# ENDEAVOUR TAKES FIRST VICTORY PROSECUTOR IN LONDON BLACKMAIL DRIVE THREATENED

## British Challenger Overtakes American Defender and Wins

Thrilling Contest Between Two Great Sailing Boats With Skipper Sopwith Romping Home Before Wind With Lead of Two Minutes

NEW PORT, R.I., Sept. 17: (CP)—The British challenger Endeavour, owned and skippered by Tom Sopwith, romped home today to win the first race of the America's Cup series, defeating the American defender Rainbow, with Skipper H. S. Vanderbilt at the helm, by two minutes and nine seconds. The Rainbow had the advantage of a fifteen second lead at the half-way mark of the thirty-mile windward-leeward course but, when the yachts turned for the fifteen mile run home before the wind, Endeavour rapidly took command. The Britisher did well in the beat to windward with a breeze of about fifteen knots blowing, holding almost equal with his rival for the most of the way and forging into the lead towards the end when the wind dropped to nine knots. Both yachts had crossed the half way line close together in a breeze which had reached sixteen knots with a lumpy sea.

## TENDER IS REFLOATED

Alaskan Cannery Boat Slaven Salvaged, Badly Damaged, Now At Dry Dock Here

The 60-foot cannery tender Slaven of the Nakat Packing Corporation of Alaska, which went ashore on Wednesday morning of last week in Kumeleon Inlet off Grenville Channel while enroute from Ketchikan to Seattle, was successfully refloated by the Armour Salvage Co., under the direction of Capt. W. P. Armour, at 6 o'clock Saturday evening and, in tow of the power tugs Pachena and C. R. C., was brought here at 4 o'clock yesterday afternoon and taken to the dry dock where she was lifted on to the pontoons early this afternoon for repairs. The reconditioning job will be an extensive one as almost the entire keel has been torn off in addition to other extensive damage. The Slaven piled up into the side of a steep cliff and, had she not

(Continued on Page 3)

## As United States Textile Workers Obey Strike Order

Here is the latest photo showing the beginning of the nation-wide textile strike in the United States as hundreds of thousands of workers left their machines in pursuance to union walkout order. This shows employees of a Rhode Island mill marching out after the strike "zero hour." The strike is continuing with the critical centre moving from the Carolinas to New England. An attempt was to be made today to re-open some of the textile mills in Virginia and the Carolinas under protection of National Guards. Meantime, President Franklin D. Roosevelt, in a yacht off Rhode Island, has been closely in touch with the situation.

## Demand Is Made of Leader of Campaign Against Criminals

N. F. Newton Warned That He Must "Lay Off" and Also Ordered to Pay Over \$50,000 If He Does Not Wish to be "Taken For Ride"

LONDON, Ont., Sept. 17: (CP)—N. F. Newton, crown prosecutor in London's drive against an alleged blackmail ring, revealed today that he had received from Toronto a letter demanding that he "lay off" the prosecution and further demanding \$50,000 if he did not wish to be "taken for a ride." At the present time three persons are being held on charges of blackmail. Mr. Newton has no intention of complying with the demands, of course.

## Two Canadian Destroyers On Visit to Port

For a visit to the port which will extend until Friday, H. M. C. S. Skeena, Commander J. E. W. Oland D.S.O. and Vancouver, Lieut. Commander F. L. Houghton, arrived in port at 12:30 noon today and are moored along headquarters of the Royal Canadian Naval Volunteer Reserve.

## Wilson Interests Active In Mining Around Smithers; To Work Mamie and Other Mines

SMITHERS, Sept. 17:—Smithers people are much enthused over the mining prospects here. The Lake Kathlyn Anthracite Coal Co. has just completed an operating tunnel tapping the vein of high grade anthracite coal at Glacier Gulch just above Lake Kathlyn, where they cut two three-foot veins. The mine is being held by Vancouver interests and work on it is being continued.

## Vancouver Wheat

VANCOUVER, Sept. 17: (CP)—Wheat is selling at 83½¢ on the local exchange Saturday, down ½¢ from Friday. Today's price was 83¼¢.

## SITUATION IN SPAIN TENSE; MARTIAL LAW VIRTUALLY PREVAILS

MADRID, Sept. 17:—Virtual martial law prevailed here last night as tense internal unrest continued with strikes and monarchist revolts apparently imminent and some fearing that Spain may be the next country to break out in open revolt. All public meetings have been banned.

R. W. Wilson, who has just reached here, announces activities at several of the properties which he controls but, most important of all to this town, is his decision to start real work on the Mamie Mine on Hudson Bay Mountain. "I intend to bust her wide open," was the expression he used in connection with his plans. The camp there is completed and five more men are being put on this week. Before long he plans to employ fifteen or twenty men at the mine. This will provide a nice little payroll during the winter. At Glacier Gulch, Mr. Wilson said he had just let a contract for a tunnel 700 feet in length. This mine is close to the coal mine and the bunk houses are only a few yards apart. Two carloads of ore have been shipped so far, returning about \$100 a ton. If the work on the

Continued on Page 2

## GRAIN WILL MOVE FAST

No Difficulty in Selling Canadian 1934 Wheat Crop Soon, Predicts Richardson

MONTREAL, Sept. 17: (CP)—Before sailing from here yesterday on a business trip to the United Kingdom, James A. Richardson, prominent Winnipeg grain man, predicted an early sale of the entire 1934 Canadian wheat crop. World crop conditions, due to drought heat and other causes, were such, declared Mr. Richardson, that an exceptionally good market for Canadian wheat could be looked for during the next twelve months as the world's surplus became exhausted.

## CONCENTRATES FROM MINE NEAR USK WILL BEGIN TO REACH SMELTER VERY SOON

Mill is Functioning Satisfactorily at Columario—Another Property to be Developed in District

USK, Sept. 17:—On the success of the Columario mine depends to a very large extent the success of this whole district. And the Columario is evidently a success. The new mill is operating, turning out concentrates which assay about one hundred dollars to the ton. The first carload of this will go to the Trail Smelter and tests will also be made with carloads to Anyox and Terrace. Tunnelling for about 6,000 feet has been done on six veins which are about 200 feet apart. Work was started on it by Captain John Willman, the present general manager and organizer of the company, in 1922 and, in spite of great difficulties, has been pushed steadily ahead until today there is sufficient ore definitely blocked out to pay for the plant installation and more. The mill, which has just been completed by the Vancouver Engineering Works, has a capacity of 100 tons in a 24-hour day and it is proposed to operate it to its full capacity almost immediately. At the time of my visit it had been running only three days yet all parts were functioning most satisfactorily. The oil flotation process is used with good results. Both mill and mine are electrically lighted, diesel engines providing the power for the drilling, lighting and for the mill and assay office. The various buildings including bunk houses are completed, nicely painted and the whole camp looks like a permanent institution good for many years. The value of the mine to the district is already apparent for as a result of its success it is understood the Grotto property at Pitman is being taken over and developed by Toronto and New York interests.

## Germany Will Not Sign Up With Security Pact in East, France and Russia Feared

GENEVA, Sept. 17: (CP)—Germany has told the world powers that she will not sign the eastern security agreement because she refuses to risk having the French-Russian armies treading the soil of the Fatherland, reliable sources said here last night. The agreement calls for all signatories to unite in lending military assistance to any signatory attacked.

## BANK HEAD TAKES TRIP

Graham Towers Leaves For Abroad To Study Workings of Other Central Banks

MONTREAL, Sept. 17: (CP)—Graham Towers, Governor of the Central Bank of Canada, sailed from here yesterday for England, the purpose of his trip abroad being to study the workings of central banks in other countries where such institutions have been already established. Early next year, Mr. Towers hopes to have Canada's new Central Bank functioning.

## WOODBINE RE-OPENS

McGuire Again Gets Control of Famous Portland Canal Property Following Court Action

VANCOUVER, Sept. 17: (CP)—Sale of assets of the old Woodbine mine in the Portland Canal district was confirmed in Supreme Court here at the end of the week by Chief Justice Aulay Morrison. W. H. Brett, liquidator, accepted a bid of H. B. McGuire, managing director of the old company, on behalf of the Missouri Ridge Gold Mines Ltd., an Ontario corporation. It is understood the property will be re-opened.

## SILVER AND COPPER

NEW YORK, Sept. 17: (CP)—Bar silver closed at 49½¢ per ounce on the local metal market today, unchanged from Friday and Saturday. Copper was selling at 9¢ per pound.

## Capitalists Fly North To Pay Visit to Stewart Mine Where Concentrator Planned

Having on board General Victor Odlum and Ben Smith, prominent New York capitalist, a Super Fokker seaplane, piloted by Major D. L. MacLaren D. S. O., western manager of the Canadian Airways Limited, arrived here from Vancouver at noon Saturday and, after a brief stay, continued to Stewart where General Odlum and Mr. Smith made an inspection of the United Empire mine in which property they are interested with Col. Victor Spence of Vancouver and on which the building of a concentrator early next spring is contemplated. Following his arrival at Stewart, Major MacLaren flew into the Unuk River district yesterday morning for other interests. This was the second plane the Canadian Airways Limited yesterday had at Stewart, Pilot McGregor having been there for some weeks with a Fokker Standard.

Back Here Today "Yes, I am well satisfied with what I have seen on the United Empire and we will build the mill as soon as the required tonnage is developed," was the authorized statement of Mr. Smith who was here again overnight on his return flight to Vancouver with Major MacLaren. Continued on Page 2

### MAKING PRINCE RUPERT "EXPORT CONSCIOUS"

A well known Vancouver shipping man, who visited the city last week in connection with the movement of interior aspen logs through this port to the Orient, remarked that he found local people lacked "export consciousness"—that they did not seem to realize the possibilities of the use of the port in overseas shipping and, indeed, some had apparently, almost accepted the impossibility of such business here. The same visitor declared that he could see very definite possibilities along this line here and that it would be easy to route considerable volume of inborne cargo here providing outward part cargoes could be arranged. He mentioned in this connection timbers of various varieties and cheaper grades of grain. In addition to this, we know that various forms of fishery products could also be used in making up of part cargoes.

According to the visitor, the two outstanding obstacles to shipping of this sort from Prince Rupert at this time are the fact that the facilities for handling the cargo have either become antiquated or been allowed to fall into disrepair for lack of use and that much of the suitable timber which abounds here cannot be exported owing to the regulation which requires that only timber or logs from crown-granted limits can be shipped out of the country.

As far as the port facilities are concerned, doubtless, now that the business is here and ready to be handled, the railway company will automatically see that its equipment is put in shape. This should be done, we would imagine, without even the Chamber of Commerce having to suggest it.

As for the raising of the embargo on export of timber, that may be a little more difficult although there would appear to be no good reason why the necessary action on the part of the government should be refused if it is going to benefit us. Possibly, it was timely that the Premier himself—our member—should have been here at the time the matter was brought up. Mr. Pattullo knows the situation with regard to the timber industry here without any recital having to be made to him in regard to it and we are of the opinion that, through his instrumentality, any difficulties which may exist in connection with the matter can be quite readily removed.

### CAPITALISTS FLY NORTH TO PAY VISIT TO STEWART MINE

(Continued from Page 1)

Laren. Others in the party were General Odium, and two San Francisco mining engineers, R. H. Travers and V. De Camp. They had spent the most of Saturday afternoon and nearly all Sunday on the United Empire property, arriving here from Stewart last evening and hopping off at 1 o'clock this after-

noon in continuation of the flight to Vancouver.

Before returning to New York, Mr. Smith will visit the Bridge River district and Los Angeles. The United Empire company not long ago took over two of the adjoining Bayview claims and it is one of these that considerable work has been carried out of late.

Mr. Smith, although apparently not given to a great deal of talk for publication, is obviously well pleased with the outlook for the United Empire mine.

## LITTLE IS CHAMPION

San Francisco Wins United States  
Amateur Golf Championship  
Saturday

BROOKLINE, Mass., Sept. 17 (CP)—W. Lawson Little of San Francisco added the United States amateur golf championship to his British amateur title Saturday by defeating David Goldman of Dallas, Texas, eight and seven in the final. Little went into the final by defeating Don Armstrong of Chicago four and three while Goldman made the final by winning over his townsman and roommate, Reynolds Smith, by a similar score.

## Ross-McLarnin Both in Shape

Postponements Do Not Appear to  
Have Impaired Interest in  
Welter Title Bout

NEW YORK, Sept. 17: (CP)—Both Barney Ross, world's welterweight boxing champion, and Jimmy McLarnin, former champion, who is attempting to win the title back, are reported to be in fine fettle for their title bout tonight at Long Island Bowl. The several postponements do not appear to have impaired interest in the bout and it is expected there will be a large attendance.

Ross weighed in at 140 1/4 pounds today and McLarnin at 146 1/4. The fight is definitely on for tonight, weather conditions up to early today being favorable.

New York 2, Cleveland 5.

## Rainbow Made No Attempt to Reach Finish Saturday

NEWPORT, R.I., Sept. 17: (CP)—Although less than a mile from the finish line when the time limit of five and a half hours for the America's Cup yacht race was reached on Saturday, it being called "no contest" because neither the Rainbow, the American defender, or the Endeavour, British challenger, had been able to finish within the time, Harold S. Vanderbilt, owner and skipper of the Rainbow, made no attempt to finish the distance. The American boat was half a mile ahead when the race was called off.

Among those who viewed the race was President Franklin D. Roosevelt from aboard the Vanderbilt yacht.

The classic was resumed today with odds swinging in favor of the Rainbow owing to her performance on Saturday.

## TRIBUTE TO DR. DAFOE

Baptist Congregation Honors Pastor  
Who Has Been Here For  
Five Years

Rev. Dr. F. W. Dafoe, pastor of the First Baptist Church, yesterday completed the fifth year of his ministry in Prince Rupert and, at the conclusion of the evening service, the congregation held a surprise social hour in the pastor's honor.

The chairman for the occasion, V. G. Houston, expressed his personal pleasure in and appreciation for the close friendship and fellowship with Dr. Dafoe both as pastor and man.

P. H. Linzey, senior deacon of the church, acting as spokesman for the church, left Dr. Dafoe in no doubt as to the place he occupied in the affections of his people and the whole-hearted confidence and trust they have in him.

Rev. W. D. Grant Hollingworth, pastor of First Presbyterian Church, bringing greetings from his congregation, spoke of the warm affection and respect in which Dr. Dafoe is held in that church. Mr. Hollingworth also expressed his own affection and regard for a true friend and "Father Confessor."

Dr. Dafoe, in responding to the tributes paid him, said he was deeply touched by such open-hearted expressions of regard. He said he was very glad he came to Prince Rupert. He had grown to love the members of his church and would strive to serve in a greater measure in the future.

A short musical program was enjoyed, those contributing being: vocalists, Miss E. Hamblin, Miss B. McKinley and Mrs. P. H. Linzey; violin soloist, M. R. Dafoe; piano soloist, Junior Daggett, and an orchestra composed of the Misses Hamblin, Johnstone and R. Houston.

Refreshments served by the Ladies' Aid brought a most enjoyable event to a close.

E. T. Kenney, M. L. A. for Skeena, and his daughter, Miss Marjorie Kenney, who is to continue her studies in the south, arrived in the city from the interior on Saturday night's train and sailed, on the steamer, Prince Rupert for Vancouver.

## WILSON INTERESTS ACTIVE IN MINING

(Continued from page one)

tunnel proves satisfactory a mill will be installed in order to separate the gold from the blismuth and it is expected a market will be found for the latter. The mill will be erected at the mine with bunkers at the station two miles below. Already two lakefront acre lots have been sold in anticipation of development at Lake Kathlyn from which point the coal and concentrates will be shipped.

A 2,200-foot tunnel has been started at the top of Hudson Bay Mountain on the Silver Lake property under option from the McGill estate. Eight men and a cool are employed there. This is a silver property but Mr. Wilson expects the metal will be worth a dollar an ounce possibly by the time he is ready to ship next year. Some of the ore in this mine goes \$300 to the ton and it is planned to "go right after it" as soon as the price is high enough.

In connection with his mining ventures in the district, Mr. Wilson says he has no stock for sale. He expects all his properties to be active producers.

### Way to Ease Headaches, Pain Almost Instantly

METHOD OFTEN RELIEVES NEURALGIA AND RHEUMATIC PAINS IN MINUTES!

Remember the pictures below when you want fast relief from pain. Demand and get the method doctors prescribe—Aspirin. Millions have found that Aspirin eases even a bad headache, neuritis or rheumatic pain often in a few minutes! In the stomach as in the glass, an Aspirin tablet starts to disintegrate, almost the instant it touches moisture. It becomes "taking hold" of your pain practically as soon as you swallow it. Equally important, Aspirin is safe. For scientific tests show this: Aspirin does not harm the heart. Remember these two points: Aspirin Speed and Aspirin Safety. And, see that you get ASPIRIN. It is made in Canada, and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet. Get tin of 12 tablets or economical bottle of 24 or 100 at any druggist's.

#### Why Aspirin Works So Fast

Drop an Aspirin tablet in a glass of water. Note that BEFORE it touches the bottom, it is disintegrating. In 2 SECONDS BY STOP WATCH. What happens in these 2 seconds? Happens in your stomach—ASPIRIN tablets start "taking hold" of pain a few minutes after taking.

When in Pain Remember These Pictures — ASPIRIN DOES NOT HARM THE HEART —

## Shower For Bride-Elect Saturday

Mrs. Clarence Insulander Hostess in Honor of Miss Marguerite Fossum

A delightful surprise linen shower was held on Saturday evening at the home of Mrs. Clarence Insulander, Ninth Avenue East, in honor of Miss Marguerite Fossum, daughter of Mr. and Mrs. C. Fossum, Ninth Avenue West, who is to be married shortly to David Geddes.

The forms were prettily decorated with pink and white streamers. During the evening the bride-elect was presented with a basket also decorated in pink and white and containing many lovely gifts.

Games and singing were enjoyed and at midnight delicious refreshments were served. Those present were Mrs. C. Berg, Mrs. C. Fossum, Mrs. C. Insulander, Mrs. P. Iverson, Mrs. G. Letts, Mrs. A. Nelson, Mrs. C. Nelson, Mrs. Hilda Zarelli, Marguerite Fossum, Janie Becker, Elsie Franks, Lillian Franks, Astrid Hansen, Alice Hansen, Bessie Letts, Louise Lindseth, Thelma Norberg, Dorothy Patmore, Rose Wesch and Stan Veitch.

### TENDER IS REFOATED

(Continued from Page 1.)

been salvaged before the week-end storm came up, she would undoubtedly have slid off into one hundred fathoms of water. Harry Scott acted as diver on the salvage job and placed lines around the bottom of the stranded vessel which was lashed to two scows which buoyed her up as she was pulled off. She was still kept lashed to the trolly boats assisted the Pachena scows for the run into port. Two and C. R. C. in effecting the salvage. The Slaven is equipped with a 100 hp. diesel engine.

### "Build B.C. Payrolls"

All in And of B. C.

A gentleman who has some intimate knowledge of the canned milk used in Canada was kind enough to tell us that Pacific is the only milk that really belongs to British Columbia. "You alone have your head office here. You are owned by the farmers here. Your plant and herds are not elsewhere. All yours is in British Columbia and in British Columbia alone." Many thanks.

### BERNIE AND OAKIE HERE

Comedy and Music Blended in "Shoot the Works" at Capitol Theatre

The sunny-faced Jack Oakie, with his Missouri accent and wise-cracks, and Ben Bernie's music are the principal features of the comedy "Shoot the Works," which is to be the first of the week feature on the screen of the Capitol Theatre here. It is a comedy of rapid tempo with music, song, romance, plenty of action and a good cast.

Oakie appears as a glib promoter of freak side-shows and flagpole sitting championships with side excursions into twilight romances. He meets with a beautiful singer and is, apparently, headed for the straight road when the dice throw him and he loses his girl. He eventually wins her back but not until after many genuinely comic characters and an occasional bit of real romance and pathos have been woven in and out of the plot.

Another highlight of the picture is the appearance of Ben Bernie, well known Chicago radio entertainer, and all the well known lads with music both delightful and original. Some of their numbers are "With My Eyes Wide Open," "Do I Love You?" "Were Your Ears Burning?" "In the Good Old Winter Time" and "A Bowl of Chop Suey and You-ey."

Roscoe Karns, Alison Skipworth and William Frawley are included in the cast.

### today

A happy show... speedy, tuneful, full of excitement and fun! The old Maestro's on hand to keep things spinning in tip-top style... a whirl of songs, laughter and romancing!

### WHIFFLETS

From the Waterfront

Skidegate Trollers Had Good Season—Deer Hunting Season Opens—New Naval Instructor Here.

After one of the best seasons on record in recent years, Skidegate, Queen Charlotte Island, trolling boats have returned home from the West Coast and Langara Island trolling grounds, according to word received in Prince Rupert. High boat of the Skidegate fleet, it is reported, was that of Miles Richardson who cleared \$1700 for the season. The fleet is now awaiting the run of cohoes to show up on Skidegate Bar, very few of this variety of fish having made their appearance up to this time.

The run of chums so far on both the west and east coasts of Queen Charlotte Islands is very poor, according to word received in Prince Rupert. Canneries at Old Massett, New Massett and Lagoon Bay are still, however, in operation.

H. W. Harris, manager of B. A. cannery at Port Essington, and Mrs. Harris and A. D. Matheson, manager of Carlisle cannery, and Mrs. Matheson were passengers aboard the steamer Cardena at the end of the week going through to Vancouver for the winter now that the canneries have closed for the season. On board the same steamer going south were members of Carlisle cannery crew.

First legal venison of the season arrived in Prince Rupert over the week-end following the opening of the deer hunting season on Saturday. The season for bucks will extend to November 30 after which there will be a two weeks' open season for does as well (December 1 to 15). The bag limit for the season is three deer, one of which may be a doe. The season for the shooting of geese and ducks will open later.

Bringing north a fair sized list of passengers, Union steamer Catala, Capt. A. E. Dickson, arrived in port at 5:30 last evening from the south and sailed at 8 p.m. for Anyox, Stewart and other northern points whence she will return here tomorrow morning and sail at 1:30 p.m. on her return south. On the south-bound voyage, the Catala will have a capacity list of passengers on account of a special fare excursion which is being run from northern points into Vancouver.

Petty Officer Instructor Robert Ross R. C. N. V. R. of Regina arrived in the city towards the end of last week to assume duty here as instructor of the local unit of the Royal Canadian Naval Volunteer Reserve, a post which had been vacant since the departure some months ago for Victoria of Petty Officer Instructor Anslow.
