At any rate, conditions are improving and should improve, no matter who is at the helm.

#### SUGAR TAX OR GOLD TAX?

Despatches published in this paper yesterday announced that the sugar tax had been cut in half. That will mean a considerable lessening of taxation to the people of the country. When the tax was put on last year it came in for a great deal of criticism as being a high tax on poor people. We are glad that the government has recognized the situation and decided to at least reduce the tax from two cents to one cent.

Whether the tax on gold will prove any more popular than the tax on sugar seems doubtful. Gold production is one of the industries that is bringing back prosperity. A ten percent tax will prove very unpopular in all mining communities, especially in those places where mines are operated on a very small percentage of profit.

Premier Pattullo is proposing to encourage prospecting for gold and Premier Bennett immediately discourages it to the limit of his ability by taking away the incentive to

gold mining with a heavy tax.

We do not wish to be critical of everything the federal government does. That government has had a difficult task and still has a difficult job on its hands. Taxes have to be raised and it would be a brave man that would begin to suggest where they should be levied. At the same time we regret that it has seemed necessary to strike a heavy blow at British Columbia's prmier industry in order to carry on the affairs of the country.

The sugar tax is a heavy tax on the wage earner. The gold tax is a heavy tax on an industry that provides a means of livelihood for the wage earner.

Vienna. So states Miss Ursula Malkin, brilliant young British Columbia pianiste, who has just recently returned from a year and a half's study in Vienna, and who plays here in concert performance at First Presbyterian Church next Saturday evening.

Four business men who in this country would go out and play golf on a Saturday afternoon, will, in Vienna. Miss Malkin states, get together and play quartets.

"It's always waltz time in Vienna," says Miss Malkin, "or any other music time. To the Viennese music is golf, tennis, bridge and every other kind of pastime rolled into one. Even the street cleaners seem to be connoisseurs of the masters, and everyone from the lowest to the highest turns out to the many concerts, symphonies and operas performed nightly."

While in Vienna Miss Malkin studied the piano with the well known concert planiste and teacher, Dr. Berta Jahn, and musical appreciation with Egon Wellesz, a Phillips' Milk of Magnesia modernist composer of note both on the Continent and in England.

Over a year's successful study on the part of this young B. C. artist was climaxed by a concert performance in Vienna given before large and enthusiastic audience. Her playing was commented on as follows by a prominent reviewer in \$5.00 the Vienna Salonblatt: "Miss Mal- your spring shopping? .10 kin captivated the audience with her fluent bravura technic, showing 3.00 serious artistic ambition."
