HAD BEEN BROODING

Further Particulars of Shooting Affair at Colleymount

A shot heard in the woods on Monday evening of last week about half an hour after the fatal shooting of Emil Perle at Colleymount on Francois Lake led to the belief at first that John Lake, Perle's assailant, might have shot himself but, in view of no trace having been found of him, this theory is now to a large extent discounted. It had also been thought at first that Lake might have been demented but there is now the suggestion that the shooting might have arisen from a quarrel. He had been brooding all day prior to the shooting and had been heard to make threatening remarks. He watched for the return of Perle and others from the fields and armed himself with the rifle and met them as they came up. Others escaped but Perle remonstrated and was shot.

Inspector John A. Fraser, provincial police, returned to the city on Monday afternoon's train from week-end there investigating the circumstances of the affair. With special officers watching (Continued on Page 4)

### WILL WELCOME RETURN

People living in countries where they have autocracies such as exist in Italy, Germany, Austria, Japan, Russia and Mexico will pretty soon be looking with envy on Canada and will welcome the return of their own countries to the good old-fashioned democracy under which they enjoyed freedom of movement, of speech and of religion. Italy is being driven into war without a single voice heard in defence of the peace movement which permeates practically all nations of the world today. Freedom of speech has been abolished there long ago. Germany is being armed by an autocracy which, if it continues its present course without interruption, will again involve the world in a terrible struggle for mastery. Japan and Russia have been on the verge of open hostilities more than once of late and Austria is anything but secure. Who would of preference live in any of those countries? Thousands of the inhabitants would, if they had the chance, come to live in Canada where they would be allowed a reasonable freedom, so much freedom, in fact, that it looks almost like license to things which they would not dare to do in their own countries.

Let us hold fast to our democracy, for once we lose it, we may not regain it without repeating the struggles of our forefathers who won it at so great cost.

### CLEVERNESS MISAPPLIED.

William Bageley is a clever man who turned his cleverness into wrong channels. He set to work to dupe his fellows in a somewhat similar way to that in which some of the very clever businessmen of today are trying to dupe the public. He was too open in his operations. His cleverness did not even have the cover of law or custom to justify it. Now he is under sentence of death and will probably expiate his offences on the gallows.

The difficulty with some of the offenders who are constantly robbing the public is that they cannot be convicted and the death sentence is not applicable to their particular cases. It is because of the difficulty in dealing with men who stay under cover of the law that people are willing to turn to worse methods of government. In some countries these men have to face a firing squad. Here in the past they have been honored with titles or places in the Senate.

### HITS SCHOONER

VANCOUVER, September 4 (Canadian Press) — The American fishing schooner Anna J. was beached early this morning when the ss. Prince Rupert "brushed" her while both were negotiating Seymour Narrows. The crew of six are safe and will arrive in Vancouver tonight.

### BODY IS RECOVERED

Provincial police here were advised today that the body of Teizo Kawase, Japanese, who was drowned from his gasboat near Haysport on August 21, had been brought up in a gillnet this morning not far from the scene of the drowning. An inquiry is being held.

Customs and excise revenue at the port of Prince Rupert for the month of August this year totalled \$12,644.43 in value.

Police court fines during the month of August this year totalled \$225.

## SMITHERS WAS BEST

Composite Box Score Explains Why Visitors Won Baseball Series Here At First Of Week

### Watson Led Hitters

Centre-fielder For Railroaders Had Average of .714—Kershaw Steinar Pitcher

Composite box score shows that Smithers both outhit and outfielded Prince Rupert in the two-game baseball series at the first of the week, which, added to the sterling pitching performance of Ernie Kershaw in hurling the visitors to a twenty strike-out victory in the first game, as well as coming to their rescue in the dangerous close of the second game, gave the Smithers lads full value for the victory in both games by total runs of 9 to 5 — winning the first game 3 to 1 and the second 6 to 4.

Smithers made a total of fifteen hits as against Prince Rupert's nine while, in the fielding department, the visitors registered fifty-four put-outs as against Prince Rupert's fifty-one. Smithers was blamed with nine errors as against Prince Rupert's eight.

"Wattie" Watson of Smithers was the heavy hitter of the series, gathering five bingles, Harley Lewis following with three. Being on seven times, Watson had the tidy average of .714 while Lewis' average was .333. Prince Rupert's two pitchers, Bill Lambie and Jackie Lindsay, were the home town's leading stickhandlers, each making two hits for the series, the former for an average of .250 and the latter for .500.

Extra base hitters of the series were Smith, Lambie and Bury of Prince Rupert and Leach of Smithers, each collecting two-baggers.

Kershaw struck out twenty-four Prince Rupert batters—20 in the first game, four in the second—while Lambie fanned eleven, Mike O'Neill four, and Jack Lindsay, two. Kershaw issued no walks, Lambie but one, O'Neill one and Lindsay, four. Kershaw hit two batters with pitched balls and Lambie, one. Base stealers of the series were Lewis (three), Johnson, Morin, Bury, Simonsen and Lindsay.

The official scorekeeper recognized but one double play, that being in the second game by Smithers—Leach to Aida.

Herb Leach, on the Smithers hot spot, and Alex Mitchell, in the keystone position for Prince Rupert, had the most errors charged against them, namely, three.

# Care for the Worker

An easy way to judge whether general working conditions in an industrial establishment are satisfactory, is to enquire into the percentage of labour turnover. With approximately 2,000 employees in its Montreal factory, and an annual turnover of less than 10 per cent, the Imperial Tobacco Company believes it has been reasonably successful in its endeavour to maintain conditions up to standards acceptable to the worker.

The pay envelope, of course, is the first consideration. Whatever time rates other employers pay for comparable labour, the Imperial Tobacco Company always contrives to pay a little more. Its time work rates increase with length of service. If a worker's earnings are less than they should be, the company endeavours to transfer this worker to work at which he or she is more adaptable.

Attached to each department is a relief staff who, besides substituting for absentees, take the places of those who temporarily leave their machines. Thus is continuity of production maintained, and undue fatigue avoided.

And of course all things that make for cleanliness, comfort or safety are liberally provided. The buildings are well lighted, well heated, well ventilated, and of modern fire-proof construction. There are wash-rooms, lavatories and drinking fountains everywhere, all kept scrupulously clean. Sweepers, scrubbers and painters are constantly at work, cleaning up and brightening up. Dust removing and humidifying devices keep the air pure. Guards and safety devices are used everywhere to minimize danger.

Lockers, uniforms and lunch rooms, about which more will be said later, together with the medical and nursing services, and the life insurance and sick benefit features that have already been discussed, complete a picture of conditions that combine to make the daily round of the worker unusually pleasant and care-free.

The greatest enemy of health is common constipation. It may cause loss of appetite and energy. Certainly it kills enthusiasm! Yet it can be banished by eating a delicious cereal.

Laboratory tests show Kellogg's All-Bran supplies "bulk" and vitamin B to relieve common constipation. Also iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. How much pleasanter to eat this delicious ready-to-eat cereal than to take patent medicines. Two tablespoonfuls daily are usually sufficient. Chronic cases, with each meal. If not relieved this way, see your doctor. Made by Kellogg in London, Ont.

(Continued from page one)

for Lake's possible return to Colleymount, regular provincial police officers throughout the district are now on the qui vive for the killer's possible appearance at some point. It is stated at provincial headquarters here that there were eye-witnesses to the shooting of Perle by Lake at a distance of about 100 feet. The bullet entered his abdomen and he succumbed about six hours after the shooting.

Perle was accompanied on approaching the house by Frank Saari and August Kivi. Saari was in flight at a distance of possibly 200 yards when Lake shot at him, the bullet going through his hat and barely grazing his head. Kivi took flight around some building in a different direction and went into the bush.

Lake, Perle and Kivi worked for Saari on the latter's farm. On the day of the shooting possibly laboring under some sort of a grievance, Lake had refused to go to work and had remained indoors. He made some remark to Saari's daughter about intending to "clean up on the bunch of Finns." He sat at a window waiting for them to come in from their work in the fields and, on them starting towards the house, he took the rifle. The girl started to remonstrate with Lake and tried to take the rifle away from him but he threatened her and she went screaming from the house to warn the others as they approached. Saari and Kivi took flight but Perle, an older man, came up towards Lake to endeavour to have him desist from his shooting. The fatal shot was then fired.

## COMEDIES PRESENTED

Light Entertainment Offered At Capitol Theatre For Middle Of Week

A bright and tuneful romantic comedy, "All the King's Horses," and another light romance, "Vagabond Lady" come to the Capitol Theatre here this mid-week on what promises to be a quite entertaining double bill.

With plenty of songs and spectacle, All the King's Horses, introduces on the screen Mary Ellis, charming singing star of the stage, with Carl Brisson in the leading male role, Edward Everett Horton, Katherine DeMille and Eugene Palette being featured in Miss DeMille, whose first picture it is, is a former Vancouver girl and is the adopted daughter of Cecil B. DeMille, famous picture producer. The picture is based on the well known stage play of the same name.

Many amusing complications arise in the funny plot of "Vagabond Lady" featuring Robert Young, Evelyn Venables and Reginald Denny with Berton Churchill, Frank Craven, Forester Harvey, Dan Grimmins and Ferdinand Gottschalk in principal support-

#### URGES HANSON SUPPORT.

Editor, Daily News:

The federal election is at hand and it behooves us to consider the necessity for united action. This riding is noted for stepping off on the wrong foot at election time and this habit is liable to become assured. A Tory party with a united front would have no chance of success, and now H. H. Stevens launching a new party has caused another break in disordered ranks. Mr. Hansen the Liberal candidate's honesty, sturdy perseverance and business acumen is well known. His admirable tact in a difficult position as a member in the Opposition and his pleasing personality has won him many friends at the Capital. That he will serve the riding well if re-elected is a foregone conclusion.

This riding is still in the pioneering stage and needs co-operation from the federal government. But what co-operation could we expect if we sent a man to Ottawa to twiddle his thumbs in the ranks of the opposition? So let us forget political creeds and start Mr. Hanson on his way to Ottawa with an impressive majority. The changes against our present government are well known and too many to enumerate in this short letter. But what to my mind filled the cup was Mr. Bennett's presumption in foisting on the democratic people of Canada a

while Italy continues feverish activity.

Italy Talks Plainly GENEVA, September 4 — The League of Nations went into session today to consider the Italo-Ethiopian crisis, the opening meeting being largely concerned with preliminaries.

Italy bluntly warned the League that she could no longer discuss her controversy with Ethiopia "at the League on the footing of equality with Ethiopia."

Following Italy's declaration, the council session was suspended.

Capt. Anthony Eden of Great Britain told the Assembly that there could be no question of any political or economic conflict between Great Britain and Italy.

ted class, a remnant from feudal times.

But maybe Mr. Bennett saw the handwriting on the wall and had in mind a title for himself. It is possible he figured that after this election it would be nicer to be a Count than a politician of no account.
