PASSENGERS ARE HAPPY

Memorial of Appreciation to Canadian National Railways

VANCOUVER, Jan. 31:—B. T. Chappell, general superintendent, Canadian National Railways and Steamships, yesterday received a memorial signed by 150 passengers who were held up at Kamloops during last week's storm and re-routed to Vancouver via Prince Rupert. They arrived on C. N. S. Prince George here yesterday morning. Signatures disclosed passengers came from points as far east as Prince Edward Island and as far west as the Philippine Islands. The memorial reads: "We, the undersigned, wish to express our sincere thanks for the many kindnesses and the satisfactory manner in which the Canadian National Railway Co. and the Canadian National Steamship Co. handled so efficiently and with so little inconvenience a difficult situation. "Many of us were marooned for several days, attributable to unprecedented weather conditions which created snow and other slides demoralizing schedules with the resultant blockade of transportation on your railroad in Southwestern British Columbia. "Suitable accommodation and board were furnished us at the expense of your railroad. Our welfare was solicitously looked after and the uniform courtesy and helpfulness of your officials and crew of both train and boat were most commendable in every way and deeply appreciated."

RAIL LINE IS TIED UP

Kayex River Bridge Out—No Trains Before End of Week

With one hundred feet of the Kayex River bridge near Skeena station out on account of ice floating down the swollen waters of the river against the piling, railway traffic in and out of Prince Rupert is tied up until the end of the week. The bridge was found to be in an unsafe condition yesterday afternoon and last evening's train for the east was not permitted to cross but instead was brought back here last night. More damage was done to the bridge this morning.

Two piledriver gangs were working at the bridge today, one from Prince Rupert and the other from Smithers. It is expected that the line may be in shape for trains again possibly by Saturday.

The train, ordinarily due from the east tonight, is not coming further than Smithers but passengers mail and express for points west of Smithers between there and Kayex are to be handled by the extra with the piledriver from Smithers.

A MEETING POINT

There must be a meeting point between old time capitalism and extreme communism. Russia tried communism and is steadily moving to the right until today the country is strongly capitalistic in many respects. At one time the Russian leaders expected all nations to follow them into communism but, after a long wait during which time the Russian propaganda had little effect on other nations, Dictator Stalin has changed his policy, so that Russia has not only entered into treaties with capitalistic nations but has become a member of the League of Nations working for peace and stability instead of endeavoring to cause disintegration and war.

On the other side of the picture we see many nations becoming more democratic or taking up national socialism as in Italy and Germany and other European countries. Big finance is being shorn of its power and schemes such as national social credit are being advanced.

While some people expect the whole world to go fascist just as the Russians expected the whole world to go communist, it is probable that a scheme of things will be gradually worked out that will give a very large measure of self-government to each nation while at the same time protecting the workers and making life worth living for every citizen who cares to work.

Premier Bennett in Canada has, by leading his lagging party forward towards Liberalism about fifty years at one jump, done his bit to bring about a better condition. While doing this he will not satisfy those who feel that the Canadian workingman should have something more than mere protection in his present status. Canada has lagged behind in movements for social and economic betterment. So did the United States until Roosevelt entered the picture as a popular leader. Today there is a general movement forward and in this movement every country in the world will have to join until in time a world commonwealth is made possible with every man having an opportunity to make a good living, protected against the pressure of big business within or the danger of war from without. Backward nations will have to be brought forward until they cease to be an economic danger as a result of low wage scales.

It is possible that this world state is the millenium of which much has been spoken and written.

SPORT CHAT

The sport of bowling is showing a distinct revival in Prince Rupert. The recently-established new alleys at the Elks' Home have proven popular and tonight another new resort will be opened in the basement of the Exchange Block. Times have changed since the good old days when they used to run bowling alleys in connection with the pool halls and it was regarded entirely as a man's game. Now the ladies take an active part as may be seen from the success of the Ladies' League which is being operated at the Elks' Home.

In connection with the opening of the new Exchange Block alleys tonight, a team representing the Knox Hotel has issued a challenge to play any other five-man team in town for a turkey dinner.

Line-ups for tonight's Ladies' Bowling League fixtures are announced as follows: Mussallem's vs. Lucky Strikes, Big Four vs. Canadian National Recreation Association; Alley Cats vs. All Stars; Rupertettes vs. Strikers; Boston Reds vs. Annette's.

Boston Bruins blanked the New York Americans at Boston Tuesday night to move back into the leadership of the American Division of the National Hockey League with a margin of a single point over the Chicago Black Hawks who had an open night. The Rangers, playing in New York, downed the Toronto Maple Leafs in a free-scoring engagement and, as a result, moved into a tie with the idle Detroit Red Wings for third place in the American Division. Montreal Maroons downed the long-suffering St. Louis Eagles at Montreal in the only other game scheduled for Tuesday night.

Port Simpson Athletic Club senior and junior-intermediate basketball teams arrived in port just before noon today aboard the seineboat Anna Louise, Capt. Ernest Dudoward, from Port Simpson to engage in games here tonight with Grotto Seniors and Scythian Juniors respectively. Other boats brought along fans to watch the games, the number of the visitors totalling twenty-four in all. They had a rough trip coming in.

LIMERICKS STOP TODAY

This is Last Chance to Get Them In to be Eligible For Prize

The limerick contest closes definitely today. Any entry may be mailed tonight or left in the office after 6:30 but none will be accepted after. Following are a few of those received:

There's a very moist place called Vancouver, Where traffic can't even manoeuvre So Rupert took pity On that drowning city and now evermore we can "spoofer".

O, Prince Rupert may give us a pain, At the wet we may grumble in vain, But the ice and the snow How we watched them all go, When down came the friendly old rain.

Vancouver's a city we know, Fed up with floods, blizzards and snow,

It gives them a pain To bow to the name Of Prince Rupert where balmy winds blow.

The railway trains could not get over The snow-blocked roads into Vancouver,

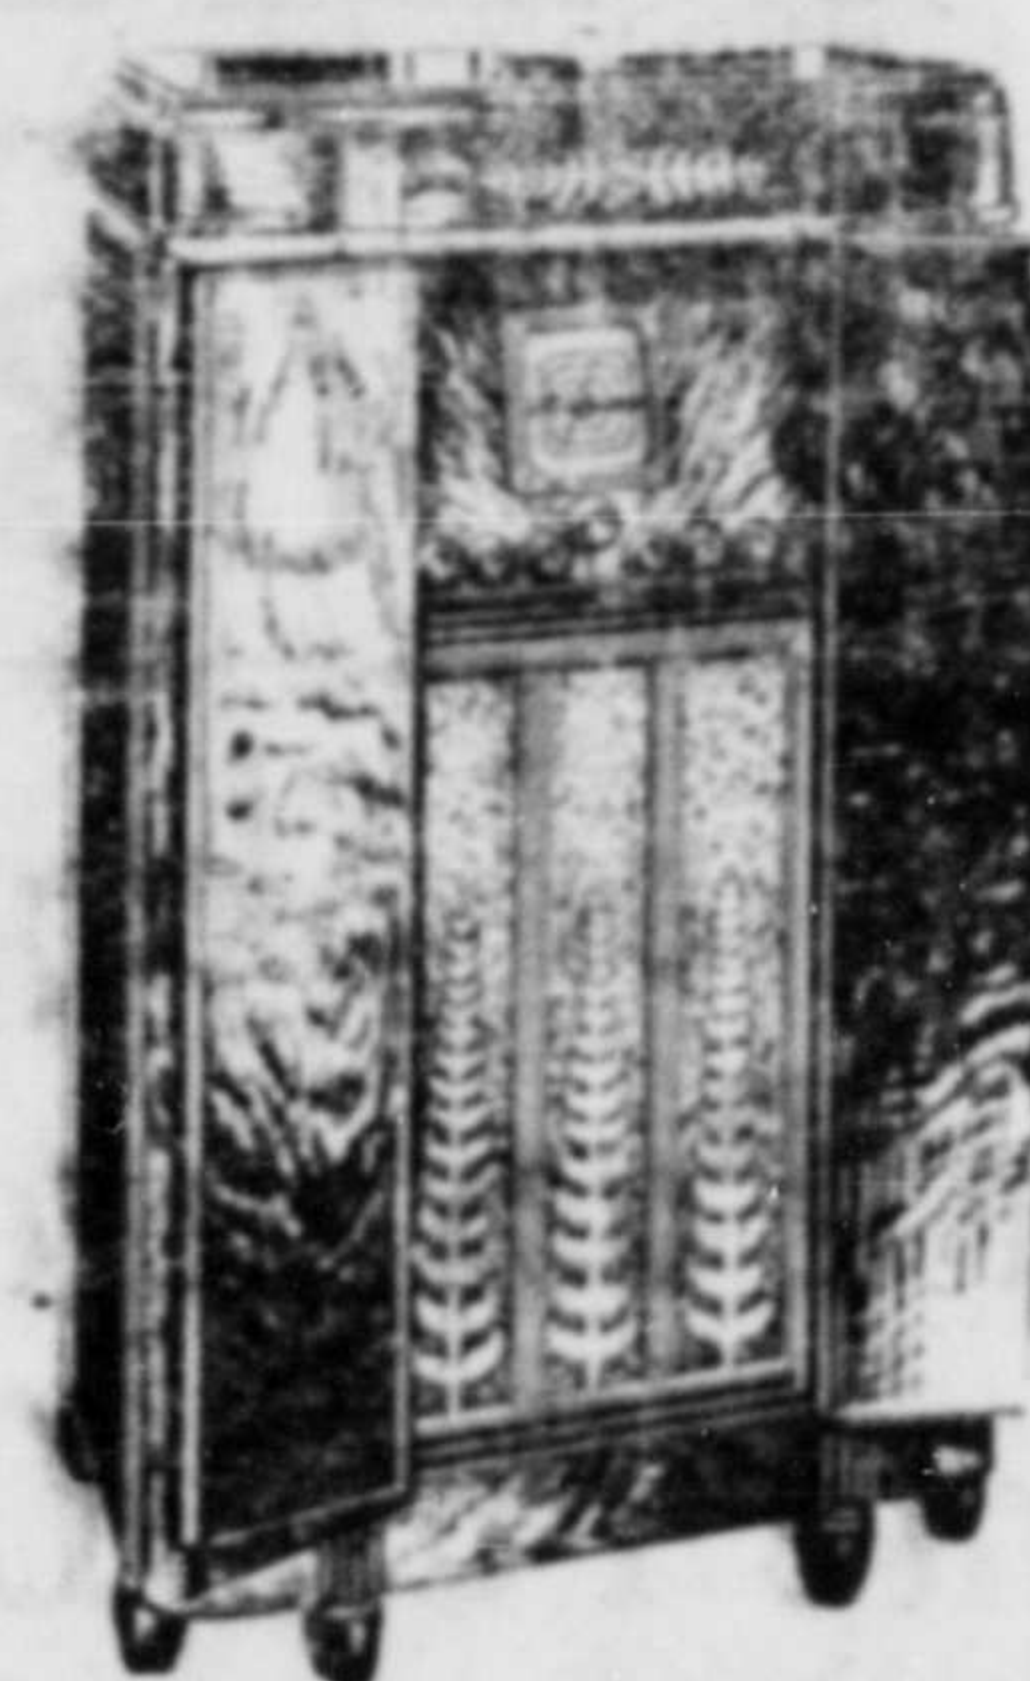

They had to go 'round Via Rupert's bare ground, Where it's always quite safe to manoeuvre.

Will you please close the contest this instant,

My family's a-hunger quite frequent, I must cook this dinner, You wicked old sinner, And can't with these rhymes so persistent.

EFFICIENCY ESSENTIAL
 Importance of Maintaining Effective Fire Department Stressed

The number of feet of hose laid by the fire department in 1934 amounted to 6700; chemical hose, 150 feet, and ladders, 300 feet, according to Fire Chief J. R. Morrison's annual report. Chemicals used totalled 180 gallons.

During the year members of the department made 690 inspections of business houses, hotels, schools, hospitals and moving picture houses. Fifty written and 150 verbal notices were given to correct unsafe conditions and, as a result, there was a marked effect in reducing the fire hazard in the business section during the year.

During the year several old buildings were removed as they were in bad shape, constituting fire hazards.

Efficiency Necessary
 "Frame construction throughout the city makes it absolutely necessary that the fire department be kept up to the greatest efficiency," says the chief's report.

The equipment in the hall at the close of the year was the same as in the previous year with the exception of 500 feet of 2½-inch hose purchased during the year.

As a result of fines imposed under civic bylaw for allowing soot to accumulate in chimneys, thereby causing chimney fires, the city collected \$62 during the year. The expenditure of the department for the year amounted to \$10,908.13, including \$8,773.12 in salaries.

The chief, in conclusion, expressed appreciation for the co-operation and assistance extended by the commissioner during the year, the faithful devotion to duty and attention to work of members of the department, the assistance of water and police departments and the courtesies of public and press.

Bigger Old Age Pensions Urged By Labor Head

Bluenose Skipper Sued For \$500

Captain Angus Walters, skipper of Nova Scotia's famous Bluenose, queen of the Atlantic fishing fleet, was sued by Addison Stillwell (inset), wealthy Chicago lumberman, after the latter chartered the Bluenose for a cruise. Stillwell charges that Walters and the Bluenose crew made things so uncomfortable that he was forced to stop the trip. Walters retorts that he felt that Stillwell should have been put in irons, and treats the whole matter as a joke. Walters is shown above at the helm of his schooner.

Vancouver Bonds Withdrawn From London Exchange

LONDON, Jan. 31. (CP)—Quotations of Vancouver bonds have been withheld by dealers on the London Stock Exchange. The move, described as temporary, was attributed by the Financial Times to the "threat of partial default."

McGeer's Statement

CALGARY, Jan. 31. (CP)—Mayor G. G. McGeer of Vancouver, here attending a conference of western mayors, admitted that the London Stock Exchange had threatened to move Vancouver bonds from its official list unless the city's interest rate reduction plans are abandoned.

HAVEN'T you noticed that your happiest hours occur on days when you feel your best?

Have more of these happy days. You and all your family. Guard health while you have it. Keep on the sunny side of life.

The greatest enemy of health is common constipation. It may cause loss of appetite and energy. Certainly it kills enthusiasm! Yet it can be banished by eating a delicious cereal.

Laboratory tests show Kellogg's ALL-BRAN supplies "bulk" and vitamin B to relieve common constipation. Also iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. How much pleasanter to eat this delicious ready-to-eat cereal than to take patent medicines. Two table-spoonfuls daily are usually sufficient. Chronic cases, with each meal. If not relieved this way, see your doctor. Made by Kellogg in London, Ont.

RESPONDING TO APPEAL

The Half Way Mark Reached in Mission at the Cathedral

In spite of yesterday's inclement weather, the appeal of the Church Army Mission here was in no way lessened but rather increased.

Appreciative congregations were present at all services yesterday. They began with a celebration of Holy Communion.

The interest of the children in their own special service under the leadership of Capt. Hanney, Mrs. S. Painter was the special solist.

The theme of Capt. Hutchison's address was "The Response to the Father's Call." He pointed out that such a response was the child-like trust, "Casting all your cares upon Him for He careth for you." (1 Peter 5.7).

The speaker reminded his hearers that all of them had cares including the individual care of their own souls. They were born alone, lived alone and died alone. The future and destiny of one's own soul was entirely in one's own hands.

Then there were the family cares and the cares for others. Even children in some measure had such cares.

The question was then asked: "How can we cast our cares upon God?" The answer was that He did not remove them, but gave strength to bear them. If only people could bring their cares to Him in child-like trust they would find the truth of His promise.

"They that wait upon the Lord shall renew their strength."

This evening Capt. Hutchison will speak on "The Call of the Father to the Conscience." Special music will be rendered by Mrs. C. E. Cullin and the Welsh tenor, Capt. Hanney, who will sing by request "Abenrystwyth."

The Letter Box

MR. BENNETT'S SINCERITY

Editor, Daily News:

The "Daily Province" of Vancouver is very much annoyed with the Toronto "Daily Star" at the latter's temerity in venturing to question Mr. Bennett's sincerity in entering upon his late economic adventures and daring to question the motives of the Conservative leader therein. Impartial observers, however, will be inclined to believe that the Toronto journal, in the article referred to, has stated no more than the truth. The Prime Minister must give the electorate a reasonable and consistent explanation of his economic volte face on the eve of a general election.

Mr. Bennett must reconcile his recall of Mr. Stevens' famous pamphlet with his tacit, if not express, permission to Mr. Stevens to originate and advocate the policies which he himself then condemned but now endorses. He must justify his subsequent acceptance of the ex-minister's resignation on the ground that these policies were not first communicated to himself and his cabinet, when he has been guilty of exactly the same offence. Can he persuade the public that he is not a political opportunist, that his broadcasting program and present economic campaign were not really intended in part to divert public attention from the real mischief of the day—that is, the preposterous protectionist tariff—and in part from his dismissal of Mr. Stevens on the ground of advocating the very policies which he is himself now advancing?

Well, maybe he can, but we doubt it.

POLITICAL OBSERVER.
