Fears Entertained For Safety of Master and Cook of Fishing Vessel on West Coast

VICTORIA, Jan. 16: (CP)-The provincial police cruiser P. M. L. 7 left Victoria this morning for Masparti Inlet on the West Coast of Vancouver Island where the fishing boat Restless has been found anchored about a mile and a half off shore with no sign of the master, Emil Coleman, or crew. The boat was half filled with water and loaded guns were found on deck. Stale food found in the cabin indicated that the vessel had been

deserted for about a fortnight. The Restless was found by the United States halibut boat Eclipse which advised the steamer Princess Maquinna which in turn wirelessed the Department of Marine here.

It has been suggested that the recent quick trip to the Saskatoon Hockey coast of Premier Bennett was for the purpose of getting the sense of the west in regard to when an election should be held. There were matters to discuss which could not be put to writing. When not publicly engaged, the Premier was making contacts which would be useful to him and to the Conservative party in the next campaign.

It is much too early to discuss what will happen when the election takes place. Would You Believe That They Ski on Desert Sands?

The younger set knows how to mix many things but who ever thought that the very fair set would mix summer with winter and go skiling on the desert? A number of society girls who are sojourning in California refused to be denied their favorite winter sport, yet they hated to give up the warm sun-bathing and swimming. So a group, headed by Miss Dolly Newmire, organized the Palm Springs Sand Ski Club, and utilized the huge shifting sand dunes for their ski runs. Of course the sand slides cannot approach the speed of the snow courses, but with strips of tin tacked to the bottom of their skis they glide along at a fair clip, with a maximum amount of bare-skin exposed to the desert sun. This shows a remarkable scenic shot as a group of the girls neared the top of one of the huge sand slides on their initial attempt at sand skiing

Another Test Run

The Socony-Vacuum Corporation of New York conducted a test run of many makes of cars on a route through the Peace River Country, Alberta, touching at Edmonton, Saskatoon, Moose Jaw. Regina, North Portal and down through the United States and on into Mexico. The leading car was a Ford V-8 Fordor. owned by the Socony-Vacuum and bringing up the rear was a V-8 Cabriolet which was driven by the Secretary of the Expedition.

Included in the tour were a Chevrolet, Buick, Oldsmobile, LaSalle, Cadillac, two Pierce Arrows, G. M. C. truck, Studebaker, Pontiac, and other makes, as well as two Fords.

It is interesting to note that it was reported on the arrival of the caravan at Edmonton from the Peace River Country that the V-8's were the only units which made the round trip through mud without having to be towed. On a close check we find one of the V-8's travelled ten continuous hours in low gear, the temperature never exceeded 140 degrees and gasoline consumption was one gallon to ten miles while running in low gear. All the other cars had boiling radiators and required repeated additions of water.
