OLOF HANSON

### TO THE ELECTORS:

I am opposed to the C. C. F. proposal to grant the franchise to Asiatics.

I am opposed to the C. C. F. policy which would intimidate investors from bringing their money into our Dominion, but I will support a policy which will encourage British and United States money to come to Canada to develop our minerals, timber and other natural resources.

I am opposed to the Conservative high tariffs, and am in favor of a drastic reduction which will give the consumer a chance to get value for his money Remember under Bennett you sell in competitive markets and buy in high-

ly protected markets. I am opposed to either amalgamation or unification of the two Canadian Railway Systems or their subsidiaries.

I am in favor of a progressive public works policy that will put our unemployed to work at reasonable wages.

I am in favor of Canada negotiating a treaty with the United States that will abolish duty on halibut and salmon exported by us to the United States.

Upon my record of the past five years I again solicit your vote at the polls on Monday, and ask you to mark your ballot thus:
