FASCIST FLAG RAISED IN ADDIS ABABA

ITALY IS INDIGNANT

Objects to France and Great Britain Affording Sanctuary To Selassie

Disorders in Addis

Mass Mobilization Throughout Nation Will Display Italian Loyalty

ADDIS ABABA, May 5: (CP)—Rome's victorious troops raised the banner of Fascism over this pillaged capital today. Troops passed the British legation at 5 a.m. and headed for the centre of the city. The arrival of the troops is expected to relieve the grave situation which has existed since Emperor Haile Selassie fled the country on Saturday.

Occupants of the United States legation have been transferred to a British mission by a machine gun detachment after being imperilled by a riot of mad natives. The United States has been given assurance by the Italian government that the lives and property of foreigners in Addis Ababa will be protected according to the rules of war.

Demonstration of Loyalty ROME, May 5:—Premier Mussolini announced last night that he would call the entire nation to demonstrate its loyalty with a mass mobilization to coincide with the entry of Italian forces into Addis Ababa, capital of Ethiopia. The mobilization will start with a signal of ringing of bells, beating of drums and blowing sirens, either today or tomorrow.

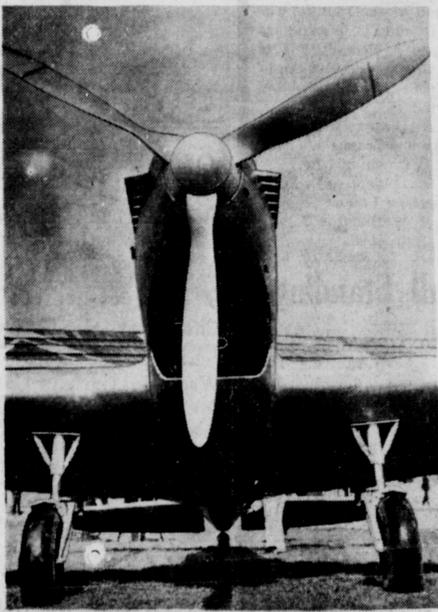

Resentment has been expressed in official Italian quarters at the actions of France and Great Britain following the flight of Emperor Haile Selassie from his capital at Addis Ababa. Exception is taken at the continued recognition by the two nations of Selassie as a sovereign. The French are criticized for having given him refuge in Djibuti and the British for granting him sanctuary in Jerusalem and affording him transport aboard a British warship to Palestine.

Holding to Legation ADDIS ABABA, May 5:—In the face of continued attacks by mad-gened natives, United States Minister Van Engert was still holding on to his legation building here and the compound containing 1500 refugees. He and his companions would abandon the legation only as a last resort. Engert said in spite of orders of Secretary of State Cordell Hull to evacuate, the safety of the legation staff to be the first consideration.

Earlier yesterday help had been asked of the British in the way of a detachment of Sikh soldiers and machine guns. The British reply was that these could not be spared but that an armed guard would be sent to convoy the Americans the distance of four miles to refuge at the British legation. Engert then said that he would abandon the legation only as a last resort. After the exciting day yesterday, last night was reported calm.

Meantime fierce looting and pillaging by the leaderless Ethiopians continued throughout the shambles of the smouldering city before the Italian invaders should arrive. With ammunition running short, the natives were turning to (Continued on Page Four)

BRITAIN BUILDS DEADLY PLANE, NOW WORRIES ABOUT DEFENCE AGAINST IT

The aeroplane shown in the layout is the latest thing in instruments of destruction, and illustrates graphically the armament-maker's art. The aeroplane, which is the new R.A.F. "Fairey" bombing aeroplane, is so fast that it makes combat aeroplanes useless. With a speed of over 300 miles per hour, non-breakable glass encasements for the pilot and gunner, special fighting equipment in addition to bombs, the new aircraft marks a long forward step in the development of attacking aeroplanes. So effective is the machine, however, that British aviation experts

are wondering what they can build now to act as a defence against it. Ordinary fighting aeroplanes cannot cope with the speed and manoeuvrability of the "Fairey"; it has retractable undercarriage, three-blade propeller, split wing flaps to reduce landing speed, all-metal airframe except for control surfaces, and a new 12-cylinder Rolls-Royce engine. It has a wing spread of 54 feet and an overall length of 42 feet. Bombs are carried inside the wings.

Operators Refuse To Negotiate So Men Go Off Their Jobs Today

Thirteen Hundred Employees Cease Their Labors As Deadline Passes—Mill Owners Claim That Percentage of Response Small

VANCOUVER, May 5: (CP)—Loggers and sawmill workers on Vancouver Island and the Mainland went out on strike today as the deadline passed for negotiations for higher wages and union recognition. About 1300 men refused to work this morning. Arne Johnson, secretary of the union, said. Mills affected are located at Cowichan Lake, North Vancouver and Port Moody.

Operators, who have refused to negotiate, stating that they have already given all the wage increases they can afford, claimed that less than three percent of the workers had acted on the strike order.

GRANTS TO PROVINCES ARE BEING CUT AGAIN, FEDERAL VOTE REVEALS

Allowances Further Reduced on Relief Account—Ten Thousand Men to be Given Work on Railways

OTTAWA, May 5: (CP)—A further cut in the grants to provinces was indicated in the House of Commons last night when \$26,000,000 was voted for direct relief grants, this being more than five million dollars less than the Dominion contributed to the provinces up to the end of March. The reduction is in addition to a fifteen percent decrease put into effect in April.

The House also voted \$3,100,000 to provide employment for ten thousand relief camp workers on railway maintenance work during the summer. Hon. C. D. Howe, minister of railways, said that the government would pay the men standard wages while the railways would spend some \$3,000,000 on supplies and supervision.

Vanderhoof Still Fights For Road To Manson Creek

The Vanderhoof Board of Trade is continuing its agitation with a view to having a highway built into the Manson Creek country in the Omineca mining division and has secured a promise of support in the project from Hon. George S. Carson, provincial minister of mines. If such a road were kept open all winter, the present almost prohibitive prices of winter freighting could be materially lowered, it is pointed out. This would give a great impetus to mining development in the section. The matter will be further taken up with the public works department.

WORK BEING STARTED ON PORCHER ISLAND MINE BY NEW OWNERS

Alexander Smith, engineer in charge on the Eddy Pass gold property on Porcher Island, which has been taken over from Frank Patterson by the Reward Mining Co., will leave tomorrow on his return to Porcher Island, accompanied by party of men who will be employed in camp construction. An active program of exploratory and development work is being undertaken by the new concern. The property adjoins the Surf Point mine, which is being operated by the Timmins interests with a mill, and would be a similar operation. The deal with the Reward Mining Co. calls for full title to the property on payment of \$40,000 over a period of years. Driving of a lower tunnel 40 feet above sea level on the property is planned.

LESS SYMPATHY TODAY

There is less sympathy for the little kingdom of Ethiopia today than at any time since the beginning of the war. The unrestrained savagery shown after Emperor Haile Selassie left Addis Ababa is an indication that the people there have no ability in self-government and that what is needed is a strong hand to teach them the rudiments of civilization.

Possibly the natives felt that white people were not to be trusted for the Ethiopians were left to defend themselves, even though they were affiliated with the League of Nations. And most people white or dark will agree with that view.

BRITISH PROTECTION

Americans often talk of keeping detached from the quarrels and differences of the old world and yet when the savages broke loose in Addis Ababa the American residents were glad to seek succor from the British legation. Naturally the British were glad to offer aid but it just goes to show that people who live on the continent of America cannot wholly detach themselves from the rest of world. The time will undoubtedly come when they will feel it their duty to help keep the peace of the world.

SWING TO THE LEFT

The French swing to the left was greater than the most optimistic communist expected. Many people will welcome this manifestation of dissatisfaction with any move toward fascism which seemed to have influenced the French people. It was a curious situation in France where the prime minister was connected with the big armament company which supplied arms and ammunition to Germany.

DON'T FORGET THE BACK

In connection with the clean-up campaign which is going on there may be a slight tendency to clean up the front and forget the back of the lot. Residents and business people are asked to include the whole premises in their effort to make the city tidy and sanitary. The same is true of the gardens. No garden is perfect unless the back is as well cultivated and neat as the front.

ORGANIZING OF SPORTS

Four-Team Bulkley Valley Baseball League—Golf and Tennis At Smithers

SMITHERS, May 5:—A baseball league for the Bulkley Valley was instituted on Wednesday evening when a large and enthusiastic meeting was held in the Municipal Hall at Smithers for that purpose.

There were sixty-five enthusiasts in attendance for the organization and it was finally decided to have a four-team league. Three of these teams will be Smithers teams and one will be from Telkwa.

The captains of the Smithers teams will be Clarence Goodacre, Herb Leach and Jack Carpenter while the Telkwa team will be handled by Clarence Truax.

E. S. Arnold of Smithers was selected to be umpire for these teams.

With all available material absorbed in the various teams of the league it should be the means of developing promising players that might otherwise not be brought out.

Ernest Kershaw, star pitcher of the Smithers team, who performs on the mound in Vancouver for Home Gas team in his spare time during the summer holidays, gave a very interesting and professional address to the meeting on both the elementary and the more scientific points of baseball.

Other Sports Organized

Other athletic associations of Smithers have also been very active during the past week getting organized for the year.

The Golf Club held its annual meeting and selected L. G. Calder to guide activities for the year. It expects a very successful year and the golf course is in the very best of condition and getting better every year.

The Tennis Club held a largely attended meeting on Wednesday afternoon and selected officers for the coming season.

Everything is now set to carry on all the various lines of sport and with the excellent weather that has been enjoyed during the past few weeks it will not be long before everything is in full swing.

Briton Shot Dead

CALCUTTA, May 5: (CP)—Gilbert W. Cole, superintendent of police at Fatehgarh, was shot and killed recently when attempting to arrest an alleged murderer. An Indian officer was fatally wounded.

SPORT CHAT

Two overseas cricket teams will be seen on English fields the coming season. Led by the Maharaj-kumar of Vizianagram, a strong Indian team will pay three tests in addition to meeting the various county teams. Canada's showing will be watched with great interest when Hon. R. C. Mathews' eleven tackles well-known English clubs in its tour July and August. Opening matches for the county championship are scheduled for May 2. With an eye to England's tour of Australia at the end of the year the test selection committee is in for a busy year. In the past few years England's representatives have performed poorly against the West Indies and South Africa while the M. C. C. team that toured Australia and New Zealand did little of note.

Undoubtedly there will be many new faces in the teams that meet India but, while experiments will be tried, critics believe the tourists are strong enough to give England's best players tough battles. A test trial match, styled North vs. South has been arranged for June 13, 15, 16 at Lord's and two weeks later the first test will be played on the same ground. The second international encounter is booked for July 25, 27 and 28 at Manchester and the concluding match at The Oval in London August 15, 17, 18.

The problem of appointing a captain will give the selectors almost as much trouble as choosing the team. G. O. Allen, Australian-born Middlesex player, is spoken of as the most likely nominee. He is a fast bowler and an enterprising batsman. The claims of R. W. V. Robins, Middlesex captain, are also put forward. He is also known for his achievements in both departments of the game and has performed splendidly in recent international battles. In the north of England, Arthur B. Sellers, 29-year old Yorkshire skipper, is highly regarded and despite England's loss of prestige under his leadership, R. E. S. "Bob" Wyatt, popular Warwickshire captain, may again be elected to the coveted honor.

The youthful Canadian team's most important match is scheduled for July 23 and 24 at Lord's when the overseas players will meet an M. C. C. eleven. It is 14 years since Canadian senior cricketers played in the Old Country and the doings of the former Minister of National Revenue's team will attract much attention.

Yorkshire is out to repeat last season's championship winning feat, but Derbyshire and Lancashire are rounding out good teams and the county competition is likely to be a walkover for the eleven led by Cellers. Unbeaten on its winter tour of Jamaica, the Yorkshiremen started practice April 17 and a likely lot of youngsters are being watched by George Hirst, veteran coach. Derbyshire claims its nursery is likely to keep the county well in the running. Middlesex has plenty of variety in its attack and many good bowlers available.

W. H. L. Lister succeeds Peter Eckersley as captain of the strong Lancashire team which will meet all counties except Essex. Three new professionals, W. Place, L. L. Wilkinson and H. Robinson, have been engaged. G. F. H. Heane will lead Nottinghamshire all season. The county has two new left-arm bowlers in K. Johnson and R. Giles. Worcestershire is another county to establish a nursery. It will be in charge of G. Platt, a former Surrey player.

Warwickshire expects to call on a larger number of amateurs than usual while Sussex will play its customary long list of fixtures. A. J. Holmes acts as skipper this year and two contests have been booked for Worthing, popular seaside resort. There will be little change in the personnel of the Surrey side although the county is on a search for bowlers.

With C. S. Dempster, a former New Zealand test captain, leading

the team, Leicestershire hopes for a good season. Last year was the best in the club's history. Morris Nichols, clever Essex fast bowler, gets a benefit this year. The county expects a good showing by some of its young pros. R. E. H. Hudson, well known Army batsman, may appear for Kent, which will play two matches less than last season.

Gloucestershire will be without the veteran Charlie Parker who has been added to the list of first class umpires and Somerset has to find an opening batsman to replace J. W. Lee. He has accepted a post at Mill Hill School. M. J. Turnbull again leads Glamorgan. The county renews fixtures with Surrey. An indoor cricket school has been opened for the benefit of Hampshire players while Northamptonshire has a new wicket-keeper in K. C. James, a New Zealander.

NOT DEMENTED SAVAGES

Editor, Daily News:
In your issue yesterday you have a few lines headed "Communist Diatribe" referring to A. Evans' speech in the Moose Hall. Mr. Evans made no wild charges but stated plain unvarnished facts, supported by official police telegrams and, if what you allude to as "all those in constituted authority" acted like human beings instead of demented savages, they would not have earned the "Customary Villification."

In London's Hyde Park, one policeman can control and keep in good humor over 200 or 300 people and let them talk all they want. In this country it takes 300 policemen mounted and on foot, armed with revolvers, gas bombs, axe handles and lead pipes, to smash into a handful of youths women and children who want to live decently and injure and maim them: "Constituted Authority indeed" The R. C. M. P. was formerly a corps to be proud of. It is now getting aromatic. I am not a communist and hold no brief for them but I think the Daily News might let us have the truth once in a while. We don't expect it often. You would be more appreciated Mr. Editor, in the community, if you did.

Mrs. Halliday Is Shower Hostess In Miss Jack's Honor

Mrs. Halliday was hostess recently at her home in the James Apartments with a delightful miscellaneous shower in honor of Miss Beverly Jack, daughter of Mr. and Mrs. J. E. Jack of this city, whose marriage to Larry Creighton of New Westminster will take place shortly. A beautifully decorated umbrella had been prepared and when it went up the bride was showered with numerous gifts. Card playing was enjoyed by about twenty persons.

R. G. Johnson of Inverness sailed this afternoon on the Catala for a trip to Rivers Inlet on cannery business. H. W. Chambers, manager of Klemtu cannery, after spending a few days at Inverness sailed for Klemtu.

Heavy Shipment of Fish For East—Prince John Due Tomorrow—Norah to Make Special Cruise.

Last evening's train for the east took thirteen carloads of fish for the markets of Eastern Canada and the United States, it being one of the largest single day's shipments to be made from here in some time. The most of the fish originated from yesterday's local halibut sale with four carloads of fresh halibut and salmon coming in on small vessels from Ketchikan swelling out the day's express business.
