Two-Foot Snowfall Followed by Two Inches of Rain After Which Another Freeze-up Occurs—Entire Population is Experiencing Inconvenience And Discomfort

VANCOUVER, Jan. 22: (CP)—Transportation and communication of Vancouver was paralyzed last night, the University of British Columbia, schools and places of business were closed and property damage extending into thousands of dollars had been done as a result of the most severe and freakish spell of winter weather that has ever been experienced here.

The blizzard, followed by heavy rain, broke the most severe cold spell in a quarter of a century with the mercury climbing to 37 degrees above zero for a while yesterday.

Citizens awoke yesterday to find two feet of snow on the level. Street cars were entirely tied up and taxicabs snowbound.

Broken windows, crashed in roof and collapsed sheds were listed in the toll of damage. The roof of the Forum, large skating rink in Hastings Park, was crushed in by the weight of snow.

Several dozen small craft in Coal Harbor were reported sunk by the weight of snow and boat sheds were caved in.

Coastal steamship services were seriously affected as the blizzard made visibility so low that sailings were impossible in several cases.

The cold snap which culminated in the blizzard was the most severe Vancouver had had in twenty-six years, the thermometer having skidded dizzily to 4.3 above zero on Saturday, many unofficial suburban readings recording zero.

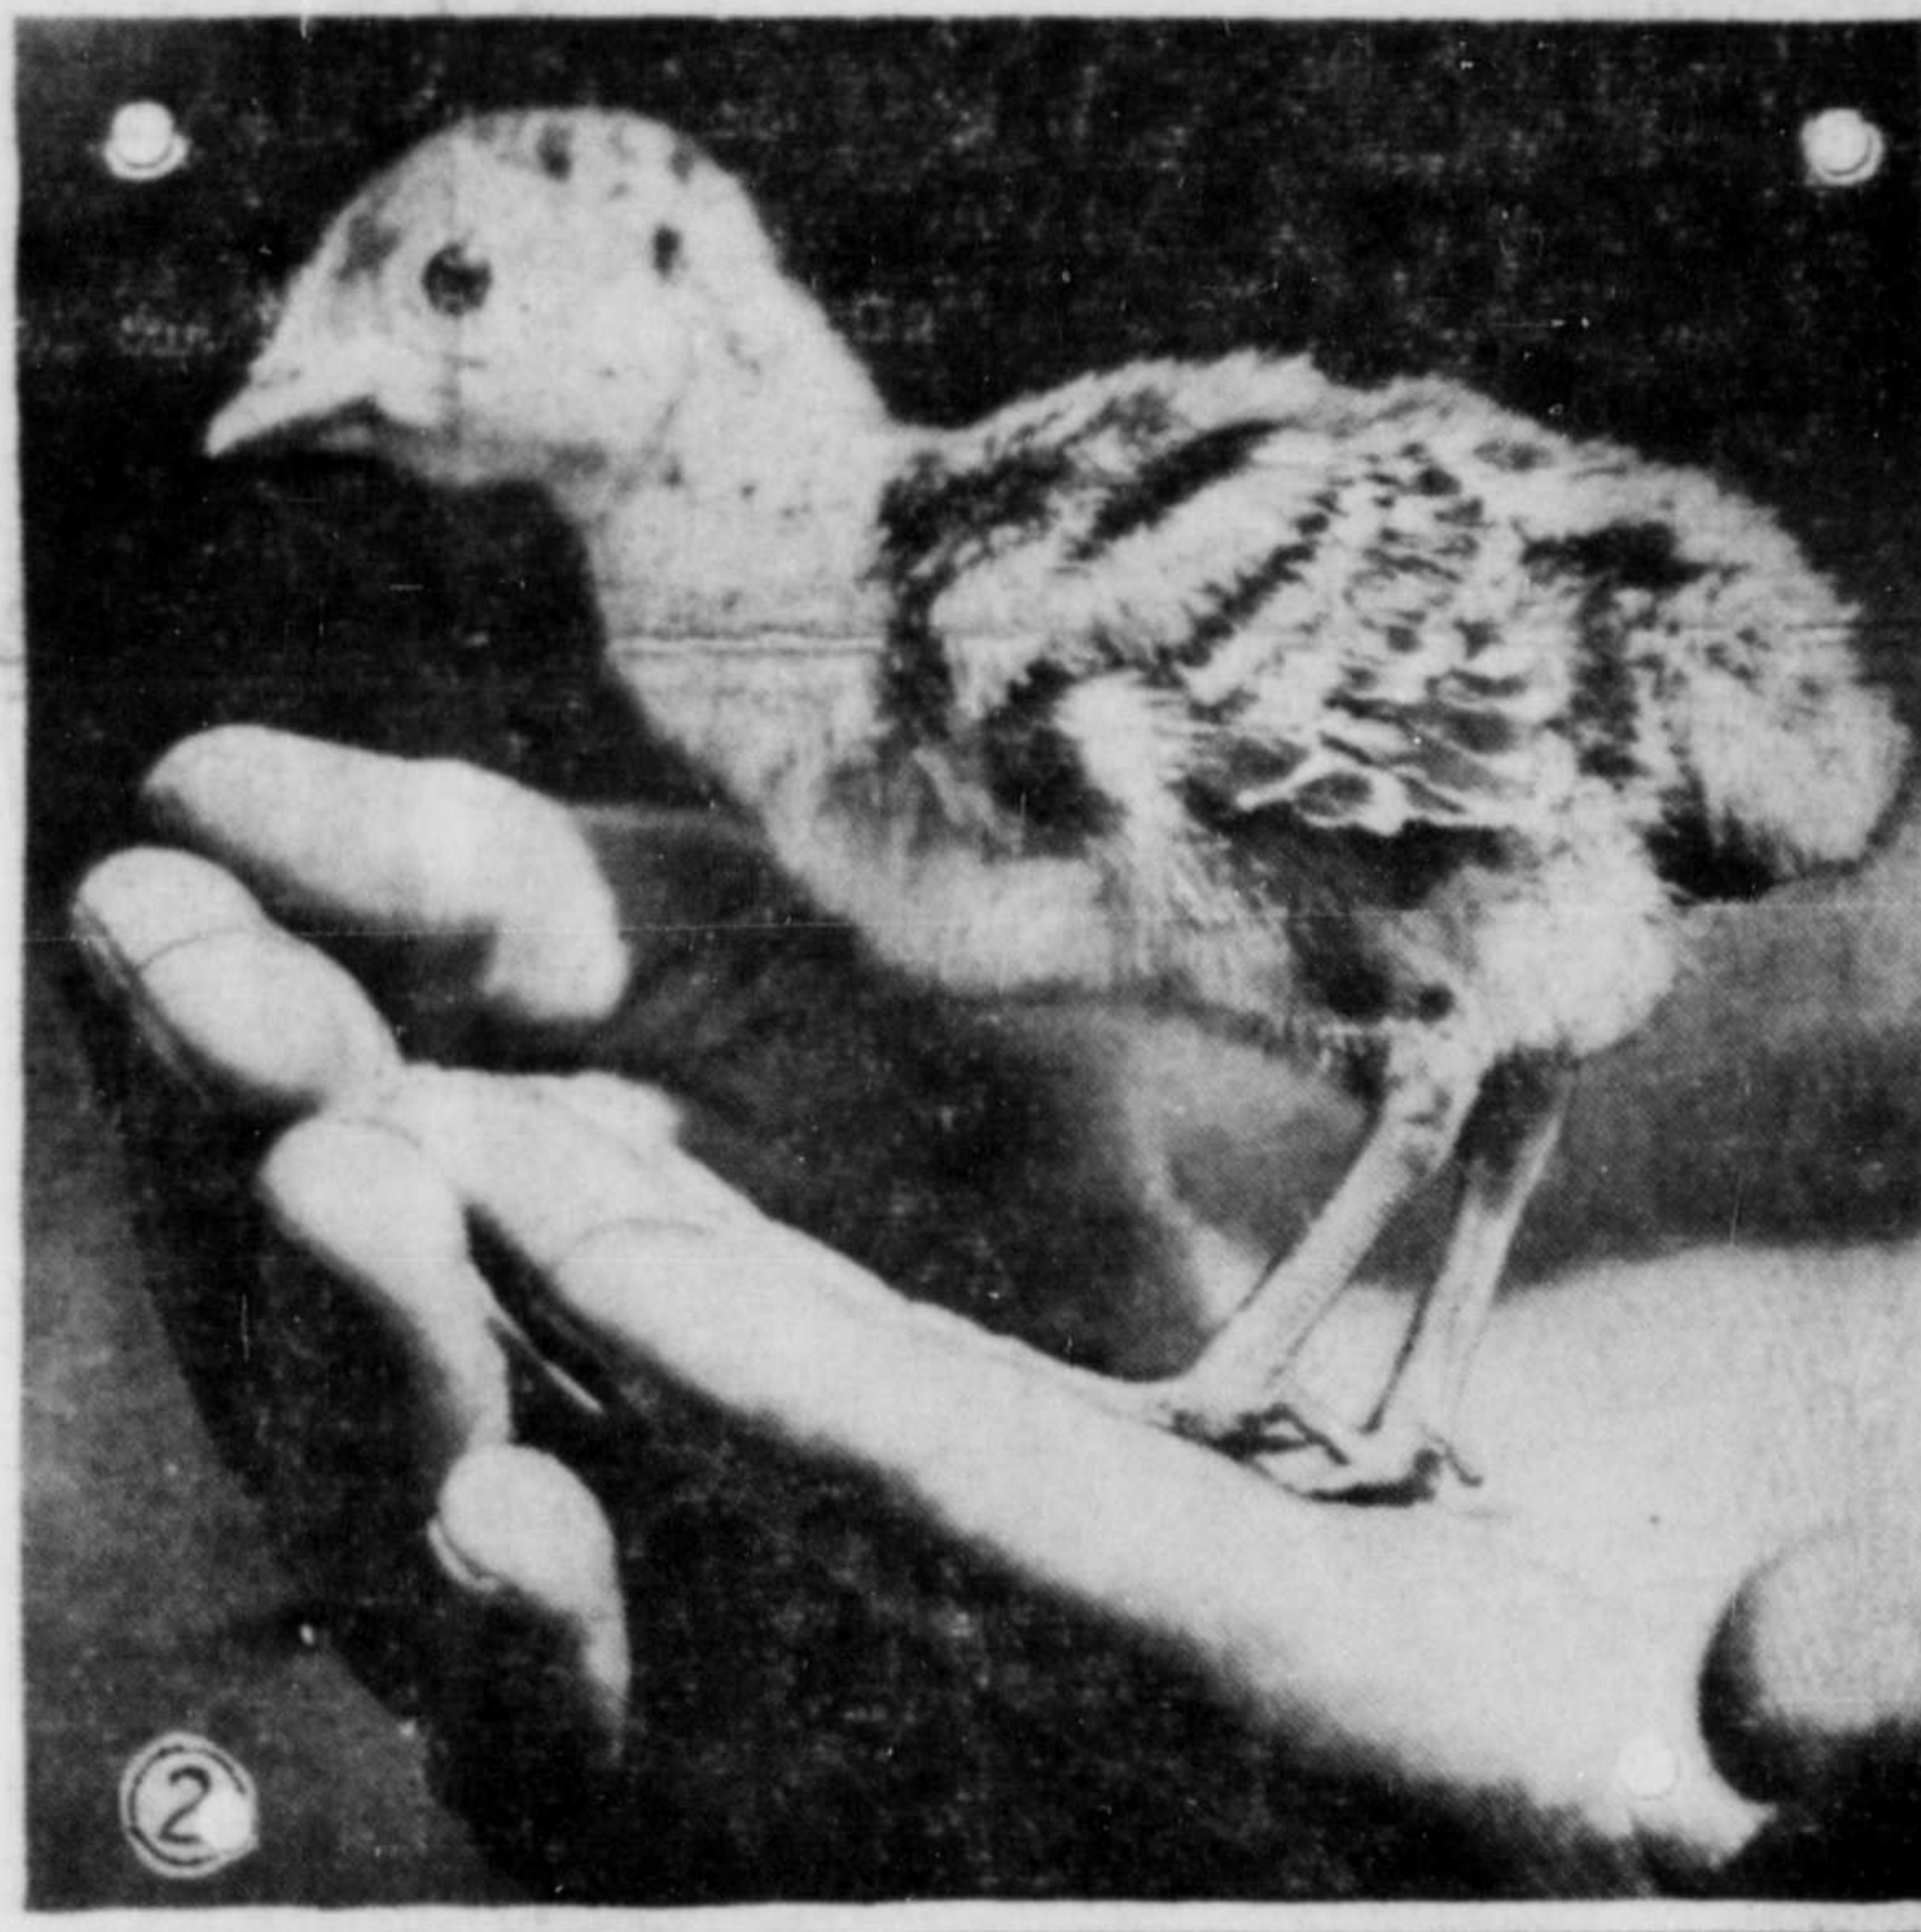

Weather Moderating Throughout the west the weather was reported yesterday to be moderating after an almost unprecedented cold snap which brought such minimum readings as the following:

150-Mile House (Cariboo), 50 below; Coquitlam, 16 below; Kamloops, 24 below; Vernon, 25 below; Victoria, 9 above; Revelstoke, 31 below; Calgary, 36 below; Edmonton, 43 below; North Battleford, with 50 below, was the coldest point on the prairies although it was unofficially reported to be as low as 60 below at some points.

Abnormal snow conditions along the coast have resulted in the most complete tie-up of logging camps in the history of the industry.

Ketchikan Below Zero KETCHIKAN, Jan. 22:—The thermometer dropped below zero here at the end of last week, the weather being the coldest the city has experienced for many a year.

KITWANGA, Jan. 22:—Grant Reed, Alaska Railway dispatcher enroute from Anchorage to San Diego to see his sick wife, Herbert Reed and Gus Gelles, passengers of Pilot Frank Dorbrandt who crashed his airplane on the Birnes Ranch in the Kispiox district near Hazelton on Sunday after having left his passengers at Kitwancool Lake while he flew on alone to Hazelton to obtain fuel of which the machine was running short, arrived at Kitwanga by Indian dog and horse team early yesterday afternoon.

LIBERALS IN ACCORD

Mackenzie King Pledges Sympathetic Consideration to Govt.'s Reform Policy

OTTAWA, Jan. 22: (CP)—Sympathetic consideration of the reform policies of the government was pledged in the House of Commons last night by Rt. Hon. W. L. Mackenzie King, Leader of the Opposition, who suggested side-tracking minor debates and legislation to give precedence to the proposed measures.

The government could introduce such legislation as unemployment insurance, revised old age pensions, new company incorporation laws and "they will receive the support of members on this side of the House, reserving to ourselves the right to consider each on its merits."

Many of the policies now enunciated by Premier Bennett were stolen from the Liberal platform, declared Mr. Mackenzie King, who claimed that the government's reform platform was deathbed repentance.

It is expected that it will take several days to make repairs at Kispiox to Pilot Dorbrandt's plane which broke its axle and bent its propeller when it struck a soft spot in the snow while attempting to take off after refuelling.

INTERESTING REPORT

The report of the annual meeting of the Royal Bank of Canada, published Saturday in this paper, was interesting, not only as showing the soundness of the bank, the improved condition of the country and hopeful outlook but also by intimating that the countries of the world are tired of excessive economic nationalism. This, naturally, includes Canada which has shut off much of its world trade by means of excessively high tariff walls. In this stand Morris W. Wilson, president and managing director of the bank, is in line with Sir John Aird, president of the Canadian Bank of Commerce, who recently asked for a general reduction of tariffs throughout the world.

PREMIER PATTULLO'S STATEMENT

Premier Pattullo issued a statement last week in which he outlined the course his government was trying to take. He said the first object was to balance the budget so that they might put through their general refunding scheme. Until this was done the municipalities could expect little help. Once the refunding was done they could turn their attention to aiding the municipalities.

In the same statement Mr. Pattullo referred to Dominion affairs. As head of a provincial government he could not presume to dictate Dominion policy but as a reasonable citizen with the prestige of his office he urged that unemployment be cured and a revival of business be brought about by a national works program on a large scale financed by the national credit without interest. He had already urged this upon the federal government and he opined that the necessary action would not be much longer delayed. He said he wanted the people to know the course by which he was trying to steer and asked their support in achieving the ultimate goal.

HELP THE WORKERS

As the federal election approaches there is, of course, a concerted effort to help the workers of Canada. Each of the various parties is trying to outdo the others in making the workmen and women of the country believe it is their friend. Fortunately, the working people of this country are able to reason for themselves. They will refuse to be carried away by high flown oratory and will look to the past as a guide to the future.

PROTEST OF LOCAL BOYS

We have received a letter which protests at the difficulty young local men find in getting work in the city, particularly in connection with the loading of grain boats. The complaint is made that the men employed on this work are practically all of one nationality, due, it is suggested, to the person choosing them being of the same nationality. The writer of the letter thinks at least fifty percent of those employed should be Canadian-born. While we strongly sympathize with the local lads who wish to secure employment, we must remind our correspondent that a person naturalized in this country is just as much a Canadian as one born in the country and is entitled to equal privileges. That apparently is what the writer asks—an equal break.

The Letter Box

THE "GREAT FLOP"

Editor, aDaily News.—
A hunter, venturing into the hills, came upon a strange skeleton the like of which he had never seen before. He hastened back into the city and told of his discovery. The citizens became excited and they speculated upon the identity of the strange monster believing that it might be the semi-mythical "Great Wham." Wise men from the Knowledge Station were dispatched forthwith and a day or two later the remains were set up in the city to public view. None could name the creature, not even the wise men from the Knowledge Station, they confessing that their wisdom was directed in channels remote from bone-labelling.

All became convinced that the "Great Wham" was at last discovered and the people swelled up with the fame of their city—"The City of the Great Wham." But a wise man in a distant Knowledge Station did not believe in "Whams," greater or lesser. His conversion was of great moment, therefore parts of the "Great Wham" were sent to him. "Aha," said he, "Great Wham! nothing! This long hair is from the eyebrows of the 'Great Flop' and this piece of skin unmistakably from the same creature!" And he proved it by comparisons with specimens at hand and many illustrations and descriptions from his books.

The Swegian naturalist Sillias had named the "Great Flop," pseudo - supercililar - punko-punko, meaning literally, "he raises his eyebrows," referring to the "Great Flop's" habit on meeting "Lesser Flops." In Sillias's time "Great Flops" were common in Swegia. The boys rode them to school and taught them to balance poles on their noses. How came this individual in this country was a mystery, but it was decided that it was brought in when very young by a Swegian immigrant from whom it escaped into the woods, eventually succumbing to old age.

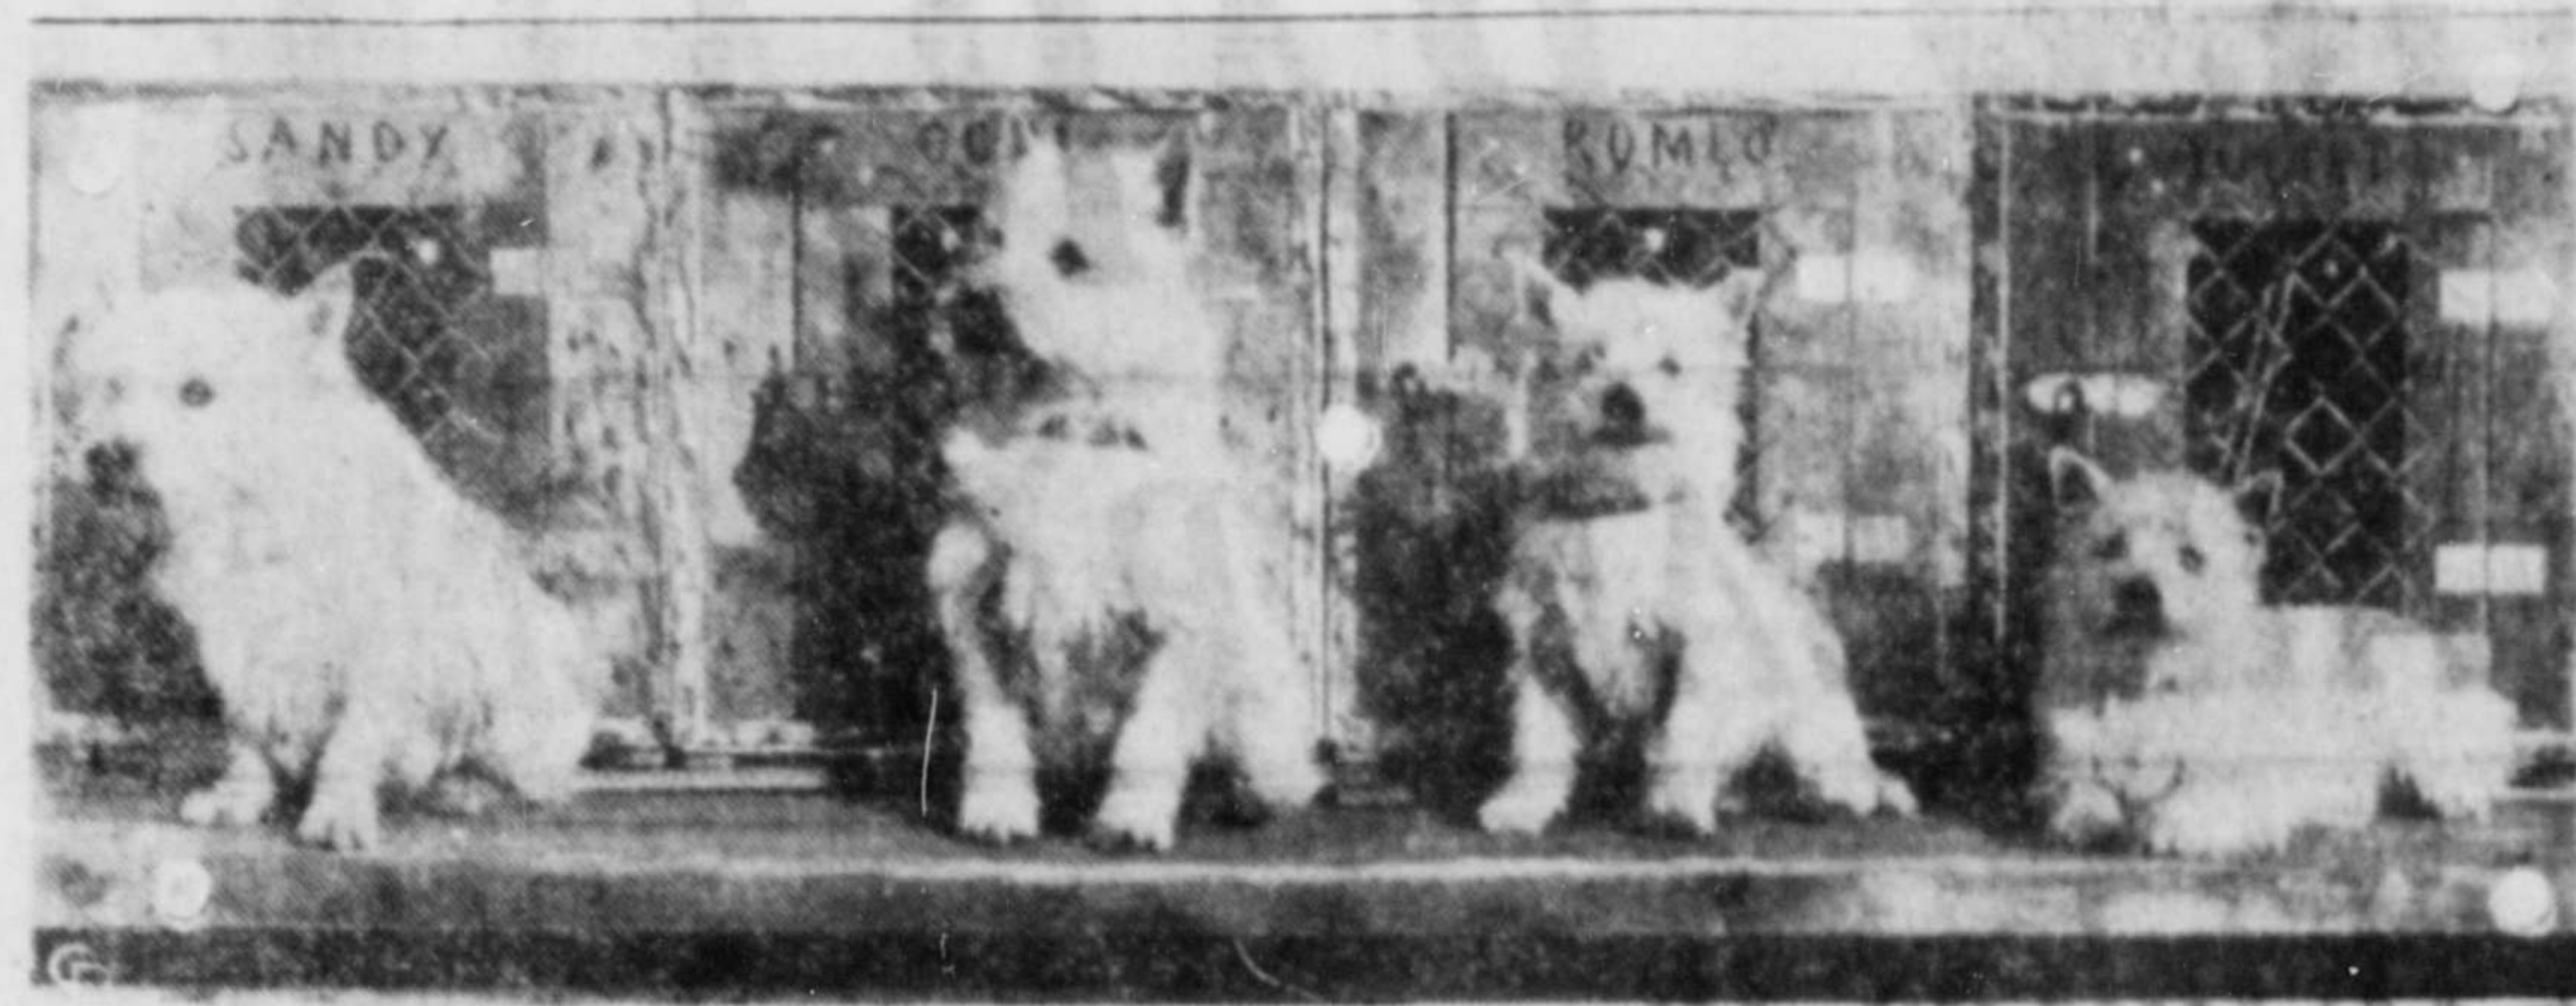

Meanwhile, the hunter ranged distant woods searching for other strange creatures. After many days he returned to the city to reap the fame accruing to him (for he knew not the wise man's decision). His entry into the city was unmarked, which greatly astonished him, and he found that conversation had reverted to usual channels—about the weather—and that when it was proved that the monster was a "Great Flop," interest had collapsed. The hunter's belief that his find was a genuine "Wham" was not shaken, however. He diligently endeavored to confute the wise men and convince the public. Through the press he said, in learned phrases and sonorous terms, that only a semi-supernatural creature, the "Great Wham," could be thus equipped. For him his find would be the "Wham" until a bigger and more convincing "Wham" was brought in. He ended with the statement that if his fellow citizens and the world in general did not wish to share in the fame of his "Great Wham," he would be happy to reserve the glory to himself.

GULLIVA.

All Small left on last evening's train for a brief business trip to Terrace.

Movie Star Purchases Canadian-Bred Dogs

Four Canadian white West Highland terriers purchased by Charlie Ruggles, picture star, as the foundation of a kennel. The dogs are royally bred, tracing their ancestry back to a famed Scottish strain. They were secured by Ruggles from Mrs. Victor Blochin, Aurora, Ont., whose estate adjoins the Happy Woodlands pet cemetery, said to be the only one in Canada.

PLAY WAS THRILLING

C.N.R.A. Defeated Moose by Narrow Margin in Senior Hoop Match

In the Senior League basketball tilt last night the Canadian National Recreation Association beat the Moose 39-30. It was a thrilling contest. The Moose opened up strong, gaining a lead of nine points within the first few minutes. The C. N. R. A. overcame the lead and a ding-dong battle was fought until the whistle went for the rest period. Half time score was 18-17 in favor of the C. N. R. A.

In the second half the C. N. R. A. commanded all the play and well deserved its victory.

Pierce and Mitchell were decidedly off color and the difference in score would have been considerably larger but for the wizard Nakamoto. Eddie Smith was the pivot man for the C. N. R. A. while Johnson grabbed 23 points.

Intermediate League
In the Intermediate League Armstrong's Canadian Legionaires won over High School 33 to 21. Legion held a five-point lead at half time and increased it in the second half. The game was hard-fought and the issue was in doubt until the last few minutes. Lindsay was repeatedly warned by the referee and finally sent to the showers.

Junior League
In the Junior League opener Crump led his Boy Scouts to a hard-fought victory over the High School 18-14. Half time score was 8-6 in favor of High School. After the rest period the Scouts made 12 points to their opponents' six. High School missed many clutch shots. Otherwise they would have had an easy victory.

Touring Australian Cricketers Draw Great Crowds

With the Cathedral of Worcester as a background, the Australian cricket team is shown on their tour of England last summer. Here is a panoramic view of the teams in play. The touring team from the Antipodes gave the great game a new lease of life (if it needed any) in England and great crowds thronged to see the play.

SPORT CHAT

Chicago Black Hawks, by defeat in Toronto Maple Leafs Sunday night, resumed supremacy in the American Division of the National Hockey League, the Boston Bruins dropping into second place following their defeat by the Canadiens at Boston Saturday night. After fairly close play in the opening period, the Toronto Maple Leafs put on another heart-breaking scoring barrage at Toronto Saturday night to decisively vanquish the St. Louis Eagles. Each team scored once in the first period, Howley making the opening goal for St. Louis while Charlie Conacher put the Maple Leafs on even terms. Early in the second period Syd Howe put the Eagles one up but Charlie Conacher, with a double assist from Jackson and Howlett, again evened up the count for the Maple Leafs. In quick succession within one minute of the close of the second period, Toronto scored twice, King Clancy making one counter and Red Horner the other. Art Jackson getting the assist in both cases Toronto scored two more in the third period, holding the Eagles still helpless. St. Louis redeemed itself somewhat Sunday night with a decisive victory over the powerful Detroit Red Wings.

Seventy thousand persons including the Duke of Kent were present at Twickenham, England, Saturday when England and Wales played to a three-all tie in the international rugby union match.

WATER IS ADEQUATE

No Danger of Shortage in Spite of Level of Reservoir Being Low

Although the level of the water in the Acropolis Hill reservoir is about seven feet below normal at present owing to the heavy draw-off caused by the running of taps to prevent freezing up of pipes in the cold spell, City Engineer F. N. Good stated this morning that there is no danger of a shortage of water as far as the requirements of ordinary consumption or fire fighting are concerned unless, of course, there should be such an unforeseen occurrence as the breaking of a main through the exceptionally heavy flow.

Make these 3 tests

YOU'LL KNOW WHY ST. CHARLES EVAPORATED MILK IS BETTER

TRY THIS: Open a can of St. Charles Milk. Note the creamy color—this is the pure fresh flavor.

TRY THIS: Have a cup of coffee "creamed" with St. Charles Milk. It blends so smoothly, tastes rich and fresh. And saves you money.

TRY THIS: Make mash-ed potatoes with St. Charles Milk. That pure fresh flavor gives greater deliciousness.

It's Better—And you can prove it.
