"Vancouver 4, New Westminster 3" came the flash over the wires to The Daily

the Minto Cup hangs in the balance. When the team meets again it will be on

Vancouver's home ground, and lacrosse enthusiasts in Prince Rupert expect great

WHAT RECIPROCITY MEANS TO THE PEOPLE OF CANADA

Reciprocity with the United States is now at the disposal of the Canadian people. It rests with Parliament or the electors to say if we are to have the benefits of the enlarged free market which it will bring. Look at the new market possibilities in the list of Canadian products which would thereafter have free entry into the United is going and going fast.

Laurier and Larger Markets is the policy for Canada.

WAS SIR JOHN THOMPSON A TRAITOR?

When Parliament was dissolved in 1891, Sir John Thompson, Minister of Justice in Sir John Macdonald's Government, issued this address to the electors of Antigonish:

"At the election which will take place on the 5th day of March, I will be a candidate for re-election as a member of the House of Commons for the County of Antigonish.

"The Government, of which I am a member, is appealing to the country with a policy which we believe will be heartily endorsed by a great majority of the electors. We have made to the Government of the United States, through the Government of Great Britain, Other Clocks at about proposals for reciprocity in trade, which we have good reason to believe will result in an arrangement by which the markets of the United States will be reopened to the products which our people desire most to send

"A fair measure of reciprocity is what we desire, and we have no doubt that that can be obtained without undue sacrifices.

"I respectfully ask your support and votes, and I pledge myself to serve the best interests of the country, if I should be honored by a renewal of the confidence which was reposed in me at the last elections, and for which I shall be forever grateful. I remain, gentlemen, your obedient servant,

"JOHN D. THOMPSON."

"Antigonish, Feb. 24, 1891."

Will some ingenious Conservative please explain why the "fair measure of reciprocity," which was so desirable in 1891 is now become BIG REDUCTION a national menace, and a sinister attempt to destroy Confederation? Or was Sir John Thompson a traitor?

So the Conservatives have withdrawn that offer of a fifty dollar prize for the discovery of the union label on the Duncan Ross Reciprocity Speech published by the Prince Rupert Publishing Company's union printers. Such is the compelling power of the simple truth that the label was left off the pamphlet contrary to instructionseither deliberately or by accident—by a union printer, who before the ink was dry on the plates, left the employ of the Prince Rupert Publishing Company without warning and started up in business with the gentleman running the Conservative campaign, under the discarded name of the company which printed the pamphlets.

The facts not only spoke for themselves clearly and unmistakably, but they hit home and hit hard too.

On the subject of printing, have you taken a good look at the imprint on that pretty picture poster of Mr. H. S. Clements'. With p. such intimate associations with at least one of Prince Rupert's printing Boy's Watches houses isn't it rather surprising that Mr. Clements didn't have those pretty pictures of himself printed in Prince Rupert? Still when you 150 Watches come to think of it perhaps it's not so very surprising. Mr. Clements may have been afraid that contrary to instructions-either deliberately or by accident—something, the union label for instance, might have been left out of his poster. Besides though he has made friends with Prince Rupert printing people Mr. Clements has so many more Vancouver friends in all lines of business to think of.
