WINNIPEG,

In Six Years :

Floats; Some Damage Done

An underwater slide, due possibly, it is believed, to disturbance to the bottom in recent work being carried out thereabouts, at 6 o'clock Sunday morning moved out one dolphin, four piles and two sections of the fishermen's floats just east of the dry dock on the local waterfront, also dislocating a portion of a new breakwater, which is being put in there by the department of public works. There was no damage to any of the boats which were moored there but considerable disturbance was caused as the water boiled up, according to spectators, for almost half an hour.

Loyalists Continue to Fall Back And Capture of Maqueda Expected

MADRID, Sept. 21:-General Molo's Fascist insurgent army was reported last night to be only thirty-five miles from Madtid in the course of the final phase of its victorious advance on the Capital. The rebels have completely surrounded Madrid and expect to move in this week, beginning the last push today. Excavations are being dug with a view to trench warfare in the city.

Massed forces of the Spanish gevernment failed today to halt the drive of General Franco's insurgent army, menacing Madrid along the main Maqueda highway. In four columns, the insur-VANCOUVER, Sept. 21:-Dan Ol- gents expected to seize Maqueda, sen, 36-year old fisherman, lost his key point on the highway to the capital, in a few days and then his boat was struck and sunk in the march down the roadway to

not affect the Prince Rupert district. A similar system, Concords, basket it has been suggested, might be used in some of the co industries, but this has been rejected as unsuitable. Se ing men to work the placer mines of the north has alread proven feasible for a number of single men and possi forestry camps might be a success. A big road build scheme to keep the men working during the win months would be more feasible if it were not so cos Considering the value of the work to the country, possi the road building plan would be the cheapest in the e It would not be pleasant work and during the days w rains were heavy would have to cease, but a good deal the time work could continue. The construction would more costly than if the same work were done in the su mer but it would serve a much more useful purpose. great thing just now is the willingness of the federal g ernment to interest itself in some reasonable scheme. F G. S. Pearson of Victoria and his department of labor working on plans just now in collaboration with fede authorities and it is hoped that they will find some eff tive way of handling the situation.

### SOLVING CHINA'S PROBLEMS

The great problem in governing China at the pres time is to educate the Chinese people and keep them perly posted on current events so that they may be pared to act as a unit in solving national problems most countries this can be done by means of newspay but in that country newspapers do not reach more t a fraction of the population. The pressure of Japa causing the Chinese to strain every nerve in arming country and preparing the inhabitants to resist invas The Nanking government is distributing radio received sets throughout the towns and villages and is broade ing to them in various Chinese dialects. These received sets are often put up in public places and crowds ga around to listen to what the Nanking government ha say to them. This is passed on from one person to ano and discussed so that the people are being educate nationalism and given a smattering of world news entertainment. The example of Russia is being follo in this respect but along broader lines. The Chinese p are being treated as intelligent human beings.
