DUKE OF CONNAUGHT CAPTURES THE HEARTS OF THE FRENCH-CANADIANS

His Perfect Mastery of Facile French Wins Their Admiration, and the Tact and Earnestness of His Speeches Pleases—He Looks "Every Inch a Soldier"—Duchess of Connaught is Pleased at Being in Canada

(Canadian Press Despatch)
Ottawa, Oct. 26.—There is no doubt that the Duke of Connaught has captured the hearts of people who have met him, and promises to make his regime as Governor General memorable in administrative circles.
From the time he set foot on the King's wharf at Quebec until the moment when he crossed the threshold of Rideau Hall, the uncle of King George has been making friends. He has not given the impression that he desired to condescend; on every occasion when he has been given opportunity, he has shown that he has no fear for his dignity by allowing his cordiality to show.
Has Captured the French
He has made a most remarkable impression on French-Canadians. His French is almost perfect, a French spoken with liquidity of pronunciation, a perfect mastery of idiom, and an absence of formality of phrase. "I wish," said the correspondent of a French-

Canadian newspaper to your own representative, "that I could speak French like that." The Duke had just concluded his brief reply to the welcome of the St. Jean Baptiste Society, and the thousands who packed Parliament Hill were cheering wildly.
Speeches Have Distinction
None of the speeches which he has delivered has been long, but each has struck a note of earnestness and desire to serve. The first speech in French delivered at Quebec was an excellent example of the manner in which he has been effective and yet "different." He did not say the usual things inspired by the neighboring Plains of Abraham. Instead, by a few deft sentences he showed a deep and old reason for friendship, a friendship for which he wisely inferred there was no reason to plead. England herself, since Norman mingled and married with Saxon was, and had been, largely French by blood and kinship.

Looks the Soldier
The Duke of Connaught is probably the tallest of the descendants of Queen Victoria. He stands about 5 feet 11 inches, and broad of shoulder and erect of carriage, he does not need the military uniform to proclaim him a soldier by training and by choice. The Duchess, who retains her youthful looks, has taken every opportunity to show her pleasure at being in Canada.

(Canadian Press Despatch)

BRITISH COLUMBIA IS ENTITLED TO TWELVE MEMBERS OF PARLIAMENT

Interesting Computation Based on Census Returns—Quebec is Stationary—Ontario Loses Four—Four Western Provinces Gain Five Members Each—Winnipeg Gets Four Members and Vancouver Three—Ten Additional Members

According to the census reports issued last week from Ottawa, British Columbia should shortly receive an increase from seven to twelve members. While the figures are not entirely completed, it is not anticipated that any large change will be effected by the final recount.

The unit of representation, obtained by dividing Quebec's population of 2,000,679, by 65 (the fixed representation of that province), is 30,780. On the basis

TO APPOINT ENGINEER
Applications for Hydro-Electric Scheme Appointment to be Considered by Committee of Whole Council Today.

WILD COUGAR IS AT LARGE

Vancouver Hunters are Roaming Stanley Park Looking for It—Is Killing the Animals at the Zoo.
Vancouver, Oct. 26.—Hunters skilled in the pursuit of big game, are roaming Stanley Park this afternoon looking for the prowling cougar which last week slaughtered five of the park collection of animals, two deer and three goats.
Although it is several days since the animal did the killing, the general opinion is that it still remains in the park, sleeping off the effects of the gorging. Unless the cougar has been moving around within the past few hours the hunters do not think that their dogs can locate him at any distance. Any scent would not remain strong enough for trailing purposes longer than about twelve hours.

At 5 p.m. today the Mayor and city council will meet in committee of the whole to consider the applications now in hand for the appointment of a waterworks engineer to look after the hydro-electric schemes as assistant to Colonel Davis. Over fifty applications are in the hands of the City Clerk. The appointment will probably be made this evening.

which the bidders could see how they stood at a glance.
This plan Alderman Newton said would be all right if the Engineer also gave an estimate of the cost of the work done by days labor.
Alderman Hilditch said he was sorry the City Engineer's bid had not been sent in owing to pressure of work. Personally he didn't mind mentioning that he would have himself bid for Sect. 1, \$140 per acre; for Sections 2 and 3, \$115; and for the other two sections, \$100 per acre.
The tenders were referred to the City Engineer in order that a tabulated statement may be prepared and an estimate submitted for the work done by days labor.

NUMBERING CONTRACT

Arrival of a New Supply of Metal Figures Enables the Contractor to Proceed Again.
A letter reporting progress and renewed activity in the work of numbering the residences in the city was read at the city council last night from L. Bullock-Webster the contractor for the work. The work has proceeded intermittently, because of the impossibility of obtaining a sufficient supply of numbers to keep the contractor going. More numbers were obtained last week, and Mr. Bullock-Webster is now rapidly placing them. In his letter he regretted the delay which was due to no fault either of his own or of the Thompson Hardware Co., who are supplying the numbers to him, and stated that he had ceased work on houses he was erecting in order to press on with the numbering contract.

NEW VESSEL IS DRIVEN BY OIL

First Vessel to be Fitted with Oil Engines Reached the Great Lakes—Another is Building.
Montreal, Oct. 26.—A new departure in the type of vessel navigating Canada's inland waters has been created by the arrival in Canada of the ship "Toiler," as she is the first vessel driven by oil engines that has ever been seen in this country, and is, consequently, the pioneer oil vessel to be employed in Canadian trade.
She will operate between Montreal and Lake Erie.
A Greenock telegram says: The Clyde Shipbuilding Company, Port Glasgow, has contracted to build a steamer 325 feet in length for service on the American lakes. The vessel will have 1000 horse power oil engines. As this is the first contract of the kind in the district the building and trials of the new steamer will be watched with more than ordinary interest.

FOUND LOST BOAT

Great Story of Supposed Theft Turns out to be a Very Simple Case of Drift Away.
C. Carlsen reported to the police this morning the loss of his 22-ft. sailing sloop fully equipped from the anchorage off Swanson's boat-house the night before last. Investigations were being made by the city police when a prospector named Raymond with his mate blew into the provincial police office with news that they had found a boat which exactly answered the description of the missing one. It seems that the boat had been moored with too short a cable at low tide. The tide rose, the boat yanked at the anchor and went off on her own. She was found six miles from Rupert just off the railway grade. Constable Godson brought her in in tow of a gasoline boat.

SQUATTERS EVICTED

Residents of Deadman's Island Turned Out by Sheriff's Men
Vancouver, Oct. 25.—By a surprise attack, Deputy Sheriff Kirk and twelve men this morning took possession of Deadman's Island on behalf of Theodore Ludgate and the Vancouver Lumber Company, whose right to the property has been declared by the privy council.
The deputy sheriff took such a big display of force that the polygott crowd who inhabit the island did not attempt any violent resistance, though there was an attempt at bluster. This afternoon household furniture, fishing nets, and a great quantity of junk, are on floats ready to be transferred to the mainland.
The squatters professed to be taken by surprise, although the proper legal notices had, of course, been given.

RAILS NEARLY TO THE ROCKIES

President Hays Says They Will Be There by the End of This Year.
Montreal, Oct. 26.—At the adjourned annual meeting of the shareholders of the Grand Trunk Pacific Railway Company held here President C. M. Hays stated that during the year track-laying on the main line of the western division had been extended from Wolf Creek to Fitzhugh, west of the Athabasca river in the Rocky Mountains (which will be the divisional point for that section) and that construction work is under full headway, with night and day forces, to Tete Jaune Cache, on the Fraser river, beyond the Yellowhead Pass, on the western slope of the Rocky Mountains. It is expected that track-laying will reach this point, which is 1,094 miles west of Winnipeg, before the close of the year.

COUNCIL EXACTS PENALTY CLAUSE

Contractors Were Awarded Their Final Payments Last Night—In Every Case Deduction Was Made—Contractors Will Enter Suit Against the City

Amounts due the principal contractors for street grading of Section One were reported by the board of works to the city council last night as follows:
S. P. McMordie & Co. \$17,306.46
E. Horrigan & Co. 7,142.56
S. H. Watson & Co. 1,826.14
N. Gurvich 1,858.77
The report of the board of works says: "We would recommend the payment of these accounts, and in the case of N. Gurvich, instead of deducting \$2,700 and \$3,400, only the one item of \$2,700 be deducted, paying the additional \$3,400—that is \$1,858.77, and \$3,400—a total of \$5,258.77."

In explanation of this latter comment Alderman Hilditch said this morning that N. Gurvich had really only one contract though two time limits had apparently applied to it. This was gone into with the result that the application of one of the time limits was not sustained, and the deduction of \$3,400 at the rate of \$25 per day for delay under that time limit was not upheld by the board of works.
The report is signed by J. Hilditch, H. Douglas, and J. A. Kirkpatrick, and is accompanied by a letter from F. S. Clements, civil engineer, stating that by a

close test he has found the calculations made by the City Engineer for the purpose of fixing these amounts due the contractors to be correct.
In every case the amount had been arrived at by calculating the amount due for work done, and then a deduction of \$25 a day was made for every day over the contract time.
It is understood that some of the contractors will enter suit immediately against the city, on the ground that the delay was caused by the council's refusal to provide police protection during the strike.

COMPLAINT OF POOR DRAINAGE

City Engineer's Continual Problem. The Need for Sewerage in the Congested Section.

Complaints from the owners of the block in which the Empress Theatre is situated to the effect that an imperfect drain passing near the building was causing a nuisance which it was desired the city should correct, came before the council last night.

City Engineer Davis was present, and explained that this drain was not a sewer proper, but merely a surface water outflow. Owing, however, to the want of sewerage in the district west of Sixth street the residents had to throw waste water on the ground, and this filtering through the drain gave rise to the nuisance which invariably occurs in dry weather. During rainy weather the copious outflow of surface rainwater for which the culvert is intended does not allow of any odor. The drain is not insanitary in the same way as if it were a defective sewer, and the City Engineer promised to see that the residents were convincingly reassured to this effect.

When a proper sewerage system is installed in the congested section there will be no more of the surface water trouble, and the City Engineer mentioned that he was engaged continually in planning towards and carrying out the initial stages of the work of sewer installation for the crowded districts here.

"LET US DIVORCE"

Clever Comedy Hits Off the Follies of Divorce—Special Matinee of "The Marriage of Kitty" on Monday.

The opening play, "Divorcees," of May Roberts and her company will prove the greatest comedy that has ever been presented to the theatre going public of Prince Rupert. It is a travesty on the present day divorce laws and tendencies. M. Henri Des Runnels is past the forty mark and married to an expensive vivacious wife who falls deeply in love with an impetuous young artist. The husband upon learning this state of affairs decides to assist his wife to procure a divorce. Then when her liberty is in sight the wife sees where she is wrong, and ends by becoming infatuated with her husband.

"Divorcees," or as the English translation has it, "Let us divorce," was written by Victorien Sardou, the greatest of living playwrights.

A special matinee of "The Marriage of Kitty" will be given on Monday afternoon it being Thanksgiving Day. Many will remember this play as being one of the cleverest comedies in the May Roberts repertoire.

COUNCIL ARE SHORT OF CASH

Appropriation for Section One is Almost Exhausted—Is up to Finance Committee.

A petition from W. Lynch, and several other residents of the district around the Junction, requesting a seventeen-foot plankway from the business district along First avenue to the Junction was read in council last night. This petition with others was referred to the public works department, but Alderman Hilditch remarked that the funds available for such improvements this year were already exhausted. The works department, he said, would put in plankways just as soon as the finance committee could give them assurance of the existence of money to do the work.

Alderman Newton made enquiry regarding the completion of streets in the business area where the work seems left incomplete. Alderman Hilditch remarked that as he was connected with the finance committee he should know why these places were not completed.

The Mayor explained that the financial situation briefly is that the city has over a million and a quarter dollar's worth of debentures to sell, but meanwhile the appropriation for the development of Section One has become practically exhausted, and there is hardly any money left for improvements in the outlying sections. Very few of these were now being done. All petitions for plankways were being hung up temporarily until arrangements had been made for the necessary advances from the bank to meet the cost of these.

ABOLISHED BOY SCOUTS

Russia Regards It as Menace to Future Patriotic Aspirations of the Youth of Finland.

(Special to the Daily News)
St. Petersburg, Oct. 27.—In addition to the annexation and incorporation of part of the Finnish province of Viborg for strategic reasons, the Russian government has now ordered the abolition of an unauthorized military organization and a pretext for the dangerous cultivation among young Finlanders of a national patriotic spirit hostile to Russia.

The Finnish press is naturally indignant, and Russian Nationalist and Chauvinist organs like *The Novoye Vremya* are jubilant.

While Russia has only been able to use General Sir R. S. Baden-Powell's idea to form a system of "play soldiers," the Finnish boys have turned out real scouts in every sense. Nothing better illustrates the wide difference between the Russians and the Finns than these juvenile organizations of the two countries.

The abolition of the Boy Scout societies in Finland is another severe blow from the heavy hand of Russia. It only remains for Russia now to abolish the Salvation Army in Finland.
