Fourteen Lose Lives When Steamer Founders Off West Coast of Scotland—Fifteen Perish When Lightship Capsizes.

LONDON, Oct. 28: (CP)—The death toll as a result of the storm which is lashing the British Isles and Northern Europe mounted to thirty-six today. Fourteen were reported to have perished when the Latvian steamer Faulbaum foundered near the Island of Mull on the West Coast of Scotland. The Elbe Lightship (Germany) was reported to have capsized and sunk last night, taking down her crew of fifteen with her.

Air and marine traffic has been paralyzed by the storm with shipping in the North Atlantic and Irish and North Seas at a virtual standstill. Coastguards are endeavoring to answer numerous pleas for assistance.

In the city of Glasgow yesterday two persons were killed as a result of the storm and forty were injured. A school boy lost his life when struck by slate flying from a roof. A man was electrocuted by a flying wire.

ALBERTA DEFAULT

Prairie Province Appeals to Bank Of Canada for Money Needed By November 1

EDMONTON, Oct. 28: (CP)—For the second time within a year it appears certain that Alberta will default on maturity of bonded indebtedness. On November 1 \$1,250,000 becomes due and there is only \$336,000 available to meet it. Premier Aberhart sought to borrow the difference from the Dominion government but Hon. C. A. Dunning, finance minister, turned him down with the explanation that Ottawa could loan to provinces only for relief purposes, authority for other purposes having expired. Premier Aberhart is now making an appeal to the Bank of Canada.

In the spring Alberta defaulted on a \$3,300,000 maturity when it was refused a loan by Ottawa because it would not subscribe to the federal loan council idea by which Ottawa would have had a measure of supervision over its finances.

SEATTLE, Oct. 28: (CP)—Frank T. Bell, United States Commissioner of Fisheries, upon his return from Alaska yesterday, forecast international complications if Japanese fishermen continue taking salmon outside the three-mile limit in Bristol Bay.

Mr. Bell said that six huge floating canneries, one a 15,000-tonner carrying a crew of six hundred, fished international waters this season and, if such unregulated, unrestricted operations continued, Alaska salmon would become extinct.

Best Year Since 1930

The management of one of the waterfront businesses reports that this has been the best season they have had since 1930. Other similar reports have been received from business houses, all intimating that there is a general improvement almost everywhere.

Nothing But Fears

For the past few years nothing but fears have been expressed in regard to the international situation. According to the press reports we have been on the verge of war for several years and just now there is a crisis in regard to the Spanish situation and the attitude of Russia, everyone fearing it may bring about a general world war.

While we all must admit that the situation is still grave, we also must admit that as it has been grave for several years past so it may continue grave for another several years and possibly in time the war clouds may blow away.

We cannot believe that all the world wants war, neither can we believe that the people of any country want war, especially those countries who were involved in the great war. No country gained anything at that time and possibly the winners lost more than the losers. Indemnities were not paid and every country is today struggling under a load of debt caused by the war. Canada is suffering in this way and also many of those who took part in the war are suffering individually as a result of injuries received. In addition to that there is a pension list which adds to the burden of debt.

Canada gained prestige in the war but she lost in every other way. But then she may have lost more if she had not gone into the war. She certainly would have lost in self-respect.

So we have today a world squirming and twisting and writhing and bluffing with countries like spoiled children making faces at each other, and some day they may tire of this ridiculous attitude and give up frightening the fearful with war threats which may have little real meaning.

Local Endeavor Doing Much To Bring Stewart, Alice Arm Back Into Mining Picture

(By H. F. Pullen)

Like Prince Rupert people the residents of Portland Canal have always looked to the big companies to set them on the high road to prosperity and have ignored any suggestion that they might do things for themselves. Good properties have lain in the prospect stage for years because no big operating company showed any interest in them. The results being obtained at the Dunwell mine at Stewart, at the Dolly Varden at Alice Arm and in a smaller way at other properties are examples of local initiative that might well be followed by others.

One of the men who has done more perhaps than any other at Stewart to bring the camp into notice by local initiative is L. E. Davidson. His persistent effort to rehabilitate the Dunwell is not perhaps well known. His is the driving force that has made possible the operation of the mill and the shipping of concentrates to London, England, that has in a small way interested capital and whose continued efforts may continue to develop the district by getting other mines going. He is said to be taking an interest in the Lakeview which, according to street rumor in Stewart, has been showing up well.

William Dann is making a great effort with the United Empire. Recently the Mayflower has been leased to a syndicate and Sam Deschamp and partner have shipped eight tons of high grade ore from the Ontario mine on American Creek and plan to bring out another eight or nine tons valued at \$167 to the ton.

In Stewart there have been 200 claims recorded this year and assessment has been done on 500 with probably another hundred to hear from.

The outlook for Stewart district is said by mining men to be better for next year than at any previous time.

Alice Arm Ambitious

Alice Arm has some fine looking gold and silver properties and the mining men and prospectors there express the confidence that their camp will yet overtake Stewart and lead the Portland Canal area in production. They say that the classifying of Alice Arm as a strictly silver camp is all wrong. They have as much gold as silver and this they say will be proved in the future.

About four miles from Alice Arm is a molybdenum property in which interest is being taken just

now. On Hastings Arm there is a very good group of claims which would make a fine operation and would cost little to get going as it is right at tidewater. If any of these properties were near Bridge River they would be worth a lot of money but Alice Arm has not been a popular district for some years past. It has been a long wait but it is possible it may be the next district to attract attention.

WHIFFLETS From the Waterfront

With a fair-sized list of passengers, C.N.R. steamer Prince Rupert, with Capt. H. E. Nedden in command after having been ashore in Vancouver on annual vacation, arrived in port at 10.15 this morning from Vancouver, Powell River and Ocean Falls and sails at 4 o'clock this afternoon for Anyox and Stewart whence she will return here tomorrow evening southbound. A. H. Robson who during the past summer has been purser of the Prince Robert, has now assumed duties for the winter as purser of the Prince Rupert.

The British steamer Dunelmia, loading a cargo of 500,000 feet of cottonwood logs at the lumber assembly wharf here for delivery to China, is expected to be ready to sail tomorrow for Shanghai.

Only one catch of halibut was sold at Seattle yesterday. This was the 43,000 pound fare of the schooner Omaney which was purchased by the San Juan Fisheries for 12c and 11.5c.

The well known Shumagin Island trading vessel Blue Fox, sixty feet long, is now in Seattle undergoing an overhaul on completion of which she will sail on her return north.

Attended Big Medical Meet

Dr. L. W. Kergin, who has been on a three weeks' trip east to attend a convention of the International Medical Assembly at St. Paul, Minn., and visit Mayo Clinic at Rochester, returned home on last night's train.

Five thousand physicians and surgeons from all parts of the world attended the International Assembly. Hotels of St. Paul were filled to overflowing and some of the visiting doctors had to sleep in hospitals. There were some remarkable discourses and demonstrations of the latest in medical theories and surgical technique. Dr. Kergin was particularly impressed with the advances which have been made in cardiac surgery.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body and you feel sour, sunk and the world looks pink.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 2c.
