GENERATIONS OF BABIES HAVE THRIVED ON

BORDEN MILKS ... never surpassed in quality!

For seventy-nine years, Borden's have gone quietly on their way, pioneering better milk for babies. During four generations, millions of babies, under conditions of normal upbringing, have thrived on milk produced by Borden's.

All the experience of these years of leadership goes into making Borden's St. Charles the safest, purest milk possible. Made in Canada since 1899, it has never been surpassed in quality. Its purity and freshness are guarded by the most rigid tests in all the dairy industry.

Borden's St. Charles Milk is exceptionally rich in the elements that build vigorous health for your baby. It not only contains the nourishment baby's growing body needs-it is more digestible. And its ability to build sound bones, and strong teeth, is increased by Irradiation for Extra Sunshine Vitamin D.
