France to Stay on Gold Standard, Declares New Socialist Premier—Strikes are Ending

PARIS, June 13.—Premier Leon Blum said yesterday that the new government of France would never permit devaluation of the franc by the method of inflation.

Following widespread strikes, industrial conditions in the country are gradually returning to normal.

Two hundred thousand workers in Northern France have returned to work. Only department store workers and iron workers are still out on strike, it is stated.

UNCLE SAM STAYS OUT

President Roosevelt Says He Will Not Let Country Get Entangled In Foreign Disputes

DALLAS, Texas, June 13.—Speaking at a luncheon in his honor yesterday, President Franklin D. Roosevelt declared that he had no intention of permitting the United States to become involved in European or Asiatic international affairs although, in the efforts to maintain international peace, he would favor giving "moral support."

President and Mrs. Roosevelt went last night at the farm home of their son, Elliott Roosevelt, near Port Worth.

Noted Comedian Is In Hospital

W. C. Fields Suffering From Run-Down Condition Which May Develop Into Pneumonia

RIVERSIDE, Cal., June 13.—W. C. Fields, beloved comedian of stage and screen, was removed to hospital here last night suffering from a run-down condition which threatens to develop into pneumonia.

RAILWAY SHUFFLE

Positions and Titles of Operating Officials Re-arranged

MONTREAL, June 13.—Official circulars issued at Montreal and Toronto announce a re-arrangement of positions and titles of operating department officials of the central region, Canadian National Railways. A circular issued at Montreal by J. S. Hungerford, president, announces that W. A. Kingsland, hitherto in charge of the central region as vice-president and general manager, will relinquish the title of general manager and will have the title of vice-president, central region, with offices at Toronto.

Circulars issued at Toronto by Mr. Kingsland announce the appointment of F. L. C. Bond, hitherto general superintendent, Montreal district, as general manager, central region. Mr. Bond's offices will be in Toronto. T. C. Hudson, hitherto in charge of the Southern Ontario district as general superintendent, is appointed general superintendent, succeeding Mr. Bond, and J. F. Pringle, hitherto general superintendent of transportation, is appointed general superintendent, Southern Ontario district, succeeding Mr. Hudson.

WIRE SERVICE EXPECTED TO BE RESTORED MONDAY

By Monday, and possibly sooner, the Canadian National Telegraphs expects to have re-established its wire service which has been out of commission for two weeks on account of flood damage along the lower Skeena River. From the east the wires were up again into Terrace at 6 o'clock last evening and the repair crew from that end was moving on to Shames today. The repair crew from the west is also approaching Shames today. There is a bad break at Shames.

WAGE RATE PROTESTED

Scale of Pay on Railway Repair Work Draws Objection From Trades & Labor Council

The Prince Rupert Trades & Labor Council, at its regular monthly meeting Thursday night, decided to protest to S. J. Hungerford, president of the Canadian National Railways, at the 25c an hour wage scale to men employed on flood damage repair work on the local line of the Canadian National Railways. A demand is being made for the provincial minimum wage of 40c per hour for this district.

The council endorsed action of the Prince Rupert Retail Merchants' Association in carrying its request for earlier closing on Saturday evenings of certain stores in the city to the provincial minister of labor and attorney general. One of the objects of the move, it was stated, was to keep within the minimum wage act. The council will also communicate with the ministers.

Letters were read from Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada, and Olof Hanson M.P. acknowledging resolutions of the Trades and Labor Council respecting the Bank of Canada. Mr. Hanson stated that he was in favor of a bank entirely controlled by the government instead of by certain private interests.

A communication from the federal union of store employees at Montreal sought information in regard to retail store hours in this district. The secretary will supply the information.

A resolution from the London, Ont., Trades and Labor Council for presentation to the annual convention of the Trades & Labor Congress of Canada requesting the establishment of a 30-hour week with rates of pay to meet the figures of the Labor Gazette was endorsed.

A project to get out "fair to labor" placards for distribution among the merchants was rejected. The placards would have been financed by advertising.

The secretary was instructed to write Olof Hanson M.P. in regard to the proposal to having the remuneration of assistant lighthouse keepers increased.

PASSED WITH HONORS

Information has been received in the city of the success of J. H. Gibson, son of Dean Gibson of St. Andrew's Anglican Cathedral, in passing his fifth year examinations in medicine at University of Toronto with honors.

Today's Weather

Triple Island—Clear, light north-west wind; barometer, 29.82; sea smooth. Langara Island—Part cloudy, light to moderate northwest wind; moderate chop.

Experimental Station to Be Established Near Smithers By Federal Administration

Olof Hanson Secures at Last What Has Been Requested For Many Years—Smithers District is Said to Be Chosen as Location

OTTAWA, June 13.—It is announced here that the federal government will this year establish an experimental station in central British Columbia, probably in the Smithers area. This is being done on the recommendation of the member for the district, Olof Hanson, who has been very insistent that the work be carried out. In this he has shown that he had the backing of all public organizations including the Associated Boards of Trade of Central British Columbia.

The new station will be operated under the federal department of agriculture.

THOS. PATTERSON MOSS Police were mystified at finding the body of Thomas Patterson Moss, Canadian youth attending Balliol College, Oxford University. The charred body was found in a burning hayrick on a farm near Stadhampton. Both arms were broken and the fire was of unknown origin.

Salmon Price For Season Settled

Bristol Bay Fishermen to Receive 12 1/2c For Reds From Cannery This Year

SEWARD, Alaska, June 13.—Bristol Bay fishermen will receive 12 1/2c for red salmon from the packers this season. A price agreement was reached yesterday between the fishermen and the packers.

SUIT IS ENTERED

Names of Quintuplets Alleged to Have Been Used Without Authority by Philadelphia Doll Makers

PHILADELPHIA, June 13.—Suit for \$50,000 was entered here yesterday by Hon. David Croll, minister of welfare for the province of Ontario, on behalf of the Dionne quintuplets for unauthorized use of the names of the famous babies by a Philadelphia doll manufacturing company.

More Warrants Against Black Legion Issued

DETROIT, June 13.—Twenty-nine new murder warrants were issued yesterday by Prosecutor Duncan McCrea against members of the notorious Black Legion. A conspiracy to murder Arthur Kingsley, noted Highland Park newspaper editor, is charged against the Legion.

FINED \$300

Pleading guilty to a charge of keeping liquor for sale, Bernardino Perotti was fined \$300, with option of three months' imprisonment, in city police court this morning. The fine was paid.

DAMAGE IS ENORMOUS

Further Particulars of Wreckage On Railway Line—Graphic Pictures

Gradually more particulars are drifting into town descriptive of the enormous damage done to the line of the Canadian National Railways along the lower Skeena River by the disastrous floods of last week. Pictures which are becoming available, however give a better idea than anything that can be written.

At some points railway tracks were picked up bodily and turned over into the woods at some distance.

For long stretches rails, grade, bridges, everything, were swept away. Never was there anything like it in the way of damage all along the line from Kitwanga to Salvas.

It seems quite reasonable to assume that it will take many weeks before trains can again be run over the line.

CIVIL WAR IS AVERTED

Cantonese Forces, After Meeting Stiff Resistance, Are Halted

CANTON, June 13.—Possibility of serious civil war in China was believed averted yesterday with the order of the Canton government to halt the movement of forces against the North China government.

The stiff resistance of the superior fighting forces of General Chiang Kai Shek, northern warlord, is believed to have dampened the military enthusiasm of the Cantonites.

Spokane Drug Addicts Being Sent to Prison

SPOKANE, June 13.—Sentences of one year and a day's imprisonment were meted out here yesterday to four men for dope offences. They will be sent to the hospital for drug addicts at Lexington, Kentucky.

Child Singers Best in Canada

Choral Youth in the Dominion Rated Best in British Empire

SASKATOON, June 13.—(CP)—Canadian children can be more than proud of their children who possess voices which cannot be matched anywhere in the British empire, David Yacimini, adjudicator, told members of the Canadian Club here.

At Winnipeg he heard young chorists present work which so thrilled him he never expected to hear anything like it again unless he returned to the Manitoba capital.

The best choirs in Canada, he believed, could match anything in the United Kingdom. If the best were placed against the best the Scottish critic said the "dice would be loaded in favor of Canadian children."

ALL NOT HARMONY

Republican Convention Ends At Cleveland—Borah and Landon Already at Variance

CLEVELAND, June 13.—Shortly after nominating Col. Frank Knox of Chicago as vice-presidential running mate for Governor Alfred M. Landon of Kansas, the party's choice for the presidency, the Republican national convention adjourned yesterday. Knox was chosen after Senator Arthur Vandenberg of Michigan, the favorite, refused the vice-presidential nomination.

Governor Landon and Col. Knox will confer on Monday at Topeka, Kansas.

That all is not harmony in the ranks of the Republican party as it enters the campaign is already quite evident. Among others, Senator W. E. Borah of Idaho, who had much to do with the framing of the party's platform at the convention here this week, has expressed open disapproval of Governor Landon's interpretation of certain planks. Doubt is expressed as to whether Borah will support or oppose Landon or merely take no part in the campaign.

MENACE IS DEFEATED

Cutworms and Grasshoppers Ravage Crops but Farmer Winning Grim Six-Year Fight

WINNIPEG, June 13.—(CP)—Western agriculture is ready today to administer the coup de grace to a crop of insects about to start their annual march of destruction. At scattered prairie points where broods of grasshoppers, cutworms and caterpillars are reported hatching, poison bait is spread to lay the plague.

Reports from biologists, experts in methods of combating insect invasions, indicate victory is in sight for 55,000 agrarians in a six-year battle against the "hopper." The severe winter has also slowed up considerably some pests of the plant parasite family while others, less voracious, have been little affected.

Concentration of poison bait guns across a 600-mile front last summer killed numberless young insects and paved the way for what is hoped to be the crushing blow. Comparatively little infestation has been reported in Manitoba where insects and drought two years ago, transformed green fields into a desert.

Alberta Invasion This year Alberta is prepared for a double invasion. Grasshoppers and cutworms are reported in central and southern areas. Cutworm attacks are confined for the most part to stubbled-in-crops. Mixing stations have been opened for distribution of poison bait and others established in areas where "hopper infestation is feared.

In Saskatchewan, control measures are being taken in more northerly sections. North Battleford reports hatching on a general scale for the first time since the plague struck the province. The early fall brood found in southern wheat field areas has been retarded somewhat, commissioners report.

Beetle and caterpillars in eastern districts have been considerably depleted by the cold weather of last winter. Numbers of the latter have made their appearance in northwestern Ontario where two years ago they halted traffic by crossing railway right-of-ways, denuding trees of foliage in their western march.

Government officials in Manitoba, where more than 100 stations were in operation last year at a cost of approximately \$150,000, expect no general infestation. The fight has entered the crucial stage to the west, however, but agriculture is confident it will be crowned with success to bring to science one of the most outstanding triumphs in the history of farming.

STOCK MARKET DROPS

NEW YORK, June 13.—The New York Stock Market showed a decline all along the line yesterday. The industrial average at closing was down 1.45; rails, off .43; utilities, off .37, and bonds, up .05.

ALL NOT HARMONY

Republican Convention Ends At Cleveland—Borah and Landon Already at Variance

CLEVELAND, June 13.—Shortly after nominating Col. Frank Knox of Chicago as vice-presidential running mate for Governor Alfred M. Landon of Kansas, the party's choice for the presidency, the Republican national convention adjourned yesterday. Knox was chosen after Senator Arthur Vandenberg of Michigan, the favorite, refused the vice-presidential nomination.

Governor Landon and Col. Knox will confer on Monday at Topeka, Kansas.

That all is not harmony in the ranks of the Republican party as it enters the campaign is already quite evident. Among others, Senator W. E. Borah of Idaho, who had much to do with the framing of the party's platform at the convention here this week, has expressed open disapproval of Governor Landon's interpretation of certain planks. Doubt is expressed as to whether Borah will support or oppose Landon or merely take no part in the campaign.

ASSEMBLY IS CALLED

Next Session of League of Nations To be Held on June 26

GENEVA, June 13.—The next meeting of the League of Nations is called for June 26. The first matter to be taken up will be the Italo-Ethiopian situation. The matter of the Rhineland will also be dealt with.

Admiral Crook Is Aeronautic Head

Given Charge of Important Branch of United States Navy Service

WASHINGTON, D.C., June 13.—Rear Admiral Arthur Crook has been appointed chief of the Branch of Aeronautics of the United States Navy, it was announced yesterday.

TERRACE DISTRESS

Official Report on Situation In Flood-Stricken Area—Sufferers All Under Cover

According to information received by Government Agent Norman A. Watt sufficient food supplies to last for ten days are now on hand in the flood-stricken Terrace district.

In regard to the general situation in the Terrace district, Constable H. L. McKenney of Terrace advises that all flood victims at Terrace and Remo are under cover. A number of cases are being absorbed in railway employment and the situation is gradually reverting to normal. There are some cases of real distress, Constable McKenney adds, but these are being taken care of.

Meantime, the government has put into temporary service between Kwinitsa and Terrace a thirty-foot river boat, equipped with a 24 h.p. outboard motor and manned by Corp. Harold Raybone and Game Warden Ed. Martin, to carry supplies into the flood area until transportation can be provided in a more normal way by the proper authorities. In this way, it is estimated that 1000 pounds a day can be delivered into Terrace.

Interior merchants will order supplies in the usual way from wholesalers.

Constable McKenney has been instructed to make a more complete report on the actual cases of distress.

I have heard of a mechanic having a keen sympathy for the machine under his charge. If the slightest thing went wrong it affected his nervous system to such an extent that it almost made him ill. Much more so the gardener who tends his flowers or vegetables. He has a most profound sympathy for them when they suffer from drought or are attacked by disease or other enemies. The other evening when the thunderstorm came up and it began to rain those who had gardens enjoyed themselves in seeing the pleasure their flowers or plants obtained from the rain. They looked with joy the following day as they saw the growth made in so short a time. It was like giving a banquet to a group of old friends.

The rain came just in time. While some plants had already suffered, not many had been injured to any

### REAPING THE FRUITS

The fortunate lady who has a garden with flowers in bloom ready for the plucking.

appreciable extent. A few days more and the plants and flowers would have wilted considerably and many would never have really recovered.

Just now some of the early flowering plants are being removed from the garden and their places may be taken by annuals. It is always wise to keep a few annuals for this purpose and also to fill in places where for some reason the early planting has not been wholly successful.

It is difficult to fill gaps in the rose beds as even now it is not easy to tell how many roses are alive. I find my first estimate of saving twelve out of twenty rose trees

about correct. While one or two are just showing signs of life, they may have been so weakened by last winter's frost that they will be an easy prey to cold weather next winter. In one little bed I saved five out of six and those five are all strong and will soon be ready to bloom.

There will be roses in bloom in the city very soon. Possibly some reader of this column already has one in bloom but the main crop will not be out for about a month, quite as early as usual, I should say.

There is a nice showing of sweet rocket in the Keilback garden next door to the Daily News. In the evening the fragrance of these flowers is very noticeable to any who pass on the street.—H. F. P.

## ELKS LOSE TO LEGION

Chenoski and Lambie Hook Up In Pitcher's Battle With Latter Emerging Victorious

	W.	L.	Pct.
Canadian Legion	3	1	.750
Elks	1	2	.333
Sons of Canada	1	2	.333

Canadian Legion took a commanding lead in the Senior City Baseball League last evening when they downed the loose fielding Elks with a 3-2 score. With a view to getting in condition for the series against Ketchikan at the end of the month, Bill Lambie was shifted from the Sons of Canada to Legion for the game with Nick Chenoski doing mound duty for Elks and the two old rivals staged a close battle with Lambie emerging victor, due to large extent to loose fielding of the Antlered Herd.

Legion started off in the first inning by filling the bases with no one out but only managed to push one run across as Elks tightened up on them. They added another in the second. Elks came back to tie the count in the first half of the third only to see the winning run cross the plate for the Legion in the fourth.

After that both hurlers tightened down and had no difficulty in turning back opposing batters.

Simonson's three base clout to right in the fourth for Legion was the best hit of the game while Eddie Smith, who made four errors at short for the Elks, redeemed himself with a spectacular catch of Lambie's hard drive in the fifth which looked like a sure hit. Santurbane, who is showing a good brand of ball at second base for the Legion, accepted six chances at the keystone sack without the semblance of a miscue and smashed out two good hits in four trips to the plate. He has all the earmarks of a real ball player and is always on his toes.

### The Box Score

## GOV'T PUTS UP MONEY

Giving Dollar For Dollar Up To \$250 to Assist in Making Improvements at Salt Lake

The Prince Rupert Swimming Club has received the gratifying advice that the provincial government will put up dollar for dollar up to \$250 with the club for repair work at the Salt Lake. The government money is earmarked for labor. The Swimming Club is undertaking to finance the material. A campaign is now under way to raise the funds.

As a result of the government assistance it will be possible to build a new bathhouse, tower and sprinboards and, possibly, a new float. The work will start next week.

The provincial government is repairing the gangway at the entrance to the Salt Lake walk which collapsed during the week. A crew of volunteer workers was out last night cleaning out the children's pool.

### SPORT CHAT

Good enough to bring the Canadian rugby football title to the west for the first time, Winnipeg's 1936 lineup looms strong in defence of the Grey cup. Manager Frank Emma has announced the Blue and Gold squad would remain intact from last year with one important addition. Pete Somers, triple threat player, will take over the quarter-back position. Somers gained fame in his 1931 senior year with the University of Minnesota in the Big Ten conference. He was chosen along with Russell Reholz, then with Wisconsin but a 'peg star since 1932 to take part in the East-West college game at San Francisco.

The Canadian titlists have nine former American college players to call upon for first string duty. They form a complete backfield with four remaining for front line work. With Somers added, some followers rate the backfield 20 percent stronger than the 1925 championship team. It was Somers' shrewd bench strategy and field generalship that aided coaches Bob Fritz and Bert Oja in the Dominion final last season when the Peggers defeated Hamilton Tigers 18-12 to bring the west its first major football title.

With Somers at quarter, Fritz will move back to his regular position at fullback where his devastating line plunging will be given more scope. The fleet Reholz, former fullback, will move up to the front line with Fritz Hanson as a partner and Captain Greg. Kabat, flying wing, Eddie James wouldn't let broken bones interfere with his love of rugby and will be fighting for a spot in the backfield with Cliff Roseborough. "Tubber" Kobrinsky, the veteran Arni Coulter, Percy Dalgie and several recruits from junior ranks hope for a place with the regulars. Oja will coach the same wing-line that rocked through all opposition seven months ago. A former Minnesota player and teammate of Somers, he will have three other American stars in Herb Perschel, Joe Perpich and Bud Marquart to blend with other talent in a formidable front line.

The wing includes veteran Lou Adelman at snap, Oja and Lou Mogul, insides, Perschel and "Slush" Harris at middle, and Perpich and Marquart at outside wing. A 10-game schedule has been arranged for Winnipeg, including two exhibitions with American college teams. Eight games will be played in the inter-provincial schedule with Calgary Bronks and Regina Roughriders. Concordie College Cobbers, formerly captained by Fritz, and North Dakota State College, alma mater of Peschel and Marquart, will play exhibition in Winnipeg.

### BASEBALL

## PLAIN TALK TO PLAYERS

Saucy Black Squirrel is Visitor To Tennis Courts

Some of the tennis players of the Prince Rupert Tennis Club got plain talk from a psectator last evening. The visitor was sitting on the fence scolding and making all kinds of noise and evidently using language scarcely fit for publication.

The visitor was a black squirrel that had escaped from the home of E. E. Yager, Summit Avenue, where it lived with several grey squirrels. Two evidently made a get-away

from their home and the black chap took advantage of the occasion to scold the tennis players until taken in charge by a member of the Yager family.

The grey squirrel is still at large and the owner is anxious to have it returned. The squirrel was recently imported by the owner from Ontario.

**DILWORTH IS HEARD**

University Professor Speaker Before Women's Canadian Club

Last night the Women's Canadian Club was addressed by Prof. Ira Dilworth of the Department of English at University of British Columbia. His subject was "Education Versus Boredom" and, as presented, held the audience for every moment. He spoke of three groups of people living in the world today—those established before the war who had faith in something, those who went through the war and lost faith in everything, and the young people of today who were at the crossroads and could find no signposts to guide them. He quoted from several modern poets and writers showing that "of course, life itself is all right. Life is never dull" as C. E. Montague said. "The Exquisite Lament" of W. W. Gibson, a poem by Wilfrid Owen and the young American, McLuck's poem "1933" were beautifully read. He inspired his listeners with a desire to master the difficulties confronting them and to conquer their environment.

Mrs. G. A. Rix moved a vote of thanks to the speaker. Mrs. D. McD. Hunter seconded. Miss Lillian Halliwell, president, was in the chair. Prof. Dilworth arrived from the south on the Princess Adelaide last evening, returning to Vancouver on the same vessel. For years he was principal of Victoria High School before joining the university staff.

**ROYAL CYPHERS**

Designs of the new royal cypher which will label the reign of King Edward VIII have been made public. Here are the three forms to be used. At left is cypher with numeral "VIII" between the plain block letters, "E. R." surmounted by imperial crown, to be used by all departments of state and public bodies. In centre is cypher reversed and interlaced, a special design to be used on colors of certain battalions of the foot guards and on appointments of such other regiments for which it is authorized. It does not bear a crown. At bottom is the imperial cypher for India. It has a large block letter "I" between the "E" and the "R" and the crown is smaller. Royal approval to the designs has been given.

- Fred Skinner of Seal Cove sailed last night on the Princess Adelaide for Vancouver enroute to Waterways, Alta., where he has secured employment.
- Albert Farrow, steamboat inspector, is here this afternoon aboard the Princess Louise on his way back to Vancouver after spending the past month at Whitehorse and Dawson making his annual inspection of the river vessels of the Yukon and White Pass fleet.
- Miss Catherine Harvey R.N., formerly of the Prince Rupert General Hospital nursing staff and now identified with the staff of Good Samaritan Hospital in Los Angeles, will shortly be coming north to Vancouver for a visit of a month or so.
- Any couple contemplating marriage during the month of June is invited to communicate with F. W. Wesch, manager of the Pioneer Laundry (Phone 8), and learn the terms and conditions under which they may obtain a cash bonus from the Prince Rupert Boys' Band Association Eighteen Hundred Club. (138)
- Lieut. Edna Plaff, who arrived in the city earlier in the week from Canyon City on the Naas River where she conducts the Indian school for the Salvation Army, sailed last night on the Princess Adelaide for Vancouver enroute to her home in Edmonton to spend the summer vacation.
- KING HELPS Y.W.C.A. CARMARTHEN, June 13: (CP)—The King has promised an annual subscription of five guineas (about \$25 to the Welsh Y.W.C.A.

**TO ATTEND CONVENTION**

Hospital Board Sending Lady Superintendent to Vancouver Meeting—Regular Monthly Session

On the urgent advice of Miss Helen Randal R.N., registrar of the Graduate Nurses' Association of British Columbia and inspector of training schools for the province, the board of directors of the Prince Rupert General Hospital, at its regular monthly meeting last night, decided to send Miss Jean Harrison R.N., the local lady superintendent, to the biennial convention of the Canadian Nurses' Association, an important professional gathering to be held in Vancouver from June 29 to July 4. Miss Harrison will leave here two weeks from today to attend the convention at which it is expected practically every superintendent of nurses in the country will be present.

Business at the meeting of the board, which lasted less than half an hour, was largely of a routine nature. Those present were W. M. Brown, chairman, G. V. Wilkinson, G. P. Tinker, Frank Dibb and S. D. Macdonald, directors; H. W. Birch, managing director, and Miss Jean Harrison R.N., lady superintendent.

A report from Fire Chief J. R. Morrison covering the month of May stated that the usual inspections had been made of the hospital and nurses' home and everything had been found to be in good order from a fire standpoint.

There was a letter from H. Douglas, factory inspector, in regard to elevator operations which have been ordered. The board has asked for permission to defer the making of the changes since the elevator would no longer be used should it be decided to proceed with a new building.

**Milk Price Higher**

In view of the railway tie-up, Valentin Dairy advised the board that it would be impossible for it to continue to supply the hospital with milk at the contract figure of 33c per gallon as it cost 36c per gallon to get the milk here from Vancouver. The dairy asked 40c per gallon until after the railway tie-up was ended but the board decided to offer 38c per gallon.

It was decided to order direct from the makers' new food covers for patients' trays. Inquiries had been made of local dealers but they were not interested in the business.

The house committee reported that there was still trouble in regard to leaks in the hospital roof. The matter was left in the hands of the committee.

The lady superintendent reported the hospital fairly busy at this time.

The grounds committee reported hospital grounds and gardens in good shape.

The finance committee reported disbursements for the month of May amounting to \$3965.87 with 1603 hospital days at a cost per day of \$2.47.

**ESCAPES DEATH**

MOTOGGART, Sask., June 13: (CP)—When a rail welding machine weighing more than a ton slipped its supports and pinned Ted Patience, a railroad construction worker, to the ground, his mates worked feverishly to extricate what they believed would be the "remains." Flattened alongside an upturned tie Patience suffered no broken bones and was soon back on the job.

## CENTURY OF LIFE

White Man Good But Old Days Best Says 105-Year Old Prairie "Brave"

CARLYLE, Sask., June 13: (CP)—Kakakaway, a spry, keen-witted Cree Indian living on the Moose Mountain reservation, near here, pointed with pride today to 105 birthdays that led back to the days when Our Lady of the Snows was but a lusty infant.

Confederation, the iron horse, Louis Riel, Metis leader who wrote his name in the annals of young Canada—these were unheard of when the young brave, Kakakaway roamed the plains now known as Southern Saskatchewan.

Sitting outside his tent, Indian fashion, long grey hair almost white, eyes still bright and keen, features strong and clean cut, head erect and voice penetrating, he made a perfect picture of the "vanishing American."

He remembers away back before the coming of the white man, before trading posts were established and the buffalo, principal diet of the Indian, was plentiful. He was born in the vicinity of Moose Mountain in 1831.

Birthdays, however, have ceased to be exciting for the aged red man. He married when he was 18. During his long life he has had three squaws, one still living to whom were born 20 children. Eight are living, four sons and four daughters, all members of the White Bear band.

For more than 60 years he has lived almost continuously in this area. He recalled some of the hardships of the early days—winters when the buffalo failed, the beaver could not be trapped and rabbits died by thousands from sickness.

His first weapon, he recalled, was a bow and arrow. Later, after the coming of the white man, he procured a muzzle-loading gun. This he learned to load while seated on his pony and travelling at full speed. The white man was good but the "young" centenarian longed for the good old days of swift ponies that over-ran buffalo herds.

## Waterfront Whiffs

Massett Cannery to be First Island Plant In Operation—Trolling Continues Light—Algie Chartered To Pack Salmon

The Massett Cannery salmon cannery at Old Massett will be the first packing plant to get into operation on the Queen Charlotte Islands this season. It will start canning cohoes early in July, the intention being to obtain the fish from the nearly trolling grounds of Seven Mile Point and North Island. John Dybhavn leaves Prince Rupert about the end of next week to take charge of cannery operations for the season, going out on the company's cannery tender Jedway. After spending two or three weeks at Massett getting the plant in readiness, Peter Lorenzen is returning to Prince Rupert this week-end.

Salmon trolling continues light on the grounds contiguous to Prince Rupert but weather is improving and it is expected there should be an early improvement in the run. There was somewhat of a spurt in the run around White Rocks and Bonilla Island early in the week but it was not sustained.

The Armour Salvage Co.'s big service boat Algie, Capt. Reg. Green, leaves Prince Rupert June 20 to take up a two months' packing charter for Nelson Bros' Fisheries Limited. The Algie is to carry fish from North Island to New Westminster. The vessel has been for the past two or three weeks on charter to the A. P. Allison Logging Co. to deliver machinery and equipment from the mainland to Cumshewa Inlet for use on a logging railway which is being built there.

Some half a dozen of the Columbia River fishing boats, which were recently advertised for sale in the Daily News, have been purchased by local buyers who plan to use them for sailing purposes. Some of the boats have already been brought here and others are coming.

H. M. Daggett, local secretary of the Halibut Marketing Board, received sad news of the death on Tuesday of this week at Okotoks, Alta., of his oldest brother, Ernest Daggett, rancher and former manager of prairie sawmills. The late Mr. Daggett was 69 years of age and had lived in the Okotoks district since 1889. He is survived by a widow and daughter as well as a brother and sister in the east.

The Armour Salvage Co.'s power tug Daly, Capt. Oscar Haveroy, has been engaged this week in towing of half a million feet of logs from Aurio's camp to the Big Bay mill as well as half a million feet from the Armour operations at Shawatlans Lake.

### Business as Usual

The fact that American landings of halibut at Prince Rupert during the past week were the heaviest for any single week so far this year indicates that the tie-up of the line of the Canadian National Railways on account of flood damage is having little, if any, effect on the handling of halibut through Prince Rupert. The American landings for the week totalled 318,400 pounds, bringing the total for the season up to 2,177,500 pounds as compared with 1,749,200 pounds at a corresponding date a year ago. Canadian landings for the week totalled 113,500 pounds, making the total for the season to date 2,377,200 pounds

in comparison with last year's 1,619,150 pounds. The grand total of landings at Prince Rupert for the season up to yesterday had reached 4,504,700 pounds in comparison with 3,368,350 pounds last year. Prices during the week also held up in comparison with those paid at other ports. The top bid of the week for Canadian fish was 6.7c and 5.5c which the Morris H. received for 13,000 pounds and the low 6c and 5c which the White Hope was paid for 13,000 pounds. For American fish the high price of the week was 7.2c and 6c paid the Chum for 9,500 pounds and the low price 7c and 5c which a number of boats were paid.

C. P. R. steamer Princess Adelaide, Capt. Harry Anderson, arrived in port at 8:15 last evening from the south and sailed at 10 p.m. on her return to Vancouver and waypoints.

On the way to Alaska waters for a cruise, the Vancouver power yacht Meander, with its owner, George Kidd, prominent Vancouver business man, and Mrs. Kidd on board, arrived in port yesterday afternoon and is tied up at the floats of the Home Oil Distributors Limited. The skipper of the Meander is Capt. William Gleason, formerly identified with Canadian National Coast Steamships.

Southbound after her first voyage of the season to Alaska on tourist schedule, C.P.R. steamer Princess Louise, Capt. S. K. Gray, is due in port at 4 o'clock this afternoon from Skagway and other northern points and will sail at 5:30 p.m. for Vancouver.

After having been held down for two days on account of poor visibility conditions in the interior, Pilot Charles Elliott of the Pacific Airways hopped off at 8:30 this morning for Lake Kathryn with his Junkers seaplane. On board passengers was a party of Skeena River cannery men going to Hazelton to make arrangements for the transportation of a large group of natives via Vancouver to lower Skeena River canneries to be employed for the summer. Pilot Elliott is continuing to Fort St. James to do some freighting into the Vital Creek gold mining area and expects to be back here about next Wednesday.

Enroute to Alaska waters on a cruise, the steam yacht Aquila, formerly owned by the late B. T. Rogers of Vancouver and now the property of Mr. Eddy, Seattle shipbuilder, was here this morning with Mr. Eddy and party on board. The vessel took on fuel from the plant of the Imperial Oil Co.

**OLDEST THING ALIVE**  
QUEENSLAND, Aus., June 13: (CP)—Believed to be the oldest thing on earth, a macrozamia tree found in the Tamborine mountain reserve near here, is estimated to be more than 12,000 years old.

## MUSEUM OPENING MONDAY

Finishing Touches Being Given To Collections Which Are On Display There

The Prince Rupert Museum room is today a scene of bustle and movement most unusual in a place of that kind. Preparations are being made there for the opening which takes place Monday afternoon. While the collection is not very large it is very interesting and quite representative.

First and foremost there is the Hyde Collection of Indian curios which has been turned over to the museum by the official administrator for safe keeping. Most of it is placed in two glass cases in the centre of the room but the food boxes and other larger articles are arranged on the floor or on the walls.

George Cunningham of Port Eslington is at the museum today arranging his collection of carved slate totems made by the late Chief Charles Edenshaw and a native named Champam, son of a captive taken in raids in Southern B. C. This collection has been exhibited at Victoria, Toronto and in the Old Country and is being loaned to the museum. It is an excellent exhibit of native craft.

There is the skeleton of the "Sea Serpent," later classified as a basking shark. It is suspended on an iron rod from the ceiling. Near it is the exhibit from the Fisheries Experimental Station showing several of the peculiar fishes of the coast, as well as samples of submarine growths.

An Indian blanket spun from the wool of the mountain sheep has just been received, the gift of George Hill.

Dr. R. G. Large and Rev. Canon W. F. Rushbrook recently sent in a number of Indian curios which are being added to the collection made while the exhibit was in the Bank of Commerce building. Others have promised to send exhibits such as marine specimens, Indian curios and various articles of interest in connection with the early life of Northern British Columbia.

The mining exhibit donated and arranged by Dr. Mandy before he left for the north is outstanding and the forestry department is arranging an exhibit of native woods.

It is being arranged for the museum to be open every afternoon and mornings or evenings when tourist boats are in the city. Members wishing to visit the museum are expected to show their membership tickets to the curator.
