NEW TWO PERCENT TAX IS PLANNED

PRICE OF GOLD IS STILL SOARING TO NEW RECORD MARKS

General Service Levy On All Incomes Over \$50 Per Month Urged

Recommendation to This Effect Made to Legislature By Educational Finance and Administration Commission—Would Not Mean Entire Additional Impost

VICTORIA, March 4: (CP)—A general service tax of two percent to be levied on all persons whose incomes exceed \$50 monthly is recommended in a report of the educational finance and administration commission tabled by Hon. George M. Weir, minister of education, this afternoon in the legislature. Collection of the tax would be made at the source of employment where possible, the proceeds being a contribution towards those general provincial services which affect the community at large. The report points out that it would distribute the cost of government services over the widest possible field. The new tax would not increase the total amount of taxation paid by every individual by two percent, it is said, for, as a result of the revenue thus derived, it would be possible to readjust other taxes, both provincial and municipal, to bring about an equitable and coordinated system. It would also make possible a reduction in land and property taxes.

One New Case This Month In County Court

W. H. McCallum vs. Lottie Rutten (Pedersen), \$61.50, R. L. McLennan for plaintiff, Patmore & Fulton for defendant, to be fixed.

The last-mentioned case is the new one. The plaintiff claims balance due on a marine insurance policy on the halibut boat Tern.

Ten naturalization applications were dealt with by Judge W. E. Fisher at the regular monthly session of court this morning.

Lost Legacy Recovered

A lost legacy, amounting to a tidy sum of money, has been recovered for six year old Beatrice Batman of Kentfield, Calif. In a fashion that would have delighted Alice in Wonderland. Recently there died in Larkspur, near Kentfield, Mrs. Josephine L. Moore, an eccentric. To neighbors before her death she confided she had buried her estate in a fruit jar in the backyard of her home. At her death she willed this estate to Beatrice Batman. The finding of the will brought a hunt for the buried treasure, but nothing could be found in the woman's backyard, so searchers gave up the hunt. The other night a neighbor, John Boden, needed wood for his stove. He went next door to the now empty house and helped himself. Suddenly he came upon the missing fruit jar. It was in a paper bag. Boden was taking it down to turn it over to the proper authorities when his pipe went out. He set down the bag to light his pipe and a dog snatched the precious bag and ran away with it. After a brief search it was found in a street gutter. Beatrice Batman is shown, above, examining her legacy. It consists of stock certificates amounting to \$500.

SCALING BIG TOLL FIGURES OF STORM

GERMAN IN BOOK CLAIMS HE WAS SPY WHO CAUSED DEATH OF LD. KITCHENER

BERLIN, March 4:—A book of exceptional interest has made its appearance here. It is written by a man who claims that, as a German spy in the Great War, he was responsible for the sinking of the British destroyer Hampshire with which Lord Kitchener, commander-in-chief of the British Army, lost his life while on a military mission early in the Great War. There has always been considerable mystery in connection with the manner in which Lord Kitchener disappeared.

Farewell Service Held Last Night

Large Attendance at I. O. D. E. Hall To Hear Superintendent Barnes

The I. O. D. E. Hall was the scene of the farewell service of Superintendent John E. Barnes on Sunday night before the local Pentecostal Assembly. His message on "The Witness Box Mystery" was impressive and, at the close of his appeal, at which Mrs. E. J. North sang the invitation hymn, entitled "Give Me Thy Heart," a number of people came forward and conversions took place.

Mr. Barnes made it clear at the commencement of his address that he was not going to waste his or the congregation's time by talking about himself or other people, but he was going to speak of the only one who was worth while, namely Christ, for Christ Himself said, "If I be lifted up from the earth, will draw all men unto me." The evangelist said that, true to the word, he drew men and women to Himself last night. Had this not been the case, Mr. Barnes would have been sadly disappointed. When the time came, if ever it did, that he did not see men and women changed from a life of sin to a life of service for Christ, then he would feel that it was time for him to give up preaching.

CASE AGAINST OTTAWA

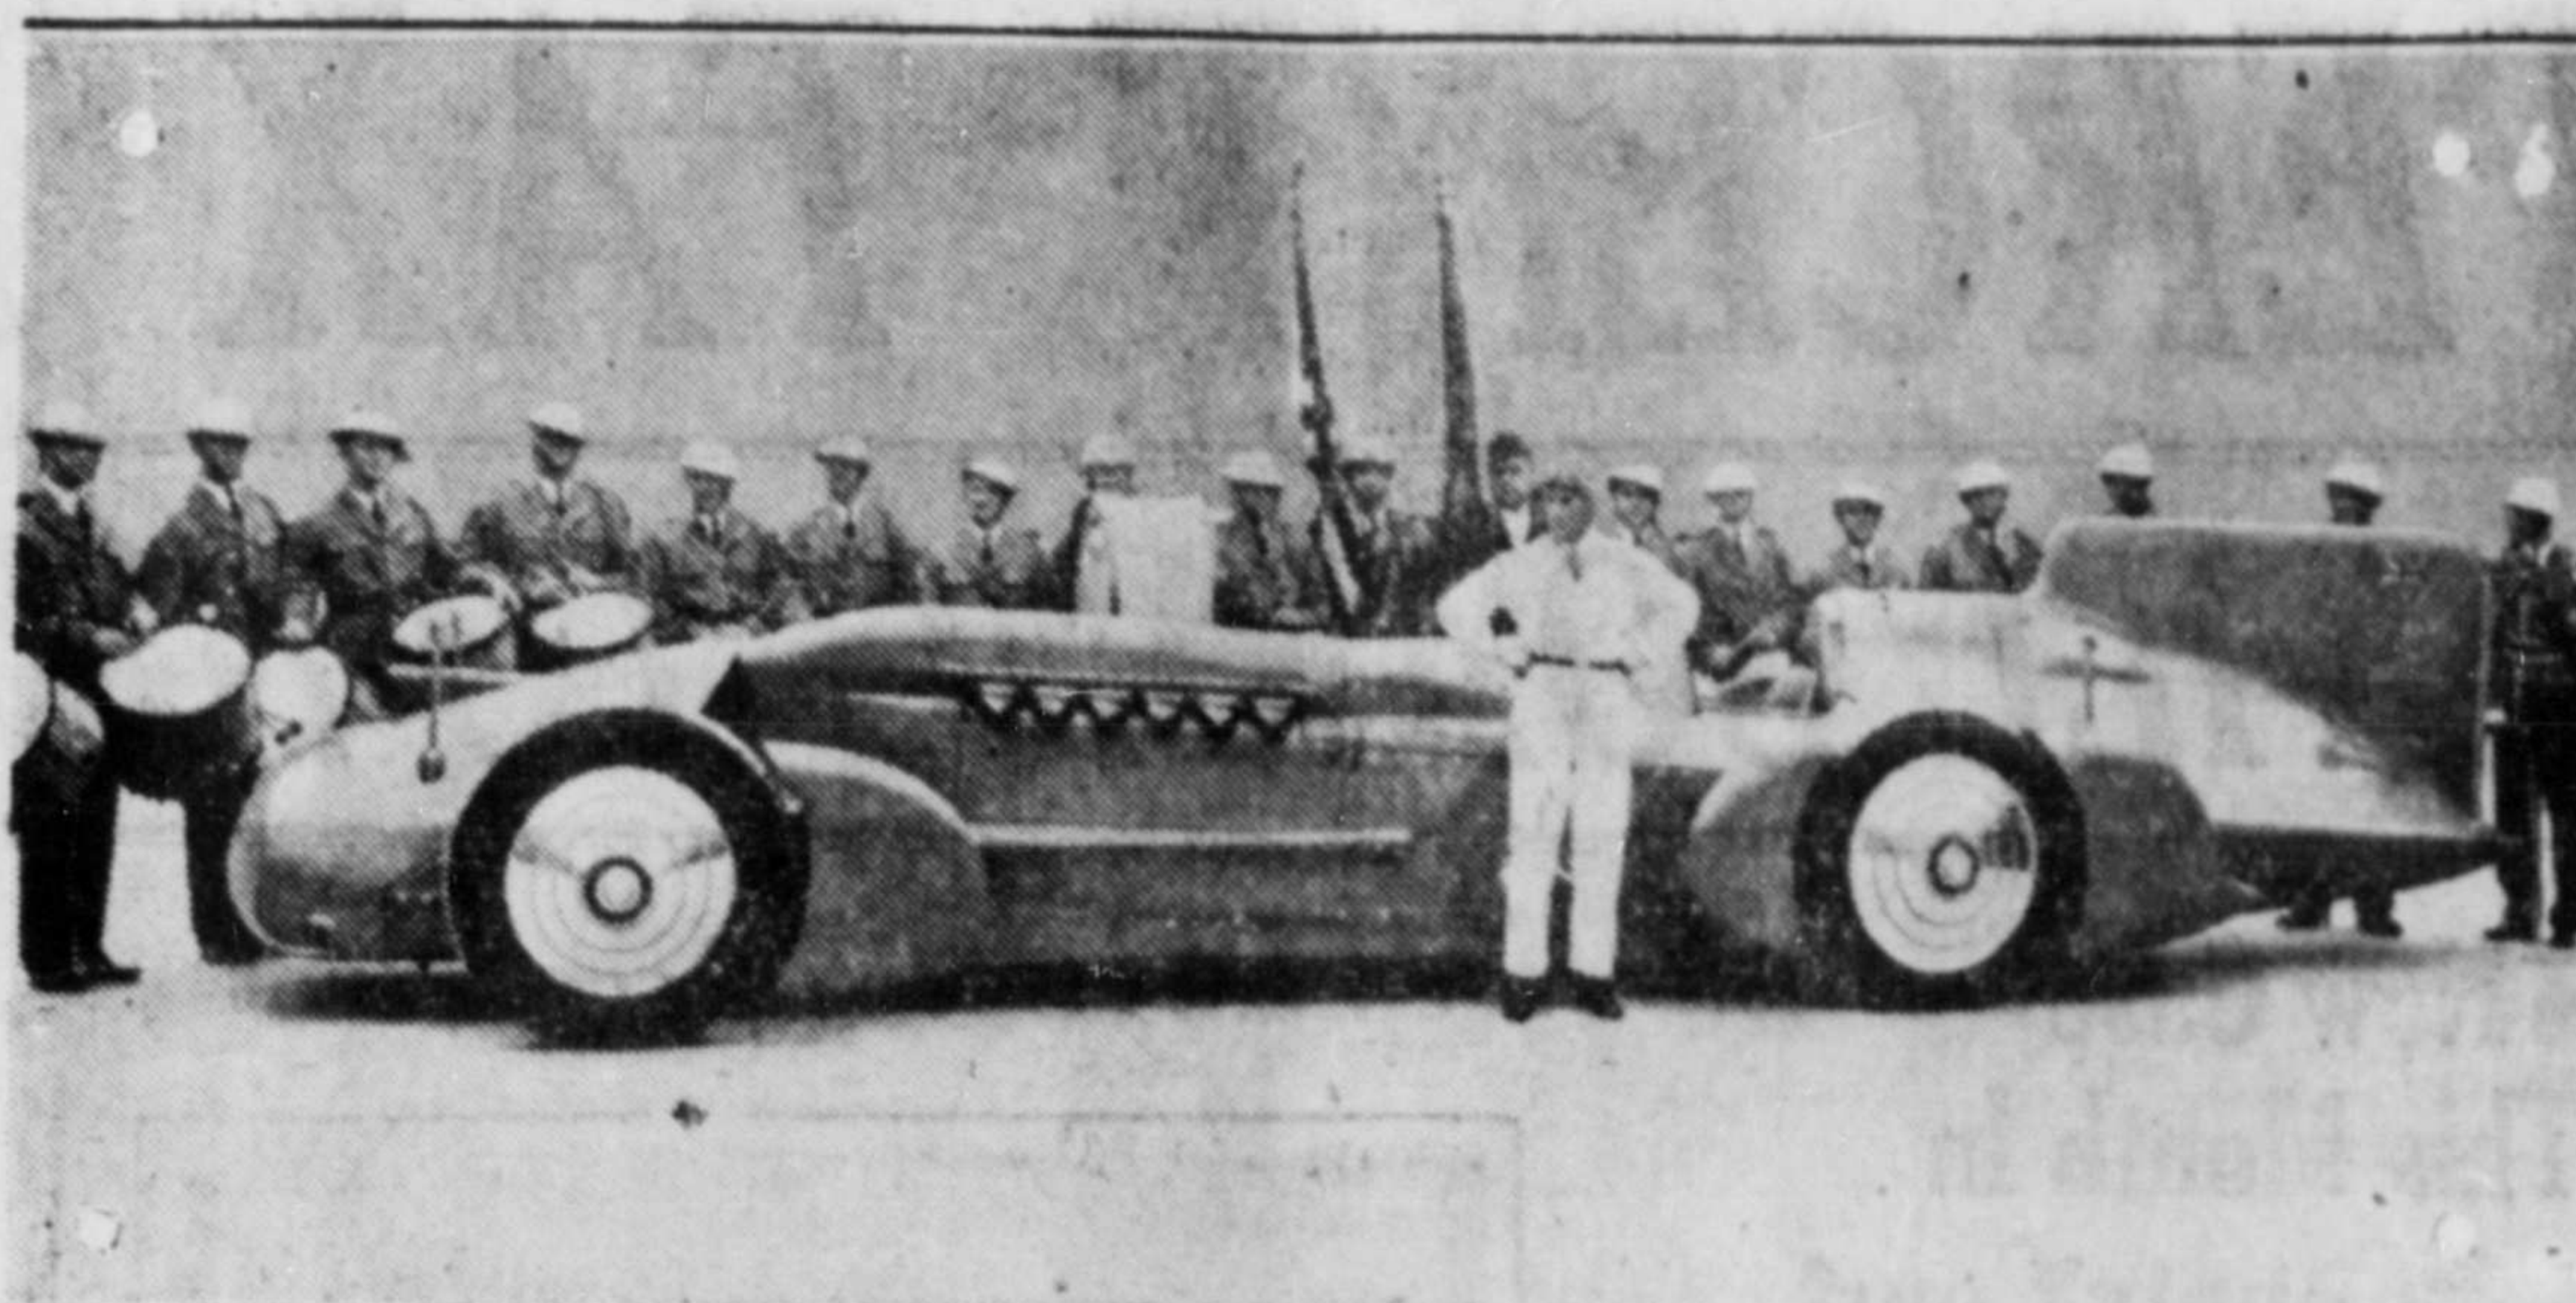

In the legislature last week Hon. John Hart made out a splendid case against the government at Ottawa. He showed that provincial rights had been invaded with the result that both the provincial and municipal governments in British Columbia had been unable to pay their way during the time of stress. He complained of a "lack of moderation and restraint" in attacking the taxation fields of the province.

The finance minister showed that at time of Confederation the province turned over to the Dominion the customs and excise duties and received in place of it a sum which was supposed to be sufficient to take care of local expenditures. This amounted to eighty cents per capita. Last year the province received from the Dominion in all \$874,561 but the cost of operation was nearly eight million dollars. During seven years ending last year the customs and excise collections amounted to \$126,858,532 while the province received back only five and a half millions.

Mr. Hart showed the income tax field had been raided by the Dominion to the extent of thirty-one million dollars. In addition to this a tax had been imposed upon the production of gold. He stated that a readjustment was imperative. It was felt that the Dominion should withdraw from the field of direct taxation as the dual taxation had the effect of penalizing enterprise. He argued that it was just as necessary that the provinces should possess the means of supplying their wants as it was that the Dominion should do so. He suggested that in addition to withdrawing from the income tax field the Dominion should give the provinces the right to levy a sales or turnover tax.

Fails to Set New Speed Record

SIR MALCOLM CAMPBELL'S BLUE BIRD.

DAYTONA BEACH, Florida, March 4 (Canadian Press)—A rough beach, which almost jolted him out of the car, thwarted Sir Malcolm Campbell yesterday in his attempt to lower his own automobile speed record of 272.8 miles per hour. Making the run south only, the Blue Bird hit 270.473 miles per hour through a measured mile. Just before entering the mile, the Blue Bird hit a bump and his goggles slid down over Sir Malcolm's nose and mouth, almost choking him. The famous British driver said that present conditions were impossible for setting a record but he would await a better beach, staying "twenty-five years if necessary." The car, he says, is in excellent trim. On Saturday in test runs, Sir Malcolm made 230 miles per hour in one direction and 208 in the other.

The East End boys led at half time 19-17.

WINNER OF CONTEST

Judges Have Difficult Time Deciding Which Was Best Limerick

Mrs. Jessie Jacobs was the winner of the first prize in the limerick competition and J. M. Dunn second.

The judges had a difficult time deciding the winners. There were several clever verses which made a play upon words but they were not understood by a good many people and were hardly considered eligible.

The winning verses were: First Said the basking shark winking his eye At a 'news' boy he saw standing by. 'With this good advertising 'Th' surely be rising; 'To wonderful heights bye and bye.'

Nature Builds Your Body—

but you supply the materials. Health suffers if you run short of iron.

Your food and drink are the only materials Nature gets to maintain bodily strength and well-being. But the tragedy of modern foods is their shortage of iron.

This was shown to be true in a group of forty-five people whose blood was examined by a competent authority. In forty cases the blood was thinner and paler than it should have been, due to the shortage of iron.

This test is a demonstration of what this fine old remedy can do for you, if... as is likely... you need iron. Wouldn't you like to feel really strong and vigorous again?

REPLIES TO EDITORIAL

Presbyterian Ideas in Regard to Second Coming of Christ

Influenced by an editorial which appeared recently in the Daily News Rev. W. D. Grant Pollingworth preached a sermon last evening in First Presbyterian Church in which he stated clearly the teachings of the Presbyterian Church regarding the second coming of Christ.

Discussing the idea of God which the editor claimed "is more and more being embraced today," a "charitable and sympathetic God, not a vengeful and a terrible one."

With reference to the editor's remark that "a minister's work should be more than disseminating the Old Testament theories," the speaker stated that, while Jesus' teaching was the most revolutionary that the world had ever known, nevertheless Jesus repeatedly recognized the authority of the Old Testament Scriptures.

Another question dealt with that of the second coming of Christ. Tracing briefly the two main theories in this connection, namely the pre-millennial and the post-millennial theories, the speaker showed that both were based on the book of Revelation which was written for a special purpose to cheer the Christians in their persecution under Imperial Rome and, consequently could not be taken as a prediction of the future.
