Mount Oldfield Trail Completed To Ski Grounds and Will Prove Boon When Winter Arrives Here

Building of the four-foot trail up Mount Oldfield to the ski cabins has been completed by the provincial public works department but considerable more work in the way of surfacing will have to be done before it can be recommended for general use. When the cold weather of winter comes, however, it will be in better shape and will prove a boon for those climbing the mountain to enjoy the sport of skiing. It is to be supposed that further improvement will be made next season. The trail is a little less than two miles in length and has an easy gradient. Weather conditions have been hampering work of continuation of the Skeena River highway in the direction of Cloyah Bay although a full crew of fifty men is still at work there. By next midsummer it is expected it will be possible to drive to Cloyah Bay.

OUTPUT OF SILVER

As a result of the rise in the price of silver the output is increasing slightly in Canada but in Mexico the increase is nearly twenty-three percent. The increase followed the order of the United States Treasury nationalizing silver when it commenced paying sixty-four and a half cents an ounce.

POSITION OF CANADA

Roger Babson, the statistician, says: "Canada has her problems. Some of them are serious but they are the problems of growth and development, not the problems of age and decay. Her vigorous healthy condition is being proved by her remarkable come-back in recovery. Her banking system, that was such a bulwark during depression, came through with flying colors and all the world turns to it with admiration."

The same authority suggests that Canada will benefit by what is of value in the Roosevelt New Deal while avoiding that which is worthless. The United States is making the huge costly experiments from which Canada will benefit.

GERRY WOULD BE HANGED

Ludwig Lewisohn has just returned to the United States from Europe and he mentions the freedom enjoyed on this continent compared with what they have on the other side of the Atlantic. A writer in the Victoria Times, commenting on Mr. Lewisohn's statements in regard to people criticizing the government, says:

"What no one here realizes is that in Europe they wouldn't be allowed to speak like this at all. If they did, they would be locked up. If you were to breathe in Europe the sentiments which you daily utter about the Bennett Government, for example, you would find yourself on a diet of bread and water. Mr. Woodsworth probably would be assassinated. The local branch of the C. C. F. would be liquidated. The leaders of the youth movement would disappear. Mr. Gerry McGeer would be hanged. I would form an interesting appendage to a lamp post. You couldn't say a word about the Patullo Government. Think twice before you throw these priceless privileges away."

Frank Dibb, chairman of the grounds committee, stressed the importance of the grounds of public buildings being kept in as good a shape as possible and stated that additional garden appropriations would probably be sought later from the board.

Frank Dibb, chairman of the executive committee, informed the hospital board at its meeting last night that, owing to illness of members, the committee had not been able as yet to get together to go into the proposal of Miss Helen Randal R.N., registrar of the Graduate Nurses' Association of British Columbia and inspector of training schools, that student nurses' allowances here be reduced and the money thus saved used for providing the training school with better equipment. The committee hoped to have a meeting next week on the matter. Mr. Dibb stated.

"THE BEST FOR LESS"

Here's Way Science Now Relieves Pain in Minutes

BAD HEADACHES, NEURITIS AND RHEUMATIC PAINS EASED ALMOST AT ONCE

Remember the pictures below when you want fast relief from pain. Aspirin eases even a bad headache or neuralgia often in a few minutes. An Aspirin tablet begins "taking hold" of your pain practically as soon as you swallow it. And Aspirin is safe. For Aspirin does not harm the least.

Remember these two points: Aspirin Speed and Aspirin Safety. And, see that you get ASPIRIN, the method doctors prescribe. It is made in Canada, and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet. Get tin of 12 tablets or economical bottle of 24 or 100 tablets.

Why Aspirin Works So Fast

What happens in these glasses happens in your stomach—ASPIRIN tablets start "taking hold" of pain a few minutes after taking.

When in Pain Remember These Pictures

—ASPIRIN DOES NOT HARM THE HEART—

Embla Closed 1934 Season With Hectic Trip—New Engine Installations Being Made—Individual Records of American Fleet

The closing days of the 1934 fishing season brought another hectic episode for the already checkered career of the Prince Rupert halibut boat Embla and it was only through good fortune that the vessel and Capt. Alfred Anderson and her crew escaped most serious consequences in a series of incidents which followed the vessel losing her

rudder on her final trip of the sea. It was on October 11 that the Embla, while hauling gear in a half westerly gale off Cape Omaney, Alaska, lost steering way after having dropped her rudder. As the wind freshened, a jury rudder was devised, the wind having increased to a heavy westerly gale by the time the job was finished. Difficulty was experienced in steering with the jury rudder which finally was broken in the heavy seas. Another was rigged up and, after four in all had worked feverishly day and night, Port Alexander was at last reached on October 12 in the evening. It being found impossible to get temporary repairs made at Port Alexander, arrangements were made to have the American halibutter Rap III tow the Embla to Petersburg and departure was made from Port Alexander early on the morning of October 13. Outside a heavy southeaster was found to be blowing and, about half way between Port Alexander and Port Conclusion, the towline became entangled in the propeller of the Rap III and had to be cut. The Embla started to drift before the wind toward the breakers, the Rap III being unable to come to her assistance because she could not clear her own propeller. The Embla dropped her anchor but this would not hold and still she continued to drift into the breakers. Fortunately enough, the Alaskan salmon packer Magnolia hove into sight about this time and came to the assistance. As the Magnolia was trying to get hold of the Embla's towline, she was caught by a heavy sea which swung her stern against the Embla's bow, breaking the stem of the latter vessel and loosening planks in the forepeak. Finally, a line was got aboard and the Magnolia towed the Embla to Petersburg, reaching there October 14. Temporary repairs being effected at Petersburg the Embla proceeded back to the Cape Omaney grounds with a view to getting a load of black cod. She remained there until October 24 when she began to leak so badly from the damage sustained when the Magnolia had crashed into her that it was decided to run for port. Prince Rupert was reached October 27, the crew having had to pump almost continuously during the three days she was running in. On arrival at Prince Rupert, the Embla went into dry dock for repairs which are now being completed. There was insurance coverage for the damage.

Following the close of the 1934 fishing season, the Prince Rupert halibut boats Balsac, Capt. John Orvik, Alken, Capt. Andrew Hanson, and Southend, Capt. Jentof Ellertson, are all at present in Vancouver. Each vessel is to have a new engine installed.

After having spent a month at Vancouver undergoing overhaul, the big halibut boat Melville, Capt. John Ivarson, returned to Prince Rupert on Tuesday morning and has tied up at the dry dock for the winter. Capt. Ivarson landed his final trip of the 1934 season at Vancouver. On his return to Prince Rupert, he was accompanied by his wife who had been, for several weeks at Edmonton receiving medical treatment and whose health is now much improved. The run north from Vancouver was made in the snappy time of fifty-four hours.

The Northern Fishermen's Cold Storage Ltd. has only half a million pounds of fish left in its plant at Prince Rupert now. Shipments are being made steadily out of the plant which has a capacity of 2,500,000 pounds.

The halibut boat Pair of Jacks, Capt. Axel Pedersen, which has been fishing black cod this fall for the Canadian Fish & Cold Storage Co., landed a catch of 8,000 pounds at Prince Rupert on Wednesday of this week and has now tied up for the winter.

The Prince Rupert halibut boat Sea Maid, Capt. Henry Dolron, after having been on a salmon packing charter in Vancouver Island waters this fall, returned to Prince Rupert on Thursday afternoon and has tied up at the dry dock for the winter.

After having loaded concentrates from the Surf Point mine at Porcher Island, Frank Waterhouse freighter Northholm, Capt. Henry Porritt, arrived in port at 6:30 last evening and proceeded to the Tucks Inlet reduction plant to load fish oil. The vessel sailed at 2:30 this morning for Vancouver.

Union steamer Cardena, Capt. Ernest Georgeson, arrived in port at 2:30 this morning from the south, sailing an hour later on her return to Vancouver and waypoints.

The halibut boat Helen II, Capt. Peter Byrne, is now engaged in flat-fishing out of Prince Rupert for the fresh fish market.

The Massett Cannery fish packer Delphinium, which was extensively damaged early in October when she stranded on the Dundas Islands while running in from Massett to Prince Rupert, is now being almost completely rebuilt at the McLean Ways at Seal Cove, Prince Rupert. By the middle of December it is expected the job will be completed. The 50 h.p. Frisco-Standard gas engine with which the vessel was equipped before the wreck is being replaced with a 60 h.p. Bolinder diesel.

A large hunting party consisting of C. V. Evitt, Hubert Ward, Dr. W. T. Kergin, C. W. Dawson, J. A. Hinton, Dr. J. H. Carson, R. G. Vanderstuy and Alex McRae left early last evening with Capt. W. P. Armour aboard the Salvage Princess for a trip to Hartley Bay and Kildala Arm. Return to port is expected to be made either Monday night or Tuesday morning.

William Leask of Metlakatla returned this week with his seiner after having spent the past month fishing in Vancouver Island waters.

Capt. Edgar Annot and party of friends left on the halibutter Cape Beale last Saturday for a hunting trip down the coast. They expect to return to port early next week.

A slight revision has been made since last week in the figures for the halibut boat Tahoma, Capt. Ben Petterson, which was the heaviest lander of fish at Prince Rupert for

The halibut boat Pair of Jacks,

the American fleet this season. The Tahoma landed eleven trips here for a total of 205,000 pounds. Number of trips, aggregate catch and trip average for the vessels of the American fleet at Prince Rupert this season were as follows, the figures being based on hauling weights rather than weighed-out catches:
