Readjusting of Payments or Making of Same in Goods or Services Would be Entertained—Supplying of Rubber or Tin Suggested—France Announces Inability to Pay

WASHINGTON, D.C., June 13: (CP)—Replying to the British war debts note of June 4 in which the British government intimated that it intended to make no payment whatever on war debt instalments due on June 15, the United States government last night suggested offers would be considered for readjusting the debt or payment in goods or services. The United States note urged Great Britain to make some sort of settlement so it would not be regarded as a defaulter.

The United States note set forth three points as follows:
First, Great Britain would have to pay only the amount of the June 15 instalment to avoid being considered in default under the Johnson law.

Second, there is no connection whatever between the debt owed United States by Great Britain and those owed Great Britain by other countries.

Third, the United States government will be glad to entertain proposals for either readjustment of the debt or for payment in goods and services.

Some observers, following publication of the note, pointed out that Britain controls the world's supply of rubber and predominates in tin production and predicted that an arrangement might be made under which the British could repay part of the debt in those raw materials.

France Will Not Pay
There was no surprise although some disappointment yesterday in official quarters when a note was received from France officially announcing the decision of that country to make no payment whatever on the war debt instalment due on June 15. It was intimated that France was simply unable to pay.

ACTION IS OBTAINED

Railway Commission Official is Coming Next Week to Discuss Reduction of Auto Rates

The Prince Rupert Chamber of Commerce has at last obtained action in its long fight to get the authorities to move with a view to bringing about a reduction in the transportation rate on automobiles between Prince Rupert and Terrace and Hazelton.

Today the chamber was advised that A. Mr. Le Sage will also visit Hazelton and Terrace.

SESSION TO RISE SOON

Congress Expected to Conclude Labors by End of Week—Senate Passes Silver

WASHINGTON, D.C., June 13: (CP)—With several administration measures being dumped overboard with a view to bringing the session to a close, it is expected that Congress may rise by Saturday of this week.

One of the important measures which has yet to be put through is the administration's silver purchase bill which was passed by the Senate Monday night and now goes to the House for action on the Senate amendments. Speeches on this bill have been limited to three minutes. The plan authorizes the administration to buy silver and issue silver certificates until a fourth of the country's money is backed by silver. Security against unemployment and want in old age formed the keynote of a special message sent to Congress by President Franklin D. Roosevelt in which a new program of social and economic legislation was outlined. Steps to safeguard jobs and homes were suggested, a plan of unemployment insurance, housing program and migration of farmers from unprofitable to more favorable areas being among the proposals. It is expected it will be the president's final message to the present session.

Theo Collart sailed last evening for the Catala on a business trip to Vancouver.

Triple Murder of Klondike Recalled

"That's him, I know by his whining voice." Frank Allen, the "Klondike Kid," retired gold prospector, points to Tom Jensen, Danish sailor, as the "Blueberry Tom" who has been sought for 20 years. He was wanted for the murder of three comrades in the Yukon mining regions. Allen picked him out of a crowd of 75 spectators in Brooklyn homicide court. Twenty-one years ago three men and a woman set out from Fairbanks to scabble for gold dust. It was the winter of 1913, and when spring came around, it was said that they had nearly \$20,000 worth of dust in their pokes. Then the bodies of "Sweet Marie," who came out of the Fairbanks dance halls; of "Fiddler John" and Frank Adams were found. They had been gone to death, and "Blueberry Tom" Jensen was missing. Someone recalled that "Blueberry Tom" had shown up and had auctioned off a bracelet that once belonged to "Sweet Marie."

In a statement prior to death, Campbell said that he alone had been to blame for the quarrel.

ALL-BRAN MADE HIM REGULAR AS CLOCK

Delicious Cereal Corrected His Constipation

We quote from his voluntary and enthusiastic letter: "After reading your advertisement, I decided to use ALL-BRAN. I had been taking pills right along. But now I don't have to take pills."

"I take ALL-BRAN every morning, and am as regular as the clock. It has done me a lot of good."—Stephen Higgins (address furnished upon request).

Common constipation frequently causes headaches, loss of appetite and energy. Yet this condition can be overcome, usually, by eating Kellogg's ALL-BRAN.

Tests show this delicious cereal provides "bulk" and vitamin B to aid elimination. ALL-BRAN is also rich in iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Inside the body, it forms a soft mass. Gently this clears out the intestinal wastes.

Isn't this safer than taking harmful patent medicines? Two tablespoonfuls daily are usually sufficient. Chronic cases, with each meal. If seriously ill, see your doctor. ALL-BRAN makes no claim to be a "cure-all."

Enjoy ALL-BRAN as a cereal with milk or cream. Use it also in making fluffy muffins, and breads, etc. Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

CHANGE IN SERVICES

C. N. R. Trains and Boats to Change Time Tables Next Week

Summer services of Canadian National Railways and Steamships will go into effect here next week, giving four trains per week in and out of Prince Rupert in each direction and two boats per week between here and Vancouver.

Effective Monday next trains will leave for the east Mondays, Tuesdays, Wednesdays and Fridays at 6 p.m. There will be full passenger trains on Wednesdays and Fridays and mixed trains on Mondays and Tuesdays.

On Monday and Saturday afternoons at 2:15 full passenger trains will arrive from the east while on Tuesday and Thursday nights at 10:20 mixed trains will arrive from the east.

Mails will arrive on Mondays, Thursdays and Saturdays and mails will be dispatched Mondays, Wednesdays and Fridays.

Steamship Services

The steamship service provides for either the steamer Prince Rupert or Prince George to arrive here Wednesday and Friday mornings at 10 o'clock from Vancouver via Powell River and Ocean Falls.

The boat arriving Wednesday morning will sail at 1 o'clock that afternoon for Skagway and other Alaska points, returning here at 3 o'clock Monday mornings and sailing at 3 o'clock that afternoon for Vancouver via Ocean Falls and Powell River.

The boat arriving Friday morning from the south will sail at 3 p.m. for Anyox and Stewart and return here at 5 o'clock Saturday afternoon, sailing an hour later for Ocean Falls, Powell River and Vancouver. Arrival will be made at Anyox at 10 p.m. Friday, leaving there at 11 p.m., arriving at Stewart at 6 a.m. Saturday and leaving there at 9 a.m.

Islands Service

A change is being made in the Queen-Charlotte Islands service between Vancouver and Prince Rupert whereby departures will be made from Prince Rupert southbound and Vancouver northbound on alternate Saturdays instead of on Fridays as at present. Starting next week, the Island vessel will leave here at 10 o'clock alternate Saturday evenings for Vancouver with calls at Massett, Port Clements, Buckley Bay, Sandspit, Queen Charlotte City, Cumshewa, Lagoon Bay, Atli Inlet, Lockport and Rose Harbor. Arrival here from Vancouver via the Queen Charlotte Islands will be on alternate Thursday mornings. The Prince John is to be relieved on the Islands service later in the summer by the steamer Prince Charles.

Gardening In Prince Rupert

On Sunday afternoon I felt rather tired of my own garden which it seemed to me was beginning to look seedy. I went out looking for inspiration and found it in many quarters. First I called on Jack Killpatrick, who has done wonders around his cottage on Fifth Avenue-East. The garden has been transformed and the good work is still going on. Everything seemed to be growing well except weeds.

Over the fence William Reid, with the aid of his little greenhouse, has a great display of annuals and other plants that will give a mass of bloom in the near future. Everything seems well advanced, the plants very strong and the whole place in excellent order. Mr. Reid's Chieranthus, both orange colored and mauve, are a feature of this garden. The orange flowers have been in bloom many weeks and the mauve, a dwarf variety, are just showing color. Billy is planning a new greenhouse. There's enthusiasm for you! And there's inspiration for everybody.

Our next call was at John Joyce's place at Seal Cove. Most of the decorative work on this garden seems to be new. The rough face of rock made by the road cut has been transformed into an ornamental rockery. A winding path of clam shells leading to the house is particularly artistic. The new lawn has great possibilities and everything about the place indicates improvement. It is one of the attractions of Seal Cove Estate.

Probably you have seen Jack Wynne's place on Eleventh Avenue. There are three lots all cultivated and not a weed in the place. The garden catches your eye as you come in from the highway, picturesque and orderly. Everything there grows well because it gets attention. You can always tell the places that receive proper cultivation. Naturally Mr. Wynne is proud of his home and well he may be. It is a credit to him and to the community—H. F. P.

T. W. Hall, inspector of schools, sailed last evening on the Catala for a trip to the Ocean Falls district on official duties.

WHIFFLETS From the Waterfront

With a fair sized list of passengers on board, C. N. R. steamer Prince George, Capt. H. E. Nedden, arrived in port at 11:30 this morning from Vancouver, Powell River and Ocean Falls and will sail at 4 o'clock this afternoon for Anyox and Stewart whence she will return here tomorrow afternoon southbound. This is the final voyage of the Prince George on spring schedule. Next week, running opposite the steamer Prince Rupert, she will go on summer schedule which provides for service to Alaska as well as two sailings per week between here and Vancouver.

An interesting marine visitor to port has been the auxiliary yawl Neogo of Seattle which arrived Monday afternoon from the south and proceeded early this morning to Juneau. The Neogo is a 28-foot craft carrying considerable sail and with a 35 h.p. Universal gasoline engine which gives her plenty of auxiliary power. The vessel has an exceptionally large cockpit which, indeed, takes up about half of her length. Aboard are Messrs. Pears, two brothers, one of whom is secretary-treasurer of the Fisher Flour Mills. The Neogo was moored at the floats of the Prince Rupert Rowing & Yacht Club.

The Rainier sold 28,000 pounds of halibut to the Harcastle Fish Co. at Ketchikan on Saturday for 6.5c and 4.6c.

Having been delayed by tidal conditions in the Naas River, Union steamer Catala, Capt. A. E. Dickson, was several hours late yesterday in returning from her regular weekly voyage to Anyox, Stewart and other northern points, not getting in until 7:15 p.m. The vessel sailed an hour later for Vancouver and waypoints.
