PRICE FIVE CENTS

WAGE-EARNERS ENDORSE ROSS AND RECIPROACITY

MEN HAVE NO USE FOR CONTRACTS OR CLEMENTS

Main Issue of Mass Meeting Held in Majestic, Became Mazed in Political Melee—Workers Want Day's Labor on Woodward Waterworks—Council and Clements Severely Criticized

The Majestic Theatre was crowded to the doors on Sunday upon the invitation of the I. W. W. to discuss the question of station work on public improvements as compared with day labor. E. Morse presided and among those who spoke on the subject were Mr. Shaw, Mr. Hunter, Mr. LeBlanc, Robert Gosden and W. H. Montgomery, most of them arguing against the employment of small gangs of irresponsible contractors bidding against each other instead of the city doing the work by day wage under a responsible engineer and foreman.

Mr. Hunter introduced a little politics into his speech. He said that in a few days we were to have an election and when the two political parties came together it would be to crush the working man. He had met more acquaintances during the last few days than in months before in Prince Rupert. He was getting pats on the back and all kinds of smiles. He had had a hand shake from Mr. Clements. To hear that gentleman talk one would think he must have come over with William the Conqueror, but as a matter of fact when Mr. Clements was a brief resident of Prince Rupert he represented Standard Oil. He could not conceive of any representative of that monopoly, or of any contractor, being of any benefit to the working man.

"You remember at the first city election," he said, "there was Alderman Hilditch, the contractor, who posed as a labor candidate, and I and a great many others here gave him our votes. Where do we find him now? (Laughter.) We see him waving the old flag and talking about reciprocity, which fortunately he knows nothing at all about. If it were not for Little Eva we should probably find him boosting for reciprocity."

Robert Gosden said some called the members of the council gentle-

men but he called them rotter scoundrels. They had been elected on a pledge to increase the wages to 45 per hour for an eight hour day, but they had repudiated this and now wished to force this station work on the men which was a cheaper system so as to get out of paying the rate they had promised. The men did not want cheaper work and he hoped they would all stand together and put the contractors on the bum.

Other speakers argued against the station work system.

DESPERATE BANDIT HELD

Notorious Edward Davis Charged With Abducting Gladys Price.

(Canadian Press Despatch)
San Francisco, Sept. 19.—Edward Davis, who was captured at Hannah, N. D., yesterday, is charged with abducting Gladys Price, the Manitoba school teacher. He had escaped from Folsom prison where he had been sentenced to serve a three year term for robbery. His escape eighteen months ago, with eleven others, was the most dramatic in western prison annals. They stabbed to death two guards and carried two others twenty miles to shield them from the bullets of the pursuing posse. He will likely be turned over to the Californian authorities.

NO HOPE OF RESCUE

Three Men Entombed in Morning Star Mine

(Canadian Press Despatch)
Leadville, Sept. 19.—All hope of rescuing the three miners who have been imprisoned in Morning Star shaft since Saturday were dashed to the ground today when a fresh cave-in occurred. It will take another day to clear away the debris. The men are cheerful and can communicate with the outside through a pipe. They have not been told of the fresh cave-in.

DUNCAN ROSS, LIBERAL CANDIDATE FOR COMOX-ATLIN

"I AM FOR RECIPROACITY; IT'S RIGHT FOR WORKERS"

Working Man's Vigorous Support of Duncan Ross at Liberal Rally—Rousing Speeches Last Night Before Enthusiastic Double Audience by Duncan Ross, Thos. Dunn, and Live Liberals

L. W. Patmore presided over a thronged smoker held in Duncan Ross's committee rooms last night. Both halls were packed to the doors with eager listeners to speeches by Mr. Patmore, Duncan Ross himself, Tom Dunn, A. Marson, and Charlie Hunter. Bursts of applause greeted the arguments in favor of reciprocity, and Tom Dunn's crushing condemnation of the unfortunate Clements. Despatches received every few moments from scouts posted to estimate the strength of the opposition forces told of pitifully small numbers attending the Conservative committee rooms. Laughter and cheers greeted every fresh bulletin.

Chairman and Fisheries

L. W. Patmore, whose powerful criticism of the extraordinary Halibut Pamphlet published by the Conservatives is published on another page, tore the jaundiced looking pamphlet to ribbons in his speech opening the meeting, and was greeted with loud applause. He was followed by Mr. Duncan

Ross who seized on the remnants of the Sawle production and pulverised the puerile arguments to pulp.

Knocks the Knockers

With merciless emphasis Mr. Ross laid bare to his listeners the disloyal notes in that yellow pamphlet which deliberately seeks to belittle the chances of Prince Rupert as a fishing centre in the eyes of the surrounding communities, saying that the certainty

that through the G. T. P. Rupert will become a great fish distributing centre. The yellow pamphlet gloated over the statement that this was a "false hope." Those who could father such sentiments in a pamphlet circulated in Prince Rupert where the spirit of enterprise, and ever increasing enterprise prevailed, deserved to go down to ignominious defeat. But such sentiments came only naturally from a party who had selected for their representative a man whose best boosting was always done for Vancouver, and whose worst knocking was directed against Prince Rupert. Mr. Ross was received with unbounded applause.

Tom Dunn's Attack

Like one of Napoleon's "Old Guard" Tom Dunn took the platform. His long experience of men and minds in the West gives him a particular and penetrative power over audiences in Prince Rupert. "They shout out 'Canada

OWING TO THE HEAVY DEMANDS ON SPACE OCCASIONED BY THE PRESENT GREAT POLITICAL AND ECONOMIC ISSUE BEFORE THE COUNTRY, THE DAILY NEWS SERIAL INSTALLMENT IS HELD OVER UNTIL TOMORROW. : : :

DIRTY WORK CHARGED IN LETTING CITY CONTRACT

Ald. Newton Discovers that Horrigan is to be Paid Two Dollars Per Foot for Removing Plank Roadway—Hilditch Strenuously Objects to Investigation

A raft of small bills recommended for payment by the board of works came before the council last night which disclosed the fact the city is still without an active purchasing agent. Alderman Newton asked if the goods referred to had already been purchased. Purchasing Agent Woods said he had seen some of them delivered but he did not know anything about them. This led to another attack by Alderman Newton on the system, or rather entire lack of system, under which city purchases were made. Alderman Hilditch looked over the bills and admitted that many of the goods had been ordered by himself but said they didn't amount to anything—about \$50 would cover it.

Bare-Faced Jobbery

There was another point of a more serious character, however, brought up by Alderman Newton. This was the bill of Mr. Horrigan, contractor, amounting to \$3686, for removing plank roadway. The charge, as Alderman Newton pointed out, was \$2 per foot, while there had been contracts let for the same work for as low as 25c to 33c per foot. A matter of such glaring magnitude ought to go before the people to pass upon. They were being done out of \$3000, and he never heard of such a bare-faced piece of unfairness. He thought the people should be informed who was responsible for this loss.

Called Mayor to Order

Alderman Hilditch did not think it fair to go into such a matter publicly when as a matter of fact Alderman Newton knew all that was going on and could make his objections in committee. He thought the Mayor was remiss in his duty in permitting such matters to come up. His Worship should endeavor to maintain order.

The Mayor—"It is perfectly proper for any member to question a bill when it comes up for payment."

Looks Like Rascality

Ald. Newton—"I claim there

has been huge irregularity somewhere, and I certainly do not propose to sit here and see \$3000 going from this council in useless expenditure and say nothing about it. It looks to me like rascality and I am going to pursue the matter to the bitter end no matter whether Ald. Hilditch likes it or not."

Ald. Hilditch—"I am objecting to this because Ald. Newton is merely talking to the gallery. Why did he not do his talking in committee?"

Ald. Newton—"Ald. Hilditch doesn't know what he is talking about. We discussed this matter this afternoon before he came in, and he is now merely trying to do a lot of smart talking himself."

Bill Must be Paid

Ald. Kerr—"I understand there will be another meeting next week to which this matter might be referred. While I do not agree with this contract in many ways I think it should be carefully considered and it might as well be held over for a special meeting."

Ald. Hilditch—"There is not a single thing in it to discuss. We will have to pay the bill anyway."

Ald. Douglas—"There can be nothing wrong in investigating it and I do not see why Ald. Hilditch should object."

Hilditch Still Objects

Ald. Smith—"I do not think anybody is going to suffer very much by letting the bill go over. I was a member of the last council and I would like to know why the contract was given at that price. It will injure nobody by holding the matter over a few days."

Ald. Hilditch—"I do not see where the question comes in. The engineer says he had to give the contract to Horrigan and as he did give the contract we have to pay the bill."

Ald. Kerr—"If we are going to investigate it we should do so before we pay it."

This ended the discussion and Ald. Hilditch's strenuous fight against investigation.

RUPERT'S CITY HALL NOW IN COURSE OF CONSTRUCTION

Plans Adopted Last Night and Workmen Already Doing the Excavating—Detailed Specifications Will Soon Be Ready

Prince Rupert's new city hall is under way. At the meeting of the council last night there was a report from the board of works recommending the adoption of the plans for the municipal edifice prepared by Messrs. Potter & Laidley, architects. The estimated cost of the building is \$14,750, but the board reported that it will be necessary to have a heating plant put in at an approximate cost of \$1900.

The front elevation of the building on Fulton street is plain in design and will be of stone covered with stucco. The main entrance opens into a hall from which springs a wide stairway to the two floors above. On the right of the entrance will be the office of the chief of police and in the rear a large day room for prisoners almost surrounded by cells. Across

the hall is the office of the superintendent of public works, the kitchen, heating apparatus and so on.

On the second floor there is provision for a court room 24 x 37 feet, and commodious offices for the mayor, city clerk, accountant, assessor and tax collector.

In the front of the third floor on the right is a council chamber 24 x 42, a committee room 14 x 24, general office, city engineer's office and bookkeeper's office. On the opposite side is a library 24 x 36, drafting rooms and large concrete vault.

The council have ordered detailed maps and specifications and meantime men are engaged getting excavating for the foundation. The construction is to be carried on as rapidly as possible.

MORE ELECTRIC LIGHT IS PROMISED FOR DECEMBER

City Council Decides to Order Two Ridgway Engines of Sufficient Power to Thoroughly Light the Whole City for a Long Time to Come

It was long after midnight when the city fathers adjourned, one of the last pieces of public business they carefully discussed being the obtaining of new machinery to give an adequate electric light supply until the Hydro-Electric system is ready for operation. All the tenders for electric lighting had been referred to Engineer Ross, of Seattle, for him to report upon, and upon these he recommended the purchase of two Ridgway units to cost \$14,590.

The council decided to wire Mr. Ross to have a contract drawn up with the Ridgway company for the two engines, together with a bond, and to forward them as soon as possible for the signatures of the council.

The company undertakes to deliver the two engines from the factory within eight weeks from

receipt of the order, and it was suggested that the additional light would be available by the middle of December. This would allow three or four weeks for installation after the engines were delivered here, and the plant will be in itself sufficient to light the whole city. It is to be installed in the same building, the present plant to be an auxiliary.

Whether the arc system of street lighting should be adopted was not settled. The lowest tender was the General Electric Company. For the switchboard the lowest bidders were the Westinghouse and Handasyde & Hurt. These tenders were left in the hands of the mayor and light committee, with power to act.

HOW RECIPROCITY HELPS THE WORKING MAN

One of the speakers at the meeting of working men on Sunday evening pointed out that efforts were being made to stamper the working men against reciprocity by the cry that if the cost of living goes down, as it undoubtedly will under reciprocity, wages will drop also. This is entirely false. In the whole of economic history there is not a single instance upon which to found such a cry.

The determining factor in deciding the price of labor is not the cost of living but the supply and demand for labor. That is why the working man in British Columbia can live more comfortably and have a greater surplus above the cost of living than the laborers in the congested districts of the older communities where labor is more plentiful.

Reciprocity, while it will reduce the cost of living, is more likely to increase rather than decrease the rate of wages; for the reason that on the heels of reciprocity will come a greater demand in British Columbia and around Prince Rupert, for workmen to build and operate fleets of fishing vessels, to build and operate lumber mills, to build and operate pulp mills, to build and operate paper mills, to build homes and business blocks for the increased population and to supply the manufactured articles this larger population will need.

One of the first consequences of the ratification of reciprocity will be a labor shortage in the northern part of this province, and this will give the working man a natural opportunity to secure a higher rate of pay.

Next Thursday it will be up to the labor unions of British Columbia to seize this opportunity, and also to see that what they get they hold.

REMEMBER—THE BALLOT IS SECRET

The efforts of the provincial government to defeat reciprocity by machine politics is apparent all over Queen Charlotte Islands and also in the mainland, in Comox and in Atlin, but more especially in the Skeena district.

Great activity is being displayed on the construction of roads and trails, and the provincial Conservative machine is operating through this work to get hold of the country voters. In little places where there are only ten or a dozen voters a party worker is sent to act as road foreman. Out of the public funds these voters are given employment during election time, the obvious intention being to influence their votes by this bribe in favor of the machine candidate.

An old time politician once remarked that it was easy enough to buy voters but the important question was whether they would stay bought. They are a fine class of men, those pioneers on the Skeena, and can be trusted to vote according to their honest convictions. Most of them appreciate the manifest advantages to the farmer and consumer to be found in the reciprocity pact and—the ballot is secret.

THE DANGER OF A LIGHT VOTE

When vital public issues are pending there is genuine danger in a light vote. The stay-at-home vote is a public menace.

The people take a long chance when they fail to go to the polls on election day. The fact is that many evils against which the people constantly complain owe their existence to the indifference of many citizens to their political obligations; and strange as it may seem the very citizens who complain loudest are the fellows who remain at home on election day.

Men who are not patriotic enough to vote when they are capable of qualifying as voters ought to be stopped from any criticism of the government, or of men in the public service, for if they are not interested enough in government to seek to make it better, more efficient and more economical, by active participation in political contests, then it would seem that they should have no voice whatever in the matter. Men who don't vote ought to keep quiet.

Indeed it is a question whether the state ought not to go further, if possible, and disfranchise men who fail to vote, except in cases of sickness or absence from the state. Men who without good excuse fail to vote in some of the old countries are disfranchised, and if the principle cannot be introduced into our system we should work out some other plan either of penalizing the non-voter, or of inducing or forcing men to exercise their electoral rights. Indifference to political obligations is as dangerous as it is discreditable, and some day it is likely to lead to trouble.

Vote early on Thursday. Forget party prejudice. Spurn party coercion. Use your own mind for your own good and the good of your own country, Canada, and your own City, Prince Rupert. Vote early and vote straight for Ross, Reciprocity.

RECIPROCITY AND OUR HALIBUT

Prince Rupert, Sept. 19, 1911.

To the Editor of the Daily News.—Mr. G. R. T. Sawle has issued a pamphlet entitled "The Halibut and Reciprocity" which has been scattered broadcast by the Conservative campaign committee throughout the city. Permit me in your columns to reply to this.

He states that: "For every statement which logic and common sense does not prove he is prepared to furnish statistics from public documents." I am afraid Mr. Sawle will have to furnish the statistics.

His logic is not convincing. Mr. Sawle says that "to properly grasp the many phases of the catching and marketing of halibut, one must first realize that all the fish on the coast of British Columbia does not belong to Canada. The halibut may be found in what we claim to be Canadian waters, but until such time as our national treaties recognize them as Canadian waters the fish caught there by United States boats must be considered as American fish. In discussing the tariff we must recognize both Canadian fish and United States fish."

When we get reciprocity Mr. Sawle will not need to flounder about in these fine distinctions between fish and fish as they all will be alike before the law, free of duty. Our argument is that for this very reason all companies will handle their fish through Prince Rupert because the bulk of American and Canadian halibut is caught at our very door. Surely fishing companies will not then carry halibut to Vancouver and Seattle to treat them. Fish require prompt treatment and the sooner they are frozen the better their flavor.

No doubt the Conservative candidate would prefer to see these fish taken to his beloved Vancouver, but reciprocity and a larger, freer market will not permit it. The New England Fish Company will be one of the first to locate here in order to take every advantage of a prompt handling of fish while fresh and if they do not then a better flavored article supplied by rival concerns will capture their market.

This is the opinion of J. P. Todd, said by the Seattle Daily Times to be the best posted man on the fishing industry in the West. Todd says that when reciprocity comes into effect the Seattle fishing fleet of 6,000 fishermen will move to Prince Rupert. This was held in the United States as an argument against reciprocity. What is their loss will be our gain. When the New England Fish Company moves its headquarters to Prince Rupert with its large plant, and its army of employees; when these employees bring their families and become good citizens it matters little to us whether it is known as the New England Fish Company or The Loyal Canadian Fish Company; it will then in effect, be a large Canadian industry with large markets already secured throughout the cities of the United States.

But I will go further than this. It is well known that the New England Fish Company has not yet touched one side of the possibilities of the fishing industry on this north coast. It does not pretend to supply one one-hundredth part of the demand for cheap fish in the United States.

Surely Mr. Sawle takes the "little Canadian" view of the possibilities of our fish industry, when he is alarmed lest the New England Fish Company with its five boats can supply the whole of the Canadian and American markets.

Mr. Sawle says this company is "unafraid of any competition." I fancy that Sir George Doughty and others who have had wide experience in the fish industry of the old country, and who have avowed their intention of coming here, will also be unafraid of the competition of the New England Fish Company with its puny fleet of five fishing boats on our great halibut banks.

Mr. Sawle points out that up to date the New England Company has been able to kill its rivals in the Canadian fish business because the Canadian companies have not been able to ship to the Eastern Canadian markets in carload lots, the home market not being great enough to warrant shipments of this size, and to overcome which the Dominion Government has been granting freight rebates to the Canadian companies. And Mr. Sawle asks: "If reciprocity goes into effect and the duty comes off halibut, what will happen to the Canadian companies? If they need a freight rebate from the Government row what will they need with reciprocity?"

I will answer Mr. Sawle. When reciprocity comes into effect the Canadian companies will not need freight rebates. They will be able to ship in carload lots because their market will be a market of 100,000,000 people, instead of 8,000,000 as formerly. And they will be able to compete with the New England Company will be able to supply only a very small fraction of the increased demand throughout the United States for our halibut and other fish, consequent upon the reduction in price occasioned by the removal of the tariff. The tariff has enabled the New England Company to charge the American market one cent a pound more for its fish than it will now be able to do. It will mean cheaper fish for the American people and a tremendous increase in the demand for this article of food.

My argument thus far has referred to the frozen fish industry only. It is immeasurably stronger when one considers the revolution which the completion of the Grand Trunk Pacific will work in the fish industry. Then a fish company which does not operate through Prince Rupert will not be able to place fresh unfrozen fish on its eastern markets, and will in consequence lose its business, the fresh article being so much superior to the frozen.

Mr. Sawle's article throughout typifies that narrow, timid, unenterprising attitude always taken by the Conservative party whenever the Liberals have advanced any new trade policy. It was the same when the Liberals advocated the preferential tariff with England. It is the same with reciprocity today.

Read what Mr. Sawle has to say about our business enterprise: "Canadians cannot hope to enter the United States market and sell at profit against such odds as the New England Fish Company." And again:

"What Canada wants, and what Prince Rupert wants, is a Canadian market for Canadian fish." And logically enough, Mr. Sawle follows this statement up with an attempted knock at Prince Rupert. He says: "There is at the present time sufficient Canadian market for a large halibut plant in Rupert." Evidently our present cold storage plant, in Mr. Sawle's eyes, is our limit.

Mr. Sawle is wrong. We want something more than the Canadian market for our fish. We want a market of 100,000,000 people, and we are going to get it on the 21st of this month. We want as many fish companies as are at present engaged in halibut fishing to come to Prince Rupert with their employees and plants

ARE HOSTILE AT McBRIDE

Violent Demonstration Against Provincial Premier at Nelson. Crowd Refused to Listen to Him for Ten Minutes.

(Canadian Press Despatch)

Nelson, Sept. 18.—There was a remarkable demonstration here on Saturday when it was easily ten minutes before the audience would allow Premier McBride to speak. The crowd was hostile to the Provincial Premier all through the meeting.

Canadian duties average 25 per cent—American duties 45 per cent ad valorem, and the balance of trade is against us. Is it better to raise ours to theirs and have two tariffs, or wipe out both and have none?

RUSSIAN PREMIER DYING

Wounds Inflicted by Assassin in Critical State

(Canadian Press Despatch)

Kieve, Sept. 18.—There is little chance that Premier Stolypin, shot in the Grand Opera house last week, will survive today. Internal hemorrhages have set in.

SIR WILFRID RESTS

Hon. W. B. Aylesworth to Retain Portfolio Meantime

(Canadian Press Despatch)

Ottawa, Sept. 18.—Sir Wilfrid Laurier spent Sunday resting in Ottawa. The Premier has stood a week's hard campaigning well. At Sir Wilfrid Laurier's request Hon. W. G. Aylesworth will retain his portfolio until after the elections.

TEST PILES DRIVEN

New Quarantine Wharf 500 Ft. Long to be Tendered for Shortly.

Yesterday test piles were driven at the site of the new quarantine department wharf at Digby Island not far from the wireless station. Tenders for this work will be in shortly. The wharf will be about 500 ft. long, and when contracts are awarded work will be pressed on at high speed. It is possible that the contractors in charge of the marine station may be successful bidders for the work.

Vote for reciprocity and resent the imputations of the Bordenites on your citizenship.

Deer for Graham Island

The provincial government has made a shipment of five young deer to Naden Harbor, two bucks and three does, the first of a herd of twenty-five that are to be sent to Queen Charlotte Islands for purposes of propagation. They will be strictly protected and it is hoped that in a short time this game will become plentiful on the island.

Gold Strike Country

Mr. Angus McLeod, wife of Angus McLeod, mining engineer of Carcross, Yukon Territory, is staying at the Central Hotel.

Declined the Honor

C. M. Hays, president of the Grand Trunk Railway, is the only American who ever declined knighthood and a directorship in the Bank of Montreal in the same week.—Saturday Evening Post.

Will Boost Rupert

Mr. J. J. Morris, accountant at the Royal Bank here, for some time past, left here today for Calgary where he will spend six months in a similar position at the Calgary branch of the Royal Bank.

If Great Britain is Canada's best market, why has Canada exported seven times the value of horses, and a hundred times the value of sheep to the U. S. above the value shipped to England?—Hon. Sydney Fisher.

The single issue in this campaign is reciprocity. To extend our trade is every Canadian's wish, and it is not denied that if the pact goes into operation that it will do this.

HAZELTON'S NEW PAPER

Though "A Conservative Rag" Omineca Miner, is Quite a Newspaper.

First issues of "The Omineca Miner" publication of which began on September 2nd have reached the Daily News office, and though the new paper has the misfortune to be on the Conservative side the News wishes it all the compliments of the newspaper business. Published weekly by Messrs. Macdonald and Rauk at Hazelton, The Omineca Miner is a well printed and readable sheet emphasizing itself on the public as "A Newspaper" and certainly "giving the news" (in a strictly Conservative way of course). A new paper in a city means population on the grow. Hazelton is certainly forging ahead.

BLIND PIGGER PENNED

Six Months' Sentence Served Out to J. Gentile of Comox Avenue.

Sunday the police raided a blind pig run by J. Gentile at No. 2 Comox avenue, (the Miller Danford Row). All kinds of liquor were found there evidently for sale. Monday Gentile was sentenced to pay a fine of \$300 and costs, or go to prison for six months. He preferred to go to prison.

TURN THEM OUT

All over the Comox-Atlin district the provincial authorities are swearing in special constables at act at the polling booths on election day. This action is illegal and uncalled for. It may be an attempt at intimidation or an effort to get party workers at the expense of the people of the province.

The Dominion Elections Act, Clause 137, says that only candidates, their agents, the deputy returning officer, and the poll clerk, "and no others," are to be allowed in the polling booths.

All deputy returning officers in fulfilment of their duty must turn out any provincial constables who attempt to force their way into the polling booths.

Pretty Wedding

Rev. W. H. McLeod officiated on Saturday evening at the marriage of Miss Rosa Haudeschild to Mr. Fred Wesch, of the Pioneer laundry. The ceremony took place at the home of the bride, Sixth street and Fraser, at half past seven.

DETAILS OF THE GEORGE RESCUE

Two Men Saved from Sinking Yacht. Wreck was Towed Just in Time into Harbor, but Fine Dog was Lost Overboard on Way.

Details of the rescue by the S.S. Prince George of two men from a wrecked yacht fifteen miles or so from Vancouver are interesting. The George steaming at a fast clip through a strong breeze and rough sea, was pulled up sharp by Captain Saunders when he saw signals of distress from the yacht Alleyn which lay right ahead almost awash, and with foremast carried away. The Alleyn was a schooner yacht with auxiliary gasoline engine.

Giving the wreck her lee, the George bore down on her slowly, and coming alongside took off her two occupants who had been making despairing signals for help. A dog, rather a fine spaniel, was left on board by the two men who seemed too scared to think of its safety. The poor creature was washed overboard later when the George took the wreck in tow. The men recovered after attention on board the George, and though the yacht was in a sinking condition when taken in tow the George made such good progress with her that she was brought alongside the wharf at Vancouver just as the water was lipping over her deck. Had the dog been locked in the deck house it might have been saved.

NEW TEACHER COMING

Continuous increase in the roll at Prince Rupert public school this session necessitated the engagement of a new teacher, while a special class for younger pupils is held in the old school downtown. Miss Rita B. Manning, the new teacher, will arrive to take charge of her room in the new school on Wednesday. Miss Johnstone has charge of the class in the old school.

THE PROSPERITY OF EVERY GREAT CITY IS DUE TO ITS GEOGRAPHICAL LOCATION

THE SPOKANE OF CANADA

THE SPOKANE OF CANADA

NEW HAZELTON

The most important Townsite!

The most talked of Townsite along the line of the Grand Trunk Pacific Railway

NOTICE

New Hazelton Townsite, Sec. 1

Now being offered for sale is Not a Grand Trunk Pacific Promotion Townsite. NEW HAZELTON Townsite was selected by the experts of a syndicate of successful men as the geographical location for a big city. They bought the land, realizing the wonderful resources of the Hazelton District, the Mines, the Distributing Centre for hundreds of miles, and many other reasons.

NEW HAZELTON

Many mines are getting ready to ship ore. Some of the mines being developed are—Silver Cup, American Boy, Silver Standard, Sunrise and Sunset, Lead King, Erie Babine. Most of the ore in NEW HAZELTON mines is high grade Silver-Lead, similar to ore in the Sloean District in East Kootenay, B. C., and similar to some ores found at Leadville, Col.

HAVE YOU CONFIDENCE OF MERCHANTS ON THE GROUND?

Many lots already purchased by the keenest business men of Hazelton (Old Town). You can safely follow the judgment of such men.

NEW HAZELTON, the hub of the Hazelton District, will be the natural headquarters for what promises to be the most active and sensational new city in the fastest growing part of the world today on account of the wonderful Lead, and Zinc Mines, the Groundhog Mountain Coal Fields, the Vast Agricultural Country tributary to the coming principal city in British Columbia on the Grand Trunk Pacific Railroad.

Stores are going up. Newspaper plant now moving on the Townsite. Two or three General Merchandise Stores, Drug Store, Bank, Restaurants and in fact, many lines of trade are now arranging to open in NEW HAZELTON, Section One. Activity is in that part of the Townsite known as Section One.

INVESTMENTS

MADE IN TOWNS WITH THE Right Kind of Country, Right Kind of Resources, Right Kind of People, will surely be big paying investments. This is the town at New Hazelton, B.C.

Call at J. H. Kugler's office and pick your lots while you have plenty to choose from. People have been waiting over a year for this Townsite to be put on the market, so there is bound to be a rush for lots.

NEW HAZELTON Townsite had over a Quarter of a Million Dollars Invested by a few Business Men before the Lots were offered for sale. NEW HAZELTON is a Business Man's Townsite. All the G. T. P. and Local History was carefully considered. The Engineer's Reports as to grades, opportunities for side tracks necessary to handle the thousands of freight cars were examined. Then they invested in NEW HAZELTON. They paid in Cash for NEW HAZELTON and nearby Lands over Two Hundred and Fifty Thousand Dollars.

NEW HAZELTON is reported by Engineers to be the only available spot in the Skeena or Bulkley Valleys for many miles each way where it would be possible to have Railroad Yards large enough to handle the Hazelton District's business.

NEW HAZELTON affords a long, nearly level stretch of land suitable for Immense Yards, which will be required to handle the thousands of cars of ore and coal that will be shipped from the mines in the Hazelton District.

The story of NEW HAZELTON is well known to the public. It is a Townsite being offered to the public by successful business men. There is positively no Railroad Company or Townsite Promoter financially interested in the land. The owners have undertaken to make NEW HAZELTON a city of importance in British Columbia. NEW HAZELTON promises to be the most profitable city to the Grand Trunk Pacific along its main lines.

Offices of Foley, Welch & Stewart, contractors building the Grand Trunk Pacific Railroad, will be located in NEW HAZELTON. The Chief Clerk, Paymaster and Purchasing Agent are preparing to, and will, build homes in NEW HAZELTON, Section One.

NEW HAZELTON located on the Grand Trunk Pacific Railroad is attracting the attention of the whole world, as all important towns do on the main line of the Grand Trunk Pacific Railroad.

RECIPROCITY AND OUR HALIBUT

(Continued from Page 2)

and, for the reasons I have given, we are going to have these when the reciprocity pact is confirmed.

Mr. Sawle says: "We must not be content with the belief that our market consists of only eight million people. Tomorrow we will have eighty millions, and these are the people who are going to buy Canadian fish from Prince Rupert plants." Here, at last, I can agree with Mr. Sawle, only that for his expression "tomorrow" I will substitute the words "after the 21st of this month."

Mr. Sawle says that his pamphlet is issued by the campaign committee of the Conservatives. He need scarcely have told us this. It has all the earmarks of that; but, what is much worse, it bears all the marks of having been inspired by one who has little use for our city and who would fain see the New England Fish Company continue in the future as it has done in the past, to take its fish to "my beloved Vancouver." This company will certainly continue to do so if reciprocity is not accepted, and if all fair-minded Conservatives wish to rid their shoulders of this "old man of the sea" they will do well to think twice before voting for Clements on the 21st.

Yours,
L. W. PATMORE.

RECIPROCITY FOR THE WORKER

(Continued from page one)

for the Canadians' as regards Rupert's fish markets," he cried. "If Canadians were all we were to sell to, I wonder what sort of development of Prince Rupert we should see? What are we doing every day but attracting new people of all lands to us and nationalising them. We will supply all markets from Prince Rupert that we can. (Cheers). As for Clements, I believe he says he did not represent the Standard Oil Company here. If he ever says that to me I will tell him to his face that he is telling a lie, for I gave him orders for Standard Oil myself. (Applause). He ought to be back in the cent belt raising beans. (Laughter). Let us get out and vote on Thursday so strong for Ross and Reciprocity, that we'll give Clements a snowing under in Rupert such as will keep him from ever setting foot in the district again!" (Wild applause).

Tireless Committee Man
A. Manson, who though he declared himself more a committee worker than an orator, delivered a telling speech, emphasizing the need for every Liberal and every reciprocity man present to vote early on Thursday and then get in all friends who had votes as soon as possible. "Take a holiday on Thursday and keep up the good work!" said Mr. Manson. He gave some telling examples of rank Conservative work in Quebec under the methods of Monk and Bourassa, and referred to the raw deal given by Attorney General Bowser to Prince Rupert when the strike trial venue was fixed at Victoria, and the witnesses allowed no indemnity. Strong substantiation of this was given in a well received speech by Charles Hunter who was at Victoria with the strike witnesses and had detected the Bowser emissaries in a deliberate falsehood about the available berths for the men on their return to Victoria, by which they were forced to travel "Deck" instead of first class. "I am for reciprocity!" cried this speaker. "It means more for the good of the worker than any other policy yet introduced." (Cheers).

Rousing cheers for Ross were given at the end of the meeting and electors in crowds registered themselves on the side of Ross and Reciprocity.

HAYS WRITES TO CITY COUNCIL

Will Go on with Railway Improvements Without Waiting for Approval of Provincial Government.

On his way from Prince Rupert to Vancouver President Charles M. Hays wrote a letter to the city council which was read at the meeting of that body last night, as follows:

"On Boat, Sept. 5th
"My Dear Mayor Manson,—I was very pleased to receive your favor of Sept. 2nd, confirming the news that the bylaw ratifying the agreement between the company and the city, had carried by so large a majority. I note your request about the plans for the cemetery site, and I shall at once write Mr. Hall on the subject and ask him to send them to you as soon as possible. In the matter of terminals, hotel, etc., I shall at once take up with Vice-president and General Manager Chamberlin the question of preparation of plans and commencement of all details necessary to go on with the work, without waiting for approval of the agreement by the Legislature, which I assume we may take as a matter of course.
"With kind regards,
Very truly yours,
"CHAS. M. HAYS."

RAT CATCHER FIRED
Not Catching Rodents Enough to Satisfy Ald. Hilditch

The city clerk read a report last night of the following bags made by the rat catcher: May 840, June 726, July 648 and August 480. Alderman Hilditch did not think this report satisfactory. If the use of virus had been continued the city would be clear of rats by this time, instead of which there were more than ever. He did not see, therefore, why they should continue to pay a salary of \$50 per month. The council agreed with him and the city clerk was instructed to give the rat catcher the grand bounce at the end of the month.

Win for Flynn
New York, Sept. 19.—(Special)—Flynn got a popular decision over Morris in ten rounds tonight. Morris was badly punished.

POLLS CLOSE AT 5 P.M.
In all Dominion elections the doors of polling booths open at 9 o'clock a. m. and close at 5 p. m. All votes must be cast between these hours. In provincial and municipal elections the polling stations remain open until 7 o'clock in the evening, a fact which sometimes creates confusion in the mind of the elector. Do not forget that on September 21 the doors of the polling booths will be closed sharply on the hour of 5.

STILL IN THE DARK
Sleuths Despondent Over Capturing Bank Robbers.

(Canadian Press Despatch)
New Westminster, Sept. 19.—Following up clues that might lead to information concerning the perpetrators of the Montreal Bank robbery takes up time. Scores of detectives and police are here. So far all the clues have proved groundless and last night the police admitted that they were as much in the dark as ever.

Laurier Confident
Goes from Ottawa to Speak at Montreal Tonight

Ottawa, Sept. 19.—Sir Wilfrid Laurier addressed a great meeting in the Arena last night. Tonight he speaks at Montreal. In all his recent speeches he has stated his absolute confidence in the success of his party.

BIG STRIKE IN SPAIN
Martial Law Declared in the Port of Valencia

(Canadian Press Despatch)
Madrid, Sept. 19.—A general strike, which has behind it revolutionary support, has broken out at the Port of Valencia and martial law has been declared. The telegraph wires were cut soon after a message telling of serious disturbances reached here. Valencia has a population of over two hundred thousand.

HARVEST HOME IN S. A. CITADEL

First Harvest Festival Held in Prince Rupert was a Great Success. Amusing Auction Sale of Good Things Including Rupert's Own Produce.
In the Salvation Army Citadel last night a successful harvest festival was held, realising \$140 for the Army campaign fund. The festival took the form of an auction sale presided over by Frank Ellis whose humorous eloquence persuaded the prices of various delectable dainties pleasantly from the pockets of Salvation Army supporters who thronged in the Citadel. Particularly effective as price bringers were the famous lemon pies made by the skilful hands of Mrs. Ensign Johnstone, and Lieutenant Wright. Other gifts by friends of the army went very well, and there was a brisk demand for the vegetables, all Prince Rupert produce which were gathered from newly formed gardens in the city by those optimistic and energetic citizens who labored to make gardens in the spring, and now reap their reward royally. Captain Kerr, Mrs. Ensign Johnstone, Lieutenant Wright, and the Army staff extend their thanks to all who helped make the festival such an undoubted success.

Criminal Assize Here

The heavy expense, loss of time and general inconvenience caused by the criminal assize being held at Vancouver or Victoria instead of this city was discussed at the meeting of the city council last night. The city solicitor said it was absolutely wrong and that there was not a shred of reason for it. It was resolved to petition the attorney-general to have the criminal assize for this district held in Prince Rupert.

Campaign in Vancouver
Vancouver, Sept. 19.—(Special)—Last night at the horse show building three candidates addressed six thousand electors on the issues of the campaign. All were given a good hearing. During the evening some benches gave way, which led to some excitement.

JAP SPIES ON COAST
Alaskans Anxious About Visit of Jap Commander

(Canadian Press Despatch)
Seward, Alaska, Sept. 19.—The trip to Alaska of Commander Hirago, of the Japanese navy, is causing considerable anxiety. During his trip the commander is alleged to be making sketches of the coast line and harbors and taking special pains to secure drawings and maps of Resurrection Bay. Passengers on the steamer Sampson report that Hirago is not letting the slightest detail escape him. The matter has been reported to Washington.
