THE ALMIGHTY DOLLAR

It has become the fashion in many quarters to figure out that the money spent in a college education should be repaid in dollars and cents in increased salary after the persons starts to work. That is the purely material idea of education. That is for those who regard a college education as a financial investment which will pay dividends in dollars.

The other view of higher education is that it is a means of helping the individual to live a fuller life and enjoy it better. To such the financial reward does not matter. It is true that the more highly paid professions such as doctors, lawyers and engineers must have a university education as part of their equipment. But that is incidental. The real training for the professions starts after the university course ends.

Someone has been delving into statistics and finds that the universities of the United States are turning out hundreds of men and women who are unfitted to make a living at ordinary occupations and they refuse to get down to the drudgery of commercial or other callings. The result is that they blame the state for educating them to a point above their fellows and for not finding them suitable white collar employment at pay suitable to their mode of life.

Young men who wish to be trained for work should attend a technical school rather than a university. They should realize that a university education does not set them on a pedestal above their fellows and that there are no cushy jobs for them when they graduate. They must take their chances with the rest of the young men, handicapped by the fact that they have spent much time learning to make a living, which is something quite different.

One of the tragedies of the age is the young man who leaves the university imbued with the idea that the world owes him a soft job only to find that he has to be a hewer of wood and a drawer of water for the man who has been trained from his boyhood in some trade or calling instead of being given what is usually known as higher education. Another tragedy is when the young man who has learned to make a living finds after a term of years that he has devoted his time to that so exclusively that he finds himself wealthy without knowing how to employ his time. He is in as bad a plight as the man who has the education and has learned all the games and sports and other pastimes of the university but cannot earn enough money to enable him to enjoy those recreations.

Clearing out stock of FURS

Miss Bell, manager of Goldbloom's Fur Store has gone east to purchase new stock and while she is away all the old stock will be cleared out at bargain prices, some of the pieces selling at only **30 PERCENT OF FORMER PRICE**
This is a great opportunity to buy fur coats and other fur goods almost at your own price.

Toronto Marksman Wins Big Prize

Sergt.-Major George Emslie of Toronto, 12 times a member of Canada's Bisley team, won the governor-general's gold medal after a shoot-off at the annual meeting of the Dominion of Canada Rifle Association. Emslie is 53 years old and belongs to the 48th Highlanders of Toronto. He is shown above, inset, and being chaired in the traditional ceremony after winning his match. Central Press Canadian Photo

LEADS ARE INCREASED

Both New York Giants and Yanks Improve Their Margins

PHILADELPHIA, Sept. 2: (CP)—"School Boy" Rowe pitched the Detroit Tigers to a two-hit victory over the Philadelphia Athletics here yesterday, one of the hits being a homer with no one on in the ninth which gave the Mackmen their only counter of the game.

The Cleveland Indians were defeated by the Boston Red Sox at Boston and the margin of New York Yankees leadership was, as a result, run up to seventeen full games. The Washington Senators won over St. Louis Browns to move into a tie with Chicago White Sox for fourth place.

In the National League the New York Giants won over the Chicago Cubs and increased their margin of leadership over the idle St. Louis Cardinals to four full games.

Yesterday's Big League scores:
American League
Cleveland 1, Boston 4.
St. Louis 3, Washington 5.
Detroit 4, Philadelphia 1.
National League
New York 7, Chicago 4.
Boston 1, Pittsburgh 3.
Philadelphia 2, Cincinnati 3.
Brooklyn 3, St. Louis 2 (called in fourth inning on account of rain).

WINNER OF BIG SWIM

Frank Pritchard of Buffalo Captures Marathon at Toronto

TORONTO, Sept. 2: — Frank Pritchard of Buffalo captured the five mile marathon swim of the Canadian National Exposition yesterday in new record time of two hours, seven minutes and 9 seconds as compared with last year's record of two hours, eight minutes and 55 seconds.

Pritchard made 54 strokes regularly per minute, was never headed and finished a quarter of a mile ahead of his nearest rival.

BOWLING IN SEMI-FINAL ROUND NOW

The Tip Top Tailors' Cup rink lawn bowling competition has now reached the semi-finals as follows: Angus Macdonald vs. Jack Watson; Frank Dibb vs. Jack Preece.

Last night Angus Macdonald's rink defeated J. J. Little's 15 to 11 while Jack Preece's won 15 to 11 over J. A. Frew's.

If weather permits, semi-finals will be played tomorrow evening.

SON WILL FIGHT TOO

Former Welterweight Champion Plans Boxing Career For 18-Year-Old Bobby

MIAMI Fla., Sept. 2: (AP)—Stocky Jack Britton, former welterweight champion, looks back on his 30 fighting years with fondness and looks forward to a big time boxing career he hopes is in store for his son.

Almost daily he works out with 18-year old Bobby Britton, teaching him the tricks of the trade in hopes the boy may some day rule the welterweight roost. The youngster, who won the southeastern amateur title last year, gained a decision after being floored in his first professional bout. He went on to win his next two scraps.

When Bobby is launched on his career, the former champion plans to return to New York where he instructs boxing in a downtown athletic club and judges for the boxing commission. He has a half interest in a Miami drug store.

Jack began fighting in Chicago's west side when he was 16 and estimates he trod the canvas at least 375 times before he retired at 45. Nevertheless, he emphatically believes a fighter should leave the ring at 30.

For hard punching, Britton remembers Mickey Walker, but Benny Leonard was the stiffest puncher he ever fought. Jack and Ted Lewis, from whom he captured the welterweight title in 1919, fought each other 22 times in five years. Jack's real name is William J. Breslin. When he left New Britain, Conn., to live in Chicago, his school mates nicknamed him Britton.

CHARGE BY SCHMELING

Declares That Louis Deliberately Fouled Him—Joe Denies It

PHILADELPHIA, Sept. 2:—In an article in this week's Saturday Evening Post, Max Schmeling claims that he was deliberately fouled by Joe Louis with a low blow in the twelfth round of their bout in New York last June. This low blow prompted Schmeling to launch the thundering attack which resulted in Louis being knocked out.

LOUIS Denies It
DETROIT, Sept. 2:—Joe Louis yesterday denied that he had deliberately fouled Max Schmeling in their June bout in New York. "I was so dazed I didn't know what I was doing," said Louis. "I had no intention of fouling."

LOCAL NEWS NOTES

Moose Lodge meets tonight 8 p.m.

Mr. and Mrs. W. O. Fulton and family returned to the city on last night's train from their summer home at Lakelse Lake.

Mr. and Mrs. J. A. Frew returned to the city at the first of the week after spending a couple of weeks holidaying at Lakelse Lake.

James Lamb, manager of Cassiar cannery, sailed last night on the Catala for Vancouver. Mrs. Lamb will be leaving on the Cardena Friday night.

Rev. W. S. Cooper, missionary of the Anglican Church at Green-ville on the Naas River, is paying a visit to the city.

The regular monthly meeting of the Junior Section of the Prince Rupert Chamber of Commerce, scheduled for last night, was postponed for one week.

Miss Lillian Davies wishes to announce the taking over of the Milady Beauty Shoppe business. Miss Davies is a local girl, having been born in Prince Rupert. She qualified at the Maxine Beauty College in 1934 and solicits the support of local people for her success. Courteous attention at all times will be shown. Phone 655. (207)

WAKE-UP YOUR LIVER BILE

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sick and the world looks pink.

A sure laxative movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else, 25c.

OFFICE-WORKER HELPED BY NATURAL LAXATIVE FOOD

ALL-BRAN Corrected Her Constipation*

Here is her voluntary letter: "For years I was a sufferer from constipation. It was necessary to take a laxative every night before retiring. I was an office-worker, and did not get much exercise.

"Some one told me that ALL-BRAN was a good remedy for constipation. I bought a box, and found that it helped my condition. Since then I have not had to invest in laxatives."—Mrs. Margaret Jones (address upon request).

Scientific tests have shown that Kellogg's ALL-BRAN corrects constipation safely and pleasantly. This delicious cereal supplies mild "bulk," as well as vitamin B and iron. Two tablespoons daily are usually sufficient. If not relieved this way, see your doctor.

Wouldn't you rather enjoy this natural food than abuse your system with harmful pills and drugs?

Protect your family from the dangers of common constipation. Serve ALL-BRAN regularly for regularity. Either as a cereal with milk or cream, or cooked in tempting muffins, breads, etc. Recipes on every package.

Sold by all grocers. Made by Kellogg in London, Ontario.

*Constipation due to insufficient "bulk" in meals.

Inspector John A. Fraser, provincial police, returned to the city on last night's train from a trip to Hazelton and other interior points on official inspection duties.

Staff Sergeant G. H. Greenwood, chief of the city police, returned to the city on the Prince Rupert this morning after having spent a vacation visiting around Vancouver and Victoria.

Miss Dorothy O'Neill left on Monday evening's train for Pacific, having received the appointment of school teacher there in succession to Miss Eleanor Moxley who has been appointed to Booth Memorial School staff here.

Miss Connie Morgan leaves by this evening's train to resume her school teaching duties at Colley-mountain, Francois Lake, after spending the summer vacation here with her parents, Mr. and Mrs. Bert Morgan.

King Approves Coin Effigies

New British Mintage Will Not Appear Until Next Year

LONDON, Sept. 2: (CP)—The King has approved the designs for his effigy for coins and medals which have been submitted by H. Paget and Percy Metcalfe. Mr. Paget designed the uncrowned effigy and Mr. Metcalfe the crowned effigy.

The King has also approved a series of new designs for the reverses of the silver coinage which have been prepared by George Kruger Gray. The new coins will not appear till next year.

Mr. Gray designed the Imperial silver coinage of 1927 and the silver coinages of Southern Rhodesia, New Zealand, Mauritius and the Channel Islands, as well as the collar of the Order of the British Empire, the Archbishop of Wales's processional cross and the mace of the Ulster government.

Mr. Metcalfe was chosen in 1927 to re-design the Great Seal of England. He also designed the coinage of the Irish Free State. Recently with Mr. Paget he had sittings from the King at Buckingham Palace for designs for the new coinage now approved. Mr. Paget, sculptor and medalist, has designed medals for the Royal Mint.

SUICIDE IN FEAR

LONDON, Sept. 2:—Thought to be fearing prosecution a driver whose truck had been in collision with two other cars took his own life by drinking disinfectant.

The Prince Rupert Gyro Club held its regular weekly luncheon at the Boston Cafe today. There were a few items of business to be attended to with autobiographical talks by three of the members rounding out the day's program. Giving these talks were T. W. Brown, H. S. Meadows and Orme Stuart. Past President W. H. Tobey was in the chair. It was decided to extend supervised playground activities into September. Formal appreciation was expressed of the services of David Bell, supervisor, and his assistant, Laughlan Giljies. Guests at the luncheon were D. A. T. Cooper and L. B. Cook of Vancouver.

SMITHERS MAN DIES

Donald Simpson, Prominent In Interior Mining, Passes Away

SMITHERS, Sept. 2.—Word was received in Smithers Monday of the death in Vancouver on Sunday of Donald Simpson of Smithers, one of the old timers and one of Smithers' best known citizens.

Mr. Simpson had always been in robust health until a few months ago when he declined rapidly. Upon medical examination he was found to be suffering from an incurable disease. He went to Vancouver for medical attention but could get no relief and passed away in hospital there.

Mr. Simpson was one of those who had unbounded confidence in the mineral resources of this district and of the Hudson Bay Mountain where he held the Victory Group of mineral claims and was interested in other properties.

His claims are among the most promising on the Hudson Bay Mountain. It would appear that in passing away at this time he has followed the course of a great many other prospectors and miners who have passed out just as the realization of their hopes was near materialization. Present indications point to great activity for Hudson Bay Mountain where Mr. Simpson's interests lay.

He was a great student and was well grounded in mineralogy and in economics and often wrote articles for the press which showed a great deal of study and thought.

He was a native of Scotland and was about 67 years of age. He survived by his widow who accompanied him to Vancouver and is still in the south.

Smithers Fair About to Open

Splendid Display of Bulkley Valley Agricultural Produce This Year

SMITHERS, Sept. 2.—Preparations have been completed for the Fall Fair at Smithers on Thursday and Friday, and it is expected that the exhibits this year will exceed both in quantity and quality anything shown here before. With sheafs of oats and timothy over six feet in height the judges will have to use step ladders to get a good view of the heads of the various varieties of grain and hay that will be shown at the fair.

The livestock, too, is in exceptionally fine condition and all the root and vegetable crops are of a splendid quality.

There will be added attractions to make the fair an outstanding success.

The Smithers Brass Band will be in attendance on Friday afternoon.

Begin Extension Of London Tubes

Central London Underground Railway Project to Cost Seventy-Five Million Dollars

LONDON, Sept. 2. (CP)—A \$75,000,000 project—the extension of the Central London Underground railway from Liverpool Street to Stratford, Leystone and Newbury—has just been started. Another \$1,250,000 is to be spent on straightening and enlarging the existing Central London line which was completed in 1900.

A new underground tunnel is usually built in mile-long sections, and so accurate do the big tunnel-builders work today that when these sections meet there is never more than a fraction of an inch difference between them.

This is because the whole system is plotted out above ground. Working at night, the surveyors mark out the route in the streets, with all the necessary twists and turns.

Shafts are sunk at various points, and by using an instrument called a theodolite, the engineers down below can strike the exact direction of the lines marked out on the surface.

A great circular shield is used in driving the new tunnel. It has a sharp edge, and is forced along by hydraulic rams. As it moves, men take away the earth through doors in the head of the shield, and the newly cut tunnel is encased in cast-iron rings.

If the tunnel has to go through areas where underground rivers or streams are likely to cause trouble, the work is carried out in compressed air, which keeps the water back.

Mrs. Jack Watson and daughter, Miss Janet Watson, returned home on the Prince Rupert this morning following a visit in Vancouver.

Announcement

After two months which have been most wonderful for my health I will start practising dentistry again on September 2.

However, having found the long hours indoors necessary to handle the work coming to my office too hard on my health, and having read in current dental magazines about the now so popular idea in the United States which they call the Bungalow Office and the convenience of same as compared to the downtown office, I have decided to move my office to my residence, corner of Fourth Avenue East and Green Street (the white house with the red roof next to the Prince Rupert General Hospital) and believe that I will be better able to handle the work for those of my patients who wish to follow me to my new location, than I could in a too busy downtown office.

My telephone is as before 109.

Dr. H. O. Johnsen
DENTIST

GUARDING SHIP LANES

Skipper of New Nantucket Proud Of His "Unsinkable" Craft With all Her Modern Safeguards

CHELSEA, Mass., Sept. 2. (AP)—Uncle Sam remembered his own when he equipped the new lightship Nantucket with the most modern devices to guide transatlantic shipping safely past Nantucket's dangerous shoals off the lower New England coast.

Perhaps he had in mind that foggy morning two years ago, when the liner Olympic, inbound for New York, ran down the lightship 117. Seven of the lightship's crew drowned. The new Nantucket, built at a cost of \$350,000, is double-hulled and has five watertight compartments to prevent another such occurrence.

Captain David B. Studley, her skipper, says "she's practically unsinkable." He explained the double hull as "really two vessels in one"—one hull built inside another with a six-foot alleyway separating the two walls of stout steel from stem to stern.

Captain Studley, recalling his first days and nights on Nantucket shoals, nearly 28 years ago, said "We had oil lights on those stubby masts, fog horns powered by steam, cramped quarters and food that didn't always keep too well in the underfrigerated ship."

Then, he turned again to his new vessel. "That submarine oscillator," he said, pointing to a pear shaped instrument on the forward deck, "carries sound 63 miles.

It is lowered into the water while on station, he explained, and throws a horn-like note across the ocean floor to oncoming vessels, which pick it up with specially made equipment.

Radio Very Powerful
The grizzled old white-moustached sea dog pointed aloft to a two-toned horn he called the warbler, which sends its eerie cry 10 miles. He stopped at the radio shack aft, from which a radio beacon sends its warning buzz sometimes as far as 1,500 miles.

The crew of 19 spends two months on the shoals then one month on shore. When on duty the men stand by during the day. At night the sailors alternate on two-hour tricks above decks, except when raging gales or heavy fog sweeps down, when stronger watches are needed.

Just about once a year the 7,000 pound mushroom anchor pulls her 180 fathoms of 1 3/4 inch chain loose and the ship drags off her station. Then it will be the duty of her small, powerful diesel engines to bring her back to her anchorage and hold her nose against the gale.

There are days on end when the lightship pitches and rolls, her decks buried under tons of steel-ripping green combers. There are even more frequent nights of fog, when the lookout can see but a few hazy feet, and the tow-toned horn tears through the darkness.

WHIFFLETS From the Waterfront

Northland Transportation Co.'s steamer North Sea, Capt. A. W. Nickerson, arrived in port at 6:30 this morning from Ketchikan and, after discharging frozen halibut and canned salmon for trans-shipment east over Canadian National Railways, sailed in continuation of her voyage to Seattle at 11:30 a.m. She brought in four carloads in all.

Union steamer Catala, Capt. James Findlay, returned to port at 8 o'clock last evening from Stewart, Anyox and other northern ports, sailing about an hour later for Vancouver and waypoints.

C.N.R. steamer Prince Rupert, Capt. Neil McLean, inaugurating the fall and winter schedule between here and Vancouver, arrived in port at 11:30 this morning from Vancouver, Powell River and Ocean Falls and will sail at 4 o'clock this afternoon for Anyox and Stewart whence she will return here at 8 o'clock tomorrow evening and sail at 10:30 p.m. for Vancouver via Ocean Falls and Powell River.

The Indian Department power cruiser Naskeena, with Dominion Constable A. J. Watkinson in charge, returned to port last night after a trip to Kitimaat with the departmental auditor, F. W. Holmes of Ottawa, who is in the district on official duties. The Naskeena will take Mr. Holmes to Port Simpson tomorrow.

Armour Salvage Co.'s big power tug Algie was taken on the pontoon at the dry dock this morning for inspection and such hull work as may be necessary after a busy season.

Women's Labor League Meeting Last Night

A meeting of the Women's Labor League took place in the C. L. D. L. Hall last night. There were a number in attendance. Many important items were discussed. Mrs. Bowden was in the chair.

HEN LODGES WITH DOG
ABERDEEN, Wash., Sept. 2. (CP)—A bantam hen flew out of Ray Brasfield's chickenyard and roosted in the dog-house. When the dog re-appeared and crawled in the bantam refused to leave. Now the two occupy the house every night.

But these lonely guardians don't talk much of the raging seas that sometimes sweep their comrades overboard, of the mighty ships that have borne down upon their anchored vessel, or of the many narrow squeezes, when death only just passed them by.

It's in their blood—this business of being guardians of the transatlantic highway. It's a job to be done, and a job they're justly proud of doing.

NEW TYPE AIR FILM

"Sky Parade" a thrill-packed drama of the skies with Jimmie Allen, radio star making his screen debut, and "Spendthrift," a high-spirited fast-moving romance with Henry Fonda, Mary Brian and Pat Paterson in the leading roles, comprise an interesting mid-week double bill at the Capitol Theatre.

"Sky Parade" is a new kind of air film, turning from the daredevil pursuit of thrills to the development of safety and sanity in flying. In a swift succession of fascinating episodes such epochal events as the Atlantic crossings of Lindbergh and Amelia Earhart and the round-the-world flight of Post and Gatty are re-enacted. There is also a clever and interesting story surrounding the activities of a gang of racketeers. The cast includes William Gargan, Katherine DeMille, Kent Taylor, Grant Withers and Billy Lee.

"Spendthrift" relates the story of a wealthy youth who lets \$23,000,000 slip through his fingers gets married to a gold-digger and loses his last cent on a horse race. His means of regaining a financial foothold and finding real romance form the plot.
