Imperial Oil Dies | Government to Get Full Power To Deal With Debt; Reduction In Annual Charges is Planned

VICTORIA, Feb. 24: (CP)-Legislation giving the government full power to deal with British Columbia's debt problem was reported ready in the Department of Finance yesterday. The general idea is that the scheme would be a preparatory one, enabling the government to take opportunities when they present themselves with the object of making a substantial reduction in the twelve million dollars annual charge for debt. Consolidation of various issues on a lower interest basis as cheaper money opportunities offer and consolidation of sinking funds are reported as the essence of the plan.

INDUSTRIAL LEGISLATION

Everyone will agree that there is great need of legislation which will prevent strikes. The chief difficulty has been in the past that while pressure can be brought to bear on employers to make them carry out the provisions of the law it is much more difficult to deal with hundreds or possibly thousands of employees. If they do not wish to work it is pretty difficult to say they shall do so.

The claim of the workers in regard to similar legislation is that employers are allowed to evade the law and by means of political or other pressure can escape the penalties.

If Mr. Pearson's new scheme for settling disputes is effective on both sides it will be a step in the right direction. Everyone hopes it will. Strikes are of little benefit to employers or employees. Often they are brought about by people who are interested in keeping the country in a state of turmoil but they have to have at least an appearance of right or they cannot succeed. What is needed now is a period of production in order that the country may again become prosperous.

A BRITISH COLUMBIA PUBLICATION

One of the most interesting and useful publications for a gardener residing in British Columbia is "The Garden Beautiful," a monthly periodical issued from the presses of the Wrigley Directories, Vancouver. It deals chiefly with conditions as they exist in this province and for that reason is particularly interesting to people living in this district. It is nicely illustrated and contains a lot of advertising of particular interest to flower lovers. We recommend local people to get this journal.

SUPPLY OF RADIUM

Canada is now producing its own radium. The ore is being mined at Great Bear Lake, shipped to the railway by airplane and taken to Port Hope, Ont., where the radium is refined and distributed. The province of Ontario has already made some purchases and the supply will be sufficient for the whole Dominion and possibly for the Empire soon. Uranium ore produced at the same time as radium is shipped to Great Britain. The ore contains chiefly silver with radium and uranium as bi-products.

Vancouver Visitor Is Greatly Surprised at Low Prices Charged in Prince Rupert Stores

"My God, man, you're selling your stuff at less than manufacturers' wholesale prices." That was a statement made by a business visitor from Vancouver a few days ago when looking over our stock and examining the prices we charged for our goods. He intimated that nowhere in the province could shoes or men's clothing be purchased at such low prices as those charged in Prince Rupert at the-
