HIGHER PRICE FOR HALIBUT LIVERS IS OBTAINED THIS YEAR

The Canadian Halibut Vessel Owners' Association of Prince Rupert, with the approval of the Deep Sea Fishermen's Union, has contracted to sell halibut livers this season to Parke-Davis and Mead-Johnson, American pharmaceutical manufacturing firms, at 45c per pound. This is an increase over last year's price of 43 1/2c per pound.

IS COLDER THAN EVER

But Snowfall Today Brings Amelioration in Low Temperature

After dropping down to a new low temperature reading for twenty years in Prince Rupert during the night, it was snowing quite heavily here since morning with a moderation in the cold snap. The minimum official temperature reading during the night was two above zero, one degree lower than the night previous. Elsewhere in the vicinity of the city along the coast it was also snowing while the Queen Charlotte Islands reported continued cold with the sky clouding. Sub-zero temperature readings are still reported from the interior.

REPORT OF DELEGATION

Presented at Meeting of Hospital Board Wednesday Evening

At the special meeting of the Prince Rupert General Hospital board on Wednesday for the purpose of receiving the report of the delegation sent to Victoria to interview Premier T. D. Pattullo, S. D. Macdonald, president of the board, stated that they were favorably received by both the Premier and Provincial Secretary who were apprised of the urgent necessity for a new hospital.

District weather readings today are as follows:

- Triple Island—Snowing, fresh easterly wind; barometer, 30.05; sea choppy.
- Langara Island—Overcast, very cold, moderate to fresh easterly wind; sea moderate.
- Terrace—Cloudy to snow, north-east wind, 10 below.
- Aiyansh—Snowing, calm, 2 below.
- Anox—Snowing, north wind, 3 below.
- Stewart—Snowing, heavy north wind, 5 below.
- Hazelton—Cloudy, east wind, 12 below.
- Smithers—Cloudy, east wind, cold.
- Burns Lake—Cloudy, calm, east wind, 29 below.
- Yukon temperatures—12 to 42 below zero.

INSPECTED BIG MISS

Vice-President of Consolidated and Assistant Return South

W. M. Archibald, vice-president in charge of Mines for Consolidated Mining & Smelting Co. of Canada Ltd., and M. M. O'Brien, assistant to Mr. Archibald, arrived in the city last night on the Prince George on the way to Vancouver after a visit to the Big Missouri Mine, which a subsidiary of Consolidated is developing.

With these Trail officials of the big mining organization at the Portland Canal mine was Dr. Jure, the company's geologist.

The officials made a check-up on the geology at the mine and studied recent development there, especially the raise from the Day tunnel which is being driven to the Province tunnel level.

No decision has yet been made by the company to proceed with the construction of a power line from Anox to Stewart.

Beyond the general understanding that present work at Big Missouri is satisfactory and that it is being advanced with the object of justifying establishment of a mill which will be of not less than 1500 tons daily capacity, no exact information is as yet available as to Consolidated's program for 1936 at the northern property.

Consolidated has not officially announced any program. The annual report of the company will be awaited with considerable interest as it may indicate what the company plans to do at the Big Missouri this spring.

Mr. Archibald, whose home is at Creston, stopped off here to pay a visit tonight to Kincolith Preceptory, Knights Templar, in his capacity as Supreme Grand Master of the Sovereign Great Priory of Canada. He will proceed to Vancouver on the Princess Adelaide tonight. Mr. O'Brien continued through to Vancouver on the Prince George last night.

Constable Gillies Dead And Alleged Bandit Is Charged With Killing

Injuries Inflicted on Policeman Two Weeks Ago Prove Fatal—Ian Bryson is Held Responsible For Staying

WINNIPEG, Feb. 7: (CP)—Constable Charles Gillies died in hospital here this morning from a bullet wound received two weeks ago when attempting to make an arrest during a hold-up. Ian Bryson, the alleged robber, has now been charged with murder. It was the first serious hold-up incident that had been recorded in some time in Winnipeg.

'CRCV' To Have Greater Power

Vancouver Station to Step Up From 500 to 5000 Watts

VANCOUVER, Feb. 7:—The equipment is now on the ground at Vancouver with which to increase the power of the Canadian Radio Commission, Station CRCV, from its present power of 500 watts to 5000 watts.

With this increase in power and the possible change in wave length previous interference from powerful stations in the United States will be eliminated. This will assure reception in the whole Northwest. With allowance for freakish elements of nature that cause radio reception of coast stations to be poor in northern and interior points, it is believed that the increase of power will assure reception of 'CRCV' in those areas which have had difficulty in the past.

Different Kinds Of Weather All During One Day

To run into a dense blizzard around Mount Shasta with six feet of snow on the ground, then a cloudburst which brought water up to the running board on the highways of San Luis Obispo Valley and, finally, bright, hot sunshine in the orange groves was the experience in a single day of Mrs. H. S. Parker and Mrs. Douglas Sutherland who are home after a trip to the Golden State as far south as San Francisco and Los Angeles. The trip was a highly enjoyable one they report. It was Mrs. Sutherland's first trip to California. Both going and coming they travelled by bus, doing from San Francisco to Seattle in 36 hours on the way home.

SOUTH AFRICA REVERTS TO TEA

PRETORIA, South Africa, Feb. 7: (CP)—Tea is taking the place of coffee, favorite of the Boers in South Africa. Customs figures show that in 1935 coffee imports increased by only 10% over 1934 whereas tea imports rose 34%.

COURT OF REVISION

Thirty Appeals on List For City Commissioner—Over-Valuation is Claimed

With some thirty appeals on land valuations on the list, the annual civic court of revision will open tomorrow morning with City Commissioner W. J. Alder presiding. All the appeals are based on the claim of over-valuation. There are no appeals on improvements to be dealt with. New legislation enacted last year provides that, in the event of a five percent reduction being made on the valuation of improvements from a preceding year and a ten percent reduction on land, no appeal shall lie. A general reduction of five percent on improvements has been made here during the last year.

Those entering appeals are: Canadian National Railways, the official administrator, A. J. Prudhomme, Franco-Canadian Co. Ltd., Salvation Army, E. A. Fairlie, Rogers Investment Co., Hans Hanson, Tanny Leaver, Toy Wan Lew, J. M. Leach, Daniel Sicuro, John Dybbavn, Knox Hotel Co., G. H. Arnold, Armour Salvage Co., Lillian Morrison, J. M. Morrison, R. G. Hurlburt, H. J. Leveque, H. Worsfold, H. M. and B. M. Duff, O. Andreasson, Reda Estate, M. D. Courtarvel, Sun Life Assurance Co., Chris Carlson and J. G. Scott.

DR. WATSON IS FREED

Peace River Doctor Should Not Have Been Convicted, Appeal Court Decides

VICTORIA, Feb. 7: (CP)—Appeal of Dr. Wallace Watson of Pouce Coupe from a conviction on a charge of negligence in connection with the death of a patient was upheld yesterday by the British Columbia Court of Appeal which held that the trial judge had allowed introduction of inadmissible documents. The Court of Appeal also declared that it considered the evidence did not warrant a new trial.

Dr. Watson was convicted at the Supreme Court Assizes last year of contributing to the death of Joseph Tannhauser through neglect to operate and he was sentenced to one year's imprisonment by Mr. Justice Harold Robertson.

BIOLOGICAL WORK DONE ON PACIFIC

John Dybbavn Tells Rotary Club Of Activities of Board of Which He is a Member

An interesting account of the work being done by the Biological Board of Canada on this coast was given at the Rotary Club luncheon yesterday by John Dybbavn, who returned recently from a meeting of the board at Ottawa.

The work started in on the Atlantic Coast when a station was established on a scow which was moved from place to place as required. In 1912 two permanent stations were established, one at St. Andrew's, N.B., and the other at Departure Bay, near Nanaimo. These dealt with the fish while in the sea and were purely biological in their work. In 1923 two experimental stations were established, one at Prince Rupert and the other at Halifax, which dealt with fish and fish products after the fish were caught. In addition there were sub-stations at Ellerslie, McClintock Creek, Cultus Lake, Paul Lake, Okanagan and Cowichan Lakes.

Work carried out at Nanaimo included fish culture and studying of life histories of sockeye salmon, pinks and chums, springs and cohoes, pilchard and herring and such interior fish as trout and other sporting fish.

The Prince Rupert station had investigated the utilization of various fish oils through which the fishermen of Prince Rupert had last year been able to realize \$105,000 from fish livers. In addition they had helped the pilchard reduction industry through very trying times by showing the medicinal and industrial uses of pilchard oil.

Other subjects dealt with at the experimental station included discoloration of halibut, preservation of fish after being caught, disinfection of halibut vessels, refrigeration, preservation of fishing nets, glazing of frozen fish, refrigerator cars, canning problems, dry rot in vessels, marine borers, fish glue, utilization of fish offal and various minor problems.

The value of the work was just now being recognized by Australia from which country a scientist is being sent to Prince Rupert station to study the work being carried out with a view to working along similar lines in that country.

Members of the board serve without salary although reasonable expenses while carrying out their duties are allowed.

W. M. Blackstock presided at the meeting and visitors present included R. R. Nichol of Winnipeg, Charles Mills, Dr. A. S. Lamb of Vancouver and Dr. F. W. Hardy of Ocean Falls.

Attempt to Kidnap Gloria Vanderbilt Denied By Police

NEW YORK, Feb. 7:—Contradicting newspaper reports, police authorities have denied that any attempt was made at the first of the week to kidnap little Gloria Vanderbilt from the estate of her aunt, Mrs. Harry Payne Whitney, her guardian. Men who stopped an employee of the estate are believed to have been intent only upon robbery.

SEAGULL AT FORT WAYNE

FORT WAYNE, Indiana, Feb. 7:—A seagull was an unusual visitor to this far inland city this week. It is believed to have been blown in before high winds from Lake Michigan.

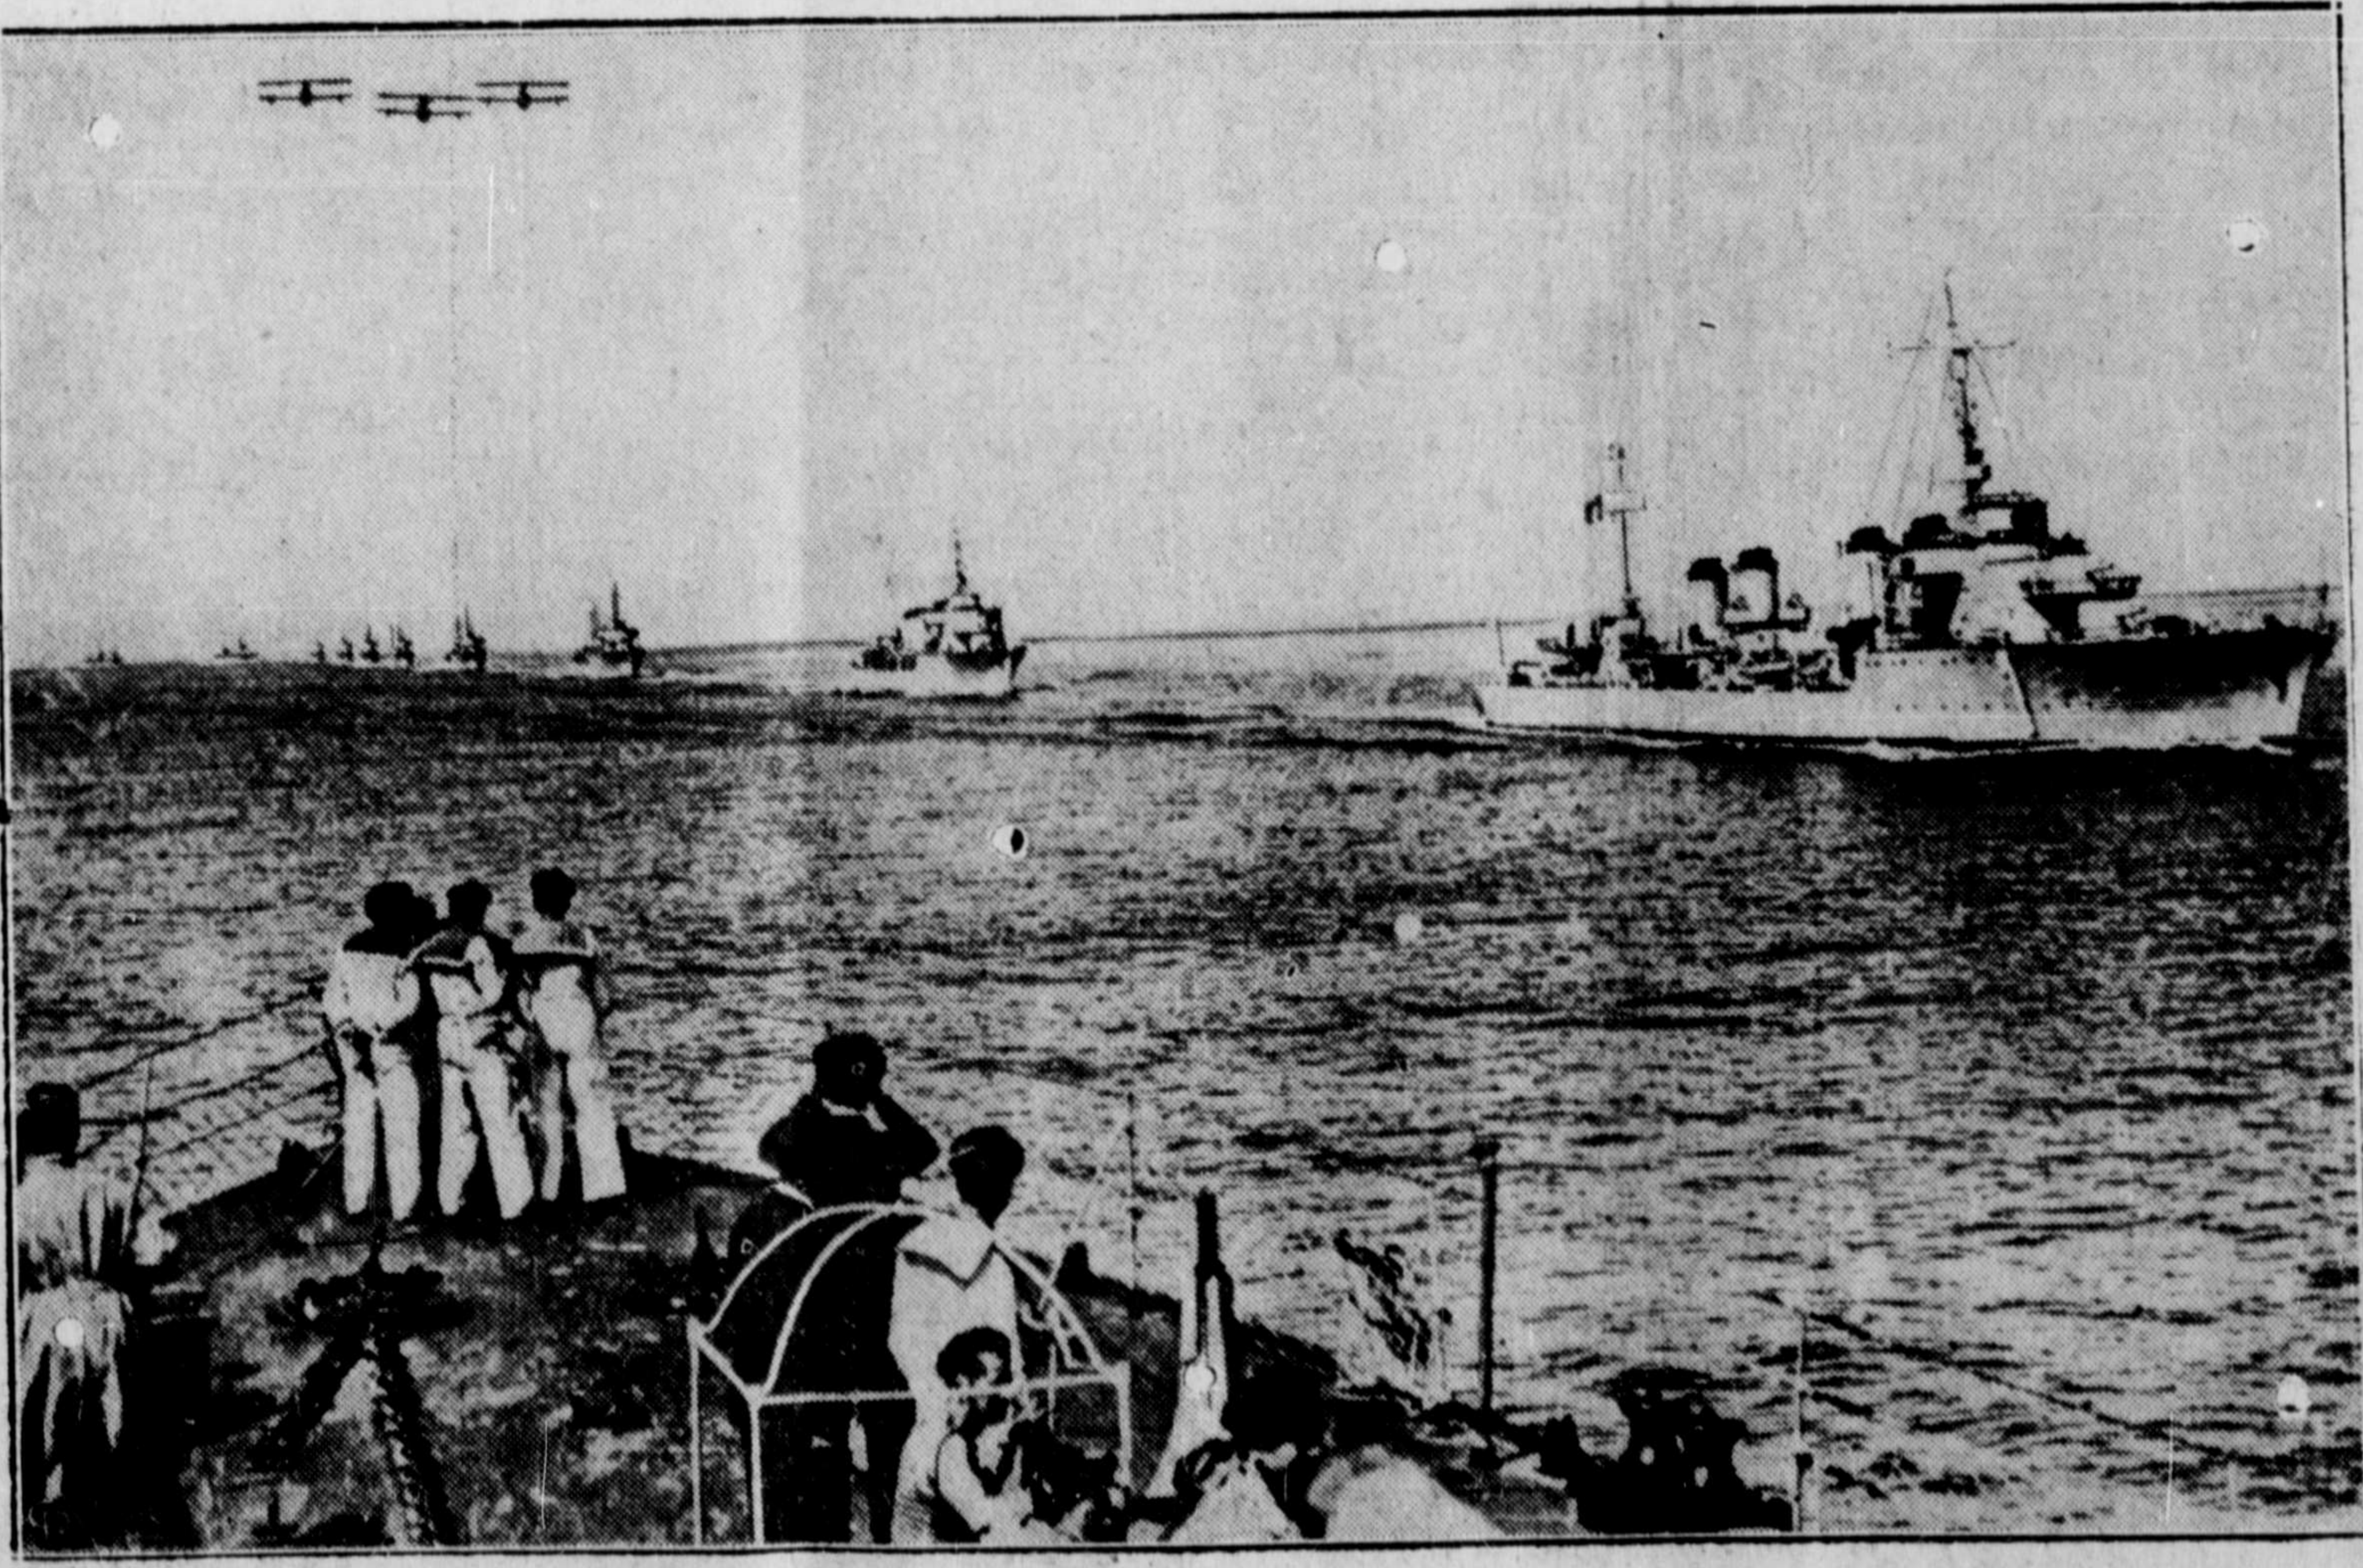

RED WINGS TAKE LEAD

Defeated Chicago Black Hawks In Hectic Game Last Night

CHICAGO, Feb. 7: (CP)—In one of the most hectic games seen on Chicago ice so far this season, the Detroit Red Wings scored one goal last night which was all that was required to defeat the Black Hawks and put the Red Wings into exclusive possession of first place in the American section standing. The Black Hawks were left tied with the New York Rangers for second place.

At New York, the Toronto Maple Leafs were defeated 4 to 3 by the Americans and remained in a tie with Montreal Maroons for leadership of the international section. Boston Bruins, playing at Montreal, defeated the Canadiens 4 to 3 last night.

STEADY ADVANCE

The Dominion Bureau of Statistics issues a very optimistic report in regard to the general advance in business operations during the year 1935. It says that information has been gathered in regard to 45 factors and these show a general increase in physical volume of 8.7%.

This meant an expansion of business operations. Mineral production showed a gain of 11.4%, manufacturing was up 7.6%. Newsprint advanced 6% marking the highest production point in the history of the country. Electric power production showed an advance of 10.6%.

Raw cotton imports were down 15.9% and export of planks and boards were down 2.2%, these being the only important declines. Exports generally were up 12.4% and imports 7.2%.

MAJOR BROWN IN LIMELIGHT

It is curious how gradually the leaders of thought throughout the country are advocating policies based on those first advocated by Premier Pattullo. The latest accession to the Pattullo ranks is Major Harold Brown, managing director of the Union Steamship Company, who is reported as advocating the use of the national credit to pay off that part of the national debt held in Canada. Pattullo's proposal was that the national credit be used in an emergency such as that which exists in Canada where the pressing need is to see that every able man has work at reasonable wages. Being extremely human with a great sympathy for the people who are struggling, Premier Pattullo considers the welfare of the unemployed is the supreme problem today. Major Brown being closely connected with big business sees the financial structure as the supreme interest, but each would adopt a similar method in meeting the need.

Prince Rupert Basketball Teams Win Both Games From Kincolith; Lambie & Stone Defeat Grotto

A near capacity house witnessed three fair games of basketball last night, the visiting cagers from Kincolith losing both their games to the local senior and intermediate squads. The local Moose won the senior game 48 to 35 while the Scythians took the intermediate 35 to 14. The teams from Kincolith played a nice game of basketball but they lacked height and weight. They are a big improvement over the team they sent down here a couple of seasons ago. The players left this morning on their own boats for the return trip home.

SPORT CHAT

A couple of dozen amateur hockey teams across the land are getting ready this month to take the Allan Cup out of the Maritimes, a sector it never visited until the spring of 1933. There will be no resistance. The great days of Maritime hockey are over for the time being. The Allan Cup will move westward to Montreal or Ontario or the west after spending three full years by the sea, two in Moncton and one in Halifax. There may be a defence by a new Maritime champion, but it will be a futile thing because the powerful Maritime Hockey Association has disbanded and star players have departed. Real Allan Cup strength has been spotted, meanwhile, in the west and east without a single top-heavy favorite appearing. The east, for instance, has a half-dozen teams that are unlikely to elect a favorite until lay-off time. Winnipeg are getting the call in the west.

Quebec's representative may be Montreal Royals, Montreal Verdun or Ottawa Senators who play in the Montreal senior league. Or it may be none of these teams, because Quebec has not produced an outstanding brigade so far. When the Canadian Amateur Hockey Association went gathering material for its Olympic team it didn't help Montreal teams. Ralph St. Germain and Dave Neville were taken from Royals and Hugh Farouharson and Ken Farmer from Victorias. Likewise, the C. A. H. A. reduced the strength of another Allan Cup contender, the Toronto Dukes. They took Pup Kitchen, defence ace, from Toronto's only senior squad. Kitchen's departure has brought the Dukes down to rock-bottom. They are not at all certain of winning the senior Ontario Hockey Association championship. Hamilton Tigers, with a superior group of marksmen, may knock over the Dukes in the play-offs, and Oakville Villains and Port Colborne Sailors are not being under-rated.

Winnipeg, who last won the Allan Cup in 1931 when it last was in the west, seem to hold the most of the aces on the prairies. Members of the Olympic team from Port Arthur still before going overseas in January that Winnipeg would be the hardest team to stop in the country. Other formidable outfits in the west include Yorkton Terriers, Prince Albert Mintos, North Battleford Beavers and two Saskatoon teams in Saskatchewan; Edmonton Superiors in Alberta and Kimberley Dynamiters in British Columbia. Some scouts call Prince Albert and Kimberley the best of this group. But it's such a toss-up at the February stage that there is no betting. The winner might be from Northern Ontario which will send an all-star team from the Nickel Belt League into the competition.

Portland Buckaroos Now in Leadership—Calgary Beats Edmonton

SEATTLE, Feb. 7. (CP)—By virtue of playing a one-all draw with the Portland Buckaroos here Wednesday night, the Seattle Sea Hawks retained their leadership in the Northwestern Hockey League while the Buckaroos moved into exclusive possession of second place, leaving the idle Vancouver Lions in third position. The Bucks, however, won at Portland last night 2 to 1 and climbed into the lead.

The Calgary Tigers closed up the gap dividing them from the fourth place Edmonton Eskimos to a scant half game as a result of a keenly contested victory on the Calgary ice over the Eskimos 4 to 3. The Tigers won again last night 2 to 1 at Edmonton and joined Vancouver in third place, relegating the Eskimos to the cellar.

The league standing to date:

Snow So Heavy As Hockey Games Were On, Puck Got Lost

LAKE RISSEREE, Garmisch-Partenkirchen, Germany, Feb. 7. (CP)—The games in the preliminary round of Olympic hockey championships here yesterday were played on an open lake and the snowfall was so heavy that it was necessary to stop and sweep the ice to look for the puck at times. Canada defeated Poland in one game 8 to 1 and United States defeated Germany one to nil in the other.

In a match which was little more than a work-out, Canada defeated Latvia 11 to nil today to enter the next round along with the Americans who downed Switzerland three to nil. Hungary eliminated France 3 to nil in another match. Great Britain defeated Sweden 1 to nil. Austria downed Poland 2 to 1 and Czechoslovakia beat Belgium 5 to nil.

Quick-Witted Clerk in Victoria Recovers \$5 for Hotel Guest

VICTORIA, Feb. 7. (CP)— A guest at a local hotel, snatching a moment to say good-bye over the phone to his wife, absent-mindedly dropped a five-dollar gold piece into the slot.
Discovering his error a moment later, he rushed to the desk. His boat for Vancouver left in a few minutes. The quick-witted clerk called in a telephone expert in time to recover the coin and enable the man to catch his boat.

ROGERS IN LAST FILM

"In Old Kentucky," Here This Week-End, is Glorious Climax Of Humorist's Career

The picture that marks the glorious climax of the career of the late Will Rogers, "In Old Kentucky," comes to the screen of the Capitol Theatre here this week-end. Mellow with the humor that brought Will Rogers fame, the film is filled with the romance and excitement of racing thoroughbreds that made the original story a great favorite. Through plot and counterplot, the story weaves its way to a spectacular climax in the race.

Rogers has the role of Steve Tapley, the trainer of champions and skilful guide of young love. Around the romance of Dorothy Wilson and Russell Hardie much of the picture's action centres. Allan Dinehart, Charles Richman, Charles Sellon, Esther Hale, Louise Henry and Bill Robinson, the famous dancer, are other important members of the cast.

Cruelty to Dog

SOUTHEND, Eng., Feb. 7. (CP)— "For causing a dog unnecessary suffering" William Alfred Barker of Shoeburyness, was fined five shillings by a Southend magistrate and disqualified from ever again keeping a dog.
