### OF THE PUBLIC EYE!

Canada has fifty-six thickly settled cities—the centres of highest buying power - from which radiate all the important markets of the Dominion.

More than two million daily newspapers are bought by Canadians every day, for daily newspaper reading is a habit that has grown and fastened itself upon our national life.

All the play and movement of civilization, from the Arctic Circle to the Equator, from the mystic East to the heart of the ultra-practical West-the life of the world—is focussed in the newspaper every day.

The readers of the daily newspaper embrace every class of occupation, every income group-the woman in her home; the executive in his office, and the messenger boy sitting outside; great merchants and keepers of small shops; artists, artisans, financiers and clerks; to each and all the daily newspaper is an essential part of everyday life, the focus of all human activities.

Daily Newspapers help to sell more goods than any other advertising medium because they are read by more people.
