BELGIUM IN LIMELIGHT

International Observers Speculate On Effects of Newly Declared Neutrality Policy

LONDON, Oct. 16: (CP)—Speculation in regard to the effect of King Leopold's neutrality declaration on behalf of Belgium is the all-absorbing topic of discussion among observers of international affairs today. It transcends even the Spanish civil war situation and the general expectation is that the results may be far-reaching. Strict Belgian neutrality would be a severe blow to British and French foreign policy as now based, it is generally believed.

An entirely new line-up in Western Europe may be the result of the Belgian declaration, it is believed by some. The declaration is taken to involve repudiation of Belgium's defence treaties with other nations although the Belgian ambassador to London was reported last night to have assured the British government that Belgium would fulfil its obligations under the League of Nations.

One of the principal reasons for the adoption by Belgium of the new policy, it is believed here, is the fear that she might become involved as a result of the mutual assistance pact between Russia and France.

GREAT WAR IS NOW ON

If Israel is Ready, She Can Win Without Firing Shot or Losing Man, Declares B.I. Lecturer

"God bids Israel to arm and fight in His just cause. If Israel had been prepared for the last World War, there would have been no war. God says there will be another war. If we are prepared, we can win that war without firing a shot or losing a man. We must defend our nation until God's Son comes to take it over and establish His Kingdom on Earth.

So declared Lieut. Col. J. G. Wright, secretary of the British Israel Association of Vancouver, in speaking before a public meeting last night in First Baptist Church which was practically filled to capacity for the occasion.

In opening his inspiring address, Col. Wright spoke of the general desire on the part of people to find a way out of the present trying times. He told how he himself had become interested in the British-Israel movement. A hard-boiled soldier, four years ago he would have questioned the sanity of any one who might have suggested that he would today be engaged in such work and delivering such messages.

Col. Wright mentioned how many years ago he had been a warden and boys' Sunday School teacher in St. John's Anglican Church, Toronto West, at the same time the late Archbishop F. H. DuVernet had been rector there. Even before the War, he had lost interest in church work. During the War he had become cynical owing to what he saw going on and had lost faith in God and, to a large extent, in man. It was not emotional preaching that he was not emotional preaching that (Continued on Page Two)

THE EUROPEAN SITUATION

Almost every day brings some new development in the troubled European situation. Every day there seems some new cause for alarm.

Russia, for some time regarded on the side of the peace-makers, is now taking an obstinate stand in opposition to outside help to the Fascist rebels in the Spanish civil war. She, herself, is accused of helping the loyalist cause in that bloody conflict.

The task which Great Britain and France seem to have undertaken to keep in hand a delicate situation, is a difficult one. The world watches and hopes that it may be possible to maintain a balance between the extremists and prevent a major eruption. The political aspect seems to be overshadowing the international phase which makes the whole situation the more difficult.

FOUNDATIONS OF PROSPERITY

"My considered view now is that Canada is seeing the end of the lean years," writes Colin Brooks, financial editor of the Sunday Dispatch of London, England, following a recent coast-to-coast trip across Canada. Increasing value of timber products, mining and tourist business offer three great forces for prosperity in Canada, Mr. Brooks believes. This is of interest to Prince Rupert which is vitally concerned with all three industries if they may be termed such.

"This is the cellulose age," writes Mr. Brooks in a special article for the Financial Post. "After the iron age, the steel age, the concrete age, the age of timber has returned. Canada's wealth of timber will again pour prosperity into the lap of the Dominion. The consumption of rayon pulp is growing at a surprising pace. Staple fibre is beginning a spectacular career.

"With the recovery in newsprint and new demands on timber for other uses, the timber interests must flourish. With a timber recovery in sight, Quebec and Ontario must feel immediately happier and British Columbia is surely expectant of better times.

"During my trip I have met hopeful men and I have met worried men but I have not met one timid man or one frightened man. In all places and among all grades—and my talks have been wide-ranging from bank presidents to train bumpers—I have found a terrific faith in Canada's future. Canada's full recovery is nearer than many Canadians will permit themselves to think.

"Timber and gold are stout foundations for prosperity whatever may be the immediate depression in the wheat lands. It is unthinkable that temporary political or economic manias or some natural flaws in a still developing political system can much impair or long impede that prosperity."

GREAT WAR IS NOW ON

Continued from Page 1

had got him interested in British-Israelism but cold reasoning and commonsense. His son had brought him the book "God's Commonwealth of Nations" and, through studying it, he had found it checked with the prophecies of the Bible. He had become convinced that "we were Israel and the recipients of God's material promises." He had accepted Christ as a personal savior and the belief that "Christ can save us nationally and individually."

The Latter Days

Today, Col. Wright declared, the world was living in the times of the last of the prophetic utterances. It was a troublous yet a most wonderful era in the world's history. The actual fighting of the Great War had ended in 1918 but since that time there had been an economic war in progress. Things were occurring today that had been predicted by the prophets of old as recorded in the Book given by God for the guidance of mankind down through the ages. Out of these chaotic times, when religion and economics were upside down, when there was preaching against religion, when the poor were being robbed to make the rich more wealthy, British-Israelism was becoming more and more recognized and accepted. The Bible had said that Israel would spread and it was spreading. The only peaceful countries today were those of Israelite descent, the chosen people of God. The British Commonwealth of Nations as it was known today had been predicted by God.

Before the destiny of Israel could be filled, however, it was necessary to get back to the simple and common law of God as given to Moses on Mount Sinai and away from the present complicated legal structure. Politicians could agitate as they might but never would there be a return to prosperity unless and until God's law was restored to Israel. "If we appeal to God He will show us the way out. We must defend our nation until God's son comes to take it over. God bids Israel to arm and fight in His just cause. If we are prepared we can win the next war without firing a shot or losing a man."

The meeting was presided over by Rev. Dr. F. W. Dafee, pastor of First Baptist Church, who offered opening prayer. John E. Davey presided at the organ and the benediction was pronounced by Very Rev. James B. Gibson, dean of St. Andrew's Cathedral.

REAL EPIC OF SCREEN

"Last of the Mohicans" Being Presented at Capitol Theatre This Week-End

Depleted by a splendid cast headed by Randolph Scott, Bruce Cabot, Binnie Barnes and Heather Angel, colorful characters of James Fenimore Cooper's famous story, "The Last of the Mohicans," come to warm and pulsating life on the screen of the Capitol Theatre here at the end of this week.

Scott plays the part of Hawkeye, the primitive man of the forest whom Cooper made his hero in this document of early American history. Lovely Binnie Barnes is idealist daughter who loves him. Henry Wilcoxon is the gallant major and rival for the girl's heart. Bruce Cabot, with shaved scalp and scalplock, makes a perfect renegade Indian spy. Heather Angel is the sister of Alice, her death leap from the heights of the cliff being one of the thrills of the picture. Philip Reid in Uncas, "Last of the Mohicans," Robert Barrat, Hugh Buckler and Willard Robertson are other important members of the cast.

"The Last of the Mohicans" is said to be one of the great epics of the screen.

ACCIDENTS ANALYZED

LONDON, Oct. 16:—More than sixty percent of motor accidents happen on straight roads or at open road bends with good "sight-lines." Sixty percent occur "under conditions of very light traffic." These facts have been established by an analysis of 6,000 accidents, and they are disclosed in the Ministry of Transport's report on fatal accidents in 1935.

The report confirms that young children—between five and seven is the most dangerous age for children—and elderly people form the larger number of pedestrians killed. It also brings out that Sunday is the day of fewest accidents, and that most of them occur on Saturday.

Pedal-cyclists and motor-cyclists are found to be responsible for more accidents than any other class of drivers.

The number of children killed, the report states, is particularly disturbing. More than ten percent of the pedestrians killed (314) were under the age of five years, while 541, or more than seventeen percent, were between five and eleven years of age, the period when children usually begin to go about without immediate supervision but lack experience.

From Monday to Friday, the most dangerous hour is between 5 and 6 p.m., and the second most dangerous between 10 and 11 p.m.

PEOPLE OF STEWART ARE HAPPY THESE DAYS WITH REAL THINGS GOING ON

Factors Responsible For Return of Prosperity Outlined; Chief Among Them is Activity in Connection With Big Missouri Mine

(By H. F. Pullen)

STEWART, Oct. 16:—Today the people of Stewart seem to be the happiest people in the world. After many years of struggle and hardship they feel that they are at last started on the road to prosperity. That is the impression I have formed from a few days spent in the town. In the first place the town is free from debt. The taxes are low, the streets are in good shape and the council seems to be administering its affairs wisely and economically.

But these things would not make the community prosperous. What is doing the trick is the action of the Big Missouri owners in going ahead with the installation of the promised mill, the action of the two governments in getting busy on the construction of the road to the mine, the action of the Premier Mining Company in forming a new company to operate its property and also that of the B. C. Silver and the encouraging work being done on other properties such as the Lakeview by the leasers. All these things are creating payrolls in the district and Stewart is benefitting therefrom.

On my former visits to Stewart in 1933 and on several previous occasions the residents of Stewart seemed to feel themselves somewhat under a cloud. They had little money and the prospects were not very good. Today they still have not much money but they feel that their turn has come and they see before them a period of reasonable prosperity.

Possibly under ordinary circumstances there would be no great elation over the present outlook but the period of waiting has been long and trying and they feel now as if a burden had been lifted from their shoulders. They are definitely on the way.

I am not suggesting that anyone should go to Stewart looking for work. There are enough laborers there already and some of them will be out of work again in a short time, but not many. Most of them will be absorbed into other work.

The Dunwell Mine

It is not my plan to say anything about the work going on just now up the Salmon River valley as I am planning to visit that district within the next few days and possibly I may write about it then. I cannot, however, help mentioning one or two of the minor factors in bringing about the present condition of hopefulness. In the first place a new company was recently formed to operate the Dunwell mine under lease and prove to the world that it is a good mine. It is the Weldon Mining Company with L. S. Davidson as managing director, N. C. Nelson as president, W. A. Russwurm as secretary and W. J. Crawford and E. D. Haddon as

Did Not Cost Former Judge Stubbs Much to be Elected

WINNIPEG, Oct. 16: (CP)—Honors for polling a vote surplus at a small cost in the Manitoba general elections were awarded to Lewis St. G. Stubbs, Independent candidate in the 10-member Winnipeg constituency.

A statement of his election expenses revealed a campaign expenditure of \$622. He received 24,805 first choices in the proportional representation balloting. His election cost him 2.5 cents a vote and on this basis he paid out \$440 more than was necessary.

Highest expense sheet of 21 candidates to contest the seat was that of Hon. W. J. Major, K.C., attorney general in Premier John Bracken's Liberal-Progressive cabinet whose campaign cost \$2,678.

few years, they still expect it to be a real factor in the development of their port. Another ambitious scheme of which some of them dream the extension of the road up the Bear River Valley to Meziadin Lake where they consider an airport would serve the whole country to the north including the Yukon. In the meantime the more practical citizens are turning their attention to the establishment of a winter airport a few miles from town from which an air service with the Unuk country could be kept up constantly throughout the winter, the planes using skis.

No mention is being made just now of the lesser operations in the district, all of which are being very helpful and should tend to make the camp more prosperous in the future.
