PRINCE RUPERT, B.C., SATURDAY, SEPTEMBER 21, 1935

PRICE: 5 CENTS

START BUILDING OF MILL SHORTLY

MUSSOLINI HESITATING IN CAMPAIGN AGAINST ETHIOPIA

EDITORIAL

ADVANCE PRINCE RUPERT

We are in the midst of a political campaign today but what is more important than politics is the urge that has been given the city by the sale of the dry dock and shipyard to the Mutual Pulp & Paper Mills of Prince Rupert Limited to be used as a site for the proposed pulp mill in the city, as announced in an exclusive Canadian Press despatch yesterday to this paper. It is possibly the greatest thing that has happened to Prince Rupert since its foundation a quarter of a century ago.

F. L. Buckley, promoter of the deal, has, we believe, had the full co-operation of all Prince Rupert citizens and especially of those holding official positions who have been in a position to lend material aid.

Now we may look for the work to commence within a reasonably short time, giving work and wages to a great many Prince Rupert people who have been idle and also giving a real impetus to business of all kinds.

It must naturally be expected that there will be an influx of new people to the city, that values of real estate may improve and that new buildings will be erected. There will be a great many people to house, new children to educate, streets to be improved and much work of all kinds to be done.

While the city administration will find itself faced with many expenditures, the real estate held by the city will become more valuable and delinquent taxes will be paid under the new scheme of financing recently announced by the city commissioner.

The operation of the dry dock and shipyard by a private concern rather than by the railway company should be beneficial to the port. Shipping to Prince Rupert will increase so that the railway will benefit and the market for interior products will improve.

Naturally the first expenditures will be in erection of the new plant and rehabilitating the old buildings just purchased or erection of new buildings. This in itself will mean a great deal. It will create employment, use material and increase shipping.

The establishment of the new industry will put new life into Prince Rupert, a new spirit, and we may expect to see a great growth here in the next year or two. It will pay local people to keep on their toes to meet the competition which is bound to ensue.

Vancouver Wheat

VANCOUVER, Sept. 21: (CP)—Wheat was quoted at 92 1/2c on the local exchange yesterday, dropping to 91 3/4c today.

Possibility Il Duce May Turn Back Seen but He Will Not Admit It

Formally Rejects Peace Plan But Leaves Door Open For Further Negotiation—War Between September 29 and October 15 Foreseen

LONDON, Sept. 21: (CP)—The consensus of opinion of Europe's diplomats is that, barring surrender of Premier Mussolini to League of Nations pressure, an Italo-Ethiopian war will break out between September 29 and October 15.

ROME, Sept. 21: (CP)—While official quarters are still insistent that Premier Benito Mussolini had gone too far to turn back at this time with respect to his proposed Ethiopian campaign, it is now evident that Il Duce is at least pausing to take stock of the situation. This was indicated today by Mussolini's delay in replying to the proposals of the five-power board of the League of Nations for a peaceful settlement of the East African dispute. It had been the general expectation that the proposals would be peremptorily rejected. The Italian cabinet turned down the League peace plan but its reception was couched in friendly language which many believed left the door open for further negotiations.

The rejection was made on the grounds that the Geneva proposals "do not offer a minimum basis sufficient for conclusive realization which finally and effectively would take into account Italy's vital rights and interests." Undoubtedly, the British naval mobilization in the Eastern Mediterranean and the vicinity of Suez has had its effect upon Mussolini. This was evident from the fact that he was contemplating protesting to the League of Nations at the mobilization.

It was reported last night that there were now 139 British surface naval craft and forty submarines between Gibraltar and the Red Sea.

Haile Selassie Accepts ADDIS ABABA, Sept. 21:—Emperor Haile Selassie of Ethiopia

ALL PESSIMISM IN THIS CITY SHOULD VANISH SAYS COMMISSIONER

Comments Upon Announcement Regarding Transfer Of Dry Dock Property—Future is at Last Assured—Great Expansion is Immediately Due

"The announcement in the Daily News of yesterday, confirming Mr. Buckley's wire that the Mutual Pulp and Paper Mills of Prince Rupert had acquired the dry dock site for a half million dollars should convince every citizen of Prince Rupert that the city's future is assured," stated City Commissioner W. J. Alder this morning.

"Not only will we have the big industry but smaller industries will come in its wake. Construction of the mill means construction of more dwellings, business houses, public buildings, lighting and telephone extension, railroad and steamship activity and a challenge to the great hinterland to get ready to supply our markets.

"Our unemployed will find employment and there will be opportunities for our boys and girls. Our real estate will have a definite value.

"Our city is in better financial shape than for many years. Its 6%

last night announced acceptance of the League of Nations five-power proposals for settlement of the Italo-Ethiopian dispute providing no economic concessions are granted Italy.

SUPPORTS LIBERALS

VANCOUVER, September 21:—Premier T. D. Pattullo last night espoused the support of the electors for the Liberal party at the forthcoming federal election, declaring that the Liberal program was the only one which could bring order out of the present disorganized situation.

Mr. Pattullo extended an official welcome on behalf of the province to Prime Minister R. B. Bennett, who will be on the coast for the next few days, and expressed the hope that he would be given a good hearing at his public appearances and that such tactics as were indulged in when Premier Mitchell Hepburn of Ontario spoke in Vancouver would not be repeated.

Power of Money or Power Of People is Issue Now States Chieftain of Liberal Party

SASKATOON, Sept. 21: (CP)—Canada is faced with a great battle between money power and power of the people, a battle which will be waged in the next Parliament, Rt. Hon. William Lyon Mackenzie King, Leader of the Liberal party, said in an address here last night.

Mr. King asked for a sweeping Liberal majority in order to carry out Liberal policy of public control of currency and credit, nationalization of the Bank of Canada and monetary reform.

He declared the Liberal party's adherence to the principle of provincial rights and that, under the Liberal government at Ottawa, Alberta would be given the fullest opportunity to work out and apply the doctrines of Social Credit.

Ian Mackenzie Sees Possibility Of Local Railway Being Closed If Bennett Continues in Office

TERRACE, Sept. 21:—Speaking of the railway situation in the course of an address at a public meeting here this week in support of Olof Hanson, Liberal candidate for re-election as member for Skeena, Hon. Ian Mackenzie of Vancouver Centre declared that, if the policy of sabotage of the Canadian National Railway as practised during the past five years by the Bennett government was allowed to continue, there was no certainty of the Red Pass-Prince Rupert line being kept open. Despite Premier Bennett's declaration of a policy of "competition ever, amalgamation never" amalgamation was very much a possibility Capt. Mackenzie believed.

Speaking of Olof Hanson, Capt. Mackenzie told of the northern member's constant work for Skeena and of his very valuable services in the councils of the party and the House.

Further discussing railway matters, Capt. Mackenzie referred to the guaranteeing by the Bennett government of obligations of the Canadian Pacific Railway to the extent of \$60,000,000. When he heard this, the speaker said that he had protested at the next session against the shareholders of the C. P. R. being guaranteed dividends when the money was so badly needed for the care of the unemployed.

Dealing with the matter of the Bank of Canada, Capt. Mackenzie declared that the Liberals had moved as early as possible that the bank be publicly owned. This was voted down and, when the matter came to a final vote, J. S. Woodsworth, leader of the C. C. F., with several of his supporters, voted for a privately owned bank. So did Continued on Page 2

Prominent Lawyer Of Vancouver Dies

George Henry Cowan K.C., Former Parliament Member, Passes Away at Age of 77

VANCOUVER, Sept. 21: (CP)—George Henry Cowan K.C., age 77, former Conservative member of the House of Commons from Vancouver from 1908 to 1911, one of British Columbia's foremost barristers, died last night.

Construction of Local Pulp Plant to Commence Inside of Three Weeks

Builders Expected to be on Ground by Then, it is Learned—Some Contracts Already Let—To be Completed Inside of Eighteen Months

Construction men for the 250-ton pulp mill to be erected on the dry dock site here by the Mutual Pulp & Paper Mills of Prince Rupert Ltd. are expected to be on the ground within three weeks, it is learned in well-informed quarters. There is to be no delay, it is understood, in getting construction under way. In fact some of the contracts have already been let, it has been known for some time. It has also been intimated that the intention is to have the \$5,000,000 plant completed and ready for operation inside of eighteen months. A good deal of preliminary organization work has already been completed.

VIOLENT HOLD-UP

Chinese Restaurant Robbed Of \$13—Alleged Assailant Appears in Court

Chris Hansen appeared in city police court before Magistrate McClymont this morning on a charge of theft and violence against the person of Harry Chin as a result of an incident last night about 9:30 in the Travellers Cafe on Sixth Street where Hansen is alleged to have forced Chin by hitting him on the head with a can of milk away from the cash register out of which he grabbed a quantity of money, supposedly about \$13. Hansen, who was picked up shortly afterwards by city police officers, was remanded until Monday.

The can of milk which Hansen is alleged to have used as a weapon also was responsible for the breaking of a plate glass window.

CONTRACT IS GIVEN

John Currie & Son Awarded Work At Marine Depot Wharf

John Currie & Son of this city have been awarded the contract by the federal department of public works for the putting in of new fender piles and the building of a new approach to the marine department wharf at Digby Island, thus completing improvement work to the wharf which was started last year. Material is being ordered at once.

THE POLITICAL CORNER

THE GREAT PROMISER ON RECIPROCITY

Mr. Bennett, the Great Promiser, is again at his work. He is promising a reciprocity agreement with the United States.

When the Liberals (who have always advocated reciprocity with the United States) proposed reciprocity in 1911, Mr. Bennett opposed it tooth and nail on the ground that it would lead to annexation with the United States.

Speaking at Calgary during that campaign Bennett pictured reciprocity in these lurid terms:

"There are," said he, "two farmers on opposite sides of the line. One is a Canadian farmer, the other is an American farmer. The Canadian farmer's cattle are standing up to their bellies in lush pastures. There is everywhere evidence of luxuriant growth. Just across the line the American cattle are in fields so bare that a grasshopper's stepchildren would die at the mere sight of them, and the American gets up on the line fence between the two countries and says: 'Take down your fence and let my cattle into your pasture.' That," said Mr. Bennett, "That, my friends, is reciprocity."

Mr. Bennett's most thrilling time, however, in that campaign, was at his nomination in Calgary. Here he propounded this noble question to the electors of that city: "Will you sell your souls for gold?" and in one thrilling moment he held a gold piece before their eyes and cried: "Oh God! these American dollars."

Now he says he is going to go after these American dollars. Perhaps he likes them better now that there is less gold in them than there was in 1911.

Will the electors trust this man to make a reciprocity agreement with the United States or will they leave this job to Mackenzie King who has always advocated a sane and businesslike reciprocity agreement with the States and who is not advocating it now for the first time in order to get elected?

A vote for Orme is a vote for Bennett.

CAPITALIZING DISTRESS

Economic distress brings into being new political parties that try to capitalize it. It is therefore quite to be expected that the depression from which we are slowly climbing should follow the usual rule. We are told that there can be no cure for depressions without sweeping away all that we have evolved in the past centuries and taking up something wholly new.

The sad thing about these new parties is that the leaders believe in them and in most cases really think they could set the world right if they only had the chance. There was an experiment in Russia under which millions of people lost their lives from the oppressive tactics of the Marxists who seized the reins of power and also from famines which any wise government could have prevented. It was a terrible price to pay in order to turn out one set of bureaucrats and replace them with another set.

As Russia is the only country to which we can refer as having based its social revolution on the Marxist system we must be justified in warning local people against any such movement in this country. Local leaders may be sincere in their efforts and in their beliefs that their system could be brought about in a peaceful manner, but others who oppose it may be equally sincere in expecting a repetition of the Russian experiment, should the Marxists once get a chance to carry it out.

Liberalism provides for a gradual change in the system under which full protection will be given to the workers without causing such national turmoil as is bound to follow any revolutionary step.

Marxism tends to induce the rise of Fascism along somewhat similar lines to that seen today in Italy and Germany and other countries. It is the natural reaction. It would be a terrible thing for Canada to go fascist with the sacrifice to the people of all the rights for which their predecessors have fought. Freedom of speech and action would go along with the freedom of the press and the right to a free trial.

IAN MACKENZIE SEES POSSIBILITY OF LOCAL RAILWAY BEING CLOSED IF BENNETT CONTINUES IN OFFICE.

(Continued from page one)

Hon. H. H. Stevens who, at that time, was minister of trade and commerce. Had the bank been publicly owned, Capt Mackenzie asserted, the gold that would have gone to it from the government could have been used for expansion of the national currency by \$400,000,000 to \$450,000,000 and this money used on account of national debt or to finance some relief measures.

The speaker recalled how the Liberal party had gone to Ottawa last spring ready to give Premier Bennett a chance to implement the reform measures he had proposed in his radio addresses at the first of the year. Ottawa had then seen the extraordinary sight of Mr. Bennett refusing such co-operation, insisting that the debate continue as the bills were not ready to bring down. When the bills were brought down they were found to be ill-conceived, unconstitutional and some unworkable.

Speaking of the Marketing Act,

Capt. Mackenzie said the Liberal party was not opposed to orderly marketing but it was opposed to arbitrary powers being given into the hands of non-elected persons who were put in control of the 1934 act. The methods of governing marketing should be left in the hands of the elected representatives of the people.

Capt. Mackenzie referred to severe reverses suffered of late by the C. C. F. Social Credit had wiped out the C. C. F. and its allies, the United Farmers of Alberta, in the Alberta provincial election and a similar reverse was possible in the federal election.

The speaker also discussed the unimplemented promises made by Premier Bennett in the 1930 election campaign particularly with regard to the vast scheme of public works and the speedy eradication of unemployment in Canada.

RETURN OF TWO FILMS

"One Night of Love" and "Happened One Night" To Be Seen Here Again by Special Arrangement

Two memorable pictures are being brought back to the Capitol Theatre for return engagements by special arrangements on Monday and Tuesday of next week in "One Night of Love," starring the glamorous Grace Moore, and "It Happened One Night," featuring Clark Gable and Claudette Colbert. Both were listed among outstanding prize-winning pictures of the past year by the Academy of Motion Picture Arts and Sciences. Probably the most of people who saw these pictures when they were here before have heard so much about them that they will not pass up this fortunate opportunity of enjoying them.

Five major awards were given "It Happened One Night." It was voted the best all round picture of the year while Gable and Miss Colbert received the respective awards of the best performances by male

and female players. Frank Capra received an award for the best direction of the year and Samuel Hopkins for the best adaptation. "One Night of Love" ran "It Happened One Night" a close second of the best all round pictures and was easily proclaimed the outstanding musical film. As is well known the glorious singing of Miss Moore is the outstanding feature of "One Night of Love" although there is also some excellent dramatic work.

WATERFRONT WHIFFS

Area No. 3 Likely to Remain Open Until November
1—Fish Oil Varnish Samples Sent Out—
Halibut Landings For Week

With only 10,528,183 pounds of the year's quota of 24,300,000 pounds as set by the International Fisheries Commission having been taken up to the end of August, Area No. 3 on the Pacific Coast, where a few of the Canadian halibut boats and a considerable number of American vessels are operating, will probably continue open to fishing until November 1 and possibly later. Last year Area No. 3 closed on October 26 by which time the quota limit had been reached. At the discretion of the International Fisheries Commission Area No. 3 may be kept open as long as the quota has not been reached although that portion of the area between Cape St. Elias and Ocean Cape, known as the Yakutat spawning ground, must automatically close to fishing on November 1.

Miss Dorothy Myers of the Seattle office of the International Fisheries Commission, after spending a couple of weeks in the Prince Rupert office of the Commission, left this Tuesday on her return to Seattle. Miss Winnie Tucker of the Prince Rupert, having spent a couple of weeks at Seattle office at the same time, returned to Prince Rupert last evening on the Princess Adelaide.

Canned samples of varnishes made from pichard oil are being sent by the Prince Rupert Fisheries Experimental Station to various paint manufacturing companies for inspection and practical test. The varnishes thus made are declared to be quite as effective in practical use as other types of varnish and can, it is said, be produced more economically. It looks like another important fishery by-product may soon become established.

The halibut boat White Hope, Capt. Pete Thompson, left Prince Rupert Thursday night to take up a salmon packing charter between the Queen Charlotte Islands and the B. C. Packers' salmon cannery at Namu on the mainland.

Harry's Crowning Folly
His head hanging in shame after the crowning folly on Thursday afternoon of his current visit to Prince Rupert, Harry Scott, grand potentate of the district hand loggers, is preparing to leave these parts. On the said afternoon Harry essayed to race his Leila against the June of the Armour Salvage Co. fleet with Capt. Henry Hansen at the helm but it turned out to be a pitiful competition. Soon the June was so far ahead that Leila was lost sight of and Skipper Hansen thought he had better turn back to see if he could give a hand. So abashed was Harry by this time that he turned into the Trotter Dock and soon was lost sight of. Harry, who had been evidently enjoying his visit up to the time of this unfortunate race, did not confirm the report that his Leila slows up a mile each year. It is understood he will pay a visit to the Queen Charlotte Islands before he returns to the scene of his industrial activity down Grenville Channel.

Capt. Hans Underdahl returned to port this week with the Covenant from Vancouver to which port he delivered his last catch of halibut. He will be leaving this weekend for the Area No. 3 fishing grounds.

The Johanna, Capt. John Wick, left on Tuesday for a halibut fishing trip to Area No. 3. The Johanna

may also do some black cod fishing.

C. P. R. steamer Princess Adelaide, Capt. Anderson, arrived in port at 6 o'clock last evening from the south and sailed at 10 p.m. on her return to Vancouver and waypoints.

Armour Salvage Co.'s power tug Daly, Capt. John Desmuller, returned to port yesterday afternoon, having completed a charter to the B. C. Packers for salmon packing from the Queen Charlotte Islands to Namu cannery. The Daly will be leaving soon for Vancouver with a tow of lumber from Georgetown but will first go to Anox at the first of next week to pick up a scow which the company has purchased from Granby.

Major Disaster Feared

The Vancouver fish packer Southseaman, with her owner and skipper, Capt. Gerald B. Hamilton and two members of a crew on board, is believed to have been lost out of St. John Harbor on the Bardwell group of Islands in Milbank Sound, about 150 miles south of Prince Rupert, constituting one of the major marine disasters of recent years on the Northern British Columbia coast. The Southseaman, heavily laden with salmon, left St. John Harbor on Friday, September 13, to run north to Butedale cannery but was not seen again. Search by surface and aircraft was commenced this week and the discovery of empty oil barrels and a large patch of oil on the water not far from St. John Harbor by search vessels lends support to the fear that the Southseaman met with difficulties not far out and possibly foundered with those on board. The weather had been very stormy and, due to overloading, it is believed she may have met with disaster. The Southseaman was 33 feet in length and was built at Vancouver in 1930, being registered out of Galiano Island by Capt. Hamilton whose home was at Fulford Harbor.

The full effect of the closing of Area No. 2 to halibut fishing on September 6 was felt at Prince Rupert during the past week when landings fell to a total of but 233,000 pounds of which 47,000 pounds was from Canadian vessels and 186,000 pounds from American. This brought the landings for the year to date up to 9,544,650 pounds of which 4,656,350 pounds was from Canadian boats and 4,908,300 pounds from American. With the landings becoming lighter, prices showed a tendency to improve. The top price of the week for Canadian fish was 9.5c and 6c received by the Vera Beatrice for 7,500 pounds and the low 6c straight paid the Bayview for 2,000 pounds. For American fish the high price was 9.7c and 6c paid the Atlas for 35,000 pounds and the low 7.7c and 5.5c which the Arrow received for 32,000 pounds. On several days during the week there were no landings at all, one of the blank days having been yesterday nor was any halibut in today.

All salmon seining areas in

Prince Rupert fisheries district with the exception of Bella Bella and Queen Charlotte Islands are now closed although gill-netting is still being carried out on the Skeena and Naas Rivers and at Rivers Inlet. Chums are showing up well on the Queen Charlottes and in fair quantity in Bella Bella waters while there is a medium run of cohoes. Klemtu and Butedale canneries on the coast having now closed leave Namu on the mainland, Lagoon Bay on the Queen Charlotte Islands and Inverness and Claxton on the Skeena River the only canneries still in operation. The trollers are also doing fairly well with cohoes just now.

A recent 2 1/2c per gallon drop in the price of gasoline here was welcomed by the fishing fleet and waterfront community generally. Now the hope is that it won't go up again before the next season comes around.

C. P. R. steamer Princess Louise, Capt. S. K. Gray, arrived in port at 7:45 this morning from Vancouver and sailed at 9:15 a.m. for Skagway and other northern points whence she is due back here next Wednesday afternoon southbound.

Algie Back From Islands

Armour Salvage Co.'s new power tug Algie returned to port at 7 o'clock last night with Capt. Paul Armour in command from the Queen Charlotte Islands, having in tow an empty scow on which she delivered a 20-ton tractor to Massett for a gold mining concern as well as the Union Oil Co.'s oil barge from North Island. The oil barge was taken over by the company's tanker Unacana, Capt. Powers, leaving at midnight last night for Vancouver where the outfit will be tied up for the winter. The Armour Salvage Co. will shortly be moving its suction dredge and other equipment to Stewart where there is an important dredging contract to be carried out.

Coming in here instead of first making her calls in the Skeena Slough, Union steamer Cardena, Capt. Ernest Georgeson, originally reported due at 7:40 this morning from the south, arrived at 11 o'clock last night and sailed at 12:30 midnight on her return south. The change of arrival time was due to the vessel coming here before going into the Skeena.

James Boyd, supervisor of fisheries for District No. 2, returned to the city by train or Tuesday night of this week after a trip to Babine Lake to inspect the government hatchery there. The Canadian Airways plane on which he flew from here to Babine returned from Burns Lake overland to Swanson Bay, its base in fishery patrol service.

Motorship Bellingham arrived in port at 5 o'clock last evening from Ketchikan and, after discharging four carloads of mild-cured salmon for transshipment East over the Canadian National Railways, sailed at midnight on her return north.

Capt. Charlie Edwards has joined the staff of the Armour Salvage Co., taking over command of the Daly in place of Capt. John Desmuller who becomes skipper of the company's new power tug Algie. The Algie is leaving for Namu to take up a brief salmon packing charter from the Queen Charlotte Islands. The Pachena, Capt. Henry Hansen, leaves on Monday for Stewart with the company's suction dredge plant which is to carry out a contract there.

The Kaen Hardware, for installing an oil burner without a permit, was fined \$1 in city police court by Magistrate McClymont yesterday.
