PAIN HAS CIVIL WAR

Government is Mobilizing Workers Against Fascists To Defend Capital

Much Fighting

Cities in Disorder—Morocco Rebels Are Attacking Mainland

MADRID, Spain, July 20.—Spain Sunday organized her masses of workers in defence of the harassed Leftist regime. An official stated a column of Asturian miners was enroute to Madrid to defend the capital, if necessary, against Fascism. It was also announced the Navy was faithful to the government except in isolated cases.

Workers' headquarters announced they will mobilize militia organizations which will be armed with rifles. Truckloads of these militiamen will control the city, searching pedestrians and motor cars for arms. Instructions were given to all provincial governors to organize workers and arm them.

Military rebels, apparently in firm control of virtually all Spanish Morocco, thrust hard at Spain's mainland Sunday night.

Government in Control

The government announced today it was master of the situation in Spain after loyal forces, using artillery and planes, blasted the rebels into submission here. However, the rebels were reported to be still in control of Spanish Morocco where a Rightist insurrection broke out Friday.

Over one thousand officers are under arrest by their commands in Madrid on government orders. Province after province today reported submission to the central government.

Conflicting reports outside of Spain said that control of the southern provinces had been gained by the insurrectionists.

As rumors of the insurrectionist being Royalist-inspired spread, former King Alfonso suddenly departed from Praha, Szecho-Slovakia, for an unnamed destination.

These consist of the Rainbow group, the Judge group and several smaller groups and it is intended to put a small crew of men to work immediately cleaning out the old workings and uncovering ore.

The road to the property is at present in bad shape, owing to the recent rains, and it is necessary to do considerable work on the Driftwood road before very much can be done towards transporting material and supplies. PAID VISIT TO KENORA

Fred Riffou Tells of Visit East And To the Prairies Where He Found it Too Hot

Completing a two months' holiday in the country east of Prince Rupert as far as Kenora, Fred Riffou returned to the city at the end of last week, quite happy to be home after the heat and flies of the prairies. His objective on leaving was to attend the old timers jubilee at Kenora where he had previously lived for nine years. He spent ten days there and met a few old friends.

Mr. Riffou was quite impressed with Kenora as a business centre. It claims a population of 9,000 but its area is not as great as Prince Rupert. Its industries include a pulp mill and a flour mill but tourists contribute very largely to the business success of the place which he thinks will be a big city some day. Rich Americans are building summer homes on the islands in the Lake of the Woods and they come in regularly and buy supplies. Motor traffic is also very heavy. What he did not like was the temperature of 106 in the shade and the plague of fish flies that are everywhere in thousands.

These flies are an inch and more in length and in some cases they were in clouds so thick that the people busy with their hands had to have a boy to keep the flies off them. There were also mosquitoes and insects of various kinds, all of which made living conditions unpleasant.

The program will give employment to several thousand men in the north at current wages pertaining to the district which at Prince Rupert, for instance, are forty cents per hour.

Main highways as well as mining roads and trails will benefit and it is expected the following projects will be authorized, some to be done by contract and some by day labor according to the adaptability of the particular project:

RACE PREJUDICES

Stephen Leacock, the Canadian humorist, says he has no prejudices. As a Canadian he is willing to admit that perhaps Canadians are a little bit bigger and brainier than any other people but the Americans to the south of us are a mighty fine people and even over in Europe and Asia and Africa there are a lot of fine people too.

A lot of English, Scotch, Irish, German, Norwegian, Russian, Belgian, Italian, Austrian and Czecho-Slovakian people will take violent exception to Mr. Leacock's suggestion and so will our American cousins. The English will think the English are just a little better, the Scotch will think the Scotsmen are it, and the Irish will be willing to put up a little more money on the Irish just as the Negroes put nearly all their money on Joe Louis and were despoiled by the Germans. Race prejudice made them do a foolish thing.

This race prejudice seems to be at the bottom of all wars. The ammunition makers are able to play upon these prejudices and start the shooting.

Mr. Leacock, who, by the by, is a philosopher as well as a politician, objects to treaties and disarmament pacts and naval agreements. He thinks naval agreements should read something like this. "We aren't going to build any ships bigger than what we feel we want and we won't build any greater number than the number we're going to build." The sum and substance of a very amusing and instructive article appearing in the Rotarian this month is expressed in the last paragraph which says:

"This world can never be made right by force, never by fear, never by power. In the long run nothing conquers but ideas, nothing governs but the spirit. Those of us who think that way—the international boys like myself—have got to do each our simple best in that direction—At any rate that's how it looks to me."

PRICE OF FISH

The canners in the Rivers Inlet area have closed down their plants because they say they cannot afford to pay the price the fishermen demanded. At the price offered by the canners the fishermen possibly might have made something for the coming winter but as it is a good many of them will be asking the rest of the community to keep them in what has been known in the past as "relief." But there will probably be no relief this coming winter, except for those unable to work.

It is charged by the canners that the fishermen have been the tools of a communist leader who has tried to tie up the industry as part of a general plan to try to hamper all industrial activities. The fishermen say the canners could well afford to pay the extra five cents a fish which was necessary to enable them to make enough to live on. As it is, the fishermen make nothing and the canners lose heavily.

While we have not sufficient information on the subject to enable us to take sides one way or the other, we know as every intelligent citizen knows, that disputes of this kind could be and should be settled amicably. The chief difficulty seems to be that neither side trusts the other. The fishermen must realize that they can make no headway without the co-operation of the canners and the canners have sense enough to know that without the fishermen their canneries have no value. Each is dependent on the other. To let the few weeks of fishing go by while the fishermen do nothing but curse the canners and the canners curse the fishermen, is the extreme of idiocy.

Social For Miss Thelma Skinner Delightful Event

A very delightful social and kitchen shower was held in St. Peter's Hall on Saturday evening in honor of Miss Thelma Skinner, whose marriage to Wilfrid McLean takes place at the end of the week. The hostesses for the occasion were Miss Cecile Cavenale and Miss Rita McLean, assisted by members of the club.

The hall was daintily decorated in pastel shades. About forty-five or fifty young people enjoyed dancing to the strains of Mrs. Black's Orchestra until 12 o'clock.

During the course of the evening refreshments were served.

OH, BOY! REAL MAYONNAISE! MOM KNOWS WHAT WE MEN LIKE!

"DADDY AND ME AGREE—NOTHING TASTES AS GOOD AS BEST FOODS!"

AND that's mighty easy to understand. For no ordinary dressing can ever give you the same wonderful flavor as Best Foods! Or the same rich creaminess or full-bodied goodness.

Best Foods, you see, is made differently... combining only choice salad oil, freshly-broken eggs, special vinegar and imported spices. It's all mayonnaise. And it's double-whipped for extra creamy smoothness.

So, why not get a jar of Best Foods Real Mayonnaise today? It is so good—yet costs but a trifle per salad.

Much Troll Caught Salmon In Today—Angling Party by Plane To Khatada — Many Tourist Vessels In.

Landings of troll caught salmon here this morning were the heaviest for any single day so far this season, many packers as well as a number of individual boats being in. There was fish for all buyers and all receiving plants were busy. There has been a decided improvement in the run of fish on all trolling grounds during the past few days. There was also considerable Alaska fish in this morning.

According to word received at the Dominion Fisheries office here today the gill-netting average on the Skeena River last week was sixty fish per boat and on the Naas River, forty fish. High boat for the Skeena River on Thursday was 201 and on the Naas, 160.

Pilot Charlie Elliott made a flight to Khatada Lake yesterday with party of local anglers consisting of A. Ivarson, George Bryant, Trevor Williams, Harry McLeod and W. E. Drake. Departure was made at 5 a.m. and the party was back with a good bag of fish at 7:30 last evening.

Southbound to Vancouver after an Alaskan cruise, the big Canadian National Coast Steamships liner Prince Robert, Capt. Edward Mabbs, arrived in port at 9 o'clock yesterday morning from Skagway and other northern points and sailed at 3 p.m. for the south. The vessel brought in 326 passengers of whom six disembarked here.

Delayed by having had extra heavy freights for waypoints, Union steamer Catala, Capt. James Findlay, arrived in port at 1 o'clock this morning from the south and sailed a couple of hours later for Stewart, Anyox and other northern points whence she will return here tomorrow southbound.

With a capacity list of passengers which does not permit of her taking on any more here, C. N. R. steamer Prince George, Capt. H. E. Nedden, arrived in port at 8:30 this morning from Skagway and other Alaska points and sails at 3 o'clock this afternoon for Vancouver via Ocean Falls and Powell River. The vessel had 205 passengers on board.

On one of her regular summer tourist voyages to Alaska, C. P. R. steamer Princess Charlotte, Capt. W. Q. Palmer, arrived in port at 9 o'clock this morning from Vancouver and sailed a couple of hours later for Skagway and other northern points. The 250 passengers aboard the Princess Charlotte included a party of 60 Buchanan boys and girls, the latter numbering 12, under the leadership of George E. Buchanan, Detroit capitalist, who will visit Atlin and come out on the Princess Alice ten days hence; a Gillespie, Kinport and Beard party of 22 persons from New York making the round trip, and a party of 22 Shriners from Indianapolis going into Atlin. It is the second year for Buchanan girls and the fourteenth for boys.

The coast freighter Salvor, Capt. Albert Georgeson, was in port this morning from Vancouver discharging coal for Albert & McCaffery.

Peter Lachie left at the end of the week for a business trip to Prince George and other interior points.
