Carries Attack to Liberals-Defends Trade Treaties-To Permanently Cure Economic Ills

MONTREAL, Jan. 16:- "We are with the problems that face this Dominion not next year but this year," declared Prime Minister R. B. Bennett last night in laying his reform program before a large meeting in Atwater Market here under the auspices of the Montreal Imminence of Upsetting of United Young Conservative Association. "This you will find in the Speech from the Throne at the opening of Parliament. We cannot do everything at once. No one can expect the prospect of the United States that. But we can strike and we are Supreme Court upsetting President striking now."

Could it be mere political opposition because "we succeeded where they failed?" The fact was these agreements had saved the industries of Canada from ruin. What did the Pacific slope think of them? What did the Maritimes think? What about Eastern Quebec? All agreed that they had been of the utmost benefit.

#### Country Recovering

Mr. Bennett said with a degree of pride that the country was! emerging from the depression, that lit was on the upward grade, that it had maintained the integrity of its financial structure, that it had met every one of its obligations on the terms of its contracts. The task was by no means completed but the country had gone forward and was in the forefront in emerging from the depression. Measures of recovery had been passed but they were not sufficient as yet.

Having passed through the crisis and being appreciative of the difficulties, he was fully convinced of the necessity for reform, declared the Premier. The government was resolved to pass legislation to rectify the situation and remedy the causes, to ensure that the patient now well on the road to recovery should not have a recurrence.

"The capitalistic system has ser-ved us well," asserted the Premier, ELKS WIN "but it must be overhauled. We recognize that great and powerful interests will be opposed to changes. The old system has ended in abuses. in universal depression, in unemployment, in dire want amid plenty. We must end the abuses and, with your help, end them we will. That means reform. Where Pope Pius Spends Summer

The villa of Sastel Gandolfo, Ita'y, (built by Pope Urban VIII, in 1629), dominates the mountain landscape. It is at an altitude of 1,400 feet, is beautifully landscaped and is equipped with a twoway radio transmission plant. Here Pope Pius makes a hot-weather retreat, reestablishing a custom his predecessors followed until they became "voluntary prisoners" in the Vatican in 1871.
