## NATIONAL TRANS-CONTINENTAL WORK IS STOPPED

### ITALY REFUSES TO HAVE PEACE UNLESS TRIPOLI IS SURRENDERED

Peace Negotiations at Rome Fall Through Owing to Italy's Attitude—Demands an Unconditional Surrender Without Compensation for Turkey—Turkish Troops Are Repulsed in an Attack on Italians Outside Tripoli

(Canadian Press Despatch)  
 London, Oct. 17.—The negotiations for peace between Italy and Turkey have failed, and hostilities will go on. This has been learned from high authority by the London Daily Chronicle's Vienna correspondent, and is announced in this morning's edition. The diplomatic negotiations entered into at Rome have ended in failure.

**Italy is Obdurate**  
 It is learned that the stumbling block to peace is Italy's firm refusal to consider anything but an unconditional surrender of Tripoli by Turkey, and the refusal of Italy to grant any compensation for vacating Tripoli.

**Fighting at Tripoli**  
 Tripoli, Oct. 17.—Before dawn

on Sunday a body of Turkish Infantry attacked the entrenched and advanced posts of the Italian army west of Boumelaine. After several hours fighting, the Italian Infantry backed by field guns landed from the fleet and forced the Turks to beat a retreat. Four Italians were wounded, and the dead body of one of the Turks was left behind.

**Does It Mean Peace?**  
 Berlin, Oct. 17.—The Kaiser has invited the Italian Ambassador, Signor Passa, to a conference today on the political situation. The German Chancellor is also to attend. Speculation is rife as to the meaning of this Italo-German conference.

**Young Turks in Power**  
 Constantinople, Oct. 16.—The opening of the new Parliament on Saturday showed the Young Turks—the war party—to be in the majority. Ahmed Riza, one of the most militant of them, was elected to be president. The Sultan's speech from the throne, charged Italy with a breach of the international laws.

\*\*\*\*\*  
 Philadelphia Wins Again  
 New York, Oct. 17.— (Special)—Philadelphia Americans defeated the New York Giants again by a score of 3 to 2 today in an eleven inning contest which was probably the most bitterly fought battle in any of the world's series in recent years.  
 Matthewson and Coombs pitched. Baker tied the score by a home run in the ninth.

### WHO DOES THE CITY PURCHASING? AN ALDERMAN DEMANDS TO KNOW

Although the City Has a Purchasing Agent It Transpires That He Has Been Instructed to Make No Purchases Until Ald. Hilditch Has Seen the Requisitions—Inquiry Reveals a Very Strange State of Affairs

Prince Rupert's purchasing agent problem again vexed Alderman Newton last night. He summed up the situation regarding the ordering of supplies in these words: "The chairman of a committee O. K.'s the bills. The finance committee passes them upon his O. K. But we have a purchasing agent in this town. It is his duty to make the purchase. Who

does the ordering in this town? If not the purchasing agent, then who?"

In various ways during the lengthy discussion Alderman Newton reiterated the question without getting any definite reply. In a general way the statement was made by Acting Mayor Hilditch that the City Engineer did a good deal of ordering of supplies and that the superintendent of public works also ordered supplies. The city purchasing agent ordered the supplies passed upon in committee, under instruction of the chairman of committee, and it was his duty to look after the interests of the city and see that the prices of goods were reasonable.

"But only this evening," exclaimed Alderman Newton, "the

finance committee has had occasion to consult the purchasing agent on bills and he has admitted that he did not order the goods." City Clerk Woods, the purchasing agent, nodded assent.

Alderman Newton declared that during his nine months term as alderman he had never been in a position, though chairman of a committee, to hard out any patronage whatever, but allowed himself to be corrected by Acting Mayor Hilditch, remembering a certain incident in connection with city fire insurance disposition.

Alderman Clayton hinted that Alderman Newton's activity regarding the purchasing agent problem was due to his growing ambitions towards the mayoral chair.

(Continued on page 4.)

### CHINA IS SUSPICIOUS OF JAPANESE PLOTS

They Have Discovered That Tokio Was Informed in Advance About the Chinese Revolution—Former President of Chinese Council is Suspected of Sympathy

(Canadian Press Despatch)  
 Peking, Oct. 17.—The Chinese military officials here are anxiously watching Japan's movements, having found that Tokio was well posted on the revolt, long before it matured.

It looks as if Yuan Kai, the former leader of the Council, will not return unless the Government gives him a free hand in carrying out reforms. It is freely stated

that the former leader is really in sympathy with the revolt, and is only waiting for a few more successes before throwing in his lot with the revolutionaries.

All telegrams to Hankow are now censored. The foreign consuls have protested against their official messages being butchered.

The new G.T.P. News Stand for Lowney's delicious Chocolates, fresh from the factory. tf

### THIRTY-SEVEN AND A HALF CENTS PER HOUR

Minimum Wage Set by Council for Labor on Woodworth Lake Waterworks

Last night the city council discussed the City Engineer's plans and specifications for the clearing of the 32-foot strip around Woodworth Lake, and today the City Hall is busy with would be bidders going over these.

The minimum wage arrived at after a lengthy discussion will be 37 1-2 cents per hour contract labor, and the same for station gangs hiring men. Eight hour day will be enforced no employee being allowed to work more than eight hours, and no shift being more than eight hours. Contractors will be responsible for accidents to men, and a \$25 per

day penalty clause is leviable for delayed work.

Tenders are asked from station gangs of ten men each who are to be responsible each personally for the completion of the work. Extra men may be hired by the station gangs in the event of delay. Private contractors are also open to bid giving a ten per cent cheque as guarantee.

Briefly the work calls for straight close cutting, clearing and logging over an area of about 160 acres divided up into sections of from 26 to 36 acres each.

Strictest regulations regarding sanitation are to be enforced during the work, and similarly strict

precautions against fire. Two months is the time limit set for the completion of the work. "I don't expect the work will be done by station gang," said Alderman Hilditch last night.

"Why not just do it by days labor anyway?" asked Alderman Kirkpatrick.

"Oh, come, the people expect a little business sense from us surely," replied Alderman Hilditch. So the work will probably be carried out by contract labor at 37 1-2 cents per hour, and already a prominent labor organizer in the city has vowed that his followers will know the reason why.

### A VANCOUVER DETECTIVE KILLS ESCAPING PRISONER

Rather Than Let His Man Run Away in the Fog, Detective Campbell Shot a Suspected Thief Dead—Happened in Lane Behind Hastings St.

(Canadian Press Despatch)  
 Vancouver, Oct. 17.—Vancouver was excited today over the killing of a man named Webb by Detective Campbell of the local police force. Webb was in the act of escaping from custody at the time of his death.

The man Webb was wanted on a charge of theft by the detective

who located him in a billiard parlor on Hastings street east, and asked him to come out in the lane. The man went, but once outside he bolted and was getting away in the fog. The officer fired several times but with no effect. Finally he raised the gun and took careful aim, the bullet entering the left side near the heart.

Webb died within a few minutes.

### TO ABOLISH WARD SYSTEM

Alderman Newton Brings up the Question—Acting Mayor Hilditch Grows Scornful at the Press of Prince Rupert.

"I see that one of my contemporaries is exceedingly anxious that I should do something in regard to doing away with the ward system," said Alderman Newton last night. "I think I may respond to the great mandate given me, and pay some attention to this matter. I would not mind moving a resolution that the council take the matter in hand and have the system done away with."

Acting Mayor Hilditch explained that the city solicitor had already

taken the matter in hand when the G. T. P. officials were here last, and all that could be done was being done. If they had waited for the press to begin the work, he declared, the city would have been too late. As it was the press had left it to poor, hard-worked aldermen like himself to take the first steps, the press reserving to itself the sole right to unjust criticism. It was the newspapers' business to take up this question rather than leaving it to be handled by "pick-me-up councillors whom you pick up on the streets," he said. The city solicitor will ascertain whether the petition to abolish the ward system can be legally mailed to outside lot owners, as all possible signatures will be needed for it.

### TAFT THE ATTRACTION

Los Angeles People Desert the McNamara Trial to See the President.

(Canadian Press Despatch)  
 Los Angeles, Oct. 16.—The McNamara trial is in the background today because President Taft is here. There is little interest taken in the trial, while over fifty thousand people gathered to see the President arrive.

### WORK STOPPED ON G. T. P.

Trans-continental Commission Order Western Contractors to Stop Work—May Hold Investigation.

(Canadian Press Despatch)  
 Ottawa, Oct. 17.—A report that the Government had ordered the cessation of work on the National Trans-continental Railway from Winnipeg to Moncton has been denied here. The report stated that the Government intended to hold an investigation regarding the expenditure and construction and that all work is to be held up as the result of the order.

The truth is that the commissioners have ordered the Western contractors to stop work, more especially on the Western section, but the order was not made by the Government.

### FIND SEAM OF COAL

Grading Gang on C. N. R. near Battle Bluff Have a Lucky Find.

Kamloops, Oct. 17.—While grading near Battle Bluff on the line of the C. N. R. yesterday, a construction gang uncovered a big seam of coal which is said to be of commercial proportions.

### ARE AGAINST PRISON LABOR

Longshoremen's Union Protest Against Publicly Punishing "The Victims of a Badly Administered Liquor License System."

Prince Rupert branch of the Longshoremen's Union has protested to the city council against the system of employing prison labor to grade the proposed recreation park on Acropolis Hill. They refer to the men employed as "the chain gang" and say that it is a shame that the victims of a badly administered liquor license system should be thus made to toil. They also argue that the system is against the fair employment of legitimate labor at fair wages. The letter was referred to the police commission.

### TRAIN WRECK NEAR OMAHA

Missouri Pacific Passenger Train Ran into Fast Freight—Seven Killed and Twenty Injured.

(Canadian Press Despatch)  
 Omaha, Oct. 17.—Seven persons were killed and twenty injured yesterday when a Missouri Pacific passenger train crashed into a fast freight train at Fort Crook. The governor of Florida was among those injured. Mistaken orders are said to have caused the disaster.

### C. P. R. Royal Arrived

The Princess Royal last night brought about fifty tons of freight and twenty-five passengers. She proceeded north at midnight. Mail was also brought by the Royal.

### ANOTHER SEWER FACTORY

Local Man Who Makes Cement Flues Would Embark on Sewer Pipe Enterprise.

F. Shaw who makes concrete flue pipes in sections at his works on McBride street between Seventh and Eighth avenues, has applied for permission to submit samples of concrete sewer pipes to the city council and city engineer. Referred to board of works.

### HOUSE TO MEET IN FOUR WEEKS

Date of Opening is Fixed for November 15th—Will Have Brief Adjournment at Christmas—Burrell Sworn In.

(Canadian Press Despatch)  
 Ottawa, Oct. 17.—Parliament has been called for the dispatch of business to meet on November 15th. This date was fixed by the Cabinet in council yesterday afternoon and an announcement made later by Premier Borden.

The session will not be unduly prolonged. After a brief adjournment at Christmas, prorogation will be sought probably at the end of January or the first week of February.

### CONDEMN NE TEMERE

Decree of Roman Church Affecting Marriage Censured by Methodists.

Toronto, Oct. 17.—By a rising vote, the Ecumenical Council of the Methodist Conference today overwhelmingly condemned the principle of the Ne Temere decree.

### DASTARDLY PLOT FOILED TO KILL PRESIDENT TAFT

Quantity of Dynamite Was Discovered in the Footwork of a Trestle Bridge Over Which the President's Train Had to Pass—Plotter Fled When Fired on by Watchman

(Canadian Press Despatch)  
 San Francisco, Oct. 17.—A startling and dastardly attempt to wreck the Presidential train conveying President Taft and his party has been discovered. Underneath a trestle bridge over which the train has to pass to enter the New Mexico border, a quantity of dynamite had been placed. The obvious intention was to

explode it as the train passed over.

The discovery of the dastardly plot is due to a railroad watchman who saw a man at work in the footwork of the bridge. Fearing that he had sinister designs, the watchman fired his gun at the man, who fled leaving the dynamite behind. The incident has caused a shock to the Californian people.

### S.S. PRINCESS BEATRICE IS STILL UPON THE ROCKS

All the Passengers Have Been Transferred and are on Their Way South—Foreholds are Full of Water—After Cargo is Removed, Boat Will Float

(Canadian Press Despatch)  
 Vancouver, Oct. 17.—The latest news of the steamer Princess Beatrice is to the effect that she is still fast on the rocks on Noble Island, in Christy Passage, but all her passengers are safely landed. These include two hundred Chinamen and one hundred whites.

The steamer Salvor reached the

Beatrice yesterday and will assist her. The cargo is to be unloaded, when it is thought the vessel will float off the rocks. The passengers are all on their way south now, having been landed at Alert Bay by the steamer Venture.

The foreholds of the Princess Beatrice are reported to be full of water.

Pantorium Pioneer Cleaners, Phone 4

### Weigh Scales at Last

City weigh scales will be purchased without further delay. Alderman Newton declared last night that he was surprised that they had not been installed long ago. He suggested that someone could be employed on a percentage basis to do the weighing. The scales and installation will come to about \$500.

### Boosts Canadian Cities

An offer from the Canadian Municipal Journal of subscription rates at \$15 for 12 copies was received by the city council last night. The Journal advertises the cities subscribing, and requests only that cities should secure a certain number of subscriptions in return.

### ITALIANS HAVE A KNIFE FIGHT

Whole Construction Gang Take a Hand—Dead Body of One Man Discovered Hidden in a Bush.

Parry Sound, Oct. 17.—Several Italians employed in a construction camp engaged in a battle with knives last night with the result that was one killed and several wounded. The dead body of one man was found today in a bush where it had been thrown.

S. Mussallem has applied to the council for electric light as he is to erect his store. Referred to light and phone committee.

**LE BRAS D'OR IN LABRADOR**

Now that an expedition has returned from Labrador, as announced in yesterday's News, with a small steamer load of rich ores, there is a possibility that Canada's Atlantic seaboard may see development similar to that which has started on her Pacific seaboard.

Though with a less sheltered coast than has Northern British Columbia and with a less equable climate, Labrador is not the barren inhospitable country that it is popularly imagined to be. Its most southerly point touches the same latitude as North Vancouver Island; its northernmost latitude touches the Yukon boundary. Into its creeks shoals of fish swarm. Indian tribes live on its coasts, and in the north bands of Eskimo. It has timber wealth, especially pulp timber, and a recent traveller grew most enthusiastic over its berries, declaring that Labrador was the greatest berry country in the world.

But gold is the great lure. Now that an announcement has been made of gold in Labrador, many an expedition will be fitted out in search of the yellow metal.

The surprising thing to the philologist is that the gold hunter had not sought Labrador before. Its name, the Anglicised form of La Bras d'Or (the Arm of Gold), tells its own story of the days when Canada was the field of action for the gay adventurers of France. The title Arm of Gold was not bestowed upon that distant country for nothing.

English history indeed tells of how in the days of Queen Elizabeth, when Sir Walter Raleigh was Lord of the Seas, three small ships set sail from England for Northern Labrador and there spent a summer and a winter. Returning with a cargo of gold ore to England, the expedition eventually found that this ore would yield three ounces of gold to the ton. This was not considered a sufficiently good return by the London merchants who outfitted the expedition, so the little vessels did not make a second voyage. Three ounces of gold to a ton would probably be viewed differently today. The Treadwell mines at Alaska are paying very comfortable profits on ore that yields three dollars, not three ounces of gold to the ton.

According to Mr. E. Colpitts Robinson, F. G. S., who visited Labrador in 1909, confessedly in search for the precious metal, the land formation belongs to the Laurentian period, the northeast coast being composed of Laurentian gneiss, with intrusive granite and quartz veins. Resting of this are some of the lower Silurian beds. The sands carried down by the rivers are all that is known of the geological character of the interior, and these show that the interior contains rocks of gneiss with micaceous quartz.

All that it needs is someone to move the Japan current from Northern British Columbia over to Labrador, to make it a fine country to prospect in.

**PASSING COMMENT**

To be shot in the arm by a fellow hunter befell a man on Vashon Island last week. That was bad enough. But to have the explanation made that he mistook him for a grouse is adding insult to injury. This is a new danger that the hunting season has brought.

The Chinese are going ahead rapidly. Not content with the news of a republic being started in China, two American born Chinese now attending Columbia University announce their intention to run for the Presidency of the United States when they are old enough. This has got some of the United States editors going. And some people think the Chinese are devoid of humor.

Talking of Chinese humor, a lady at Vancouver—we will call her Mrs. John Brown because that isn't her name—engaged a young Chinese servant. The Chink was modern, and States-trained.

"What is your name?" demanded Mrs. Brown on the first day.

"My name is Hai Tai Lee Chung" (or something like that) said the Chinaman, in very good accent.

"Very well. I'll call you Wong," said Mrs. Brown.

"What's your name, Mrs.?" asked the new servant.

"Oh, my name is Mrs. John Brown," explained the lady.

"Velly well, I'll call you old aunt Sally," returned the Chinaman, without the outward suspicion of a smile.

Rev. Canon Welch is Thankful Canada is Free from Corruption, etc.

London, Oct. 16.—Rev. Canon Welch, D.C.L., L.L.D., vicar of Wakefield, formerly rector of St. James Cathedral, Toronto, and provost of Trinity College, speaking for the Western Canadian fund in London, said: "It is much more likely that we shall annex the Americans than that they shall ever annex Canada. The freedom, justice and absence of corruption which obtains north of the 49th parallel is already drawing thousands northward from the United States."

**A NEW PAPER MILL**

New Westminster is Rejoicing at Another Big Industry

New Westminster, Oct. 16.—Construction work on the new paper mill on Brurette River is about completed, and the equipment will shortly be installed. The location of the new paper-making plant is ideal for the business, as the pulp bolts can be brought in with the greatest facility, and the finished paper shipped out on a spur from the G. N. R.

The building itself is a commodious one, modelled somewhat after the plan of the paper mills on Lake Michigan. The frame work is made of sawn timbers and the sides are constructed of galvanized iron. Half a dozen great iron banded vats necessary to the process of making paper have already been installed. The machinery and manufacturing equipment are being purchased in the East and in the United States.

**Another Great Story**

THE DAILY NEWS READERS HAVE ANOTHER TREAT IN STORE FOR THEM

The News has received so many letters of appreciation from its readers for its enterprise and judgment in securing the serial rights of Captain Clive Wolley's great story, "The Tenderfoot's Wooing," that it has gone still further.

The News has secured the serial rights for Louis Tracy's Great New Story

**"The Pillar of Light"**

and will start the story Next Week.

Louis Tracy is the greatest writer of fascinating adventure stories in England.—His plots are vigorous.—His characters are lifelike. There is not a dull paragraph. His stories are models of good English too. . . .

**What The Pillar of Light Is**

The "Pillar of Light" is a sea story of love and adventure. As you may guess the "Pillar of Light" is a lighthouse. The story concerns the romance of Stephen Brand the lighthouse keeper and man of mystery. It is a story of heroic deeds in many lands. It will hold you to the very last word and delight you all the time. In the end you will see the greater meaning of the title "The Pillar of Light. : : :

This story is exclusive in British Columbia to the Daily News and its readers. See that you get the story from the start by having your name entered on the Daily News books as a subscriber.

## ITEMS OF SPORT

Christy Matthewson is a rich man. He has been drawing a salary of about \$10,000 a year for several years and has made some paying investments. "Big Six" intimates that he will quit the game this year if the Giants win the world's series.

President Taft officiated at the presentation of an automobile to Manager Jack Hendricks of the Denver baseball team. Denver is the winner of the 1911 pennant in the Western League. The victory of his team aroused great enthusiasm throughout Colorado. A public subscription was started to buy a Chalmers "30" touring car for Manager Hendricks.

There may be more than one change in Eastern League ownership before next season. A syndicate of Providence men went to buy the franchise in that city. It is now owned in Boston. Hugh Duffy is heavily interested in the club and may be the next manager. He is not particularly strong in Chicago. Jersey City may also be sold and Jack Ryan supplanted as manager.

Ty Cobb played his last game of the season at Cleveland, O., on October 4th, having been excused from the St. Louis trip by Manager Jennings. Cobb has captured the American league records for base stealing and run getting, having 85 stolen bases and 149 runs to his credit this season. He leads the league in batting with .417 and his 247 hits this season beats the major league record held since 1897 by Willie Keeler with 243 hits.

John Pohlabs, the German, and Raymond Cazeaux, the French grappler, gave one of the wildest exhibitions of free-fighting that has ever been pulled off at Sohmer Park under the name of Graeco-Roman wrestling, when they came together on the mat the other night at Montreal. Pohlabs was the man who butted into the ring last Wednesday and sought to wrestle Cazeaux, although the latter was busy trying to throw Shad Link. He was evidently still keen for the Frenchman's scalp, and from the start the match was lively.

Graeco-Roman tactics were soon discarded despite the pleadings of Referee Birks, and the men went at each other all styles. About fifteen minutes after the start Cazeaux pulled off some particularly vicious scragging and Pohlabs rushed to the corner, seized his chair and swung at his opponent with it. The Frenchman dodged and snatched the chair, hurling it at the German, who likewise evaded it.

The chair left the ring and landed amidst the audience, and the men went to it with fists. Referee Birks and some spectators finally separated them, and the game went on. The tactics were scarcely less rough, and at the end of 26 minutes the referee awarded each man a fall for fouling and wanted to close the match. The crowd would not hear of it, and after ten minutes the men recommenced viciously. Finally Cazeaux got the German where he wanted him and smashed his head down with such force that he was temporarily stunned. Cazeaux then put Pohlabs's shoulders to the mat and was awarded the winning fall.

**Hits Nail on Head**  
It will be found almost impossible to drive thin steel nails into hard wood, for the moment you hit them hard enough to puncture the wood they bend over on themselves. Many people employ the use of a small gimlet to bore the hole destined to hold the nail, and few people know that if yellow soap is rubbed on the nail it can be driven in the hardest wood with ease.

## THE COSY CORNER

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN  
This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

### FORWARD MOVEMENT

#### Moslem Women Seek Emancipation Now

Now it is the Moslem women of Egypt who are taking part in the women's movement, having asked of the Moslem Congress the right to attend prayers and sermons in the mosques, a privilege already granted to the women of Constantinople. They also ask that the primary education of young women be made obligatory; that young girls be admitted to schools of medicine; that means be used to prevent polygamy and the abuse of divorce, and to teach Mohammedan girls sewing, house-keeping, and hygiene.

### FASHIONS IN FURS

#### Coming Styles for the Cold Weather in Glossy Garments for Lovely Woman.

Ermine is to be a most fashionable for this winter, and it is a very lovely though perishable fur, therefore, it behoves madame to have more than one set of furs, so that the ermine can be used only when en grande tenue. A soft black satin, the long-skirted coat of which had a deep perlerine of ermine draped in the soft folds now so fashionable, was most effective. Skunk and bear will be much worn, fashioned into straight stoles and big pillow-shaped mufflers. Hats are made of cream plush which has almost the effect of fur, and trimmed very simply with but a couple of large velvet bows in the shade of the gown. Fur hats will be worn later on, though in our warm Canadian houses they are uncomfortable often at a reception or calling, but

### ARTIST IN HATS

#### Woeful Lot of World Famed Man-milliner. Society Idol

It is said on authority that Herman P. Tappe, referred to as America's "one artist milliner," has gone into voluntary bankruptcy, the result of his too trusting nature. Chivalry and millinery evidently are not incompatible for so the story goes, rather than dun the fashionable who patronized him, but neglected to pay his bills, he has allowed his brilliant career to end in the bankruptcy court.

It is said that in the list are numbered such society and theatrical lights as Mrs. Waldorf Astor, Mrs. Oliver Iselin, Mrs. Charles Dana Gibson and others; among actresses Mrs. Patrick Campbell, Mrs. Leslie Carter, Billie Burke and Elsie De Wolf. The list is much longer, but this will do. Assuming the statement that his bankruptcy is owing to what those fashionable and assumedly really wealthy women owed him, it is a pretty tough not unusual commentary on the moral attitude of his debtors. It appears by the newspaper report that Mr. Tappe is the son of an Ohio college professor, and studied for the priesthood in a Catholic college in Cincinnati, but his interest in millinery was so great that he

no one can deny their becomingness. Lancer plumes and big motifs of handsome passementerie are suitable additions to these hats. The large black velvet is always charming in its soft outline next to hair and face; the brim lined with white or the shade of the dress is a charming finish to a pretty costume. Mole-color faced with pale blue; chestnut brown with cerise; grey with richest red; dark blue and pale green, black and white, are all delightful combinations.

relinquished his former intentions toward the church and was sent to Paris as buyer for a New York millinery firm and later became the rage as the creator of new models. It is also said that he was at one time so much the vogue that he was invited for a couple of months by Lady Paget to her house in Belgrave Square, and Lady Paget is said to have declared that she recognized in Tappe the artist who transformed a trade into a profession. Poor Tappe, he seems to have accepted such compliments in lieu of cash. He is reported to have sighed: "If all my customers would pay their bills I should have been able to keep my business going. Alas, I am an artist—not a business man!" For a good plain seed cake, rub 4 ounces of clean dripping into 3-4 of a pound of flour. Add 1-2 oz. caraway seeds, 4 oz. sugar, and one egg beaten in 3-4 cup of milk. Beat all together very thoroughly, place in greased tin, and bake for an hour in a steady oven.

### COAL NOTICE

# WHO DOES CITY PURCHASING

(Continued from page one)

and Alderman Kerr endeavored to emphasize the claim made that the purchasing agent really did the purchasing.

"The purchasing agent admits that he does not do the purchasing," said Alderman Newton. "If so what is the use of coming here and saying that I am impelled by higher ambitions when I am only trying to find out what I have all along tried to find out, that is, who is making the purchases, and who are to be held responsible for them."

Acting Mayor Hilditch: "Oh well, the City Engineer really O. K.'s most everything. If his O. K. is no use what is?" Alderman Newton: "What is the use of the purchasing agent?" Alderman Hilditch: "Only to check prices as far as I can see."

Alderman Newton: "Then who should be held responsible?" Some desultory discussion followed during which Alderman Newton declared himself done with the thing, and sat silent. Then the talk led to Acting Mayor Hilditch saying:

"I myself told the purchasing agent to make no more purchases until I had seen the requisition."

Instantly Alderman Newton woke up. "Then why don't you get rid of the office of purchasing agent altogether?" he demanded. He asked why the attempt made months ago to have the city purchases systematized through a duly authorized purchasing agent, had been neglected.

Acting Mayor Hilditch said there was one thing he saw in favor of the system in vogue at present, and that was its great freedom from red tape. He said they had never yet had cause to question a single order made, and the discussion there was allowed to drop.

## PHONE AND FOOD ITEM

**Linemen on Woodworth Phone Construction Must Pay board at Shawatlans Camp.**

In constructing the phone line to Woodworth Lake a gang of city linemen must spend some days out at the Lake trail. In order to save their having to make their own camp Alderman Clayton made a motion to the effect that they be provided with board and lodging at the surveyors' camp already established. Whether the men should be boarded at the city's expense or pay their own board was brought up, and it was decided that the men pay their own board the rate to be left with the engineering department to decide.

## GRADING OF SIXTH AVENUE

**Waivers Necessary from All the Owners Before Work Can Go on.**

William Angle enquired of the city council last night whether anything had been done or was to be done regarding the grading of Sixth avenue in the section immediately west of Fulton street where his own building is located. Acting Mayor Hilditch informed him that until waivers are obtained from all property owners, there nothing can be done to the work as it involves an alteration of grade.

## LOCAL OPTION LEADER

**Dr. Spencer Writes Council Regarding Reduction of Liquor Licences.**

Dr. Spencer, president of the Local Option League, wrote to the council last night submitting a resolution to the effect that the council should be empowered to take a plebiscite of 15 per cent of the electors the opinion of a majority of whom should be effective in reducing the number of liquor licences on the city. Referred to finance committee on the motion of Alderman Newton.

For row boats and launches Telephone 320 green. Davis Boat House.

# "COLLEGE CHUMS"

Something About the Play at the Theatre Tonight

"College Chums," the play to be given by the Williams Stock Company at the Empress Theatre this evening, is in part a story of college life—and is full of good wholesome comedy, combined with an excellent plot.

Mr. Williams as "Gabe Higgins" in "College Chums" is responsible for a good many laughs as is also Miss Pinkie Mullally, Mr. Arthur Cyril, Mr. Van Dyke and Miss Ora Wolff. The ladies of Prince Rupert will have a chance to see a trousseau skirt—worn so much by college girls in the East. The Victoria Times commenting on this says: "Miss Pinkie Mullally wore her trousseau skirt with consummate grace and ease and made a most favorable impression." "College Chums" gave a great deal of pleasure to a very large audience at Victoria.

## DEMAND STREET LIGHT

**But Overloaded Plant Cannot Meet the Supply**

Residents of Eighth avenue between McBride street and Fulton have petitioned for electric light for the street. They are aware that the present plant is overloaded, but suggest that efforts be made to cope with the difficulty. Suggestions were made by Alderman Newton and others that some of the lights be reduced in the business section in order that a few be spared for the poorly lit sections. Alderman Clayton called attention to the extremely heavy overload on the plant at present. Referred to light committee.

## Methodist Thanksgiving

**Mayor and Council Invited to Respond to Toast of City**

On Thanksgiving Day, October 30th, the Ladies' Aid of the Methodist Church are to hold a church banquet at which Rev. Charles Sing is to preside and the toast of "Our City and Council" is to be proposed. Mayor and aldermen are invited to respond to the toast. A resolution to thank the Methodists and accept the invitation was passed last night.

## Suspected of Scrapping

Captain Bonser, a well known figure up river and in Rupert and a steamboat man of experience, appeared in the police court this morning over a mix up at the Premier Hotel in which blows were going. He cleared himself effectually of all suspicion that he had been scrapping.

## Promenade Concert under the auspices of the Catholic Ladies

Thursday evening at 8 p.m., October 19th, in the McIntyre Hall. Admission 50c. Everybody welcome. 3t

## McMordie's Missing Cheque

The S. P. McMordie Co., Ltd. has written to the council regarding the fact that no cheque was available for Mr. McMordie when he called at the City Hall for the instalment due on his contract to date. Referred to works department.

## Tug Available for City

S. A. Talmud who owns the launch "Glen Rosa" has applied to the council regarding towing of scows with supplies to Shawatlans Lake for Woodworth. Referred to board of works to be dealt with the other similar applications.

## Menaced by Trees

Olaf Hansen has written to the council in some anxiety regarding the presence near his dwelling of a few tall trees. He is afraid the high wind may bring them down on his dwelling this winter. Referred to board of works with power to act.

New York, Oct. 16.—Two native born Chinese attending Columbia University, eligible to the presidency of the United States, announce that they will run for that office when old enough.

# SICILY VISITED BY EARTHQUAKE

Five Towns Were Destroyed in the Volcanic Island, and One Hundred Persons Killed.  
 (Canadian Press Despatch)  
 Rome, Oct. 17.—A terrible earthquake visited Sicily yesterday. It is known that nearly one hundred persons perished in the terrible disaster which shook the entire island. Five towns were demolished and all the wires are down. Aid has been sent to the island from here.

**AT THE THEATRE**  
 "King's Evidence" Pleased the Crowd with Its Plot and Comedy.

It's always a pleasure to see right triumph and villainy unmasked—on the stage. That in part accounted for the great satisfaction that "King's Evidence" gave to the audience at the Empress last night. For a couple of hours the audience followed the tribulations of Gilbert and Kate Medland, until at last Gilbert was freed from the taint of being a forger and the little family were united again in happy circumstances. But the truth is that most of the pleasure came from the capital comedy playing of Dave Williams as Solomon Isaacs, the Hebrew "green goods man" who showed at last that he had a good heart. His comment "If this is Christian charity, I'm glad I'm a Jew," quite brought the house down. All through the play Isaacs with his "Hye like a heagle" was on hand at the crucial moment and saved the situation. The characters were all very happily cast. Miss Mullally taking the part of Kate Medland, and Mr. Van Dyke the part of her suspected husband. Matthew Thornton, the villain of the play, was played with great intensity by Mr. G. L. Sweatman. Little Miss Lottie Casley, daughter of Mr. Casley of the Empress Hotel, made the presentation possible by taking the part of Little Arthur, the adopted son of Sir Frederick Sydney. The little lady played with infantile charm and naivete, and won much praise. Tonight, "College Chums" is to be presented.

# FIRST: "CATCH YOUR PRINTER"

DIRECTIONS FOR COOKING A HARE:  
 FIRST—"CATCH YOUR HARE"  
 To produce good printing you must "first catch your good printer." . . . You can't get good printing from a poor printer, even if he work with never so good an equipment. If he lacks the "knack," the trained taste, the single-minded fondness for his work which real printers have, he will do poor printing for you. If he has all of these, and in addition to them adequate modern equipment, your printing will have distinction, salesmanship, the lure of type-beauty. As this office produces good printing you may infer the presence of a good printer—who is "catchable."  
 FOR HIGH CLASS PRINTING OF ALL KINDS SEE THE "NEWS JOB"
