Great Britain Will Spend Twenty-Five Million Pounds On Defence Construction

Matter is Held of Such Importance That it Must Take Precedence Over Everything, Including Balancing of Budget

LONDON, July 8: (CP)—Great Britain is preparing to spend another large sum estimated at between £15,000,000 and £25,000,000 on defence. Developments in the European situation, it is learned, have convinced the ministry that the urgency of national defence must take precedence over all else, even the balancing of the budget.

APPEAL TO BE TAKEN TO PRIVY COUNCIL OTTAWA, July 8: (CP)—Prime Minister William Lyon Mackenzie King told newspapermen last night that the government would appeal soon to the Privy Council opinions of the Supreme Court of Canada on the constitutionality of "some" of the Bennett administration's "reform" statutes. He declined to say which would be appealed.

LONDON, Eng., July 8:—Prime Minister Baldwin and his irritated cabinet colleagues frowningly concluded today that Germany is being intentionally discourteous to them. CRISIS IS INCREASING

Refusal of Japan to Prevent Smuggling of Goods Irritates China

NANKING, China, July 8:—Continued refusal by Japan to prevent her nationals from smuggling manufactured goods and raw materials into China and the consequent enforcement of China's central authorities of drastic preventive measure, is hurrying Sino-Japanese relations towards a crisis of the gravest nature in the opinion of international authorities at the Chinese capital.

The plane burst into flames after it had crashed in the darkness. Lieut. MacIntosh was born in Esquimalt in 1909 and was on exchange duty.

Speed Race Forecast Between Two Giant Atlantic Liners

Though the Queen Mary, giant new Cunard liner, failed by less than an hour to win the blue ribbon for speed crossing the Atlantic, experts are of the opinion that she will achieve it, possibly next month. Owners of the French Line's Normandie, however, counter this by announcing that the huge French ship will cut 10 hours from her crossing—and the race between the two juggernauts of the sea is on. The Queen Mary is shown top, arriving in New York to be greeted by a huge throng of 750,000 people. Below, the Normandie, with engines full speed ahead. It is expected the time will be shortened.

RECORD TO BE SOUGHT

Queen Mary to Step Out For Atlantic Blue Ribbon Next Month

NEW YORK, July 8:—The "Queen Mary," Great Britain's new forty million dollar super liner, will go out to win the blue ribbon symbolic of North Atlantic speed supremacy, in August. Officials of the Cunard White Star Line are confident their new flagship possesses far greater reserve power than her record-holding French rival the "Normandie." They are willing to wait for perfect weather conditions and warmer water, the latter a great aid, before opening the engines to the limit. They believed everything will be ideal in another five or six weeks.

HEAT WAVE CONTINUES

Little Relief For Drought Areas Either in Canada or United States

ST. LOUIS, July 8:—There was still little sign of relief last night from the drought which has been scorching the entire Middle West. St. Louis had had its fifth day of temperature averaging 100 degrees. Milwaukee had its hottest July 7 on record when the thermometer ascended to 98 above zero.

Rain in Saskatchewan REGINA, July 8:—Light rain fell over south central Saskatchewan yesterday but it afforded little, if any, benefit to the parched ground.

Veritable Furnace CHICAGO, July 8:—The great plains area of the upper Mississippi Valley was a veritable furnace today. The vast grain and corn belt of the prairie states may expect a blistering sun and scorching winds for at least another forty eight hours, government forecasts said today.

Some Relief WASHINGTON D.C., July 8:—The weather bureau reports the drought somewhat relieved by rains since July 3 from South Missouri and central Texas, northeastward over the southern Ohio Valley and central Appalachian mountain section.

Independence Day Death List Now Is Placed at 441

NEW YORK, July 8:—The latest summing up of the cost in life of celebrating the double holiday of the Fourth of July shows a total of 441 persons had met violent death over the week-end. It was the largest Independence Day celebration fatality list since 1931 when 483 died and the second largest in the last nine years. However, the 1936 deaths were over two days, whereas the compilations for some of the previous years were for the fourth only.

Foreign Money Holds Steady

New York francs were unchanged at 6.63 1/4c. Guilders gained .01c to 68.20c and Swiss francs were unchanged at 32.76c. The pound sterling also remained unaltered at \$5.02 1/4.

WILD DAY IN WHEAT

Chicago Price Reaches Highest Point in Two Years, Then Tumbles Sharply

CHICAGO, July 8:—In one of the wildest markets in months, wheat soared to new high price records for the season yesterday. Highest since August 1934, it then tumbled down sharply more than five and one half cents a bushel. Bewildered traders, caught in a last minute avalanche of selling, dumped millions of bushels into the wheat pit, as dealers and merchants sought to realize profits of one of the most sensational sustained wheat price upturns in recent years inspired by the crop-destroying drought in spring wheat territory.

EVERY EFFORT COUNTS

Any person who is doing anything to publicize Prince Rupert is doing good public service, no matter how small a service it may be. The person who sells something to a tourist that will tend to make the city known is doing good work not only for himself but for the community. The person who shows a tourist a little courtesy, going out of his way to do so, is helping to publicize the city.

Usually we notice only the larger moves such as that of City Commissioner Alder in securing and erecting the totem poles, the railway company and the provincial government in constructing the sunken gardens, and the establishment of a museum. These are all splendid movements which naturally force commendation. The smaller matters are never noticed. Take a simple little example. McRae Brothers have just had printed thousands of beautiful colored post cards of local views such as the sunken gardens, the totem poles, and other views including one of the local magnificent sunsets. Most of the tourists buy these and carry away with them the best advertising the city can get. Wrathall's fine art pictures of the city are also sent far and wide, keeping the idea of "Beautiful Prince Rupert" always before people in different parts of the world. Others are doing similar good work in those and other lines.

Evidently, from reports received from visitors, Prince Rupert is already getting a name for being a beautiful city. We hope Commissioner Alder will be able to carry out further his plan of beautifying the new central totem park as he has already done with the gardens at the City Hall. Also we are looking forward to seeing the completion of the sunken gardens at the back of the Court House by the provincial government. Excellent work has already been done there along similar lines to that of the railway company. What is needed now is a united effort on the part of all residents to improve their places and help to live up to the reputation the city is getting.

HOW NEWS TRAVELS

There was a day when news travelled rapidly but today it is not always that way. On June 16 a news item was published in the Daily News and some of the papers went to the interior by way of Vancouver and Red Pass Junction. It dealt with the transfers of clergy in this diocese. It was copied into the Interior News at Smithers and that paper took its tortuous way to Prince Rupert by way of Red Pass and Vancouver. Yesterday the item was again published word for word in Prince Rupert, credit being given the Interior News which copied it from the Prince Rupert Daily News. That is what one might call journalistic speed.

TIE-UP BAD FOR FRUIT

Terrace Unable to Get Strawberries To Market—Cherries There Also Ripening Early

Southern strawberries are about over on the local retail market, no good shippers being available. The strawberry season at Terrace is well advanced but, owing to the railway tie-up, it is impossible to get supplies from that district. It is thought, however, that some may get through later.

Terrace cherries are also about ready for picking now and they will be needing transportation.

California Elberta peaches arrived on the local produce market today as did also preserving apricots. Those desiring preserving apricots are being advised not to delay buying as there is only a twenty percent crop in the Okanagan, which sends most of its output to the prairies, and there is also a short season in the Wenatchee Valley. The price is \$1.45 per crate.

The selection of vegetables is becoming wider with fresh peas and beans, at reasonable prices, among the new lines.

The flour market has been advancing steadily during the last two weeks. Eggs are also advancing and the butter market is firm.

'SPORT'

SPORT CHAT

A disappointing crowd of twenty-five thousand, which only had filled the Boston ball park, saw the national leaguers score their first victory in four all-star ball games yesterday, winning from their American League rivals four to three.

The New York Yankees are quoted as one to four favorites to win the American League pennant race this year. The price is set by Jack Doyle, Broadway betting commissioner.

The Los Angeles Athletic Club water polo team, unbeaten since it was eliminated by Hungary in the 1932 Olympics, will represent United States in the Berlin games this summer.

Rowing critics, who had always insisted that a good spring crew is not a good four mile eight, are eating their own axiom after the University of Washington's Huskies disproved their theory in emphatic fashion although in reverse within the past fortnight. First they rowed off with the inter-collegiate crown at Poughkeepsie over the long route and then they qualified as Uncle Sam's representatives at the Olympics by winning the final try-outs at Carnegie Lake.

Back in first place in the National League race, as a result of two smashing victories over Cincinnati, while the Cubs were losing, the St. Louis Cardinals are counting upon Flint Rhem, Peck's Bad Boy in the circuit for many years, to bolster their pitching staff for more victories.

"I'm a cooking Prima Donna ... without the temperament"

"I never sulk or fly into a tantrum. I never need coaxing. My cooking heat is always ready when you want it. It's always even and it's there for just as long as you want it. I'm equally adept at all forms of cooking, so whether it's roasting, frying, broiling, boiling or baking, you'll never need to worry about how I'll take it. Just snap my switch and forget it until it comes time to dish up the full-flavoured, rich-in-nourishment result of my unceasing vigilance. You can always count on me and on my temperament—or should I say temperature?"

FINDS ALL-BRAN BETTER THAN PILLS, SALTS, AND OILS

This Natural Food Relieved His Constipation*

We quote from his letter: "... So I decided to make a fair trial of Kellogg's ALL-BRAN, with the result that I felt much improved.

"For 34 years, I had to take pills, salts, oils, teas, or other fluids, which did more harm than good.

Meals low in "bulk" often lead to constipation. Kellogg's ALL-BRAN provides generous "bulk" which absorbs moisture, forms a soft mass, and gently exercises and cleanses the system.

Use as a cereal with milk or cream, or in cooking. ALL-BRAN is much more effective than part-bran products. It is sold by all grocers.

*Constipation due to insufficient "bulk" in meals.

Schmeling-Louis Bout Comes To Capitol Screen—May Robson In "Mills of the Gods"

The pictorial record of the recent pugilistic sensation—the heavy-weight bout between Max Schmeling and Joe Louis, which proved to be the most sensational upset in fistic history since John L. Sullivan was tamed by Jim Corbett—comes to the screen of the Capitol Theatre this mid-week and is expected to be an outstanding attraction. The fight is now a matter of history but everyone who has the least interest in boxing will probably want to see how it all happened. Incidentally, it is the fastest delivery that has ever been made of such an offering to a local screen, the fight having taken place little more than two weeks ago in New York.

The feature picture on this program is "Mills of the Gods," a vibrating drama of modern industrial strife with a prominent cast headed by May Robson, the veteran stage and picture star. Miss Robson is seen as the owner of a large steel mill faced with depression conditions and labor riots. How she solves these problems forms the theme of the play. Others in the cast include such favorites as Fay Wray, Victor Jory, Raymond Walburn and James Blakely.

From the Waterfront

Dull weather now prevailing is not conducive to the best results in salmon gill-netting yet Skeena River boats were still doing quite well yesterday with an average of from 25 to 30 fish. An improvement is reported from the Naas River area with boats fishing in Portland Inlet averaging forty fish each.

With a capacity list of passengers, consisting largely of round trip tourists, C. N. R. steamer Prince Rupert, Capt. Neil McLean, arrived in port at 9:30 this morning from Vancouver. Powell River and Ocean Falls and sailed at 1 o'clock this afternoon for Skagway and other Alaska points whence she is scheduled to return here next Monday southbound. The round trip list included three large tour groups—A Christian Endeavor party of 63 from California, under leadership of Howard Brown; a New York State teachers party of 56, headed by Dr. Eldred, and a Towers' Tour party of 35 from Chicago under leadership of C. Ortenburger.

One day later than was originally announced, H. M. C. S. Vancouver, with Lieut. Commander Rollo Mainguy in command, is due in port tomorrow for a five-day visit.

MART HAS BAD NEWS

Drought and Labor Troubles Affect Trading in New York

NEW YORK, July 8:—The stock market yesterday put up a generally unsuccessful battle against adverse news, principally concerned with the drought and steel labor situations. While extreme losses of one to three points were reduced in many instances in late dealings, the close was heavy. Transfers totalled 966,190 shares.

On Monday stock market specialties swung into a quiet advance while many of the leaders, including steel, motors and farm implements, fell by the wayside although favorable earnings helped to lift a number of issues. The drought and steel labor controversy acted to chill general buying ardor. The close was irregular. Transfers totalled 844,220 shares.
