If Dominato (1), Gillis, Letourneau every householder does something, no matter how little, (2), Murray, Astori. the effect will be to improve the city and give jobs to a great many men and women.

#### YOUNG MEN'S MOVEMENT

This is an age for young men. We have had a junior chamber of commerce formed in the city in which the young men have taken the initiative in connection with a number of public matters. Now we have a Young Liberal movement which should give a lead to the older Liberals and keep them pepped up.

In political life many a young man starts out as a radical. As he gets experience he moves into the ranks of the Liberal party and as he grows older he naturally becomes more conservative in his Liberalism. Often these older Liberals hold the party back. They repress radical policies and prevent the party from keeping up to the minute in modern movements.

It is because of this tendency of the older people to drop behind in the political race that the young men's movement is valuable. We welcome the young Liberals as a much needed organization. We hope they will stir up the older organization and make the members keep in touch with the modern trends, modern policies and modern movements. We look to the young men to lead us.
