for a break.

PLEBEIAN.

## SPORT CHAT

T. H. Johnson, manager of the Canadian Fish & Cold Storage Co., who presented a cup for bridge competition last winter, has been honored by the Prince Rupert Whist, Cribbage and Bridge League by being chosen honorary president. It was indicated at the annual meeting Thursday night that there would be league competition in whist, cribbage and bridge this winter. Another meeting will be held on October 4 to receive entries and complete arrangements for the season's play. Satisfactory reports covering last winter's activities were presented to the meeting over which A. A. McEwen, retiring president, presided.

Burns, deceased, formerly of Terrace, British Columbia, who died at Prince Rupert, B.C., on the 20th day of March, 1930, and all parties having claims against the said estate are hereby required to furnish same properly verified to me on or before the 19th day of November, 1934, and all parties indebted to the estate are hereby required to pay the amount of their indebtedness to me forthwith.  
NORMAN A. WATT,  
Official Administrator,  
Prince Rupert, B.C.  
Dated the 12th day of September, 1934.

E. H. Kinder, superintendent of the Princess Royal mine at Surf Inlet, who has been receiving treatment here for several weeks for a compound fracture of the leg sustained in a recent accident, sailed by the Cardena last night on his return to Surf Inlet, accompanied by a couple of men who will be employed at the mine. Mrs. Kinder, who recently underwent an operation here, is recovering satisfactorily but will not be returning to Surf Inlet for a few weeks.

### Here's Way Science Now Relieves Pain in Minutes

BAD HEADACHES, NEURITIS AND RHEUMATIC PAINS EASED ALMOST AT ONCE

Remember the pictures below when you want fast relief from pain. Aspirin cases even a bad headache or neuralgia often in a few minutes! An Aspirin tablet begins "taking hold" of your pain practically as soon as you swallow it. And Aspirin is safe. For Aspirin does not harm the heart.

Remember these two points: Aspirin Speed and Aspirin Safety. And, see that you get ASPIRIN, the method doctors prescribe. It is made in Canada, and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet. Get tin of 12 tablets or economical bottle of 24 or 100 tablets.

#### Why Aspirin Works So Fast

**IN 2 SECONDS BY STOP WATCH**  
An Aspirin tablet starts to disintegrate and go to work.

What happens in these glasses happens in your stomach—ASPIRIN tablets start "taking hold" of pain a few minutes after taking.

When in Pain Remember These Pictures —ASPIRIN DOES NOT HARM THE HEART—

### The Minerals of British Columbia

This Province offers excellent opportunities for useful and profitable investment. British Columbia has produced over \$1,352,000,000 worth of minerals. The gross value of mineral production for the six months ended June 30th 1934, exclusive of the gold premium, is estimated at \$1,867,691.00, an increase of 50.5% over the estimated value of the production in the corresponding six-month period of 1933.

#### GOLD PRODUCTION:

Gold production showed a decided increase: a total return in Canadian funds to the gold-producers of British Columbia during the first six months for 1934 being approximately \$5,028,124.00, an increase of 81.3% over the return in Canadian funds received during the first half of 1933.

#### RECENT PUBLICATIONS OF THE DEPARTMENT OF MINES.

Annual Report of the Honourable the Minister of Mines for the year 1933.  
Summary and Review of the Mineral Industry of British Columbia for the six months ended June 30th 1934.  
Bulletin "British Columbia the Mineral Industry" (containing a short history of mining, a synopsis of the Mining Laws, and other data of value to prospectors).  
Placer Mining in British Columbia.  
Non-metallic Mineral Investigations: "Barite," "Asbestos," "Glassware," "Clay," "Magnesite" and "Hydro-magnesite."

### NO-HIT, NO-RUN GAME

BROOKLYN, Sept. 22: (CP)—Paul Dean pitched a no-hit, no-run game for the St. Louis Cardinals against the Brooklyn Dodgers at Ebbets Field here yesterday after his brother, Dizzy Dean, had hurled a three-hit shut-out for the Cards in the first. It was the first no-hit game in either major league since early in 1931 when Wes Ferrell turned in such a performance for the Cleveland Indians.

The New York Giants won over the Braves at Boston but had their margin of leadership over the Cardinals reduced to three games.

Yesterday's Big League scores: National League New York 8, Boston 1. Cincinnati 3-3, Pittsburgh 9-16. St. Louis 13-3, Brooklyn 0-0. One American League game postponed.

### WATERFRONT WHIFFS

Date For Closing Area No. 3 Not Yet Set—Skeena Salmon Pack Well Ahead of Last Year—Good Week For Halibut

"The International Fisheries Commission is well pleased that the fish are much more abundant and, at the same time, the fishermen have been making much better financial returns," remarked Dr. Will F. Thomson, director of scientific investigations for the International Fisheries Commission, who arrived in the city yesterday aboard the Prince Rupert from Seattle for a brief visit on official business and will return south tonight on the same vessel. Asked as to when the Commission would close fishing for the season on the banks of Area No. 3, Dr. Thomson said that the date on which the decision as to the date of closing would be made was now in Seattle and it was expected that an announcement would be made shortly.

Having spent all day in the Skeena River loading salmon from various canneries, Union steamer Cardena, Capt. Ernest Georgeson, arrived in port at 12:15 midnight last night from the south and sailed an hour or so later for Vancouver and waypoints.

The deer hunting season has been open for a week now but there has not been much activity among hunters so far and fewer licences than usual have been taken out. Now, however, the tang of winter is beginning to be felt in the air, snow will soon be getting on the slopes of the mountains to force the deer to lower levels and then there should be more interest in the hunting business. The season for the shooting of geese and ducks will open in the western district on October 13, remaining open until January 29. Bird hunting regulations for this season are much the same as in previous years. The bag limit for ducks is not more than twenty in one day with a limit of 150 for the season. The geese limit is ten in a day and fifty in the season.

In a review of business and industrial conditions issued by the Royal Bank of Canada, the optimistic tenor of which has been causing considerable comment, figures compiled regularly each week for the Waterfront Whiffs in regard to halibut landings at this port are referred to show the increase in production this year and the improved general conditions under which the fishermen are operating. The Royal Bank of Canada monthly letter is accepted as one of the most authoritative indices on general conditions in Canada.

#### Salmon Pack

The salmon pack on the Skeena River for the 1934 season up to September 15 was 262,312 cases as compared with 175,209 cases up to a corresponding date last year according to official figures. The sock-

### FERTILE FARMING LAND IN McBRIDE DISTRICT GIVES SPLENDID CROPS

(Continued from Page 1)

to 40 bushels. Clover and alfalfa are weeds which infest their gardens and they cannot grow timothy seed because clover and alfalfa insist on coming up with it. The average yield is over two tons to the acre.

Some of the struggling farmers have been receiving relief from the provincial government but that is because the amount of land is not sufficient yet to provide them with a livelihood at prevailing prices. For that relief they have given labor on the roads which has taken the place of the usual public works appropriations. Roads have been graded but they are sorely in need of gravel surfacing.

McBride is a divisional point on the railway. There is good hunting and fishing in the district. It is surrounded by picturesque mountains. During the past few weeks many mining claims have been recorded there and samples of rich ore are shown to visitors. The place is bound to develop into an important town, growing steadily as the valley is settled. Some day soon I plan to tell more about the town itself.
