Hon. H. H. Stevens who is leading a rather forlorn hope with his reconstruction party is grasping at the straw of Douglas credit in the hope that it will keep his group from being sunk in the election morass. The unexpected strength developed by the Aberhart party in Alberta gives him a ray of hope that by allying himself with them he may elect a few members in Alberta.

It is possible that what may help Mr. Stevens in Alberta may be his ruin in other provinces of the Dominion. At anyrate it does not at present seem as if the reconstructionists can hope to elect more than half-a-dozen members in the whole country and probably not that many.
