A VENOMOUS ATTACK

In a rather venomous attack on Premier Pattullo the Vancouver Sun blames the provincial premier for the big Socialist vote at the last election, and calls on him to resign. TO THE PEOPLE OF BRITISH COLUMBIA

VOU will recall that upon numerous occasions I have advised you that it was necessary that amendments should be made to the British North America Act in order that British Columbia might be placed in a thoroughly sound position. I also pointed out that there were other matters of common concern to the provinces and the Dominion upon which new understanding and agreement should be reached but which can be adjusted under the constitution as it now stands.

I have been advised by the Rt. Hon. W. L. Mackenzie King, that a conference of the provinces and the Federal Government at Ottawa will be called sometime in November to consider these matters.

had hoped this year to visit all parts of this province and regret that I have not been able to do so on account of pressing work. I have, however, during the past twenty years, many times visited every section of British Columbia as Minister of the Crown and as Leader of the Opposition. With this personally gained knowledge and with the advice of my colleagues and members of the legislature who represent all parts of the province, I feel that I am in intimate touch with the requirements of our people.

During the past year, through foresight in keeping a nest egg of some two million dollars, your government was able to carry out a considerable amount of work of very useful character in various parts of the province. Approximately 300 miles of hard surfacing of roads was carried out this year.

In this regard I was criticised from certain quarters, who alleged that the money was being spent in the various constituencies for partisan purposes. These critics claimed that the expenditure should have been concentrated in the larger centres. Your government is determined that all parts of the province shall receive equal consideration.

Special provision was made in the sum of five hundred thousand dollars to assist our municipalities.

During the two years your government has been in office it has had to face two problems: (1) to meet the immediate present with the resources at our command, and; (2) to lay plans for future upbuilding.

Next month, accompanied by several of my colleagues, I shall proceed to Ottawa to go into consultation with the other provinces and the Dominion. I feel sure that we shall carry with us the very best wishes of our people as a whole for a most successful mission.

Work of repairing the local halibut boat Lysekil, which sustained considerable hull damage in a recent storm on the halibut grounds! of Area No. 3, having been towed down from Cordova, Alaska, last week by the Armour Salvage Co.'s power tug Algie, started at the local dry dock today. On one occasion the towline parted in the open sea! and it was only with the greatest difficulty and much loss of time that the Lysekil was picked up
