CALIFORNIA TAKES VOTE ON WOMAN SUFFRAGE

TROUBLE ARISES IN CITY COUNCIL OVER THE PATRONAGE DISTRIBUTION

Alderman Newton Chivalrously Points Out How the Daily News Has Been Dealt With Unfairly by Comparison—Journal Has Been Receiving Double Its Contract Rates from Council—Even Groceries Were Mentioned

Over a motion to do the necessary advertising for proposed minor local improvements—the planking of streets, etc.—there arose in council last night a considerable discussion regarding the distribution of city advertising patronage to the press.

The opening up of the matter laid bare the situation that after tendering a straight rate for advertising last year the "Journal" this year has had considerable patronage turned its way at double the rate originally bid without any definite renewal of tender or notification that the rate had been altered for the information of the public and the competing printing firms.

A statement of the amount of patronage given during the year in advertising to the three newspapers and Premier Press was read by the City Clerk as follows: Empire Publishing Co. \$682.60 Journal Publishing Co. 632.80 Daily News 375.30 Premier Press 96.25

NEW FIRE HALL TO GO ON SITE BY PRESENT HALLS

Work of Erection to Start Immediately by Days' Labor—Hall Will Have Big Basement Open to Fifth Street But \$5000 Fund Will Not Complete Quarters

It was decided by the city council late last night to go on with the work of erecting the new fire hall. The site selected is between the present fire hall, and the temporary premises used to house the auto car. The new building will be placed far enough back from Fulton street to enable a spacious basement to open onto Fifth street and be used for city plant storage, road roller, rock crusher, etc.

dole over that of the other papers. Replying, Alderman Newton said that he knew at least that most of the Empire work for the city had been done on a straight tender basis and the total included a cheque for \$250 left over from last year. Even against his own particular interests he said he would say that the treatment of the Daily News had been distinctly unfair in this respect. But this was only one branch of the city's expenditures in which Alderman Newton thought the patronage had been portioned out unfairly.

He referred to the city's purchases of grocery provisions which he said had been given to firms not even in "our own favored bunch as we might term it from our own view point." He pointed out that only recently the purchasing agent had admitted he did not make the purchases.

Mayor Manson said a return was being prepared showing where all the different city patronage had gone and that if any apparent unfairness existed, between now and the end of the year was the time to rectify it.

Alderman Hilditch represented that the city was no charitable concern to hand out doles where

they were desired but a business proposition to be run on business lines, but did not state whether his theory applied to the Journal in particular or not.

"I am not losing any sleep myself over the Daily News advertising," said Alderman Clayton. "Well, I am," put in Alderman Douglas.

"There is not a bit of love lost between me and the Daily News. They are very outspoken in regard to me, so I will be to them," added Alderman Clayton. "I move that the present advertising be given to the Journal."

Alderman Douglas moved an amendment that tenders be called for, and the amendment carried.

HAS SUFFRAGE LOST THE DAY

Votes for Women Lost in San Francisco by 41,000 Against 37,000—Initiative and Referendum and Recall Carried Easily.

(Canadian Press Despatch)

San Francisco, Oct. 12.—The suffrage for women lost yesterday in this city. On the vote throughout the state for women suffrage San Francisco stood, for 37,170, against 44,689. At an early hour this morning it looked as if it had carried. However, on the other hand the initiative, referendum and the recall, which includes the Judiciary also, has been endorsed emphatically.

S. Camozzi has applied for two months more in which to complete his First avenue contract. Referred to board of works for consideration and report.

WILL ERECT A PLANT IN RUPERT FOR MAKING CEMENT SEWER PIPE

Mr. G. W. Hopp of Bellingham Sewer Pipe Works Has a Plan Whereby Hundreds of Thousands of Dollars Can Be Kept in the City Instead of Going to Seattle—Business Would Become an Important One to City

A new industry for Prince Rupert—one that will employ a dozen men from the start and many more as it develops—is promised to the city if Mr. G. W. Hopp, the sewer pipe manufacturer of Olympia and Bellingham, can have his way.

A Fair Offer

Mr. Hopp came to Prince Rupert when he heard that large sums of money were being sent out of the city for the purchase of clay sewer pipes, and that it was proposed to send out very much larger sums when the civic sewerage schemes are carried out next spring. He is a manufacturer of cement sewer pipe, which is fast displacing clay pipe where

lasting wear and good work is required. He figured out the cost to the city of purchasing clay pipe from Seattle, and is willing to make all the sewer pipe the city of Prince Rupert will need for the same price which the city now pays to purchase clay pipe in the United States. The sand and gravel would be purchased in the district, and the entire payroll for making the pipes would be spent right in Prince Rupert.

Many cities have granted concessions to sewer pipe concerns to start up, but Mr. Hopp is willing to start without any concessions in the way of low assessment or free water or site. All he wants is that his goods be given fair show against the imported article.

Facts About Industry

Vancouver has a big cement sewer factory working right and day. Last week the plant of the Alberta Sewer Pipe Company was opened in Calgary by the Mayor and council. Milwaukee has nearly 500 miles of cement sewer pipe laid—some of it having stood the test for twenty-five years. Boston has about four hundred miles of cement pipe, and all the leading coast cities are using it. Some of

the cement sewers laid in the city of Rome about 700 B. C. are in service today, as good as ever.

In addition to making sewer pipe, Mr. Hopp's company would also make architectural work in cement, laundry tubs, etc.

The question rests entirely with the Mayor and council, and the citizens, whether the hundreds of thousands of dollars to be spent in sewer pipe shall go to Seattle or be spent right at home here in Prince Rupert.

HAYS CREEK SEWER

Outline of Scheme Costing \$75,000 is Before Council

Consideration of the Hays Creek sewer system was begun last night by the council in conference with the City Engineer. The cost of the scheme as outlined by Colonel Davis comes to \$75,000. The plan arranges for the temporary use of settling tank space to be granted by the G. T. P., and the merits of the scheme are under consideration by the public works department.

New fall goods arriving by every boat.—Wallace's. 2t

PEACE FOR ITALY AND TURKEY

Reports from Berlin State That an Armistice Has Been Concluded and Hostilities Will Cease—Italy Officially Denies Having Granted Germany a Port on the Mediterranean

(Canadian Press Despatch)

Berlin, Oct. 12.—An armistice between Italy and Turkey for which great diplomats have been striving for some time is believed here to have been virtually concluded. Although not officially announced, it is understood that the transportation of the Italian military expedition will not be interfered with, but that hostilities in all quarters will cease. This is considered here equivalent to the ending of the war or of warlike movements and may be followed by negotiations looking for settlement. Probably as soon as a strong Italian army is disembarked at Tripoli even the Young Turks

will begin to recognize that there is no hope of withholding Tripoli from Italy.

Italy Denies Pro-Germanism

Rome, Oct. 12.—There is a feeling in official circles here that Turkey and her sympathizers as well as those elements that are antagonistic to Italy are doing everything possible to engender opposition to Italy's plans among the powers.

It is believed that certain reports that have been circulated aim chiefly to play on Anglo-German antagonism with this object. One supposed report spread relates to Germany having planned to ob-

tain Tobruk from Turkey prior to the beginning of hostilities and that Germany will end by securing this important strategic point from Italy as a base for operations in the Mediterranean. These reports are officially denied by Italy and it is further stated that Italy would not dream of being a catspaw to draw chestnuts out of the fire for Germany.

Pantorium Pioneer Cleaners, Phone 4

WILL DO THE CLEARING BY STATION GANGS

Woodworth Lake Waterworks Survey is Now Concluded and Work Will be Rushed—Five Gangs of Ten Men Each Suggested to Clear 160 Acres

Motion by Alderman Hilditch, seconded by Alderman Clayton: "That we call for tenders for the clearing of the shores of Woodworth Lake by station work ten men or more to a gang, and alternative tenders from private contractors for each station. Contractors to give bonds to the amount of ten per cent of their bid, and a time limit of six weeks to be set on the work." Carried.

Woodworth Lake waterworks propositions reached the stage indicated by the above motion last night. Before contracts or station work can be let, however, specifications will be prepared by Col. Davis with the water committee and Alderman Hilditch regarding the handling of the logs after clearing. Certain timber valuable in the works is to be kept in certain lengths, and made ready for the saw mill.

Some anxiety exists at present on the score of a possible scarcity of yellow cedar, in which case lumber for building the wood-stave water pipe must be obtained from Vancouver, says Alderman Hilditch.

Col. Davis' Report

Col. Davis' report at this stage is to the following effect: The survey work around the lake is completed—a contour line 32 feet above the lake level has been thoroughly blazed, trees at every 1000 feet being marked with the necessary measurements for their point.

Two expert timber cruisers have been employed to range the area to be cleared and for some distance above it to estimate the amount of valuable timber available, and Col. Davis advises delaying the preparation of specifications until their report is in his hands. This will be in less than two weeks.

Meanwhile the City Engineer is making the survey to begin the work of blasting out the natural dam at the outflow of Shawatlans Lake. This work will be done by contract.

Five Gangs Needed

Round Woodworth Lake there are about 160 acres to clear, and it is proposed to divide this area into five stations containing approximately 36 acres to each station. It was roughly estimated by Alderman Hilditch that with

twelve good lumber men to a station crew the sixty men could clear the whole area in two months. But Col. Davis remarked that there is a probability that lumbermen will be found scarce in this district at present.

May Have to Buy Cedar

At least half a million feet, board measure, of yellow cedar lumber will be required for the stave pipe to be built, and a big supply of spruce for the construction of the dam. Alderman Hilditch is convinced that there is not half enough yellow cedar in the thirty-two foot belt between the lake level and the contour line and what there is there is likely to be too scraggy to serve the purpose well. It will be necessary to seek a supply of yellow cedar near enough to be useful or to import another class of lumber from Vancouver for the stave pipe. Yellow cedar is the best and most lasting wood.

Unless enough yellow cedar exists within easy access of the lake it will be unnecessary to erect the proposed saw mill at the lake. The mill is to cut staves for the big water pipe.

MANUFACTURERS FAVOR A TARIFF COMMISSION

The Canadian Manufacturers Association Would Not Ask for Specific Tariff Changes as Yet—Do Not Want to Embarrass the Incoming Government

(Canadian Press Despatch)

Toronto, Oct. 12.—The Canadian Manufacturers' Association at their meeting this morning discussed the tariff question at great length and placed themselves on record as favoring the appointment of a permanent tariff commission by the new government. They declined to commit the association to any specific tariff changes, being of the opinion that it would be unwise to embarrass the incoming administration with

any pronouncement at this time.

After discussing this phase of the situation, it was decided to withdraw a resolution previously offered, suggesting that the government be asked to take steps to fix the British preference at a flat rate of 33 1-3 per cent.

The man who ought to own it will come around and look over your property soon after you commence to advertise it in The Daily News.

G.T.P. FOREMAN IS MURDERED

John Lawrence Shot Dead at Edson by a Defeated Rival

Edson, Alts., Oct. 11.—Shot through the body while defending the home of a lady from the slanders of a defeated rival, John Lawrence, a G. T. P. foreman, died Sunday night as the result of the wound so caused. The shooting occurred after a fight in a restaurant in Edson, where the men met Sunday afternoon. A few hot words were passed, a blow struck, and the slayer drew a revolver and fired at his opponent from a few feet distance. Lawrence dropped mortally wounded, and his unknown assailant fled from the room threatening with the revolver those who attempted to stop him. The mounted police were immediately notified and started in pursuit of him at once.

WILL LIMIT THE LUMBER OUTPUT

Many Mills to Close Down for Two Years—Lumbermen Will Seek Higher Duties from the Borden Government.

(Canadian Press Despatch)

Calgary, Oct. 12.—Far reaching changes for the Western States and Canada were decided upon at a conference today by members of the Coast and Mountain Lumbermen's Association. It is said the members agreed that many mills on both sides of the line are to remain closed until 1913.

The Canadian trade during the past year has been marked by the encroachment of the American mills. It was decided to meet all cuts by the American lumbermen and an effort will be made to have the Government give added protection to rough lines of lumber.

BOARD OF CONTROL IS NOT COMMISSION

An attempt is being made to make the people of Prince Rupert believe that it has already got power to have a commission government whenever it desires to make use of that power. That is entirely wrong. No city in British Columbia has power to institute a commission government. Under the Municipal Clauses Act, British Columbian cities can elect Boards of Control, but Boards of Control are not commissions. The principle of Boards of Control is opposed to the principle of commission government. The attempt to deceive the citizens is a mischievous one.

The principle of government by commission as practised by over one hundred of the leading cities of the United States is to place qualified experts in charge of the civic departments making them answerable to the people at election time, and allowing them to hold office only during good behavior and by the public will.

The principle of the Board of Control system contained in the Municipal Clauses Act is very different. The city council is not abolished. The Board of Control is elected as an additional body. The executive power still remains with the council. All the defects, all the incompetence, all the petty squabbling and waste of time and money that is part of the council system still remains.

The clauses of the Act (322c) define the duties of a Board of Control. They read:

"To prepare an estimate of the proposed expenditure of the year, and certify the same to the council for its consideration," etc.

"To inspect and report to the Council monthly or oftener on all municipal works in progress," etc.

"To nominate to the Council all heads of departments and sub-departments in case of vacancies," etc.

Even the salary of the members of the Board of Control is to be fixed by the members of the Council.

With an incompetent and unbusiness-like Council, a Board of Control would only make confusion worse confounded.

The Board of Control is not government by commission. It is not even a colorable imitation. It is a reversal of the principle which has made commission government a success all over North America.

ALAS, POOR UNCLE!

Puck Voices Our Esteemed Relative's Regrets

According to the newspapers and magazines, England is jealous of us.

Germany doesn't like us.

France is suspicious of us.

Japan is actually preparing to fight us.

Canada thinks we are going to kidnap her.

Mexico feels that we want to mortgage her resources and then foreclose the mortgage.

Spain positively detests us.

Cuba thinks we are a fresh lot of Alects.

Chile secretly buys battleships to sell to other nations who want to lick us.

Russia thinks we are an ungrateful lot.

There are others—let these instances suffice for now.

Will the muckrakers kindly advise—does anybody love us?

Classified ads in The Daily News are the real salesmen for lots and plots in this city; and they reduce both expense and delays to the vanishing point.

Another Great Story

THE DAILY NEWS READERS HAVE ANOTHER TREAT IN STORE FOR THEM

The News has received so many letters of appreciation from its readers for its enterprise and judgment in securing the serial rights of Captain Clive Woolley's great story, "The Tenderfoot's Wooing," that it has gone still further.

The News has secured the serial rights for Louis Tracy's Great New Story

"The Pillar of Light"

and will start the story Next Week.

Louis Tracy is the greatest writer of fascinating adventure stories in England.—His plots are vigorous.—His characters are lifelike. There is not a dull paragraph. His stories are models of good English too. . . .

What The Pillar of Light Is

The "Pillar of Light" is a sea story of love and adventure. As you may guess the "Pillar of Light" is a lighthouse. The story concerns the romance of Stephen Brand the lighthouse keeper and man of mystery. It is a story of heroic deeds in many lands. It will hold you to the very last word and delight you all the time. In the end you will see the greater meaning of the title "The Pillar of Light. . . ."

This story is exclusive in British Columbia to the Daily News and its readers. See that you get the story from the start by having your name entered on the Daily News books as a subscriber.

ITEMS OF SPORT M. Mamet, a French aviator, formerly associated with M. Bleriot, intends touring the world in an aeroplane with a companion, M. Rene Million.

McGregor, the outside home of the Tecumseh lacrosse team, is, according to report, scheduled for the job of captain of the Tecumseh hockey team in the Eastern Canada Hockey league this winter.

Montreal may not see professional baseball next season. The owners of the local franchise have announced that unless they sell 500 season books worth \$30 each, by January 1, they will transfer the franchise to another city.

Frank Browning, the diminutive pitcher of the San Francisco Seals, sang himself and Terry McKune, ex-Beaver second sacker, out of jail the other morning, when Patrolman Lister brought them to the police station, charging "after hours" and singing on the streets.

"Winning teams are those that get the greatest number of runs out of the smallest number of hits. Base runners and good sliding are the real secrets of success. Always play for general results on the season, not for a single game."

Whole families have been wiped out and toppled off the pugilistic map by less punishment than Johnny Kilbane administered to game little Johnny Conley in their twenty-round battle before the Pacific Athletic Club at Vernon lately.

The bout went the limit, and Kilbane won the decision. Had an expert accountant figured the blows struck, Kilbane's majority would in all probability have been returned on a basis of one hundred to one, but not once was Johnny able to tip the brave Italian boy over.

Without a knockout feature, the battle was but a succession of one-sided rounds. Kilbane was never threatened. From the moment the boys sprang fresh from their corners at the opening bell, until almost blind in his left eye, Conley struggled gamely through the twentieth and last, there never was a second when Kilbane's mastery could be questioned.

Time after time Kilbane caught Conley flush on the jaw with punches that he swung from his waist and with every ounce of his strength, but Conley only came back for more. Near the close of the twelfth Kilbae drove in five staggering punches to the chin, spinning Conley around, but when the bell rang Conley was all right and laughing. Killbane will probably be matched with Abe Attell for the featherweight championship.

The investor—whether inclined toward real estate, promotion of an invention or a business partnership—reads the want ads for hints, information and opportunities.

Read the Daily News COAL NOTICE Skeena Land District—District of Queen Charlotte Take notice that I, John Rutherford, intend to apply to the Chief Commissioner of Lands and Works for a licence to prospect for coal and petroleum on and under 640 acres of land on Graham Island described as follows:

THE COSY CORNER DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women.

THE WORRYING WOMAN Worst Kind of Way to Make Life Not Worth While is to Worry.

A woman who never worries declares that there is nothing more detrimental to beauty in woman than worry. The worrying woman does nobody any good. She simply invites the hand of Time, which writes plenty of wrinkles on her brow, around her eyes and mouth, paints her face a yellow, and gives her lack-lustre eyes that no artifice can brighten.

Braised Beef When selecting beef for braising choose a thick square piece from some of the cheaper cuts, such as the shoulder or cross rib.

Buttermilk Bread Use buttermilk which is not too sour. Heat a quart of it to the boiling point, stirring frequently to prevent curdling. Add one tablespoonful of sugar, set aside for five minutes and mix gradually with one quart of sifted flour, beating and stirring until a smooth batter is made.

The Art of Carving Carving was once a serious thing. The Sixteenth Century carver was a professional. He had to make the joint fit the guest. The size of his slices was the thing. Then he had to know his guests and cut accordingly.

Congress of Farm Women Event of Importance to Women Agriculturalists—First Ever Held. The first international congress of farm women opens in Colorado Springs on October 17.

values in rural homes; second day, laws of physical life in relation to the family, conservation of time and strength, labor saving devices and simple hygiene, etc.; third day, economic value of women and children on the farm, influence of clubs, granges and other agricultural associations, care of infants and young children, etc.; fourth day, the rural church, reorganization of rural schools, recreation in the rural districts, etc.

Among the noted speakers on the program will be Prof. W. M. Hays, assistant secretary of agriculture, an authority on rural school work; Rev. Warren H. Wilson of New York, famous worker in rural church; Mrs. Mary Pierce Van Zile, of Kansas Agricultural College; Mrs. J. A. LAUNCH HECATE IS RELEASED

Prince Rupert Boat Seized near Ketchikan by U. S. Customs Escapes with a \$100 Fine.

The launch Hecate, seized several weeks ago by the Forest Service launch than for infringing of the customs laws, was released on the order of the Department of Commerce and Labor Tuesday of this week.

TO ENGAGE FIREMAN

Local Man Will be Employed if Efficiency is Assured

The services of an experienced fireman are to be requisitioned to augment the staff at present. Alderman Kerr mentioned in council last night that the system of having call men was not a very satisfactory one and said the fire committee had come to the conclusion that one good man at the hall was better than two call men who might not easily be found at need.

A motion to advertise for a man was passed. Alderman Newton laid considerable emphasis on the employment of local labor. Alderman Kerr agreed that if a local man could be found expert enough he should be employed in preference to an outsider but was not of the opinion of Alderman Newton that a man could be satisfactorily trained from the raw at the fire hall here under present conditions.

ATTACK ON THE INITIATIVE LAW

Telegraph Company in Oregon Wants Initiative and Referendum Quashed.

Washington, Oct. 12.—The task of attempting to put an end to all initiative and referendum legislation in this country was begun in the Supreme Court of the United States. Counsel for the Pacific States Telephone and Telegraph Company filed a brief attacking a law of Oregon because it was enacted under an initiative clause of the state constitution, which is alleged to be in violation of the federal constitution.

It was asserted that no despot or monarch would be permitted to rule in any commonwealth of the nation, and yet "the despotism of the multitude is as arbitrary and complete as the despotism of a despot."

THE RAT QUESTION

Medical Health Officer Thinks Nuisance is Abating

Dr. Reddie, medical health officer to the city, reported to the council last night on the rat question in view of the city's having dispensed with the services of the rat catcher. He states that the rat problem is less serious owing to the improved state of the city's sanitation, but recommended that an open bounty of 60 cents per dozen for dead rats be paid. As Dr. Reddie very strongly objected in a former report to the handling of rats by boys the council did not look favorably on the premium plan.

DON'T MISS THIS

Thursday night at half past nine Bring your partner, rain or shine, McIntyre Hall, it's just the place. And best of music, floor and space. Gents \$1.00. Ladies free. Gray's Orchestra. What better could be.

For fit, finish and durability try one of Sweder Brothers' custom tailored suits.

For row boats and launches Telephone 320 green. Davis Boat House.

A NEW DUCHY FOR CANADA

Duke of Sutherland to Send 5,000 People to British Columbia on His Lands.

Vancouver, Oct. 12.—For the purpose of inaugurating a big colonization project the Duke of Sutherland has acquired a substantial interest in 12,000 acres of land near White's Landing, on the west side of the Fraser River, about twenty miles below Fort George, in Central British Columbia. It is his intention to sell 160-acre farms on easy terms to any of his Scottish tenants who may be desirous of emigrating to Canada. It is expected that the colony will be established early next spring, and that its population will exceed one thousand people. The land in question is now being surveyed and subdivided.

The Duke of Sutherland also has in view the acquisition of larger tracts in the same district and will not restrict settlement thereon to his own tenants. He intends to offer the same liberal inducements to induce emigration from Scotland. His agents are now examining various land propositions which were submitted to him during his recent visit. Before leaving here the Duke expressed the belief that he would be the means of sending 5,000 people to British Columbia next year. He has also acquired about 50,000 acres of prairie lands along the line of the Canadian Northern in Saskatchewan and will colonize them in the same manner.

These purchases by no means represent all his purchases in Western Canada. He owns farm lands in the Okanagan valley as well as real estate in Edmonton, Battleford, Lloydminster and Prince Albert.

AT THE THEATRE

Dave Williams Stock Co. Makes Good Before Rupert Audience.

"Love and Honor," the thrilling melodrama staged at the Empress last night by the Williams Stock Company fresh from a three weeks' engagement at Victoria, attracted a full house, and aroused excellent appreciation.

Considering the fact that owing to the lateness of the Prince Rupert which was delayed eight hours by fog, the company did not land in the city until six p.m. their performance beginning at 8.30 was the more creditable. Scenery, dresses, and equipment had to be unpacked in hottest haste, yet the play as staged showed small evidence of this inconvenience to the company. They did excellently, and deserved the appreciation heartily expressed by the audience.

"Love and Honor" is the romance of a singer who loved a pianist. She is persecuted by another suitor, the villain of the piece possessed of an imaginary secret against her, and holding a cruel power over her father.

Miss Pinkie Mullalley in the role of Marguerite Otto, the singer, showed charming presence and great power of interpretation. Dave Williams as "John Paden"—an excellent character in the play—showed himself vigorous and excellent also as actor manager. Comment amongst the audience was most complimentary to the fine acting of the company. The work of individual members, Geo. Sweatman as the villain "Harold Hunting," and Arthur Cryll as "Adrian" the pianist loved by Marguerite, was excellent. Byron Loucks as "Hans Otto," Marguerite's father, acted exceptionally well.

The shooting scene in Act II when the villain and the old father both die, and the pianist loses his eyesight in the pistol flash on a darkened stage was specially thrilling. Particular mention is due the excellent singing of Tosti's "Goodbye" by Marguerite (Miss Pinkie Mullalley). Tonight the play will be "The Sweetest Girl in Dixie."

"Life" for a Boy Napinec, Oct. 12.—(Special)—Sherman Wagare, aged seventeen, was sentenced to life imprisonment today for a serious assault.
