House of Commons In Favor of Metal Pact Of Economic Parley

Resolution of Thomas Reid of New Westminster For Bi-Metallism Not Favored—Government is of Open Mind on Subject of White Dollar

OTTAWA, Feb. 27:-The House of Commons last night approved almost unanimously the agreement negotiated at London last June under which producing nations took steps to stabilize the price of silver. Thomas Reid, Liberal member for New Westminster, sponsored a motion asking the government to link silver and gold as a monetary Poasis, adopting bi-metallic cur-

Heard in House

E. T. KENNEY, M. L. A.

VICTORIA, Feb. 27: (CP)-Greater governmental assistance to the mining industry and a reduction in prospectors' fees were urged yesterday by E. T. Kenney. Liberal member for Skeena, in his maiden speech before the Legislature. He was speaking in the debate on the address in reply to the Speech from the Throne.

A \$1 free miners' licence fee instead of the \$5 now charged was urged by Mr. Kenney as well as a reduction in recording fees. The money so saved, he said, would buy prospectors a few boxes of powder and would be a considerable help to the most of men out on grubstake. The government could do worse than subsidize prospectors. They had in the past opened up nearly every section of the province.

Mining, said Mr. Kenney, offered one way out for a great number of able-bodied unemployed if the government could offer sufficient inducement for them to go into the hills.

A RECORD FOR FEBRUARY

Winter rains are with us again after a wonderful spell of fine weather with plenty of sunshine. Some days it was warm enough for picnicking on the beach and local laun- Improve Margin of Supremacy in ches were requisitioned to carry owners and friends to various interesting points around the harbor. Some young people even ventured to take up bathing. It has been an abnormal season but night frosts had the effect of keeping vegetation from advancing too rapidly. It was great weather for children.

AN UNUSUAL SESSION

Not only has the weather been unusual this year but the session of the Legislature promises to be an unusual one. During the campaign last fall the Liberal leader announced that a new era in party administration would be ushered in. Members who supported his administration might criticize and even vote against the government without being read out of the party. They would be bound only in c case of a direct vote of want of confidence. So we see yesterday two Liberals voting against a government measure and an independent voting for it. Possibly later we shall see other breaks from the strict party fold. Of course this, could not be carried to extremes. Party caucuses would prevent it. It is doubtful if McGeer is a member of the Liberal caucus following open attacks made on the administration prior to the opening of the House.

KEEPING PROMISES

Evidently Premier Pattullo is one of those men who believes in keeping his promises. When he promised some time ago that, if elected, he would restore the constituency of Columbia, no one took him very seriously. It came somewhat as a surprise to many people that the promise was being implemented at once.

Possibly there may be more surprises in store for the people of British Columbia within the next year or two. At any rate it is a pleasant change to hear of a politician who keeps his promises. Possibly that is the meaning of the word "statesman."

"WAS TAKING EVERY KIND OF DRUG FOR CONSTIPATION"

Then ALL-BRAN Brought Relief

Read this very enthusiastic

"I am 34 years old and as far back in my life I have been constipated. I was so bad that I had one bowel movement every five or six days. I was taking every kind of drug known for constipation.

"Now for the last two months I have been eating a little ALL-BRAN night and morning and I have at least two to three bowel movements each day."- Mr. Frank Piratzky (address furnished upon request).

Laboratory tests show Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid elimination. ALL-BRAN is also a fine source of iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Inside the body, it forms a soft mass. Gently, this clears out the intestinal wastes. Isn't this safer than taking harm-

ful patent medicines? Two tablespoonfuls daily are usually sufficient. Severe cases with each meal If not relieved this way, see your doctor.

You'll enjoy eating Kellogg's ALL-BRAN as a cereal with milk or cream-sugar or honey or fresh fruits added. Or, to use in cooking. In the red-and-green package. At all grocers. Made by Kellogg in London, Ontario.

> The Giants had been hopelessly lagno, Elks. in last place. How well McGraw reconstructed the joke Giants in one year is best told by the fact that | zie 10 the club finished in second place in the campaign in 1903, which began the most remarkable record of leadership in the history of baseball. From that year on to and in- follows: cluding the season of 1924 the New York Giants under McGraw's direction won ten National League pennants, four more than his nearest rival, Connie Mack. Another McGraw record was winning four pennants in a row, 1921 to 1924, inclusive. In addition to the ten pen- Arsenal Leads nants won up to the 1924 season, the McGraw Giants finished in second place eight times, in third place once and in fourth place twice. Only once did a McGraw team finish in the second division, tue of its one to nil victory over in 1915, when the Giants were last. Newcastle United on Saturday, Ar-

contests, his teams winning only three out of nine series in which they participated.

As manager of the Giants Mc-Graw drew down enough salary to make him a wealthy man had he desired to accumulate money. It was said of him, however, that he spent his money freely not only on himself and his family but on those of his friends who were in need. It was reported that during the ownership of John T. Brush and Harry N. Hempstead his salary as manager was in the neighborhood of \$30,000 a year and that when he became part owner his managerial contract called for \$65,000 a year in addition to his share of the club's profits.

suggested \$3000 as a possible ob-

George Arnold suggested chargin a fee of a dollar a year from the people reading new books.

H. F. Pullen explained the situation in regard to the constitution of the library. It would have to change its constitution if a fee were charged. At present it was constituted under the Public Libraries Act. He saw no legal objection to making such a charge but Shower For Anyox TRAGEDY AT the status of the library would have to be changed. There were critics who thought the people wishing to At a meeting in the City Hall last use new books should go to a pri-Sunday caught the fishermen on evening, with the City Commis- vate lending library for them. The Spring Miracle of Glass

successful garden. Glass means a horse manure and it must be sash to cover a frame under which stacked until it steams before goto start seeds. The protection of a stacked until it steams before goof the winter sun in March is one is placed upon it and the heat must of the miracles of spring in the gar- subside before planting seeds. den. Under this canopy of glass About a foot to 18 inches of mamany plants seem to defy freezing nure is spread in the bottom of weather even when an occasional the pit, the frame set upon it and zero snap freezes the ground.

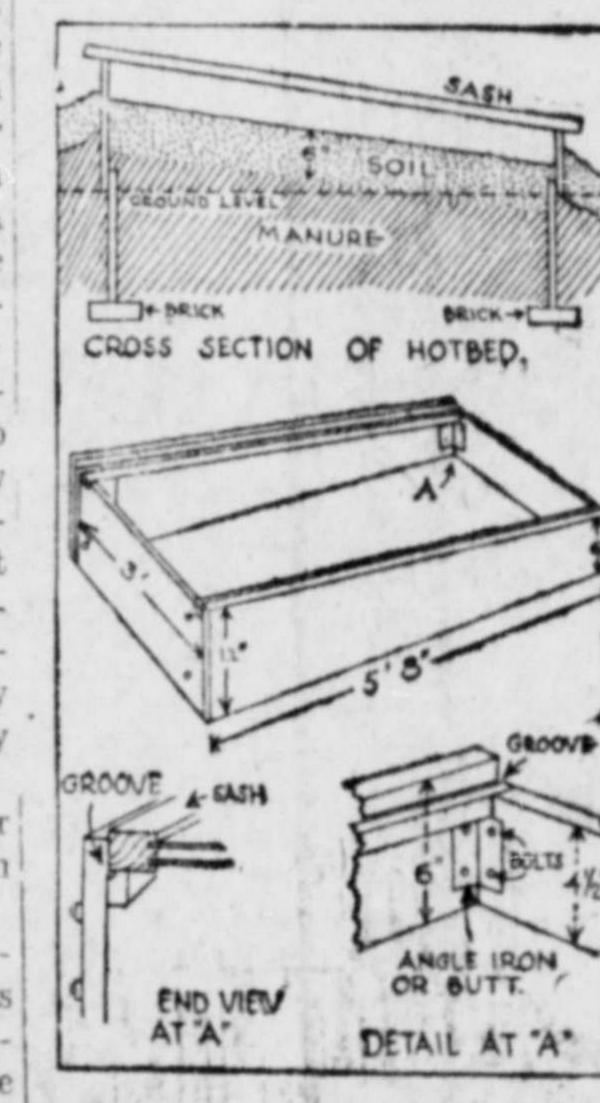

When these frames have no artificial heat they are known as cold frames. When fermenting manure gives them artificial heat beneath the soil they are hotbeds. The latter are the most useful for certain starting of vegetables that need a long season of growth and for those that are tender. Owing to the difficulties of securing fresh stable manure to make the heating compost, cold frames are coming into more general use where a few years ago the hotbed seemed indispensable. The cold frame cannot fill its place for raising tender vegetables or flowers although it offers a good substitute for the hardy vegetables and annuals and many of the half-hardy sorts.

The hotbed is the substitute for warm weather and a garden in

The hotbed should be constructed properly at the start or it is likely to prove unsatisfactory. Hotbeds sunk in the ground are more satisfactory and safer than the the level ground. For the former as spread over it, the space about the ready the manure is the next task it is ready for planting.
