### Soviet Fliers to Re-attempt Flight Over Pole

The giant Soviet aeroplane, USSR No. 25, in which Sigmund Levanovski, intrepid Russian aviator, will make a second attempt to fly to San Francisco—via the North Pole—is shown at the Shebelkovo aerodrome, near Moscow. On his last attempt, a faulty oil line forced Levanovski back to his base many hours after the take-off. Levanovski is shown mapping the route he intends to fly on his 6,000-mile journey. Lateness of the season may make it advisable to defer the flight until next year, dispatches suggest.

### Social Creditors Will Have Total of Fifty Six Members Likely

Not One of Successful Candidates of New Party Has Had Previous Legislative Experiences—United Farmer Government Faces Possibility of Complete Annihilation

OTTAWA, August 24 (Canadian Press)—Constitutional authorities declared today that William Aberhart, Calgary High School principal, evangelist and leader of the Social Credit party in Alberta, could immediately form a government in that province and become Premier without the necessity of a by-election but, in order to lead the Legislature, must secure a seat for himself.

CALGARY, August 24 (Canadian Press)—Continuing to pile up a majority as the returns near completion, Social Credit had definitely elected forty-seven members up to this afternoon as a result of Thursday's provincial election and was leading in nine seats, leaving a possibly seven seats for Liberals, United Farmers of Alberta and Conservatives.

Four Liberals, including W. R. Howson and G. H. Van Allen K.C. in Edmonton and John J. Bowlen in Calgary, have so far been definitely elected.

John Irwin, Conservative, was elected in Calgary, and D. M. Duggan, Conservative leader, in Edmonton, later returns showing that Irwin would replace J. W. Huggill K.C., Social Credit, giving Calgary city four Social Credit members, one Liberal and one Conservative.

At the end of the twenty-second count in Edmonton, only four successful candidates had been actually decided—W. R. Howson and G. H. Van Allen, Liberals, S. A. G. Barnes, Social Credit, and D. M. Duggan, Conservative. Attorney-General J. H. Lymburn went down in the twenty-second count.

On the basis of latest returns and, subject to further revision, the standing of parties for the 63 seats would appear to be as follows:

- Social Credit, 56.
  - Liberals, 4.
  - Conservatives, 2.
  - United Farmers, 1.
- Not one of the Social Credit candidates so far definitely elected has had legislative experience.

**Aberhart's Statement**  
William Aberhart, leader of the Social Credit party and Premier Designate, in a statement today, reiterated comment made after the election results indicated his victory that the financial integrity of the province would be maintained. "Our money stands absolutely standard," he said. "Social Credit is determined to maintain the credit of the country at par. We have no intention of confiscating in any way, shape or form."

**EXECUTES HIMSELF**  
Estonian Murderer is Permitted to Take Poison From Own Hand In Expiation of Crime

REVAL, Estonia, August 24.—The first legal self-execution in modern history took place here when a 24-year old laborer, who had been convicted of murder in connection with the assault, rape and killing of a 40-year old school teacher, administered deadly potassium cyanide to himself and, with one gasp, dropped dead. The prisoner, given the choice of poisoning himself or being executed, took the drug without hesitation. The alternative of self-execution has now been legalized in Estonia.

### BALL GAME WAS TIGHT

Ocean Falls Wins From Prince Rupert Two to Nil In Thrilling Pitchers' Duel

In a spectacular pitchers' battle, with "Red" Appleby, paper town southpaw, and Bill Lambie, ace of the local hurlers, on the mound, Ocean Falls defeated Prince Rupert two to nil last evening in the second of the Silver Jubilee Carnival baseball games. It all happened in the fifth when Pat Dolan got a walk and was scored by Harvey Kelly with a sizzling three-bagger. George Arcand's bunt, in turn, letting Kelly across the plate. At no other stage of the seven-inning contest was either pitcher in any particular difficulty.

Appleby fanned fourteen Prince Rupert batsmen and yielded only four hits. Lambie had nine strikeouts to his credit and allowed three hits.

Harry Menzie was referee and the teams were:

Ocean Falls—Arcand, c.; Appleby, p.; Alexander, 1b.; Kelly, 2b.; Marshall, ss.; Sekine, 3b.; Dolan, rf.; Kulita, cf.; Baillie, lf.

Prince Rupert—Simonsen, cf.; Morin, 1b.; Bury, 3b.; Mitchell, 2b.; Lambie, p.; Smith lf.; Stiles, rf.; Gurvich, c.; Johnson, ss.

Antonelli, for Smith; Lindsay, for Stiles, and Fong, for Gurvich, were pinch-hitters for Prince Rupert in the ninth inning but to no avail.

There was to have been a third game this afternoon but weather would not permit it.

## THE ALBERTA ELECTION

The result of the election in Alberta is a reflection of the present rather disturbed condition of the country. It shows that people generally are dissatisfied and in the western prairie province it indicates that the people are ready to try anything which promises a way out of the present stagnant condition. In that province they tried a Farmer government but it had little success. The old line parties have had little chance of election there for many years past. Now they have turned from what was in reality a union government under the United Farmers to test out one of the most recent plans of curing the body politic.

The Aberhart system of social credit is nearly related to the Douglas system but it seems to be better defined, less in the clouds. The farmers and city dwellers in Alberta seem to have taken to it immediately it was propounded. Now the rest of the people of the country will watch the experiment with very keen interest. Douglas, in his recent report to the government of the province, said it could not succeed in a province owing to constitutional limitations. Aberhart declared there were no limitations that could interfere with its success. We shall see.

The election result seems to have been due to the energy, pertinacity and faith of one man, a school teacher, who was not a candidate but whom it is presumed will lead the new party and probably become premier of the province.

## THE ALASKA HIGHWAY

Throughout the central interior of British Columbia the residents are keenly interested in the move to construct a highway from Vancouver to the Yukon Territory connecting with a section carrying the highway on to Fairbanks, Alaska. While no one seemed quite certain who should build the highway, all were for it as a means of opening up this country and of extending the goodwill movement between Canada and United States.

It is claimed by the people of the interior that the Alaska Highway would mean more to them than the Peace River western outlet or any other suggested move for development and increase of business. It seems to rank next to the Prince Rupert pulp mill in general interest among the residents.

Of course the matter of route was bound to cause discussion. At Prince George the opinion seemed to be that it should go northerly from Summit Lake to Finlay Forks and then northwesterly from there. At Vanderhoof the argument was put up that the road north from there was already constructed for something like one hundred miles and that it passed through the best developed mining country in the province, a country that was badly needing an outlet. From the Omineca mines it would go to Finlay Forks with the Alaska Highway turning in a westerly direction and the Peace River Highway easterly through Peace Pass.

At places west of Vanderhoof, they were all for the Hazelton route, suggesting it go up the Kispiox River, part of which is already constructed. It is strongly urged by others that the highway go north from Kitwanga through the Kitwancool Valley. This route, it is claimed by its advocates, would be the easiest and with less new construction than any of the other advocated routes. It would tap the rich Naas Valley, the Groundhog coalfields, and other mining, timber and farming areas which would prove of great value to the province. Further it is claimed that this route provides no insuperable difficulties such as high mountain ranges to cross, the divide between Kitwanga and the Naas being a comparatively low pass.

It seems to be the general idea that the money for construction of the road will come from the United States but on what terms or under what arrangement no one can suggest. What all seem anxious for is that the Dominion Government shall confer on the matter with the United States Government with a view to arriving at an understanding which would solve the difficult problem and insure construction of the highway.

In any case engineers would have to decide the route.

## RACE IS TIGHTER

Lead of New York Giants Reduced To One Game As Cardinals Take Double-header From Brooklyn

BROOKLYN, August 24, (CP).—By winning a double-header victory over the Dodgers here yesterday, the St. Louis Cardinals moved into striking distance of the New York Giants, who dropped another to the Chicago Cubs at the Polo Grounds, for the supremacy of the National League. But one game now separates the Cardinals from the Giants while the Cubs, in turn, are only one game behind the Cardinals. One of the closest finishes in years in the National League appears to be looming between these three teams.

In the American League, the Detroit Tigers, playing at home, blanked the slipping Boston Red Sox while the New York Yankees defeated the Browns at St. Louis. The lead of the Tigers is still seven full games. The White Sox eked out a close victory over the Senators at Chicago and are in third place with but a mathematical lead over the Cleveland Indians who had an easy victory over the Philadelphia Athletics at Cleveland.

Yesterday's Big League scores:

National League	
Pittsburgh 7; Boston 5.	
St. Louis 6-11; Brooklyn 1-5.	
Chicago 7; New York 4.	
New York 6; St. Louis 3.

## AIYANSH WINS OVER MASSETT

Eleven From Upper Naas Had No Difficulty in Disposing of Islanders by Score of Five To Nil

Aiyansh had no difficulty in taking Masset into camp by a score of 5 to nil yesterday afternoon in a football game staged in connection with the Silver Jubilee Carnival sports. Aiyansh is billed to meet Prince Rupert All Stars tonight and an exciting contest is expected as the locals won over Masset 2 to 1 in a game which was played Thursday. Trophy and medals will go to the winners.

Both teams put everything they had into the play yesterday and the game was a fine example of hard soccer competition as well as good clean sportsmanship. James Andrews acted as referee.

### Local Halibut Operators Surprised at Early Closing Of Area No. 2—New Beacon Being Built At Massett Inlet—Halibut Landings

Prince Rupert halibut boat owners and fishermen received news this week of the order of the International Fisheries Commission closing the fishing season in Area No. 2, where most of the Canadian fleet operates, hardly with feelings of complete satisfaction. Indeed much to the contrary may the case be said to have been. It had been the expectation generally that the quota limit for this area would not have been reached before September 15 at the earliest and fishing plans had been made on that basis. The earlier closing will, therefore, interfere to some extent with arrangements. The feeling of the fleet is that, at least, longer notice might have been given. All of which brings up the whole policy of conservation measures and quotas. The Commission had intimated more or less officially that, on the numbers of fish showing a tendency to increase, a corresponding increase in the quota limit might be expected. It is felt by many that the numbers of fish on the grounds are now substantially increased. There is also a feeling at Prince Rupert that it might be fair to allow the Canadian fleet half of the quota for Area No. 2, permitting the American fleet the whole quota for the more remote No. 3 area in addition to the half of No. 1. The larger American boats have the advantage over the Canadian in that, when the No. 2 quota becomes depleted, they can readily move out to No. 3 area in which very few of the Canadian boats can operate. This means that the Americans can fish out No. 2 area and then have No. 3 almost exclusively to themselves. The Canadian fleet, for this reason, feels it would be but fair to grant it half of the No. 2 area quota. Actually the fishing season this year, lasting little more than four months, will have been a full month shorter than last. It was April 4 before fishing started this year.

The Prince Rupert halibut boat Embla, Capt. Alf Anderson, left last week for Namu cannery, down the coast from Prince Rupert, to take up a charter to pack pink salmon from the Queen Charlotte Islands to the cannery. The Gibson, Capt. Chris Henriksen, left some time ago on a similar charter.

Harry Scott, the Grenville Channel handlogger, who is reported to have been having good business of late in angling down the coast with safty pins instead of hooks, although we do not know why Harry should have to go to Wallace's and Fraser & Payne's to buy safty pins when Bob Gordon and Jim Thompson still have perfectly good nails in stock, is a visitor in town. Feeling that, if he does not lay off for a while there will be an over-production of timber, even if the pulp mill should come to Prince

Rupert, Harry breezed in this week and is thinking about spending a couple of months under the beneficent rays of the bright lights. He may even cross over to the Islands for a visit. We do not know whether or not there is any attraction over there but we do know the fair damsels of the Queen Charlottes will all be delighted when they see Harry. Incidentally, we have no less an authority than Harry for the report that the King of Abyssinia has had his emissaries hereabouts lately buying up all the arms and ammunition available locally and that, among other things, they have their eyes on the ancient pieces of musketry that adorn the front of the Central Hotel and the old Court House square. Muzzle loaders or breach loaders, Harry says, it does not make much difference to the Abyssinian Army, just as long as they are guns. Harry is thinking of joining up himself as it would be a good chance to get a free trip if he can fall logs, stalk mowitch and catch trout with safty pins in Grenville Channel. Harry thinks he should be quite able to help Emperor Haile Selassie round up Italians in the mountains of Abyssinia. And, if Mussolini hears that Harry is coming, he will probably call the war off anyway.

John Currie & Son are now proceeding with the work of renewing dolphins at the Cow Bay fishermen's floats where general repairs are being made by the provincial department of public works.

### Building New Beacon

The Marine apartment now has under construction a fourteen-foot concrete beacon at Seven Point Inlet near the entrance of Massett Inlet. The new light will be a much appreciated aid to navigation, particularly as far as fishing vessels are concerned.

Halibut landings at the port of Prince Rupert for the 1935 season up to and including yesterday totalled 3,034,956 pounds, of which 3,783,150 pounds was from Canadian boats and 4,251,800 pounds from American, as compared with 11,407,865 pounds made up of 5,917,500 pounds American and 5,490,265 pounds Canadian fish, at a corresponding date last year. Landings for the week ending yesterday totalled 356,000 pounds of which 148,500 pounds was from Canadian boats and 207,500 pounds from Am-

erican. The price situation was little, if any changed, during the week, the high bid for Canadian fish being 6.5c. and 5c. which the Relief, Teeny Milly, Wave and Annabelle received for catches of 15,000, 13,000, 9,500 and 9,000 pounds respectively and the low 5c. which the Unome was paid for 9,500 pounds. For American fish the high price was 6.2c. and 5.5c. which the Rap III, received for 9,000 pounds and the low 6c. and 5.5c. paid the Frisco, Explorer and Bonanza for 11,000, 32,000 and 24,000 pounds respectively.

After having spent the past couple of months at the Prince Rupert Fisheries Experimental Station of the scientific staff of which he is a member, Orville F. Denstedt will leave next Wednesday afternoon on his return to Montreal where he will resume his studies at McGill University leading to the Ph. D. degree. The work, he expects, will be completed next spring when he will be returning to Prince Rupert to remain permanently again.

Southbound on her final voyage of the season on the Alaska tourist route, C.P.R. steamer Princess Alice, Capt. Clifford Fenton, is due in port at 3:45 this afternoon from Skagway and other northern points and will sail an hour or so later for Vancouver. The vessel will stop first at the Imperial Oil Co.'s dock to take on fuel before taking her regular berth at the government wharf.

Union steamer Cardena, Capt. Ernest Georgeson, arrived in port at 3 o'clock this morning from the south and sailed a couple of hours later on her return to Vancouver and waypoints. The vessel, which had thirty-seven round trippers on board, is taking south this voyage the crews of Haysport, North Pacific and Sunnyside canneries which have closed for the season.

for the south on Tuesday evening but it will not be long before the flying machine catches up to her.

### CARNIVAL IS ENDED

balloons and serpentine and the proceedings were very jolly.

During the evening, announcement was made of the winners in the "Pageant of Nations" competition which had been held Thursday night. The first and second prizes of \$50 and \$25 were combined and split evenly between Kincolth War Dance Team and the Prince Rupert Japanese Association. The four members of the war dance team appeared in person to receive the prize from Sam Joy who was announcer for the evening.

One of the novelties of the evening was an exhibition of French foils fencing between James Bryant and Doug Christison with Chief Petty officer Instructor Robert Ross of the Royal Canadian Naval Volunteer Reserve as referee.
