Erb Has Little Interest in Local Shipbuilding Concern

Admits in Cross-examination that Interest Extends only to New York Office Expenses; Mullen Swears Erb Failed Pay Over Cash.

(Special to The News via G. T. P. Telegraphs.)
VANCOUVER, January 21.—Newman Erb left Vancouver for New York Monday night without waiting for the injunction proceedings today. In an affidavit in support of the interim injunction on January 10 Mr. Erb swore that he had \$85,000 in the enterprise. On cross-examination on Monday he admitted that at the most he had only \$35,000 and of this amount \$30,000 was for salaries and other expenses paid out in his New York office during the first ten months of the life of the company. John L. Mullen, the organizer of the company, and one of the partners in the concern, who is here, swears that of the moneys paid over by the Government and handled by Mr. Erb, some forty or fifty thousand dollars is unaccounted for.

PROSPECTS IN IRELAND GOOD

Sinn Feiners and Opponents Fail to Secure Majority of Votes in Elections.

LONDON, Jan. 21.—Election results show that neither the Sinn Feiners nor the Unionists appear to have gained a majority of the seats in their respective strongholds. The prospects are brighter than for some time past for a united Ireland under the proposed Home Rule bill. The Sinn Feiners captured 31 per cent of the seats, Unionist, 20 per cent; Labor, 17 per cent; Nationalist, 14 per cent. Voting under the proportional representation measure is considered effective as various classes of people were heard from at this election for the first time.

Local Smelter For Silver Lead Ores

George B. McMillan and Colonel Coy Inspecting Sites for Definite Undertaking.

Operations are to commence in the very near future on the construction of the first unit of a smelter on the line of the Grand Trunk Pacific Railway in the vicinity of Prince Rupert, according to George B. McMillan who has been here since Sunday night last. Yesterday Mr. McMillan accompanied by Col. Coy, of Victoria, and J. Fred Ritchie went out by gasoline boat to Port Edward to look into a proposed site there. Today they are making further examinations in the locality. The initial unit of the big proposition will require a capitalization of at least \$750,000. Mr. McMillan is representing his own and American capital. He is a pioneer of Prince Rupert and since leaving here in 1910 has been very successful in oil ventures in the Central States. The new smelter, it is proposed, will treat only silver-lead ores and copper will not be touched. The big mine at Anyox is practically the only big copper producer in the country at present and the Granby Co. will likely handle other copper producers. The supply of ore for the local smelter will come from the mines of Stewart, Alice Arm and the Omineca district and the site chosen will be on the railroad and at the same time convenient for shipping by water. Mr. McMillan is to leave here in a few days for New York.

SCHOOL BOARD DID NOT ATTEND VISIT

Absence of Members Was Conspicuous at Inspection of Grounds Yesterday.

The City Council members visited the Hays Cove School site yesterday afternoon at the request of the School Board to inspect the pipe line question. Although the council was all out with the exception of two members there were only two members of the School Board there, Alderman McLennan and Fred Shaw. The general opinion of the council members as expressed was that the school could conveniently be built without the removal of the pipe line. A joint meeting in the City Hall will likely be held at some date in the near future. The members of the council who visited the site were Mayor McClymont, Aldermen Rochester, Perry, Currie, Casey and Murray. Secretary W. D. Vance also accompanied the party.

FATE OF Bessarabia RESTS WITH ROUMANIA

Her Action in Hungary Will be Deciding Factor in Award Says Supreme Council

(Special via G. T. P. Telegraphs.)
PARIS, Jan. 21.—This morning the supreme council of the Allied nations heard the Roumanian premier, Caida Voivede, regarding the desire of Roumania to annex the country of Bessarabia. The Council replied that it would reserve its decision until the Roumanians had complied entirely with the Allied instructions as to the evacuation of Hungary. Marshal Foch informed the Council that it would be impossible for Britain to send the quota of 25,000 troops to the plebiscite area and recommended that it be replaced with Italians and French forces.

New Government Formed By Denikine; Bolshevik Secure Military Position

(Special to The News via G. T. P. Telegraphs.)
LONDON, January 21.—Colonel Denikine has formed a new Cossack Government with Novo Rossysk as its capital. Its reception by the people has been favorable.

GENEVA, January 21.—The Roumanian legation at Berne has received a message from Bucharest refugees from Odessa reporting that panic conditions exist. The Bolshevik are within eighty miles of Odessa and are meeting with no resistance.

WASHINGTON, January 21.—Official reports indicate that there is every probability that the new republic of Poland will be defending her independence against a mass attack of the Bolshevik forces. The Reds have concentrated their units to force enlistment from the peasants. The state owned munitions works are active and point to developments.

Apprehension is shown of the chances of Poland. Her army of 40,000 men are inadequately equipped. Trotsky has 20,000 men backed by the Pretorian Red Guards.

The Bolshevik Government is reported to be more secure in its military position than ever before in its history.

LONDON, Jan. 21.—Unconfirmed reports state that the Supreme Council is sending troops to oppose the Bolshevik in the Caucasus. There is a serious communist uprising in Bessarabia and a disturbance in Sofia. The troops would be for the purpose of preventing the spread of Bolshevism in Armenia, Turkey, Persia and Mesopotamia.

DRY DOCK SCORES BASKETBALL WIN

Travelers Show Lack of Defence and Combination—Men do Not Hold Positions.

By a 35-23 score the ever victorious Dockers took the Drummers to cap at the regular basketball fixture in the Rink last night and thus gained their fourth victory of the season without a defeat having beaten every team in the league. Lack of combination and defence were the causes of the defeat of the Travellers and Clementson, of the Drydock, took full advantage of this condition and scored heavily during the first half. Many of the travelling men found themselves with the ball but none of their team mates were near enough for effective combination. The Travellers as players are quite alive but the lack of team work puts them at a great disadvantage. The need of practice is easily seen. The teams were:—
Drydock:—Clementson, Day, Corkell, Davis, Hardy and Craggs. The honor of the Travellers was upheld by Moersch, Tinnetti, Greenwell, Robinson, Smith and Saint. Lee Dell acted as referee and gave very satisfactory decisions.

HYDER BECOMES RESPECTABLE

Lid Goes on When United States Marshal is Appointed There.

HYDER, Jan. 21.—The lid has been closed on Hyder. Until recently the town was the widest open on the continent. Blackjack and other games were played openly and liquor was sold over the bars in spite of the fact that Alaska is supposed to be dry. Two weeks ago John Ronan, formerly a United States senator for Alaska, was appointed United States marshal. He put on the lid. He shut down the gambling joints and blind pigs and today the town is as decent as any other.

Religion Is Patriotism

It is the Root of Personal Righteousness, the Mainstay of Social Order, the Bulwark of International Peace

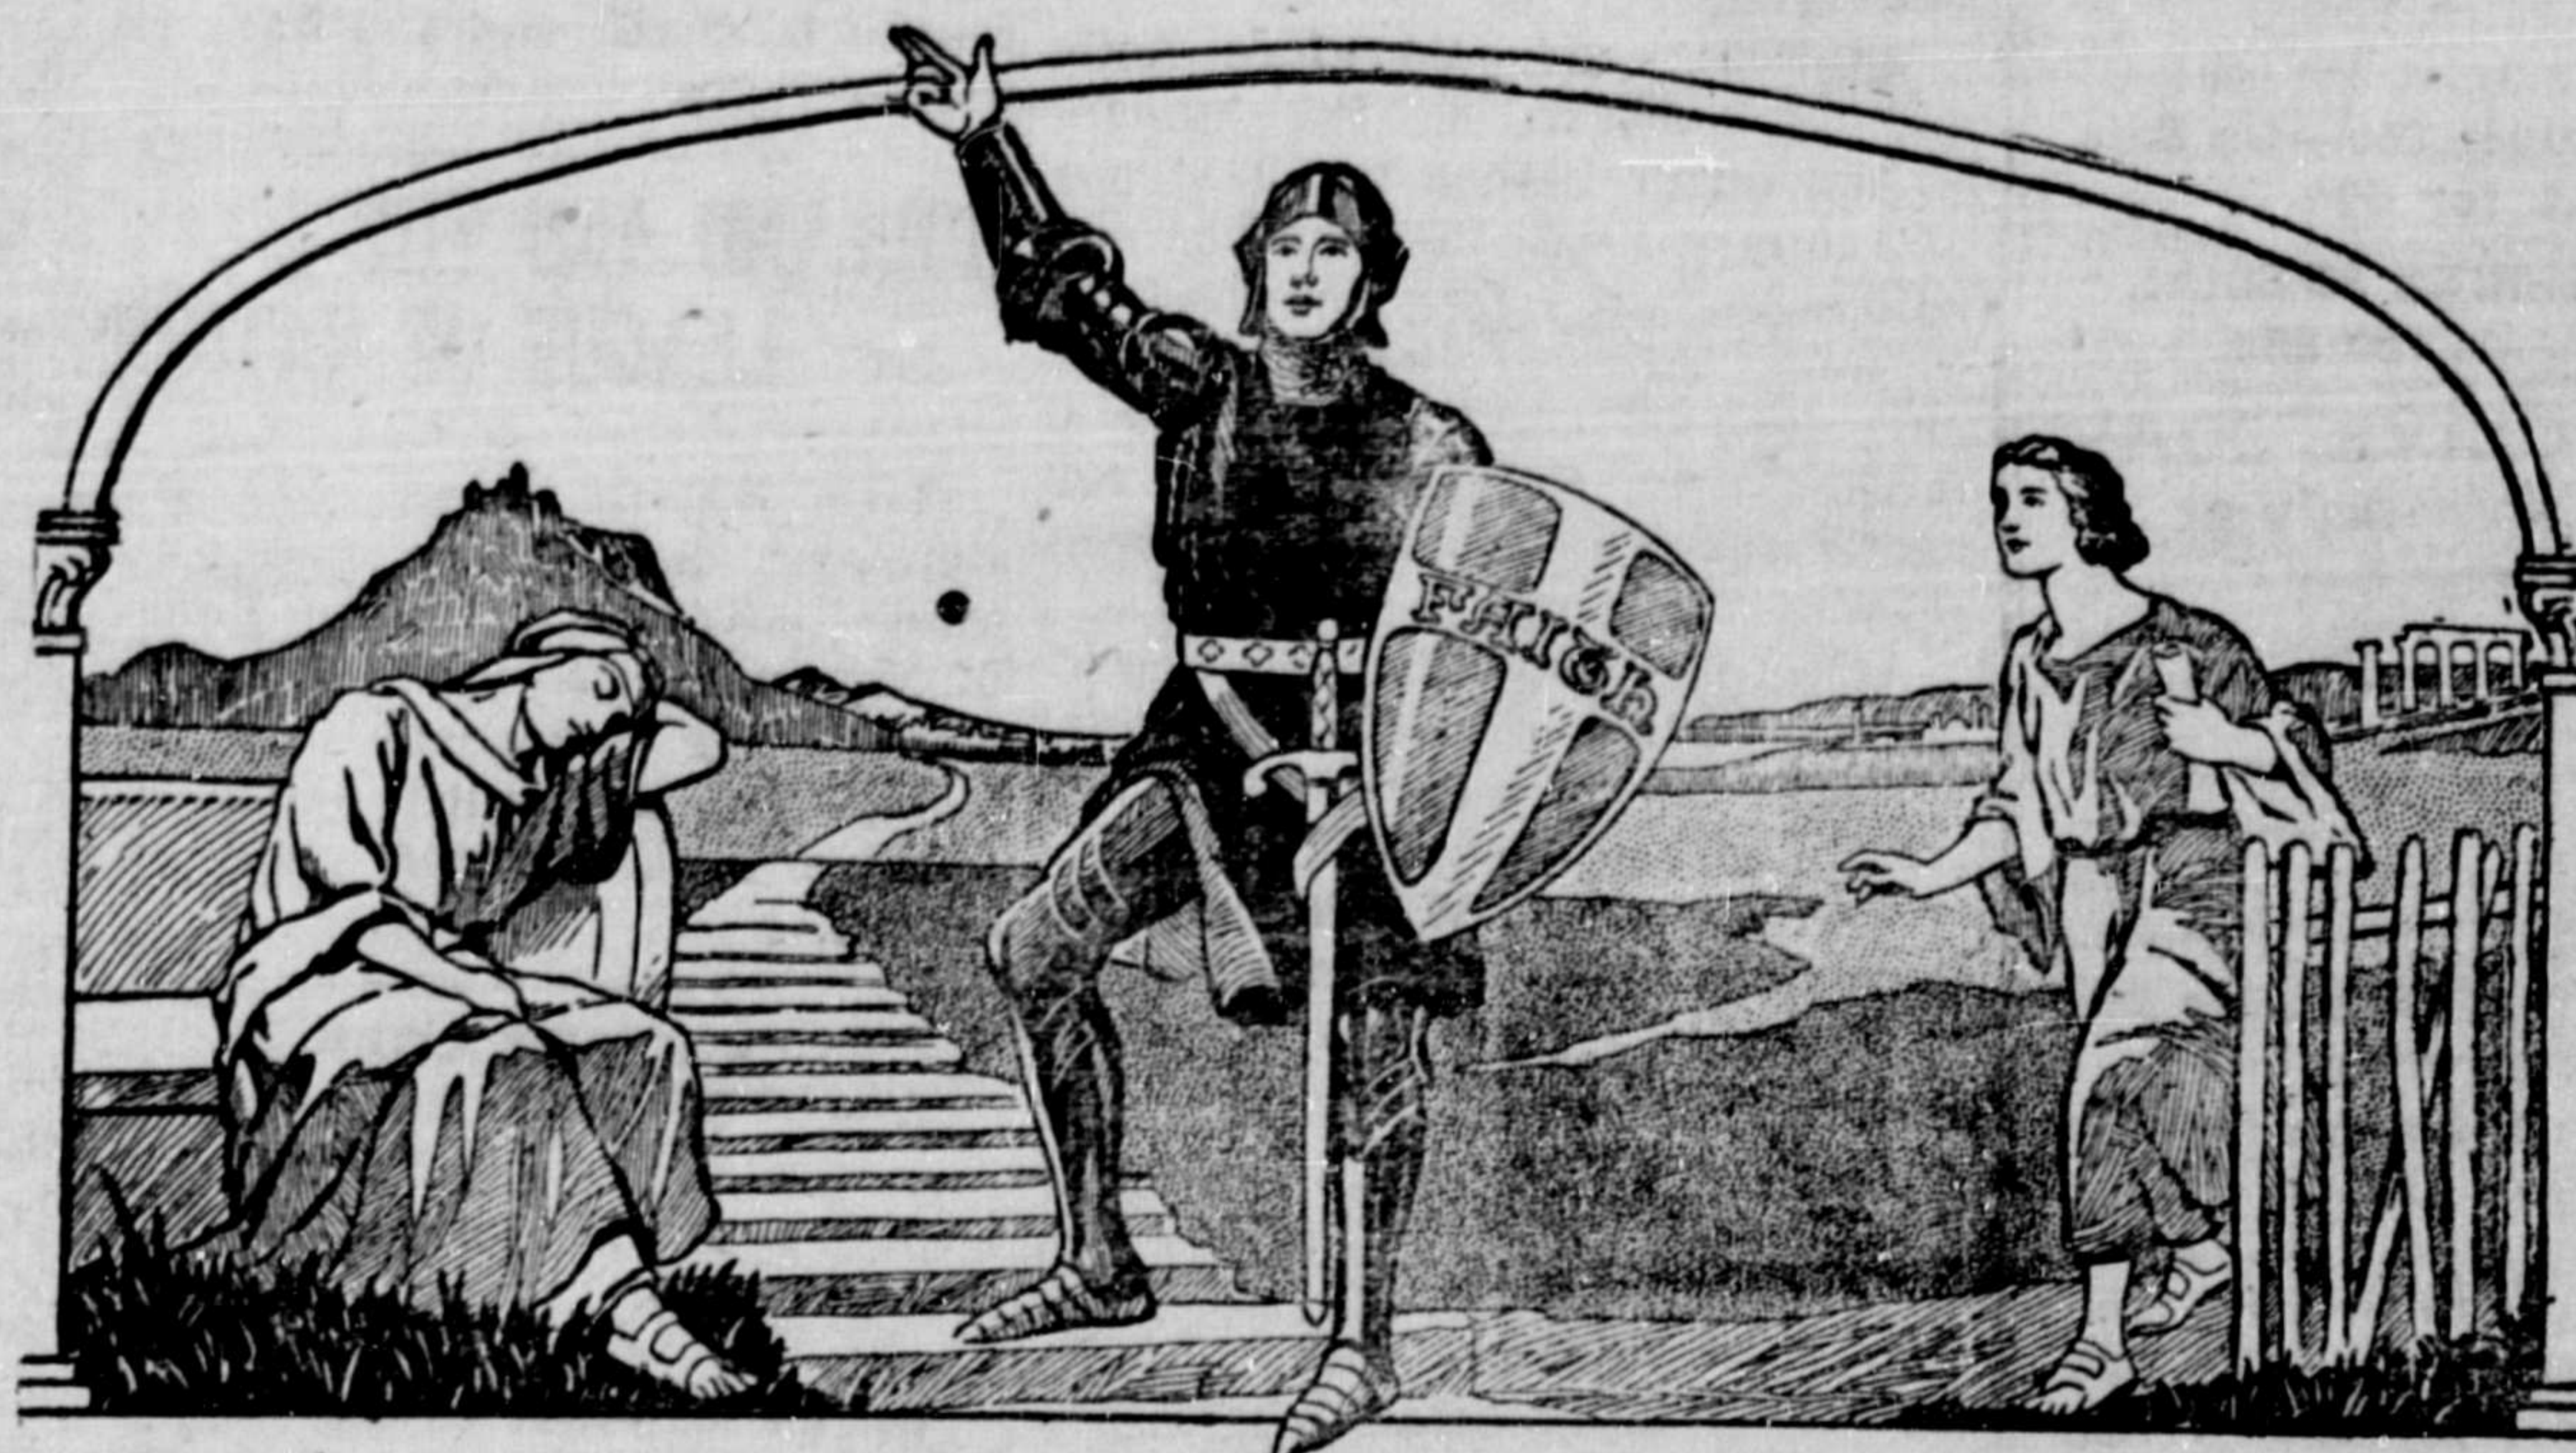

The Makers of Canada

The earliest settlers in Canada were roused by the Call of the Church to develop a noble and useful citizenship. Young and old were invited to turn their eyes from material things, and to regard the splendor of unseen realities. Knowing that Religion is the only true safeguard of stability in the State, they built Churches, Schools and Colleges, to train men for the Christian Ministry, and to spread abroad in the land the benefits of education. This they did in their poverty, and thus directed the course of history in Canada to this day.

The Testing of Canada

Because of such sacrifices, there arose in Canada a public spirit hostile towards all injustice, dishonesty and cruelty. The War tested the moral fibre of the Canadians of a later day. Would they choose material ease and wealth, or would they risk all in defence of freedom and the rights of the weak?

Over 400,000 men voluntarily offered their lives, and endured hardness as good soldiers for the defence of equity and fair dealing in all human relationships, and for the vindication of public right. Nor were the people at home less steadfast. Besides bearing the national cost of the War, they gave voluntarily for the help of the soldiers more than \$90,000,000. Canada nobly stood the great trial.

Fight the Good Fight

The Menace of To-day

That conflict is ended. Now comes another test. Not only in Canada, but all over the world, sectional and class struggles for material rewards and for mastery threaten the present basis of Society. The vision of spiritual values gained in the War is in peril of being forgotten. The supremacy of sacrifice, the nobility of service, the reality and glory of the Unseen and Eternal, the promises of Christ; these were the things by which we lived during the War. Now there is great danger that they may fade from view, giving place to selfishness and the love of ease.

The great non-Christian peoples of the world comprise two-thirds of the human race. They are mastering our modern scientific knowledge, and if they remain Pagan may yet turn it to our destruction. Paganism stands for the supremacy of Might, the very ideal

we fought and conquered in more than four years of war.

Victory only through Christ

How can we retain the heavenly vision? How can the world be guarded against another attempt to establish the Pagan ideal? Only through the Church of Jesus Christ. There is no other agency or society that has any possibility or hope of bringing about a full

realization of the brotherhood of all mankind, and the reign of the Prince of Peace.

What the Church Has Done

All the progress of humanity in Civilization for the last 2000 years has been inspired, directly or indirectly, by the Gospel of Jesus Christ. It has ended slavery, protected life, ennobled women, educated the children and safeguarded their lives, sanctified the home, established schools, missions and charities.

Victory places upon the shoulders of the Allied Nations the responsibility for directing new conditions to right ends. Canada must do her share.

The Church must prepare to meet the needs of the new day. Old standards of life with old habits of thinking and of giving will be wholly inadequate. We must do in our day what our fathers did in theirs. The hope of the world is bound up with the strengthening and extension of the Church of Jesus Christ.

The World's Need is Spiritual

I speak as one standing upon the watch-tower, and know what the need of the land is. It is not material, it is spiritual. Get the spiritual, and the material will follow. The wounds of the world are bleeding, and material things will never heal them. And that is why I hail any movement which brings the great spirit of brotherhood. The one need of England and France today is the healing and the brotherhood of the Cross of Christ.

—Rt. Hon. David Lloyd-George, Before the Brotherhood Convention, London, September, 1919.

The Coming Era

The Forward Movements

FIVE Christian Communions, Anglican, Baptist, Congregational, Methodist, and Presbyterian, are convinced that the time has come to rouse all Christians to a clearer understanding of their calling and stewardship in Christ, their King. They believe that the Church should be equipped adequately with men and money to enable it to meet the needs and opportunities of the New Day.

These five separate Communions are of one mind as to their be-

lieve in God, the Father Almighty, Maker of Heaven and Earth, and in Jesus Christ, His Son, Our Lord. They now

EACH of the Communions named is in the midst of a Forward Movement. Each is seeking by prayer and by earnest effort to accept all its responsibilities. Each is striving to extend its activities in Canada and in Foreign Lands.

Your Church needs your help, but, far more, you need the help of your Church to learn the difficult art of living wisely and well.

Consult your Clergyman. He serves you and your children. Ask him how and when you can serve in this day of national emergency. Give yourself to the task. Say: "Here am I, send me."

declare to their respective constituencies, and also unitedly, to the Canadian people, that the only effective method of making good citizens is by urging men to a more faithful practice of Christianity, by inculcating personal faith in Jesus Christ. They insist that there is no other dependable way of correcting evil tendencies in individual and national life. They call the people to repentance. To all Christians their message is, "Awake, Arise. Fight the Good Fight, For Canada and For the World."
