ADVANCE ON ADDIS ABABA STARTS

MINE SURVIVORS RECOVERING NICELY First Town on Highway From Dessye to Capital Has Fallen to Invaders

Dr. Robertson is Doing Splendidly Following Harrowing Experience

Alfred Scadding is Getting Better From Trench Feet And Fatigue Although Possibility of Disease Is Not Removed.

HALIFAX, April 24: (CP)—A Royal Canadian Air Force seaplane today brought Dr. D. E. Robertson, one of the two men who was rescued from entombment in the Moose River gold mine early yesterday morning, to Halifax for further treatment. He was swung from the plane to a deck by a huge crane in order that he should not be disturbed any more than necessary.

Dr. Robertson "looks as if he had just got back from a fishing trip" said one who met him on arrival here. He is recovering rapidly. Alfred Scadding, timekeeper of the mine, who was caught with Dr. Robertson and the late Herman Magill, is recovering satisfactorily from trench feet and fatigue in a local hospital, having been brought to the city by airplane yesterday. Some concern is felt lest disease set in after the ordeal of between ten and eleven days underground in the mine.

TO REBUILD USK BRIDGE

Considerable Mining Activity East Of Terrace May Emerge

TERrace, April 24:—There is some prospect of seeing the bridge on the Usk road replaced in the near future, thus rendering possible, and likely, the re-starting of work on important mining propositions in that vicinity. The Sealy mine at Usk has ten men at work already.

The Omineca Gold Quartz mine on Copper River is only awaiting the road connection in order to begin operations there. The Columario, which is already considerably developed, may reopen as soon as transportation of supplies can be resumed. W. H. Cotton, assistant district engineer, is at present looking over the Usk road, with the intention of having the bridge rebuilt. It was destroyed in a deluge and flood on the Copper River last winter.

RULES FOR FISHERIES

Regulations on Skeena River and Elsewhere in This District Outlined by Major Motherwell

VANCOUVER, April 24: (CP)—Major J. A. Motherwell, chief supervisor of fisheries for the province, has issued the following statement regarding commercial fishing regulations for this season:

"The position of the upper boundary on the Skeena River will be a straight line from Mowich (Powell) Point due south to the fishing sign on the south shore of the river and will be enforced for all fishing until after the sockeye run is over when it will be moved back to the present position.

"The upper boundary in Rivers Inlet will be brought down to a straight line drawn from McTavish cannery on the south side due north to a point on the opposite shore marked by the fishery sign.

"The weekly closed season in Rivers Inlet will remain at forty-eight hours. This will cancel boat ratings which have been existing in Rivers Inlet in recent years.

"Fishery officers will enforce any extra closed season which is necessary should emergency arise.

"There will be no change this year in remaining schedules of gillnet ratings in sockeye areas of District No. 2.

"All fishing will close at 6 p.m. on September 25 in salmon seining areas No. 3, 4, 5, 6, 7 and 8.

MILL RATE IS ADOPTED

How City Expenditure and Revenue For Year is Made Up

Sitting in the capacity of a city council this morning, City Commissioner W. J. Alder gave final reconsideration and adoption to the bylaw setting the tax rate for the year 1936 in Prince Rupert at fifty mills on taxable land and on twenty-five percent of improvements. The tax rate is divided as follows: school purposes, twelve mills, \$39,201.01; money debts, sixteen mills, \$52,268.01; general purposes, 22 mills, \$71,868.53. This makes the total amount to be levied \$163,337.55.

The rate will be levied on land, the total assessment of which is \$2,369,890 and on improvements, twenty-five percent of the assessment of which is placed at \$896,861.

Estimates of the city for the year, which were also finally reconsidered and adopted today, total \$287,538. Receipts, apart from taxes, are estimated at \$176,320. Provision is made for an estimated deficiency of \$52,119.55 on collection of taxes. This brings the figure to the amount to be levied.

SIX WEEKS AWAY EAST

R. M. Winslow Sees Many Things While on Visit to United States And Canada and Tells About Some of Them

The people of the United States are looking forward to a building program providing the United States with much needed houses and other buildings and at the same time taking up much of the unemployment slack, according to R. M. Winslow, assistant manager of the Canadian Fish & Cold Storage Company, in an address to the Prince Rupert Rotary Club at its weekly luncheon yesterday.

"I found the people of the United States worrying about the future much more than ever before," Mr. Winslow said. "They have evidently lost much of the old feeling of extreme optimism and they are thinking more solidly and less exuberantly than of yore." However, I found them looking for better business conditions despite the inflatory methods on which they seem to be depending.

It is difficult to learn much from Americans at a time like this. Nearly everyone is either definitely against the administration and damns everything they do or is strongly for it and refuses to see any faults, according to the speaker. Everything just now depends on the political leaning of the person with whom you converse.

Mr. Winslow spoke of the weather vagaries of the places visited. He found below zero weather in Winnipeg, slush in Duluth, a blizzard in Chicago, 76 above in New York with cold nights and overcoats, cold in St. Paul, and eventually home to spring weather in Prince Rupert. In Montreal he met S. K. Campbell, formerly manager of the Bank of Commerce in Prince Rupert, now first assistant manager in the Montreal office. He has given up singing but is making progress in his profession.

Visited Aquarium

Among places visited was the three and a half million dollar aquarium at Chicago, known as the Shed aquarium after the founder. To show the cost of keeping up this aquarium he told of the ice machines which manufactured 3,150 tons of ice daily for use in the institution. There he saw thousands of fish of all kinds.

MILLS TO BE ACTIVE

Busy Season Expected by Lumber Producing Plants in Prince George District

Lumber mills in the Prince George district are expected to have a busy summer cutting for export to the United States under the preference which Canada is accorded under the new Canadian-American tariff pact.

There has been an active winter logging in the woods and, as soon as lakes and rivers have become free of ice, a start will be made on floating the logs out after which lumber cutting in the mills will become general.

NO MORE MONEY NEEDED

It is refreshing to read a rather prominent notice on the front page of the Christian Science Monitor stating that so great was the response to an appeal for the flood relief fund of the church that "further contributions to the fund are not needed at this time." This is a new kind of advertisement.

IT ALL DEPENDS

Great Britain is very much concerned about Ethiopia and the extension of Italian interests in East Africa, especially since it has been hinted that Italy seeks to re-establish the old Roman Empire in that part of the world. France is concerned particularly in her German frontier and its protection and does not care what happens in Africa. Other European powers have their own problems and each would like the League of Nations to protect them in their own special interests. Unity cannot well come from such a combination.

CANADA NOT INVITED

Canada has not been invited to attend the inter-American conference because of the fact that she is tied up with Europe and, as such, would not be free from possible European influences if it should be decided to form a Pan-American League.

The aim of the conference, it is said, will be to cut the Americas off entirely from European squabbles so that countries on this continent and South America may not be drawn into any wars in which the older countries may become involved.

Canada is in a peculiar position. Located on this continent, her political affiliations are with Great Britain in Europe, with South Africa, with Australasia and in Asia with India. There are other world interests with which Canada is partner through her membership in the Empire.

There are people today who would like to cut off completely the Empire connection simply because of fear of being drawn into a possible war with European or other countries. If an Armageddon is to be fought, Canada would like to be out of it, they say. Then there is another Canada that is proud of the Empire connection with all its implications for profit or loss. These people abhor the "safety first" policy suggested by some Canadians and think that if the Empire is worth anything it should be worth fighting for if need should arise.

They are not willing to accept the protection of the United States for their existence as a nation and they do not sufficiently admire the United States and her policies, institutions and government to be willing to have Canada ally herself permanently with that country.

Prince Rupert Scores Easy Victory Over Port Simpson To Win District Hoop Title

Prince Rupert basketball all stars had no difficulty in defeating Port Simpson last night by a score of 56 to 26 in a rough and ragged game, thus taking the two-game round for the Northern British Columbia championship and the Sun Life Cup by an aggregate score of 77 to 43, having won the opening game the night previous by a score of 21 to 17. While the issue was never in doubt with Prince Rupert having a better share of the play throughout, both teams put up a fairly good display in the first half.

Port Simpson had some tough luck in its shooting and Prince Rupert kept the lead right from the start, being ahead 20 to 13 at the interval.

It was in the second half that the rough house started with Port Simpson getting the worst of the calls. There were combination plays but these were few and far between.

The Curtain Raiser

In the opening game of the evening's card, Scythians, Intermediate League champions, took another close victory from a second string team of the Senior League by a score of 41 to 37.

This game was, undoubtedly, the best of the evening. There was five minutes overtime. Half time score was 19 to 16 in favor of the Scythians.

These games brought down the curtain on basketball activities in Prince Rupert for the 1935-36 winter season.

Individual scoring was as follows:

Scythians vs. Seniors

Scythians (41)—Montesano (2), Dominato (19), Beynon (12), Murray, Campbell (6), Letourneau, Houston (2).

Seniors (37)—Pierce (4), Nakamoto (7), Calderoni (3), Murray (1), Viereck (14), Arney (3).

North B.C. Championship

CHANGE IN STANDINGS

Cleveland Indians Now Leading American League—Giants Lose to Brooklyn

NEW YORK, April 24: (CP)—Yesterday's play in the major baseball leagues resulted in numerous changes in the early season ranking of teams in the two divisions.

By blanking the Chicago White Sox six to nil at Cleveland, the Indians jumped into the leadership of the American League, the White Sox tumbling into third place below the Boston Red Sox in spite of the rout of the latter by a score of 9 to 1 at the hands of the Philadelphia Athletics at Shibe Park. At the Yankee Stadium, the New York Yankees conquered the Washington Senators 10 to 6, the Yanks moving into fourth place while the Senators slumped to the leadership of the second division. At St. Louis the Browns were shut out 10 to 0 by the world champion Detroit Tigers. The Browns and Athletics are now tied in the cellar.

In the National League, the New York Giants lost their second game of the season when they dropped a close 4 to 3 verdict to the Brooklyn Dodgers at Ebbets Field, the Dodgers, as a result, advancing from the cellar into sixth place. The Cincinnati Reds, playing at home, won 8 to 6 over St. Louis Cardinals to advance into second place. Pittsburgh Pirates, Chicago Cubs and Phillies are now all tied for third place with victories and losses offsetting each other. The Pirates lost 2 to 1 to the Cubs at Chicago yesterday while the Phillies defeated the Braves 5 to 3 at Boston. The Cardinals, as a result of the day's play, dropped from third to seventh position while the Braves fell back into the cellar.

Armour Salvage Co.'s power tug Daly, Capt. Charlie Edwards, left at noon yesterday to take a tow of lumber from the Billmor Spruce Mills sawmill at Porpoise Harbor to the J. R. Morgan Logging Co.'s camp at Sedgewick Bay, Queen Charlotte Islands. The lumber will be used for construction work at the logging camp.

The power tug Algie, Capt. Reg Green, returned to port last night from Ketchikan whence it had towed the American cannery tender St. Nicholas, which broke down earlier in the week off Lowe Inlet with a broken tailshaft, and is leaving today for North Island with the Union Oil Co.'s tank scow. The tank scow, which was towed north from Vancouver several days ago, will be, as usual, stationed for the summer on the trolling grounds.

With traffic, as is usual at this time of year, almost entirely in the northward direction, there were only fourteen passengers aboard the steamer Princess Norah which arrived in port at 3:30 yesterday afternoon from Skagway and other Alaska points, sailing at 4:15 for Vancouver via Butedale, Ocean Falls and Alert Bay. Two persons left the vessel here while three boarded here at this port for the south. The Princess Norah will make one more trip on the Alaska route before the Princess Louise comes on the run for the summer.

C. P. R. steamer Princess Adelaide, Capt. S. K. Gray, is due in port at 4 o'clock this afternoon from the south and will sail at 10 p.m. on her return to Vancouver and waypoints.

MUSEUM IS DISCUSSED

A. E. Parlow Tells of Some of Aims —Lauds Local Totem Poles

"The collection is still small and incomplete but is even now well worth a visit and forms a nucleus which we hope will grow in time into a really notable exhibit," said A. E. Parlow, district forester, in a radio talk last night on museum matters. "The intention is to make the Prince Rupert Museum represent the northwest portion of this province, and there will be sections devoted to minerals, fish, timber and native work. "Commissioner Alder has also placed the city's collection of totem poles in the custody of the museum board. Incidentally I have seen all the collections of totem poles in the towns on this coast from the state of Washington to Skagway and I have seen none that can compare with the fine collection Prince Rupert will have when the rest of the poles, now in the city, have been set up. "Our museum should be of great value to the community in several ways. It is educational, showing our natural resources, as well as curiosities and the handicraft of the primitive early inhabitants, before the white man came. It should be a tourist attraction. We can show them interesting and curious things, peculiar to this part of the world, and the tourist trade is becoming an increasingly important source of revenue."

The hall was filled to capacity with people in attendance from Sandspit, Tiell, Skidegate Mission, Skidegate and Queen Charlotte City. Delicious refreshments were served at midnight and dancing continued until 2 a.m.
Excellent music was furnished by two well known orchestras—Fred Russ' Harmony Boys and Ed. Calder's Night Owls. E. Regnarie acted as master of ceremonies.
The committee in charge consisted of Mrs. C. M. McIntyre, Mrs. O. G. McIntyre, Mrs. A. Duval and Mrs. E. C. Stevens.

Silver Wedding Is Celebrated

Mr. and Mrs. A. Duval of Queen Charlotte Honored—Well Known Nurse
QUEEN CHARLOTTE CITY, April 24:—Last Friday was the silver wedding anniversary of Mr. and Mrs. A. Duval of Queen Charlotte who are pioneers of the Queen Charlotte Islands. They were the recipients of congratulations and best wishes from many friends.
Mrs. Duval is a graduate nurse and in the pioneer boom days was lady superintendent of the Queen Charlotte City Hospital. Rightfully called the "Florence Nightingale of the Queen Charlotte Islands," she has been known on many occasions to start out at all times of the day or night, breasting storms to attend some sick child or settler or to help usher into the world another Islander.

TERRACE

Mrs. McIlroy is visiting Terrace and is staying with her parents, Mr. and Mrs. W. E. Smith.
The Ladies' Guild staged a play in the Oddfellow Hall on Wednesday and there were some musical items to keep the house happy while scenes were being changed. The whole cast was entirely feminine and the story was of a womens' club which went on a treasure hunt on Thornhill Mountain. No men were permitted to have anything to do with the adventure and, although there were some amusing passages, the women did the rough mountain trip successfully and also found the treasure without assistance from the sterner sex.

Baptism Held At Skidegate Village

SKIDEGATE, April 23:—Easter Sunday afternoon a very impressive and pretty baptismal service was conducted at the home of Mr. and Mrs. Fred Russ. Almost all the aunts, uncles and cousins were present. The infant child was named Mary Elizabeth, and afterwards received the congratulations of the many relatives and friends who were present.
Miss C. McIntyre and Miss M. Russ served delicious refreshments, including some of the happy couple's wedding cake which was enjoyed by all. The pastor, Rev. Bishop Black, officiated.

most every kind in the world. The founder of the aquarium stated that he thought this place would do more to educate people in natural history than anything else in which he might invest his money. One oddity of the aquarium was climbing fish. To show the interest taken, no fewer than 74,000 people had visited one of the buildings in one day.
Mr. Winslow philosophized a little over the fact that big cities like New York had to be continually built up by recruits from the outside. It did not speak very well for our civilization. He paid tribute, however, to the men responsible for such marvellous structures as Radio City, Rockefeller Centre and the Empire State Building.
Only a few hours were spent in Boston visiting the fish pier where nearly three million pounds of fish were landed the day he was there. Four thousand people were employed there regularly.
After six weeks of travelling and seeing things while about the business of his company, Mr. Winslow said he was very glad to get back to Prince Rupert.

Mission House At Hazelton Nearly Burns Wednesday

HAZELTON, April 24:—The mission house of the Anglican Church at Hazelton was badly scorched and windows cracked during the fire which destroyed the O. K. Cafe property on Wednesday morning. Several articles of furniture in the mission house were also damaged. Many neighbors worked hard to prevent the fire from spreading and in assisting to remove furniture.

EASTER SERVICES ARE HELD AT SKIDEGATE

SKIDEGATE, April 24:—The Easter Service was held in the local United Church at 7:30 p.m. Great credit is due to the ladies who so beautifully decorated the front of the church with flowers, and to the choir who rendered special music. Two anthems were rendered and Easter hymns were sung. The minister delivered an interesting sermon on the subject "Christ is Risen" and Timothy Tait led in prayer.
Mrs. Albert Jones, who has been very sick, was welcomed home. The church was comfortably filled.

LLOYD IN FUN FILM

"The Milky Way" Here This Week-End, Said to be Veritable Hurricane of Laughs

Harold Lloyd's latest picture "The Milky Way," being featured on the screen of the Capitol Theatre here this week-end, is said to be a veritable hurricane of laughter.
Lloyd is seen as a humorless, shy, ineffectual milkman whose only aim in life is to deliver more milk bottles to more customers. When a drunken fight champion takes a swing at the milkman, who is an adept at ducking, and knocks himself out, the milk bottle boy takes credit for a victory and is launched as contender for the middleweight championship. His career from then on is as madcap as it is hilarious.
Adolphe Menjou does a good piece of acting as a fight promoter who takes the milkman in hand and makes a pugilist-dancer out of him. William Gargan and Lionel Stander, as drunken fighting bucks, try their utmost to land hefty rights and lefts on the prize ducker of the age. Vera Teasdale, Helen Mack and Dorothy Wilson also have important parts.
