#### MONEY FOR GRADE CROSSINGS

Announcement is made by the federal minister of railways that a fund of \$1,000,000 has been made available for the elimination of grade crossings in Canada. Possibly Prince Rupert may have some claim for consideration under such a fund for the provision of a crossing of the railway track at Hays Creek here leading to the fishermen's floats and the dry dock, all of which is federal government property. A connection with the fishermen's floats has been badly needed for years but there has been no money with which to provide it. The intention has always been to put in a level crossing and, indeed, the road has been graded with that end in view. The policy now, however, is away from grade crossings and the alternative of an overhead driveway or a viaduct might be considered. The necessity of a crossing of the tracks at this point would be all the more important should a pulp mill be established at the dry dock as is anticipated and, in any case, as already said, it is badly needed for the fishermen's floats.

#### THE ALBERTA ELECTION

With an average of practically four candidates in the field for every seat in the legislature, Alberta will have plenty of material to choose from at the general provincial election to be held in that province on Thursday of next week. The fight appears at this time to be between the United Farmer of Alberta government party and the Liberals. The Social Credit group actually has the largest number of candidates in the field, contesting all but one of the sixty-three seats, but it has been losing ground lately, owing principally to the declaration of Major Douglas, Social Credit originator, that the Alberta plan is unworkable, and the group is not expected to secure enough members to be in a position to form a government. The Conservatives are contesting only a little more than half of the seats and will probably not be an important factor for this reason and also owing to the fact that the party is so generally in eclipse in Canada. In passing, it is worthy of note that the C. C. F. has only one candidate in the field in a province where this party should be expected to have some considerable following.

It seems reasonable to anticipate that, after the election is over, Alberta will find itself either with the United Farmers still in power or a Liberal government. There is also the possibility, it would appear, of a stalemate. While it is a dangerous thing to speculate on election results, it, however, seems evident that the result in Alberta will not be such a landslide as some of the other provinces have recorded during the past year or so.

George Arliss Here This Mid-Week In Latest and One of Greatest Pictures

Comment of London newspapers "Cardinal Richelieu," George Arliss' latest picture, which is being featured on the screen of the Capitol Theatre here this mid-week, is of interest. "Arliss at his best," says the Daily Telegraph. "Suspense and Beauty," announces the Herald. "Vastly entertaining." comments the Morning Post. "A fascinating picture, adds the Star. "A story of big business without the cigars," observes the Evening Standard.

A magnificent spectacle and superb entertainment, "Cardinal Richelieu," the film, is based on the famous play by Sir Edward Bulwer-Lytton, showing the human side of the prelate who stood behind the throne of France. The story opens with the feudal lords plotting against Richelieu because he has persuaded the weak Louis XIII to confiscate their lands. How he frustrates intrigue against him and keeps in favor with the King sustains an interesting continuity.

The supporting cast includes Edward Arnold, as the King, and Maureen O'Sullivan and Cesar Ro-
