PUTTING DOWN JAPANESE REBELLION

SEATTLE VESSEL ASHORE DOWN COAST

Freighter on Rocks At Boat Bluff Just North of Milbank Sd.

Captain of Stranded Vessel Arrives in Port to Report of His Loss—Maid of Orleans May Have Been Damaged as Result of Storm

Capt. Larsen of the diesel powered Seattle motorship Maid of Orleans arrived in Prince Rupert last night aboard the Home Oil Distributors Ltd. tanker Dinamac, reporting his boat ashore at Boat Bluff, Sarah Island, just north of Milbank Sound, down the coast from here. The Maid of Orleans, a vessel of some one hundred feet in length, while bound from Seattle to Western Alaska with general cargo, piled up in a snowstorm at 4 o'clock Wednesday morning. She is in an exposed position and may have suffered damage as a result of the stormy weather which is now on. The crew of fourteen or fifteen men is safe ashore at Boat Bluff lighthouse.

S. AFRICAN VETS MEET

Eighteen Campaigners Gather Last Night in Legion Rooms to Re-minisce on Old Days

Local veterans of the South African campaign held their annual reunion last night in celebration of the thirty-sixth anniversary of the Relief of Ladysmith and the Surrender of Cronje. Inspector J. A. Fraser was in the chair and there were eighteen veterans in attendance. After a splendid spread had been enjoyed, several hours were spent in impromptu speech-making with music. S. C. Thompson presided at the piano.

Those present included Inspector J. A. Fraser, S. C. Thomson, W. J. Raymond, W. H. Wilson-Murray, G. Connelly, H. Cherry, R. W. Cameron, Wright Davies, Harry Rivett, Steve King, T. Lahiff, Charles Edlison, A. MacIver, W. S. Hammond, Rod McLean and W. Bailey. William Brown represented the Canadian Legion in the absence through illness of the president, Jack Preece.

REVENUE INCREASE

Position of Canadian National Railways in 1935 Improved Over Previous Year

MONTREAL, Feb. 28: (CP)—Increase in net revenue for 1935 of \$1,291,830 over 1934 is shown in figures for the Canadian National Railways issued yesterday. Operating revenues increased from \$164,902,502 to \$173,184,503. Operating expenses were \$158,926,249 as compared with \$151,936,079. Net revenue was \$14,258,253 as compared with \$12,966,423.

ON WAY TO TULSEQUAH

Capt. William Strong of Tulsequah arrived in the city from the north on the Princess Norah yesterday afternoon from the north and will proceed from here by train Friday evening to Burns Lake whence he will board a plane and fly to Aklavik in the Northwest Territories on fur trading business.

C. C. F. NON-CONFIDENCE MOTION IS REJECTED BY VICTORIA LEGISLATURE
VICTORIA, Feb. 28: (CP)—Against a motion of non-confidence proposed by Rev. Robert Connell, leader of the C. C. F. Opposition, and seconded by R. B. Swalles, Delta C. C. F. member, the British Columbia Legislature yesterday sustained the government by a vote of 28 to 13 on a straight party division.

EMPLOYING ORIENTALS

Investigation to be Conducted by House Committee Following Representations

OTTAWA, Feb. 27: (CP)—The number of Orientals employed on steamship lines receiving Dominion government subsidies will be investigated by the committee of the House of Commons on industrial and international relations following a motion to that effect by Hon. W. D. Euler, minister of trade and commerce, which passed the House Thursday. Thomas Reid, member for New Westminster, introduced the subject several days ago.

Mr. Euler said that he had been informed by the owners of the China-Japan service that it would cost \$800,000 to dismiss Oriental sailors. The subsidy was \$600,000 so this might have to be increased if Orientals were dismissed.

He had also been informed, said the minister of trade and commerce, that sixty percent of the passengers on the line were Orientals and it might be difficult to find Canadians willing to serve them.

DEFERRING ELECTIONS

Polling in Omineca and Burrard May Not Take Place Before December 10

VICTORIA, Feb. 28: (CP)—Premier T. D. Pattullo, in the Legislature yesterday, introduced a bill providing that writs for by-elections in Omineca and Vancouver-Burrard seats be issued within a period of six months after commencement of the Act. The issuance of the writs may, therefore, be deferred until October 10 if the government desires with the elections following within sixty days.

W. E. BURRITT DIES

W. E. Burritt, former court registrar here and for the past few years practising as a barrister in Vancouver, died at his home in North Vancouver last Sunday at the age of seventy. The funeral took place on Wednesday. Mr. Burritt became a widower over a year ago when his wife was drowned in a boat collision in the First Narrows. He is survived by a daughter and a brother in New York.

NEW YORK, Feb. 28: (CP)—Bar silver was unchanged at 44 3/4c per ounce on the local metal market today.

VANCOUVER, Feb. 28: (CP)—Wheat was quoted at 83c on the Vancouver Exchange today.

British Commonwealth and United States in Position to Stop Wars Declares Speaker Upon Minerals

Discourse on "Minerals and World Crisis" Leads to Some Interesting Reflections by Dr. Warren on World Economics and Peace

"If war comes in the future, the blood of the men which is spilt will rest largely upon the United States and the British Commonwealth of Nations which have it in their power to prevent war if they so desire," declared Dr. Harry V. Warren, professor of geology at the University of British Columbia, in speaking here last night on the subject of "Minerals and a World Crisis." Dr. Warren was of the opinion that, if the British Commonwealth and United States earnestly set themselves against war, the rest of the nations of the world would not fly in their face. The six great powers of the world could certainly prevent the waging of any war and the three great powers of the world could stifle war within six months.

However, pointed out Dr. Warren, if the nations really wished for peace, they must be prepared to back up that desire by sacrifice. They must be prepared to lose sales which would be the direct, although possibly not healthy, result of war, even if this necessitated throwing men out of work for a time. But surely, if peace were really wanted, people would insist upon it in a red-blooded way and in such a manner that the governments would be forced to heed the demand.

Canada, while it could do little itself individually, would do well to make a sincere effort for peace, declared Dr. Warren. If not alone for ethical and moral reasons but if only for selfish reasons, it would be well for Canada to stand together with Great Britain in an effort to preserve the peace of the world.

Dr. Warren described as "rubbish" the talk of a Prime Minister about Canada's desire to promote peace when actually the Dominion in October had shipped to Italy more nickel, an essential in the making of steel for war purposes, than in any previous month.

Speaking of the Great War, Dr. Warren expressed the opinion that, even had Canadians and Americans been able to keep out of it, they would still have felt the effects of the post-war depression.

Countries Interdependent

All the countries of the world were interdependent, declared Dr. Warren, and this was particularly true of mining. As far as production of metals was concerned, however, it had been proven in many notable cases where nations, lacking the basic raw materials, had been able to lead the world in the production of certain finished metals through the treatment of imported raw materials when they had fuel and water-power available.

None of the great powers of the world were self-contained. Russia, Great Britain and the United States were the only nations that approached such a status. If any of these nations took over China and Spain they would be almost self-supporting but there was no necessity of doing this when commodities could be bartered so freely and imported materials could be so readily treated.

Commenting upon the talk which was so frequently heard of certain nations needing room for expansion, Dr. Warren said that actually the population of Great

General Kashii Given Task of Bringing End To Military Outbreak

Several Hundred Insurgent Soldiers Are Ordered Taken Following Failure to Evacuate Tokyo Police Buildings

TOKYO, Feb. 28: (CP)—Lieutenant General Kohei Kashii, who has been assigned by the government to put down the military rebellion with martial law, announced tonight that his forces, surrounding the rebels, were "taking appropriate measures." He did not explain what "appropriate measures" were but he ordered them taken when several hundred insurgent soldiers remained in the Tokyo police buildings after having previously agreed to return to their barracks following the assassination of Premier Okada and three other government dignitaries.

MOTION IS DEFEATED

MacInnis Proposal Regarding Orientals Rejected by Ottawa House 186 to 15

OTTAWA, Feb. 28: (CP)—The House of Commons yesterday defeated by a division of 186 to 15 a motion of Angus MacInnis, C. C. F. member for Vancouver East, to exclude Chinese, Japanese and Hindu immigrants from Canada unless they were granted the franchise.

Mr. MacInnis refused the request of Premier W. L. Mackenzie King that he withdraw the motion in view of the serious situation in the Orient.

Religious Drama Very Impressive

Splendid Effort Last Night At First Baptist Church

The religious drama, "He Had Great Possessions," presented at the Baptist Church last evening was an unqualified success although the attendance was disappointing. The players acquitted themselves most creditably and undoubtedly it was one of the best presentations of its kind yet given in Prince Rupert. Preceding the play a short program of instrumental and other items was given as follows:

Organ recital, W. V. Davies.
Monologue, "Memories," Mrs. D. V. Smith, assisted by Mrs. J. C. Gilker and Miss A. Petersen.
Violin solo, B. Cameron.
Solos, "Have Thine Own Way" and "My Task," R. Houston.
Violin solo, Miss Christensen.
Duet, "The Prayer Perfect" and "O Spirit Stay," Mrs. P. H. Linzey and Miss Hamblin.
W. Vaughan Davies was at the organ and the play was directed by Mrs. F. W. Dafeo. J. E. Davey was soloist. The cast consisted of the following: P. H. Linzey, Miss C. Mussallem, Miss K. Watson, Miss Amy Armstrong, H. M. Daggett, V. G. Houston, Alan Hale, J. C. Gilker, Miss V. Wrathall, Miss V. Feero.

C. P. R. steamer Princess Norah, Capt. William Palmer, which was in port from 3:15 to 5 o'clock yesterday afternoon southbound from Skagway to Vancouver, had a light list of but thirty passengers on board. Two of the passengers disembarked here while one went aboard here for Vancouver.

INVESTING IN MINING

Dr. Harry Warren Urges Public To Thoroughly Investigate Before Putting up Cash

The difficulties that surround a mining engineer in the practice of his profession and the glibility of the public in being deceived by indirect inferences not backed up by reports of reputable engineers provided the theme of an interesting address delivered to the members and guests of the Prince Rupert Rotary Club by Dr. Harry V. Warren, professor of geology at the University of British Columbia, in the Commodore yesterday afternoon. The proclaimed subject was "Ethics and Mining Engineering."

Dr. Warren opened by stressing the importance of mining at a time when the country was trying to climb out of the depression and was using mining as one of the means of doing so. He suggested that, before investing in a mine, a person should read the report on it of a reputable engineer, not extracts from the report.

The practice of payment of engineers by giving them shares in a company which he serves in a professional capacity was one to be avoided, Dr. Warren suggested. The engineer in such a case was trying to serve two masters and that was almost impossible.

The speaker mentioned specific instances of engineers who had refused to be a party to more or less fake promotions. Brokers, as a rule, knew very little of mining and Dr. Warren told of one firm that had floated a \$100,000 company on the strength of the assay from one diamond drill hole. Usually, the engineer's reports were quite different from the summaries usually presented to the public. The investing public could help bring about a better condition by insisting on seeing the original report of the engineer.

This method of inducing the public to invest its money by inferences and half truths was one that was ruining the credit of the province and bringing both mining and mining engineers into disrepute. The engineers should clean house, Dr. Warren thought, but it was a difficult matter with which to deal and they should have the sympathy of the public in doing so.

W. M. Blackstock president, was in the chair and guests included Dr. L. W. Kergin, Dr. J. H. Carson, Dr. J. T. Mandy, C. W. Dawson, Rev. A. Abraham (Masset), Aubrey Sanford and R. E. Wray (Vancouver).

C. P. R. steamer Princess Adelaide, Capt. S. K. Gray, is due in port at 3:15 this afternoon from the south and will sail at 10 p.m. on her return to Vancouver and waypoints.

RADIO RECEPTION

A correspondent writing in from Westview yesterday complained about the radio reception in that district. We quite agree with him. Radio reception is so bad in some homes that the owners of sets have almost given up hope and do not attempt to use them any more.

But inquiry around the city elicits the information that reception is also bad in other sections. Some evenings it is almost impossible to get reception on the long wave because of the noise. The whole situation is most discouraging and needs attention.

JAPAN'S DISGRACE

Japan has taken a step backward in the slaying of several of her most able statesmen. They were shot down in cold blood by a group of young army officers who objected to the liberalizing tendencies of the day, wishing rather to see the country in the hands of the military. The slain statesmen were among those who feared the present militaristic tendencies of Nippon and stood for control of the military by the civil powers. It smacked somewhat of the Nazi purge in Germany a year ago but the alleged offenders were not rebels or conspirators against the Emperor. They simply held to the opinion that the military power should hold predominance over the civil.

If the coup is allowed to pass without punishment of the offenders it will be a serious setback to democracy in Japan. In any event the movement is very serious and no one can tell yet what the results may be.

New Metlakatla Defeats Prince Rupert 35 to 32 in Opener Of Inter-Town Series, Fast Match

Before a howling mob of basketball fans New Metlakatla won the first game of the international series from Prince Rupert last night by a 35-32 score. It was a close, fast and exciting game. The Alaskans took the lead right from the start and they were never headed although, in the last few minutes, it looked as if Rupert might win. However, the final whistle was sounded before the locals could get any closer.

The first half started fast with the Alaskans getting most of the play and points. Little Johnnie Marsden and Leask were the play makers with Marsden on the scoring end at the conclusion of the play.

The All Stars were in there fighting but they could not get any more than 12 points while the visitors chalked up 25.

It was in the second half that the locals started for town but the Annette Island crew tightened up on the defence and they had too big a lead for the home team to overcome.

The visitors put on a display of basketball that was a treat to watch and they well deserved their victory.

Scythians smeared the High School 41 to 13 in a one-sided intermediate game.

High School won a close victory over Annettes 9 to 8 in the Ladies' League.

Boy Scouts lost to High School 15 to 13 in a fast Junior game.

Individual scoring:

Junior Game
High School (15)—Fulton (8), Fitch (2), O'Neill (4), Yamanaka, Lundquist (1).

Boy Scouts (13)—Eastman (2), Erickson (2), Dybhavn, Bremner (1), Clausen (4), Montesano (4).

Ladies' League
Annettes (8)—E. Morris (4), Ratchford, Stone, Eva Morris (4), Stamp-Vincent.

High School (9)—Davis, McLeod (2), Blain (4), Mussallem (2), T. Davis (1), Wilson.

Intermediate Game
Scythians (41)—Dominato (14), Beynon (7), Murray (2), Currie (2), Montesano (5), Gillis, Letourneau (11).

High School (13)—Davies (6), Campbell (3), Naylor, McMeekin, Hirano (1), O'Neill (3), Munro.

Senior Game
New Metlakatla (35)—Marsden (13), Hayward (4), R. Leask (7), Bolton, Reece (7), B. Leask (4).

Prince Rupert (32)—Morgan, Ratchford (3), Lindsay (4), Smith, McPhee, Johnson (4), Mitchell (4), Morrison, Stalker, Stiles (17).

RADIO NUISANCE

Editor, Daily News:— It is encouraging to see in your paper of yesterday that at last some one is protesting against the radio interference experienced in Westview. It's about time for action in other parts of the city besides Westview. Residents of Seal Cove, apparently, are getting quite decent reception when the rest of the city is continually disturbed by some "racketeers" with electrical machinery that is badly in need of adjustment or ready for the junk heap. That ignorance of the

trouble they are causing could be an excuse in this day and age when every home has a radio of some sort is hardly good enough although it would seem equally appalling that anyone could be so gross as to deliberately operate a public nuisance to such an extent as has been the last few weeks. This, however, would seem to be the case and it is high time for the citizens to get together and stamp out the offender. Surely the authorities can be prevailed upon to do this if concerted protest were made.

Thanking you, Mr. Editor, for your valuable space and hoping to see some action from our Radio Association, I am,

BRITISH COMMONWEALTH

(Continued from Page 1)

in for discussion. In the case of aluminum here again France led the world with 49 percent of the world's raw material whereas Germany led in output of aluminum metal with United States second.

Again Germany produced 90 percent of the world's magnesium metal although she had no magnesium ore within her borders, depending upon her neighbor, Austria, for her supply.

Going on to other metals, Dr. Warren, who was using graphs projected by magic lantern, showed how Canada led the world in asbestos and platinum production with Germany leading in graphite. Spain in mercury and United States in antimony. South Africa was the world's greatest gold producer with Canada fourth after Russia and the United States. Mexico led in silver production with United States second and Canada third. Of lead United States produced the most followed by Australia, Mexico and Canada. United States led in zinc followed by Belgium, Canada, Poland and Germany.

Going on to copper production, Dr. Warren showed how, owing to attempts to fix the price, United States had dropped from her position of the world's leading producer with 55 percent in 1929 to third place in 1934. Africa had taken the lead followed by South America with Canada in fourth place. The speaker predicted, however, that United States would probably go ahead again. Canada could sell copper at 7c and make money, Dr. Warren asserted.

At the outset Dr. Warren differentiated between the jobs of the mining engineer and the geological engineer. The former was concerned more directly with actual mining operations. The latter was more concerned with the sizing up of prospects. He came between the economist and the mining engineer and had to be acquainted with many factors. Of necessity he had to keep up to the minute in new geological developments which could in short time revolutionize an entire industry. The progress of Russia, for instance, could not be ignored.

T. J. Williams, secretary of the Junior Section of the Prince Rupert Chamber of Commerce, occupied the chair. A vote of thanks was tendered Dr. Warren on motion of Dr. J. T. Mandy, seconded by S. J. Jabour.

The lecture was under the auspices of the University of British Columbia extension course which has been made possible by grants from the Carnegie Foundation.

STARS, BIG AND SMALL

Victor McLaglen and Freddie Bartholemu in "Professional Soldier"

Freddie Bartholemu, the lovable little lad of "David Copperfield," and Victor McLaglen, the rugged star of "The Informer," are brought together this week end at the Capitol Theatre in "Professional Soldier," a stirring tale of romance and adventure. The story is said to go the limit for heart-pounding thrills in an atmosphere of romance and laughter.

McLaglen plays the part of an adventurer who loves to fight and fights for a price until he meets the little lad who pierces his tough shell and teaches him to fight for some thing he loves. The romance ensues after McLaglen, hired by revolutionists, carries away a boy king. In a mountain hideaway a great friendship springs up between the blustering soldier and the delicate boy. Then the boy king is recaptured and McLaglen is thrown into prison to await execution. There is a hair-raising climax which brings the picture to a happy conclusion.

A good supporting cast includes Gloria Stuart, Michael Whalen, Constance Collier and C. Henry Jordan.

Gus Ross sailed yesterday afternoon on the Princess Norah for a trip to Vancouver.

"GOVERNMENT LIQUOR ACT"

(Section 27)

Notice of Application for a Beer License

NOTICE IS HEREBY GIVEN that on the 25th day of March next the undersigned intends to apply to the Liquor Control Board for a license in respect of premises being part of a building known as the Spruce Creek Hotel, situated in the Atlin Mining District in the Province of British Columbia, upon lands described as the "Sally Mine Claim," situated on Spruce Creek, in the said District, for the sale of beer by the glass or by the bottle for consumption on the premises or elsewhere.

Dated this 24th day of February, A.D. 1936.
