Pattullo Places His Budget at Slightly Less Than Last Year—Other Matters to be Taken up Later—Quebec Delegation Leaves Capital Dissatisfied

OTTAWA, July 31: (CP)—The Dominion-provincial conference entered its final stage today when discussions opened on the lump sums to be advanced by the federal exchequer as laid down by Premier R. B. Bennett yesterday in place of the thirty-three and one-third percent payments.

Premier Taschereau of Quebec and his delegation left Ottawa this morning somewhat dissatisfied with the results.

Today Premier Pattullo placed British Columbia's requirements for direct relief in the next year slightly below the past twelve months when the amount was \$7,000,000. Premier Pattullo is conferring with the federal committee on direct relief after which other matters associated with relief will be taken up.

Killers of Austrian Government Head Die On Vienna Gallows

Execution Carried Out This Afternoon on Two Nazis Three Hours After They Are Condemned by Court Martial—Situation Quiet

VIENNA, July 31: (CP)—Otto Planetta and Franz folzweber, Nazis, were sentenced to death today by court martial for the assassination of Chancellor Engelbert Dollfuss last Wednesday and were hanged this afternoon three hours after their conviction. The situation in Austria continued quiet today with the new administration of Chancellor Kurt Schuschnigg, apparently, in complete control. Danger of further civil strife appears to be steadily diminishing.

Forty Nazis wearing civilian clothes yesterday broke into the municipal hospital of Vienna at the point of guns and tried to free Dr. Anton Rentelen who was to have been the head of the Austrian government had the Nazi putsch of last Wednesday succeeded.

DAILY EDITION

Tuesday, July 31, 1934

SIXTEEN YEARS AGO

Sixteen years ago today the Daily News was taken over by the present management. At that time we were all very hopeful for the future and expected Prince Rupert to be a big city in a few years. We still expect Prince Rupert to be a big city but the building will take time. We have to do it step by step, sometimes faster and sometimes slower. We have to adapt ourselves to changing conditions. With the passing of the depression which has hit almost every city in every country throughout the world we shall find ourselves resuming our normal building operations before very long and with a revival in the building trades will come increased spending power and general activity. The big salmon season will help but it will be followed by poor seasons. In looking ahead we must expect poor seasons and good ones. The difficulty is to get rid of the idea that temporary prosperity is going to be permanent prosperity.

During the past sixteen years there have been many ups and downs. There has been considerable building done since that time. Practically the whole of Westview has been built; all the soldiers' houses were erected, the elevator built, a number of business blocks and individual stores including the Moose Hall, Besner Building, the building where Elio's new store is located, the building which houses DeJong's Cash & Carry, the Canadian Legion home, two stores, one of which is occupied by Selvig's Market, two stores on Second Avenue occupied by Grattan, the building occupied by McClymont and Ireland, and other buildings including many dwellings throughout the city.

Sixteen years ago practically all the streets were planked. All these have since been graded and surfaced and some permanent or semi-permanent sidewalks have been laid. A hydro-electric power plant has been installed by the Northern B. C. Power Co. Ltd. All along the waterfront there have been great improvements.

The big ocean dock has been built, the new cold storage plant and many smaller buildings. Everywhere there has been improvement. Also there has been a good start made in beautifying the city with lawns and gardens.

As to the future it is impossible to prophesy. We expect great improvements and extensions, increases in population, new buildings. Much will depend upon the people themselves. If each does a little and all work with a common purpose we shall build a city of which we may be proud.
