CURIOUS DELAY

Years after the transfer of the railway was forgotten except for paying interest on the deficits, the Privy Council hands down a decision on an appeal of the English shareholders of the now extinct Grand Trunk Railway giving them the right to sue the government for the purpose of recovering their rights as shareholders.

Fifeen years ago it was found that the Grand Trunk st. Louise Railway was a bankrupt concern and the government of the day proceeded to take it over and incorporate it in the SCHEDULE Canadian National system. There were strong protests at the time at the manner in which the transfer was carried out, the English stockholders feeling that they had been, deprived of more or less valuable property in an arbitrary! manner.

Opera" Coming to Capitol Theatre this Week-end

pictures to come out of Hollywood in years, "A Night at the Opera," featuring Groucho, Chico and Har-Theatre here this week-end.

The new picture depends not in France and Flanders more than was born April 23, 1861. alone upon madcap antics and insane gags but tells a creditabl story enlivened by musical interludes and an engaging romance between Kitty Carlisle and Allan Jones.

The principal locales are Italy, an ocean liner and a New York opera house. Groucho, Chico and Harpo, constituting themselves self-appointed managers, take over the destinies of a pair of songbirds in the persons of Miss Carlisle and Jones. They make hash of the performance in the opera, appearing one minute on the stage, next in the orchestra pit and then among the audience. They create a panic which becomes real when a fire breaks out but, taking the centre of the stage for merry, mad moments, they quiet the audience's fear with their riotous antics.
