BONDSMEN

Mounting Relief Costs in Maritimes has caused some concern. Is Problem Investment Dealers Are Told

JASPER, Alta., June 16: (CP)-Legislation permitting operation of provincial savings banks in New Brunswick and amendments to the Security Frauds act modifying restrictions on registration of securities were explained in the report of W. I MacDougall today before the annual convention of the Investment Dealers' Association of Canada.

The legislation originally compelled registration of every seculity subject to a 10-day delay before it could be listed, the Maritimes district chairman said. In its amended form the bill per mits only registration. Further action is optional with the regist-

Meet Obligations

The record of Maritime municipalities in accepting bond obligations remains unimpaired the report states. In New Brunswick the aggregate for all municipalities, cities and towns indicated an assessed valuation of more than \$123,000,000 and personal property \$18,000,000.

The bonded debt of the province totalling approximately \$27,000,000 was equivalent to 19 percent of the total assessed value. Sinking funds total more than \$7,000,000, equivalent to 25 percent of the total debt.

Similar conditions were reported in Nova Scotia where older established municipalities were in a very strong position. Chief problem in the Atlantic coast provinces, however, was the mounting cost of unemployment relief. Mining municipalities in Cape Breton Island were chiefly affected.

Out of 15 counties in New Bruns-Wick, those of Albert, Carleton, Charlotte, Sunbury and Westmoreland have no funded debt. The county of Kings with a debt estimated at \$12,000 has a sinking fund of more than \$13,000 with assurance of a credit balance when the bond issue has been retired.

While we are cut off from rail communication with the interior, we can send messages of condolence to those who have been hard hit by the floods.

WHAT IT MEANS

Prince Rupert has found the price of living advance slightly as a result of the floods and a few people have! been laid off from their work temporarily because of the railway tie-up. On the other hand some have found work which has taken them off relief. The real sufferers are those who have lost their homes, their jobs and in some cases their farms. It will be a long time before we find out just what the losses have been. To many people the only inconvenience will be the loss of their usual strawberry supply. The temporary loss of their market for milk and cream will be tough on others. Happily most of the farmers are able to ship their cream to Prince George while the Prince Rupert market is cut off.
