# BRIDGE RIVER MINES TO CLOSE DOWN NEW LOCAL MINING COMPANY INCORPORATED AT VICTORIA

## Companies Decide to Force Issue in Wage Dispute With Miners

Pioneer, Bralorne, Bradian and Wayside Decide to Suspend Operations Unless Increased Scale is Accepted; Employees Seeking 25c Per Day More

VANCOUVER, May 16: (CP)—Orders to close down all operations until some basis of settlement is reached in connection with the miners' strike were sent to the Bridge River district last night by heads of the mining companies affected following announcement that the miners had refused the latest pay increases offered. Pioneer, Bralorne, Bradian and Wayside are the main workings affected. The strikers, by substantial majority, turned down an offer of \$5.25 per day for miners, \$4.50 for muckers and \$4 for men above ground. The men are said to be insistent on an additional 25c per day.

Notices have been posted at the mines announcing that they will be closed down unless the miners accept the increases already granted.

## 2000 ROSES IMPORTED

Total For Two Years Number About Four Thousand Brought Into Prince Rupert

Something like two thousand roses have been imported into Prince Rupert this spring and these with almost as many brought in last year should give the city a good boost in the effort to become a city of roses.

Last year most of the roses were imported by the Horticultural Society but this year Philip Edgcombe undertook the work of canvassing the city with the result that he alone supplied 1800 roses and a number were purchased from other dealers or imported from outside points by residents.

Most of the roses planted this year have come from Vancouver Island but a few hundred were purchased in Vancouver. A few small shipments came from outside British Columbia.

## POLITICS ABSORBS

Ramsay MacDonald and Stanley Baldwin May Change Places; Election in Fall

LONDON, May 16: (CP)—Political quarters are speculating on the possibility of realignment of the cabinet and the prospects of a general election in the autumn. One story has it that Prime Minister J. Ramsay MacDonald and Rt. Hon. Stanley Baldwin will change places during the Whitsuntide recess in June. Many government supporters believe an election in October will be more favorable to the government than in the spring or later in 1936.

The Employment Service Committee reports that pledges under the scheme now amount to \$26,077, the amount of \$1,820 having been added since the last report.

## P. T. ASS'N IN SESION

Lantern Slides of Canada Interesting Program and Business

The regular monthly meeting of the Prince Rupert Parent-Teachers' Association was held last evening in the Booth Memorial School with Mrs. D. C. Stuart, president of the organization, presiding.

Letters from the principals of the schools were read expressing thanks for the donations given for the purchase of sport equipment.

The university extension program was outlined by the president and members were asked to submit requests for courses.

Through the kindness of William Cruickshank and Joseph Wickett of the Canadian National Railways, the members had the pleasure of seeing lantern pictures showing places and scenes across Canada from Halifax to Prince Rupert and south to Vancouver and Victoria. The pictures were beautiful, entertaining and instructive. Local and district scenes were of particular interest.

Mrs. C. E. Cullin and Mrs. Ernest Anderson, with vocal solos, and Miss Maureen Kirkpatrick, with pianoforte solos, provided a most acceptable musical program. Accompanists were Mrs. W. L. Stamford and Mrs. Cullin.

The next regular meeting of the association will be held in September. A tea is to be held shortly at the home of Mrs. Alex Mackenzie.

## Unemployed Still Press For Issue Of Needed Clothes

At a meeting of the unemployed councils last night it was reported that the grievance committee did not get a satisfactory answer from the city or the provincial authorities on the question of a clothing issue. The meeting went on record to speed up the signature drive and rally the support of all workers in the city, trade unions and church organizations.

The campaign of petition signature is now well over the 1000 mark. Merely routine business was dealt with last night at a meeting of the Moose Lodge. Dictator W. B. McCallum was in the chair and there was a good attendance of members.

TORONTO, May 16:—In dismissing a suit for \$100,000 brought by Miss Agnes McDougall against two Toronto surgeons, the Supreme Court of Ontario has decided that a person may have two appendices. The two surgeons whom Miss McDougall sued diagnosed a complaint from which she suffered as appendicitis and operated to remove the appendix, claiming a successful operation. She continued in pain, however, and went to another surgeon who found another appendix on the left side and removed it. The court declined to accept the contention that the first operation had been a failure.

"I feel like a kid of 18 again  
Why don't you try a pair, Joan?"

You remember how worn-out I used to be after a day's shopping, and a week of housecleaning nearly finished me. Really, it's simply amazing the difference these shoes have made in the way I feel. Why, I can walk miles and miles with Jack now... he says it's almost like a second honeymoon.

**CANCER IS INSIDIOUS**

Necessity of Being on Guard For Early Signs Emphasized by Dr. W. T. Kergin in Address

The vital necessity of being on guard, especially between the ages of thirty-five and sixty and to a lesser degree at all ages, for early signs of cancer so that it might be removed or destroyed while still localized and before the cells of the malady started to circulate in the blood stream, after which time the case was hopeless, was emphasized by Dr. W. T. Kergin in an address on the subject of "Cancer" before the Prince Rupert Gyro Club at its luncheon yesterday. Dr. Kergin referred to such symptoms as lumps, swellings, indolent sores, discharges, etc. which might be due to development of cancer. On the detection of any of these, the family physician should be consulted. The onset of cancer was insidious since, in its early stages, it was usually painless.

Dr. Kergin, in opening, told how the malady of cancer seemed to be more prevalent today than it had been some years ago. Records showed that the death rate from it was nearly one person out of every thousand per year. In other words a city the size of Prince Rupert might average six cancer deaths per year. Only heart failure in its various phases exceeded cancer as a cause of death. Unlike the infectious plagues, medical science had been unable to determine its root cause and was unable to cure it. The only way in which it could be

attacked was by removal or destruction through surgical, radium or x-ray treatment. Once the cells of cancer started to circulate in the bloodstream, the case was hopeless. While the root cause of cancer was unknown, certain conditions such as constant irritation were known to favor it. It was not infective and was not hereditary although members of certain families might be less resistant to it than others.

The need of education of the public in regard to cancer was urged by Dr. Kergin. Time was well spent in studying and discussing it. He praised the idea of the Cancer Fund in connection with the King's Silver Jubilee.

S. J. Jabour, president of the Gyro Club, was in the chair and there was a good attendance of members. Guests were Dr. C. H. Hankinson and Duncan Sim, the latter of Vancouver.

**STORMY CAREER**

Joseph Pilsudski of Poland Was Always Revolutionist

WARSAW, May 16: (CP)—Virtually from boyhood Joseph Pilsudski, the dead dictator of Poland, was a revolutionist. He was trained first to struggle against Russia; the world war gave him opportunity to exercise his leadership in opposition to Austro-Hungarian and German plans, and eight years after the armistice he headed an uprising that seized the reins in his "Poland redeemed."

Through it all he declined to hold office except when personal control of some department was needed to put his projects into effect. After the coup d'etat of 1926 he was offered the presidency of the country, but declined the post and turned it over to Ignace Moscicki.

Always he was the real head of the army, and, backed by its unswerving loyalty to his personal standard, he kept his country on a rigid course and was, in fact if not in name, a dictator of its policies.

Pilsudski was born in Vilna, on December 5, 1867. His parents were of aristocratic Lithuanian lineage, but the family had taken part in an uprising against Russia in 1863, and most of its estates had been confiscated.

Young Pilsudski attended a high school in Vilna, but was constantly in trouble with his Russian teachers because he insisted on talking in Polish on the school grounds. Finally, in 1885, he finished his preparatory work and went to the University of Kharkov to study medicine.

Expelled From College  
But in his first year there he organized a socialist group and was expelled. He went back to his home city, continued his political agitation and in 1887 was arrested on charges of being involved in a plot against the life of Czar Alexander III. He was exiled to Eastern Siberia for five years.

Later he settled in Cracow, then an Austrian possession. He started at once to organize secret Polish fighting squads in anticipation of an eventual war between Austria and Russia.

In 1905, when Japan was fighting Russia in Manchuria, he went to Tokyo and tried to get backing for an uprising in the Russian rear, but failed to convince the Japanese that his plan was feasible.

His chance came when the world war started in 1914. He entered the Austrian army as commander of a Polish Legion and took part in fighting against Russia in South Poland. He had a scheme for an independent Polish army as a nucleus of a rebirth of the nation, but Austria refused to sanction the plan, and Pilsudski quit active service.

He was summoned from this retirement in 1916 when the central powers, at the behest of the German high command, proclaimed an intention to free Poland. Pilsudski was made a member of the provisional government in Warsaw, but soon quarreled with the German organizers of the council, was arrested and imprisoned. He stayed there until the collapse of the central powers in November, 1918.

He entered Warsaw on November 10, a national hero, and two days later was proclaimed head of the state. In February, 1919, the diet of the new republic made him provisional president.

In 1923 he retired also as chief of the general staff, remaining at a country home near Warsaw until his coup d'etat in 1926.

**GYROS AND THE PLAYGROUNDS**

The work of the Gyro Club in this city has been chiefly associated with the provision of playgrounds for the children. Four of these have been established in different parts of the city in addition to the children's ball ground adjoining the Masonic Hall. These playgrounds have been used a great deal by the young folks and during the depression days they have been allowed to get out of repair.

The Gyros are now planning to put the playgrounds in good shape once more and, to help finance the work, they are holding another of their popular hoedowns which have been so successful in the past and by means of which they have raised a good deal of the money already expended. Doubtless, they will make a success of this event and as a result, help their effort to make the youngsters happy once more.

**CANADA'S OLDEST BANK**

Behind the Bank of Montreal, which opened in Prince Rupert 25 years ago today, as an institution there lies a history closely interwoven with that of the Dominion of Canada. In fact, its history began fifty years before Confederation. It was on the twenty-third of June, 1817, that nine merchants of Montreal signed Articles of Association for the establishment of the "Montreal Bank." This action marked the foundation of the Bank of Montreal, which today holds the distinction of being by far the oldest institution of its kind in British North America, and one of the largest financial institutions in the British Empire. It also established the beginnings of the Canadian banking system.

Everywhere as conditions have become ripe, the bank has planted its branches for facilitating the agricultural development of the country, its manufacturing industries, and its general commerce.

Today the bank has over five hundred branches distributed throughout Canada and Newfoundland. Its value to the country is not to be measured by the amount of its capital, or by the size of its dividends, but by the security it has given to those who have trusted it, the facilities it has furnished for the exchange and increase of commodities, and the assistance it has contributed to the development of the country.

## BALL RACE IS CLOSE

Leaders Unable to Increase Margins Either in National or American Leagues

NEW YORK, May 16: (CP)—The world champion St. Louis Cardinals and the National League pace-making New York Giants split honors in a double-header at the Polo Grounds yesterday as did the Chicago Cubs and the Brooklyn Dodgers at Ebbetts Field. The margin of supremacy of the Giants over the Dodgers still remains at a game and a half.

In the American League, the leading Chicago White Sox blanked the Philadelphia Athletics at Wrigley Field while the Cleveland Indians kept in pace two games below in second spot by taking a closely contested victory from the Washington Senators. The New York Yankees broke their fifth place tie with Detroit by shutting the Tigers out and advanced to fourth place ahead of the Senators.

### National League

Chicago 8-1, Brooklyn 4-3, St. Louis 1-4, New York 4-1, Pittsburgh 20, Philadelphia 5. One game postponed.

### American League

## SPORT CHAT

Tonight's opening game in the City Softball League has been postponed on account of the recent rains and the poor condition of the field. The opening game, which is between the Canadian Legion and Lambie & Stone, will now be played on Sunday afternoon.

The soccer, baseball and softball season will soon be well under way at Ocean Falls. In an effort to revive football in the paper town, a practice game was played last Saturday between the Yannagans and Regulars, the latter kicking out a three to nil victory. A fair crowd was on hand to watch the game and a good brand of soccer was lished out.

With both contesting teams and mill officials on hand to usher in the season, the softball league at Ocean Falls was to have commenced one day last week but the Weather Man dealt from the bottom of the deck and the game was called off on account of rain. It was re-scheduled for Tuesday evening of this week.

In spite of the hold that softball has taken at Ocean Falls, the baseballers are going ahead with plans to form a league. Several enthusiasts are turning out nightly in the attempt and it is expected a circuit will be organized.

## GRADUATION OF NURSES

Continued from Page 1

portant milestone in their careers which these young nurses were now passing. He paid tribute to Miss Harrison, their lady superintendent, for her guidance, efficiency and instruction. Miss Harrison was congratulated by the speaker upon the consistent success attained by her pupils in the nurses' examinations. Her record in this regard was a notable one which reflected credit both upon herself and the hospital. Incidentally, Dean Gibson also congratulated Miss Harrison on having been awarded the King's Jubilee Medal. It was a richly warranted honor.

Addressing his remarks more personally to the graduates, Dean Gibson referred to the necessity for them to possess and exercise courage in meeting problems and difficulties which would face them with their increased responsibilities now that they were leaving the sheltered training days for the wider field of the active practice of their profession. Courage, the speaker defined as "the dynamo of character." Holding a steadfast course with firm confidence in right convictions and the help of God, obstacles which might beset their course would be surmounted and reward would be theirs. He also exhorted them to exercise sympathy in carrying out their work.

Mr. Hollingworth expressed appreciation of the size of the congregation. It manifested an interest in hospital and nursing affairs which was most gratifying and encouraging. The chairman also added his tribute in a public way, on behalf of the hospital board, to the work and accomplishments of Miss Harrison.

Mr. Macdonald presented their diplomas to the graduates and Miss Harrison invested them with their class medals.

The evening's program included vocal solos by Mrs. A. J. Webber and John E. Davey. Mrs. E. J. Smith was accompanist for the evening.

### Reception Later

The Oddfellows' Hall, where many friends repaired to tender their personal congratulations to the graduates, was tastefully decorated with spring flowers and foliage, presenting a very attractive appearance.

After the serving of refreshments, dancing was indulged in with music by Mrs. J. S. Black's Orchestra. W. H. Wilson-Murray was master of ceremonies. Refreshments were again served at midnight and dancing continued until 2 a.m.

## THE SIGN OF A FAIR DEAL

THE Three-Star Imperial oval sign marks a place where you can buy with confidence; where you can be sure of good value and full measure.

It is the symbol of an organization that has steadily improved the quality and consistently reduced the price of petroleum and petroleum products—for gasoline prices today are lower than ever before.

The Three-Star Imperial oval sign stands for a fair deal to all: to you, the consumer, and to the labor engaged in making and marketing Imperial products. The thousands of Imperial Oil workers are well treated. Five thousand of them are part owners of the Company. They are paid good wages. They have sickness and death benefits and old age pensions which mean that in affliction or old age they and their families do not become dependent on funds which must be raised by taxation.

Because they are fairly treated, Imperial Oil employees work loyally, enthusiastically and enterprisingly. That is why, through the years, it has been possible steadily to improve the quality and consistently to lower the price of Imperial gasoline and oils.

# California Trip Is Described In Talk to Veterans

After the conclusion of the business session of the Canadian Legion last evening, an interesting talk was given by C. V. Evitt on a recent trip through the coast states. With the help of a large map of the course followed, a clear conception was conveyed to the audience of the journey and this, coupled with vivid descriptions of the scenery and enlivened with interesting anecdotes, made the talk one of the most enjoyable heard by the members. Keen appreciation was expressed at the pleasure afforded by the story of the trip.

# Canada's Oldest Bank In Prince Rupert Has 25th Birthday Today

### Great Canadian Financial Institution Has Played Its Part In Development of This City During Past Quarter of Century

Twenty-five years ago today there was established in Prince Rupert a branch of the first permanent bank in Canada—the Bank of Montreal. The anniversary of this event recalls earlier days in the life of this city and it is of interest to glance back on the progress of the past quarter-century.

Business was commenced by the Bank on May 16, 1910, in a modest frame building near the present office on Third Avenue with J. M. Clancy as manager. This first small office was used for only a few months during the construction of the Bank's present substantial building which was completed and occupied in the spring of 1911.

When this banking office was opened 25 years ago the population of the city was about 5,000, nearly all of whom were transients with little means—drifters who floated from one camp to another. The townsite was very rough, being on rock and muskeg, and stumps protruded everywhere. The only streets worthy of the name were plank roads, as were also the sidewalks.

Considerable building was in progress and the development then commencing has been well maintained. Since the Bank established here in 1910 Prince Rupert has become one of the most important ports on the Pacific Coast with well-equipped shipyards and a noted floating dry dock. As the city grew and its industries became more firmly established the Bank

of Montreal was assisting in its progress with all the facilities and experience of a Bank that had been founded 50 years before Confederation.

# Important Factor

In a city such as this, the distributing centre of a fabulously rich mineral belt, the largest fresh halibut market in the world and the centre of the largest salmon fishing area in Canada, banking services take on an added importance compared with other cities of like or larger size but without the varied requirements that are met with here. In its quarter-century of service in Prince Rupert the Bank of Montreal has been an important factor in the commercial life of the city and at all times has worked for the permanent progress of the entire district.

The first manager of the Bank, J. M. Clancy, is now manager at Guelph, Ontario. He was succeeded in 1918, when the Bank of British North America, which had commenced business here about the same time as the Bank of Montreal, was taken over by the latter institution and the manager of the Bank of British North America office, H. St. G. Lee, was placed in

# Completing 25 YEARS of SOUND BANKING for the People and Business of PRINCE RUPERT

The Bank of Montreal—Canada's oldest bank—today completes a quarter of a century of banking service in Prince Rupert.

During these 25 years Prince Rupert people have seen many far-reaching changes in their city. When the Bank established here, the community was composed largely of transient miners, and the townsite itself was but a crude settlement marking the terminus of a new transcontinental railway. Today Prince Rupert has a nationwide reputation as a seaport and as a centre of maritime, mining and other important industries.

### Constipation Gone Says Montreal Woman

Mrs. J. H. Laliberte, 7236 Drolet St., Montreal tells under oath how Fruit-a-tives brought her quick relief from constipation. She gave her experience before a notary so you would be sure that it is true. Mrs. Laliberte relates:—"I used to be taken with bad spells of irritability and lassitude. I could not eat right. I did not sleep well and could do my work only with great difficulty. This was due to chronic constipation from which I suffered severely. Soon after I started using Fruit-a-tives I became regular, my headaches and irritation disappeared. I have lots of energy now and can do all my work without any trouble."

### TWO FILMS ON SCREEN

"The Firebird" and "Red Hot Tires" At Capitol Theatre Tonight

"The Firebird," a strange and fascinating romance set in the background of Vienna, Austria's gay capital, and "Red Hot Tires," a fast-moving romance of the automobile racing tracks, comprise the two features of a double bill program at the Capitol Theatre here tonight.

In "The Firebird," Verree Teasdale, Ricardo Cortez, Lionel Atwill and Anita Louise form a quartet involved in a most unusual clandestine romance and a baffling murder mystery. Miss Teasdale and Mis Louise are seen in the roles of mother and daughter with Atwill as the husband and father, and Cortez the menacing, although magnetic figure, who threatens to destroy the aristocratic household.

The police finally manage to untangle the intricately woven threads of crime in a strange and smashing climax, which brings scandal to a great diplomat's family.

Lyle Talbot, Gavin Gordon, Mary Astor, Roscoe Karns and Frank Darro head the cast in "Red Hot Tires," a dynamic love drama that blossoms during thrilling auto race in which daredevil speedsters battle for racing honors, and two of them fight at the same time for the hand of a beautiful girl. Breath taking racing scenes were taken at the American Legion Ascot Speedway in Los Angeles in which a score of famous drivers participate.

Booking Is Changed

Replacing "Devil Dogs of the Air," the management of the local theatre announces that it has engaged an outstanding British picture, "Royal Cavalcade," depicting the twenty-five years' reign of King George V with a great array of British acting talent, to be shown here on Wednesday and Thursday of next week.
