Twelve Hours of Fog Prevents Queen Mary From Topping Normandie's Rpcord

NEW YORK, June 1:-Chances of the giant new White Star-Cunard liner Queen Mary to beat the four days, 11 hours and 42 minutes record of the French steamer Normandie for the Atlantic crossing were lost Saturday night and Sunday morning when the vessel encountered head winds and later heavy fog for twelve hours and had to reduce her speed. Sir Edgar Britten, commander, and six lavigating officesr were standing constant watch as the swirling mist obscured the sea. The ship's sirens sounded almost continuous plasts to warn other vessels of the marine giant's approach. The Queen Mary was due to arrive at quarantine at 10 o'clock this morning, four hours behind the Normandie's time. A great reception lawaits her in New York.
