NORTHERN AND CENTRAL BRITISH COLUMBIA'S NEWSPAPER

PRINCE RUPERT, B.C., THURSDAY, NOVEMBER 5, 1936

## Today's Weather (8 A.M.)

Prince Rupert—Thick fog, calm; barometer, 30.30; temperature, 37; sea smooth.

## Tomorrow's Tides

High ..... 7:26 a.m. 17.9 ft.  
19:30 p.m. 16.9 ft.  
Low ..... 0:35 a.m. 6.0 ft.  
13:12 p.m. 9.7 ft.

## British Columbia Halibut Banks Imp. and; Fishermen Doing Well, 'Tis Claimed

Improvement in the condition of the halibut banks on the Pacific Coast and particularly off British Columbia as the result of regulation is unmistakable, writes A. J. Whitmore. Success is attending the efforts of the International Fisheries Commission in rebuilding the supply of spawning fish and stopping the decline in abundance which went on for many years before 1930. The drop in annual catch on the grounds south of Cape Spencer from 65,000,000 to 22,000,000 has been brought to a stop with every prospect of an increase as soon as young fish appear as the result of more spawning. A decline in catch per day, or per unit of gear, which would have made every trip a loss at present prices, has been reversed.

Fear for the future of the halibut fishery off British Columbia can be dismissed unless we permit what has been and is being done by international co-operation to be destroyed. Such a remarkable change has been accomplished in no other marine fishery. And it is still more remarkable that it has been accomplished without a reduction in the catch, which might well have been a radical one in view of the condition of the banks.

The Canadian commissioners feel themselves fortunate in being able to report that the banks frequented by British Columbia fishermen show this improvement in somewhat greater amount than the banks elsewhere in Area 2, the grounds south of Cape Spencer; water, in fact, to the extent of 75% since 1930. Canada has had its full share of the benefits of conservation, and no more than its share of restriction.

The commissioners have had no responsibility for the system of voluntary curtailment and its effects upon price and distribution of the landings. They have no control over the prices obtained and cannot be expected to maintain the earnings of the fleet in the face of decreased prices obtained, for instance the decrease from 11.3 cents for southern mediums in Prince Rupert in 1930 to 6.6 cents in 1936. Only the general economic situation can do that. They can, however, show clearly by the statistics of the annual catches since 1931, when their regulations first became effective, that they have done their full share to preserve the halibut industry for Canada.

Canadian official records show that since regulation began the value of the halibut landings by Canadian vessels in Pacific ports has risen remarkably. This increase is such, having regard to the trend of other businesses taught in the depression, that the fleet and trade should feel greatly encouraged. This increase has been contributed to by a general recovery in prices.

Value of landings by the Canadian fleet for five years is given as follows:

Year	Halibut	Livers	Total
1932	\$257,855	\$10,800	\$268,655
1933	369,797	21,800	391,597
1934	528,874	34,000	562,874
1935	635,227	72,200	707,427
1936	666,057	79,600	745,657

The value is greater by the increased proportion of first class fish as a result of regulation, by better prices for the lessened proportion of second class fish, and by an increase in the total amount landed by the Canadian fleet.

This change in quantity of second class fish is shown clearly by the fact that, due to overfishing, the proportion of chickens in the Area 2 catch had risen steadily to 42% in 1932, whereas it had fallen to 28% in 1935. The price for second class fish was 50% of that for first class in Prince Rupert until 1933. In 1935 it was 88% and in 1936 80%.

The Canadian fleet has done well, both from the local grounds south of Cape Spencer in Area 2. (Continued on Page Two)

## TWO GRAIN SHIPS HERE

One Arrived Last Night and Other Sailed This Afternoon

For the first time in some years, two grain ships were today moored at the same time alongside the Alberta Wheat Pool's Prince Rupert elevator. One was the Norwegian motorship Heina making ready to sail for the United Kingdom or Continent with a full cargo of grain and the other the British steamer Swiftpool which arrived last evening to load a similar cargo. The Swiftpool got in at 7 p.m. from Baltimore via Panama. She was boarded at Triple Island by Capt. J. R. Elfert, harbor master, who piloted her in. The Swiftpool is a large ship from West Hartlepool, Eng., belonging to the Ropner Line. She has a crew of 32 and Capt. E. W. Jackson is her master. She started loading this morning. The Heina, having been here since the end of the last week, was to sail early this afternoon.

New grain has started arriving at the local elevator from the prairies.

## Weather Forecast

(Furnished through the courtesy of the Dominion Meteorological Bureau at Victoria and Prince Rupert. This forecast is compiled from observations taken at 5 a.m. today and covers the 36 hour period ending 5 p.m. tomorrow.)  
Barometer has risen along the north coast and unsettled, mild, rainy weather prevails on Vancouver Island and the lower mainland.  
West Coast of Vancouver Island—Moderate to fresh east and south winds, unsettled and mild with rain.  
Prince Rupert and District—Light variable winds, partly cloudy and cool with occasional showers and drifting fog.  
Matthew Williams, well known merchant of Skidegate Mission, arrived in the city on the Prince John last night from the Queen Charlotte Islands and will sail tonight on the Prince Rupert for a two weeks' business trip to Vancouver and elsewhere in the south. He is registered at the New Royal Hotel.

## Cabinet Reserves Decision On Reid Grain Rate Matter

OTTAWA, Nov. 4: (CP)—The federal cabinet Wednesday night reserved judgment in the appeal of Tom Reid, Liberal member for New Westminster, asking for the establishment of export freight rates on feed grain imports to British Columbia for domestic use.

VANCOUVER, Nov. 5: (CP)—Wheat was up to \$1.07 1/2 on the Vancouver Exchange yesterday, advancing to \$1.08 1/2 today.

## Late Telegraphs

**INDIAN RECAPTURED**  
WHITEHORSE—Paddy Duncan, Indian, wanted in connection with the fatal shooting Friday at Champagne Landing of Harton Kane, another Indian, was brought into Whitehorse yesterday by the Royal Canadian Mounted Police, having been recaptured following his escape from custody following the shooting.

**BURLEIGH GRIMES MANAGER**  
NEW YORK—Burleigh Grimes, former famous pitcher, has been appointed manager of the Brooklyn Dodgers.

**EXTENDING STRIKE**  
NEW YORK—Despite the edict of the executive of the International Seamen's Union calling back to work 14,000 seamen who have gone on strike on the Atlantic Coast and Gulf ports in sympathy with the Pacific Coast strike, maritime workers tried today to extend the already widespread strike. The I. S. U. has set Saturday as the deadline by which the men must return to work on pain of expulsion from the union. The order does not affect the Pacific Coast. Strikers have been arrested at Boston and Galveston.

## CLOSE NOW TO MADRID

Fascist Insurgents Now Reported To Be But Three Miles Away; Situation Desperate

## Aerial Fighting

Thousands of People, Watching From Roofs of Capital, Saw Socialist Victory

LONDON, Nov. 5:—Fascist insurgents were reported last night to have advanced to within three miles of the suburbs of Madrid from the south.

In a feverish final stand, women as well as men are engaged in entrenching.

According to Fascist reports, conditions are desperate in the capital. It was said in Berlin last night that there were not only Russian but French and British airplane pilots in Madrid the last-mentioned allegedly wearing Royal Air Force uniforms.

Heavy aerial and artillery bombardments shook the outskirts of Madrid today as insurgents started a decisive battle for possession of the capital.

Two insurgent fighting planes were shot down over the city and two others were crippled but escaped. Thousands, watching the dog fight from Madrid roofs, cheered wildly at the Socialist victory.

## Committee Meeting

LONDON, Nov. 5:—The international Spanish civil war non-intervention committee meets again today and a bitter session is anticipated. Russia yesterday sent another note denying all allegations of assisting the Spanish government in the civil war.

## Litigation Over Child's Custody Being Resumed

LOS ANGELES, Nov. 5:—Litigation between Harry Bannister and his former wife, Ann Harding, screen actress, over the custody of their daughter is to be resumed. Bannister will oppose a six months extension of custody for Miss Harding who is at present in England with the child.

## STANDINGS IN HOUSES

Even Strongest Republican Veterans Had Hard Pull to Hold Their Seats

NEW YORK, Nov. 5: (CP)—As a result of the voting in the United States general election on Tuesday, the Democrats are now assured of seventy-five seats in the Senate and the Republicans appear to have won only twenty-one seats. For the House of Representatives 329 Democrats have been definitely elected compared with only 71 Republicans. The Democrats are leading in 71 House seats and the Republicans in 14. The Democrats have a new high in the House.

Instead of cutting down Democratic majorities as they had expected, Republicans found their veterans in both Houses falling. Senator Charles L. McNary of Oregon, Republican leader, appears to have been elected with a small lead. The veteran Senator William E. Borah of Idaho was given a thumping majority over C. Ben Ross, his very popular Democratic opponent who was three times governor.

Senator Daniel O. Hastings of Delaware was one of the Republican stalwarts to go down to defeat, losing to James Hughes, Democrat.

President Roosevelt is assured of the greatest working majority ever accorded a President of the United States.

It appeared last night that the President's plurality in the popular vote throughout the country would probably run about ten million. He had well over twenty-four million votes with about fifteen million for Governor Alfred M. Landon of Kansas, the Republican candidate. Today's total returns are reported as follows: Roosevelt, 24,778,018; Landon, 15,447,771. The majority sets a new United States record.

## Roosevelt Appreciative

"I find myself fairly buried with an avalanche of thousands and thousands of congratulatory telegrams and letters," said President Roosevelt at his Hyde Park home last night. "I am deeply appreciative of the many pledges of goodwill and loyal support."

Mr. Roosevelt spent the day resting, having not risen until noon after having been up until 1 a.m. election night.

## California Vote

LOS ANGELES, Nov. 4:—California has given President Roosevelt a total popular vote of 1,500,000 or 300,000 more than in the landslide of 1932. Sixteen Democratic congressmen were returned from this state and four Republicans.

There was especial interest in the election for district attorney, Buren Flitts being re-elected with a small majority over Harlan Palmer.

## Overseas Comment

LONDON, Nov. 4:—British and European press and political observers followed the United States election with much interest, particularly the presidential contest.

One London paper attributed the great Roosevelt victory to the personal popularity of the President and the fact that "prosperity is just around the corner." Another London paper believed that the people of the United States "concede in Roosevelt as the saviour of the country."

Premier Leon Blum of France was "happy to congratulate President Roosevelt whose policies are for peace and economic recovery."

The German press agreed that the President's popularity and strong personality were the principal factors contributing to his re-election with such a large majority. He certainly would have a free hand in effecting his economic plans, it was observed by Berlin papers.

## Kenney Makes Suggestions In Legislature For Assistance To Skeena Mining Industry

VICTORIA, Nov. 5: (CP)—As a means of encouraging the Skeena district mining industry, E. T. Kenney of Terrace, member for Skeena, speaking in the Legislature Wednesday, urged the government to increase financial assistance for trail and road building. He suggested that new strikes prospectors be allowed to stake as many claims as required to profitably work the property. The government might also enter into partnership with the prospector, making advances on favorable reports.

## Quadruplets Are Born in States

Mrs. Pearl Bridges in Critical Condition After Giving Birth To Four Babies

MEMPHIS, Tenn., Nov. 5:—Mrs. Pearl Bridges, who gave birth to quadruplets, three girls and one boy, in a rude farm home in Southeastern Missouri on Tuesday, is in critical condition in a Memphis hospital to which she was brought. Two of the babies, the boy and one of the girls, are dead. The other two may live.

## Arrangements For Poppy Day Tag Saturday

A meeting of the Poppy Day committee took place at the Canadian Legion clubrooms last evening under the chairmanship of President W. M. Brown. Members of the Women's Auxiliary in attendance were Mrs. Hugh Killin, president, Mrs. S. V. Cox, Mrs. W. J. Cross and other representatives from the Legion were G. J. Dawes and J. S. Wilson.

The co-operation of the Imperial Order, Daughters of the Empire is again assured with Mrs. J. Orchard McLeod, municipal representative, a member of the committee.

Taggers will include members of the Women's Auxiliary and children of members while Girl Guides will also give their valuable assistance. A house to house canvass will give the general public, who may not be in town, an opportunity to contribute to the cause.

A new feature of the Poppy campaign this year is the sale of small poppies that may be attached to windcreens of automobiles.

The Women's Auxiliary will have charge of the tag day with headquarters at the clubrooms of the Legion.

## ENTERTAIN VISITORS

Social and Dance Staged by Local Norwegians For Men of Grain Ship Heina

For the entertainment of officers and men of the Norwegian motorship Heina, which is loading a grain cargo at this port, the local Norkap Society staged a very enjoyable social and dance Tuesday night in the Boston Hall. There were about 150 persons present and all had a very enjoyable time.

Peter Lien, president of the society, gave an address of welcome to the visiting Norwegians. The chief officer and one of the members of the crew of the vessel responded. The musical program included vocal solos by Nels Gunderson.

The proceedings were in progress from 9:30 p.m. until 3 a.m. and Nels Gunderson was master of ceremonies. Music for dancing was by Julius Welle's Orchestra. K. Gulbranson presided at the door.

The committee in charge consisted of Mr. and Mrs. B. Peterson, Mr. and Mrs. Ole Kildal, Mrs. Nels Luth and Mrs. Peter Lien.

NEW YORK, (CP)—Bar silver was unchanged at 44 3/4c per ounce on the New York metal market today.

## MARS IS BEACHED

Alaska Seineboat Expected to Be Brought Here Tonight For Docking

The Alaska seineboat Mars, which struck a reef and sank off Dundas Island on Tuesday, was raised yesterday by the local salvage boat Daly and beached on a sandy shore near Whitley Point where she is being temporarily patched preparatory to being brought in here for docking. After having succeeded in beaching the Mars, the Daly came in this morning and was to go out again this afternoon to pick her up and tow her in. Tug and tow may arrive this evening.

The Mars is not believed to be extensively damaged.

After the sinking, the crew of the Mars were taken aboard the Sunbeam, another seiner, which has been standing by.

The Canadian government steamer Givenchy has also been standing by.

## CALCIUM WAS HIS SUBJECT

Dr. Leonard Pugsley Speaker At Gyro Club—Going Ahead With Morse Creek Skating Resort

Dr. Leonard Pugsley, the latest new member of the scientific staff of the Prince Rupert Fisheries Experimental Station, was the speaker at the regular weekly luncheon of the Prince Rupert Gyro Club yesterday. His subject was "Calcium Metabolism" which he discussed in an interesting way. He briefly described the chemical attributes of calcium and then spoke of the functions of the thyroid gland, which had an important bearing on the distribution of calcium through the human system, and vitamin D which controlled the absorption of calcium in its bone-building activity.

The Gyro Club decided to proceed in conjunction with the Rotary Club on the development of a skating rink at Morse Creek. The estimated cost of the project is \$400 which the two clubs will share equally. The intention is to start work at an early date so the pool will be in shape for skating this winter. Stumps will be removed, a gate for control of the level of the water installed, benches put in, a walk built and electric lighting installed. The work will be looked after by the Gyro Club's playground committee of which W. H. Tobey has now been appointed chairman, and a committee of the Rotary Club consisting of J. J. Little, W. J. Alder and S. C. Thomson.

Dr. R. G. Large president of the Gyro Club, was in the chair at today's luncheon and guests were P. F. P. Bird, Harry Melville of Premier and S. G. Lawrence of Stewart.

## British Columbia Halibut Banks Improved; Fishermen Doing Better, 'Tis Claimed

(Continued from Page 1)

and from Area 3. It has increased its share of the catch in the local Area 2 from 30% in the two years 1931 and 1932 at the beginning of regulation to 40% in the last three years, 1934, 1935 and 1936. Its share is greater than in 1929, when a full nine months season was necessary, and a million and a half greater than in 1931 just before regulation began. It is two and a half million greater than in 1932, at the depth of the economic depression. The following table shows this:

Year	Pounds	%
1929	8,386,000	34
1930	7,009,000	33
1931	7,018,000	32
1932	5,960,000	27
1933	7,649,000	34
1934	8,967,000	40
1935	8,954,000	41
1936	8,585,000	39

If, as some fishermen are prone to say, the large Area 3 boats have been using an undue amount of Area 2 fish, it has certainly not been at the expense of the Canadian fleet.

The share of the Canadian fleet in the catch from Area 3, or the western area, has doubled. Where before regulation it took 600,000 to 700,000 pounds, in the last two years it has taken an average of 1,500,000, making its total from the coast very much larger. These figures are most significant when it is remembered that to rebuild the banks has required the total international catch from Areas 2 and 3 to be temporarily limited to a fixed amount since 1931.

Year	Area 3	Ar. 2 & 3
1929	656,000	9,042,000
1930	617,000	7,626,000
1931	765,000	7,783,000
1932	452,000	6,412,000
1933	637,000	8,286,000
1934	751,000	9,718,000
1935	1,251,000	10,205,000
1936	1,725,000	10,310,000

### The Important Point

The fact of these increased landings is the important point, but it is interesting to see where some of this increase has come from. At one time dory fishing by large vessels was extensive in Area 2, totalling 1,799,000 pounds in 1932. At that time the commission took action to reduce this fishing and in 1935 completely prohibited it. The vessels which carried on this fishery then left Area 2, catching but 246,000 pounds by "long-line" fishing there in 1936, a saving of over 1,500,000 pounds for the other vessels in that area. The catch of other large vessels usually fishing in Area 3, shows a reduction in the amount credited to Area 2 in the accounts of the commission from 735,000 pounds in 1932 to 353,000 pounds in 1936, thus adding another 400,000 pounds to that available for the smaller vessels in that area.

### Catches of large vessels in Area 2:

Year	Former Dory Vessels	Other Large Vessels	Total
1932	1,799,000	735,000	2,534,000
1933	877,000	660,000	1,537,000
1934	296,000	436,000	732,000
1935	559,000*	575,000	1,134,000
1936	246,000*	353,000	599,000

\*—By long-line fishing which is legal in Area 2.

The Area 2 fleets, including of course the Canadian vessels, have profited in another way. There has been a steady increase in the number of trips made to Area 3 by boats which belong to Area 2. This, it is important to note, is a net gain for the Area 2 fleets, because it was not made from the quota given Area 2.

### Landings from Area 3 by vessels usually fishing Area 2:

Year	Canadian	U.S.
1932	0	224,000
1933	130,000	1,232,000
1934	252,000	1,277,000
1935	670,000	1,607,000
1936	917,000	2,715,000

It is clear that there is a decided shift toward Area 3. In 1932 the large vessels were taking 2,534,000 pounds from Area 2, in 1936, 599,000. In 1932 the smaller vessels were taking 224,000 pounds from Area 3, in 1936 this increased to 3,632,000 pounds.

This shift is to the advantage of the Area 2 fleet in two ways, be-

cause it leaves a greater poundage in Area 2 for this fleet and because it tends to reduce the number of vessels sharing. On the other hand, new Canadian vessels have joined the halibut fleet, and it is of interest to see whether these additions have been great enough to affect the earnings of the individual vessel. For the three years before regulation, 1929-1931, the average number of men engaging in the fishery was 488; in 1932-1933, the first two years of regulation, the number was 342, and in 1934-1936 it had risen to 511, with 585 the last year. From the standpoint of national interest it may be desirable to spread employment in that way. If some complaint should arise as a result, it is not a matter in which the halibut commission could or should intervene.

### Spread of Employment

But this tendency toward spread of employment has not been sufficient to decrease the landings per vessel of the regular halibut fleet. These landings are now as great as in 1927 and 1928. Before regulation the pounds caught annually by each of the vessels in this fleet had fallen regularly from year to year as a result of overfishing. This had caused a decline in abundance which the commission has shown to have been from a yield of 300 pounds per set of a skate of gear in 1906 to 35 pounds per set in 1930. The decline of catch per vessel is very close to that of abundance. For example, in 1927 and 1928 the average season's landings of vessels fishing the whole season was 144,600 pounds, and the catch per skate was 47.4 pounds. In 1930 the same vessels took 112,700 pounds each, and the catch per skate was 35.4 pounds, in both cases of fall to 75% of the amounts in 1927 and 1928. The years 1929, 1930 and 1931 were nearly on a par averaging 117,100 pounds per season per boat.

As soon as regulation became effective, in 1932, the abundance and the catch per set of a skate of gear rose. The result was a much higher total catch for the season of these Canadian vessels, averaging 161,300 pounds in 1932 and 1933, but drop-

ping to 143,700 in the last three years 1934 to 1936. This drop was due to the adoption of curtailment in order that a better price might be obtained. The season's catch in the last three years was therefore very nearly the same as in 1927 and 1928, and much better than during the year 1930 in which the banks were in the poorest condition. This depletion and low yield was the result of the most intensive fishery the banks had ever known, reaching a climax in 1929, and was not due to bad economic conditions. The recovery in abundance and in greater catch per vessel has been due to the rebuilding of the banks by regulation.

Regulation, giving halibut a longer life and the chance to spawn, has benefited the fleet in another way which should not be overlooked. The greater amount of growth has produced larger fish and a higher percentage of number one fish. In fact "chickens" have become fewer and are wanted so that the price paid for them is approaching that paid for mediums.

### Supplementary Activities

There are good prospects for activities supplementing the earnings during the halibut season. In 1936, of 131 Canadian vessels, but five tied up at the end of the halibut season in Area 2, and 68 had left considerably before the end, engaging in salmon, pilchard and other fisheries. When Area 2 closed the remaining vessels engaged in salmon and black cod fishing, and 19 went to Area 3 for halibut. The black cod market is increasing steadily. This is tending to divert vessels from the halibut fishery, and should be encouraged as leaving more halibut for the remainder of the fleet. Fisheries of this sort after the end of the season are additional to the income

from halibut, which is not reduced. The larger vessels (schooners) in Area 3, have not had an increase in the average season's catch per boat corresponding to that of the Area 2 fleet. They have, however, sold their catch at higher prices because they have prolonged their season by their own efforts. If this opportunity to sell at higher prices after the closure of Area 2 were lost to them, an inspection of their records shows that they would need an increase in poundage from Area 3 of more than 35% to bring their catch to equal that of 1927 and 1928, as Area 2 vessels have done. This is not a matter of opinion but of facts easily obtained from records of landings in the markets.

In this brief summary it has been made clear that the Canadian fleet is in a favorable condition as a result of the present regulations.

## BUCKLEY'S ALKALINE COUGH MIXTURE

Quickly Neutralizes Harmful Acids

You don't have to wait days or weeks for results with this famous cough mixture—You get the effect instantly. Medical research has conclusively shown that an acid condition almost always accompanies the common cold and coughs resulting therefrom. To combat this condition alkaline in various forms are often prescribed more or less as a preventive measure. But never before have you been able to obtain a powerful expectorant cough mixture combined with an active stimulating alkalizer. And that is why Buckley's is so effective for coughs, colds, bronchitis, asthma, grippe, and whooping cough. Buckley's Mixture is based on medical fact—findings. It's no ordinary cough mixture; it goes three times as far as the old-fashioned cough syrups. Buckley's not only fights the cough—it gets right at the cause and quickly puts an end to days and nights of racking, backing misery. You must get results with Buckley's or money back.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

## Plans Closing Of Local Stores

Annette Just Opened Establishment at Salmo and Will Live There

Evidently Annette is planning to close her two local stores. The following is an extract from a recent number of the South Kootenay News:

"Plans for Salmo's new department store are about complete and construction of the building is expected to start in the next few days on the lot adjoining Salmo Community Hall.

"The new retail establishment which will be owned by and under the management of Annette Woods, will be modern in every detail. The ground floor of the two-story building will contain a grocery store and meat market while ladies and men's wear, dry goods and shoes will be displayed on the second floor.

"In coming here Mrs. Woods is enlarging her chain of stores, already having two businesses in Prince Rupert, one in Lethbridge, Alta., and another in Vancouver. It is her intention to dispose of the Prince Rupert businesses and make her headquarters in Salmo, in which town she will take up residence."

Mrs. R. Jenette left on last evening's train for a trip to Chicago.

## LOCAL NEWS

Harry Melville of the engineering staff of the Premier mine was a passenger aboard the Prince Rupert yesterday returning north after a two weeks' trip to Vancouver.

Mr. and Mrs. J. M. McCawley, formerly of this city and now residing in Prince George, are paying a brief visit to town. They arrived from Prince George on Tuesday night's train and will be returning there Friday evening.

The marriage of Miss Marjorie Blance and Lee Gordon, popular local couple, will take place this evening at St. Andrew's Cathedral. Following a reception at the home of the bride's mother, Mrs. Robert Blance, Leeds Apartments, the couple will sail on the Prince Rupert for a honeymoon trip to Vancouver and elsewhere in the south.

Col. J. W. Nicholls, general manager of the Canadian Fish & Cold Storage Co., was the speaker at the regular weekly luncheon of the Prince Rupert Rotary Club at the Commodore Cafe today. He described some incidents and impressions of a recent business trip to Eastern Canada and the United States. President C. V. Eviitt was in the chair.

We sell circulation. We have it.

# Outstanding BRITISH WOOLENS

## We will provide the MONEY.

### Remodel, Renovate and Repair your Home!

Look over your house as a guest would look at it, note what is needed and do it now! You can have the money for:

- Needed additions
- Painting, papering, decorating
- Repairing walls and ceilings
- Carpentry work
- Insulating, to make the house warmer in winter, cooler in summer
- Installing better bathroom and other fixtures
- Installing correct and more convenient electrical fixtures
- Repairing roof and rain pipes
- General repairs.

The Bank of Montreal is co-operating with the Government by making loans, repayable on easy terms, for repairs and renovation of homes under the Dominion Home Improvement Plan. We would welcome a call from any home owner desiring funds for such work.

**"GOVERNMENT LIQUOR ACT"**  
(Section 27)  
**NOTICE OF APPLICATION FOR A BEER LICENCE**

Notice is hereby given that on the 31st day of December next, the undersigned intends to apply to the Liquor Control Board for a licence in respect of premises being part of a building known as Knox Hotel, situate on First Avenue, Prince Rupert, British Columbia, upon the lands described as Lots No. 13 and 14, Block 2, Section 1, Map 923, Prince Rupert Land Registration District, in the Province of British Columbia, for the sale of beer by the glass or by the bottle for consumption on the premises or elsewhere.

Dated this 31st day of November, 1936.

Applicant—**GEORGE L. RORIE**,  
Trustee of Knox Hotel Company  
Limited in Bankruptcy.

---

**NOTICE OF SALE BY SHERIFF PURSUANT TO THE "EXECUTION ACT"**

In the County Court of Prince Rupert Holden at Prince Rupert  
D. W. Messner, Plaintiff (Judgment Creditor)  
vs.  
L. H. Brawand, Defendant (Judgment Debtor)

TAKE NOTICE that pursuant to the Order of His Honor Judge Fisher made herein the 3rd day of October, A. D. 1936 I will sell the interest of L. H. Brawand, the above-named Defendant (Judgment Debtor) in the farm lands and premises near Smithers, B. C. known and described as Lots fifty-six (56) to sixty-four (64), Lots sixty-six (66) and sixty-seven (67), Lots sixty-nine (69) to eighty-four (84), and Lots eighty-six (86) to ninety-four (94) (all inclusive), Sub-division of the South-east quarter (1/4) of Section Thirty-one (31) Township four (4) Range five (5) Coast District, Map 1077, (all within land settlement area—see documents filed 6240), the said L. H. Brawand being the owner thereof, subject to a mortgage registered on the 4th day of March 1927 in favor of Henry I. Messner B. Frank Messner, Archibald T. Harter and DeWitt W. Messner in respect of which the sum of \$1367.50 is said to be owing and subject further to a certificate of Lis Pendens and a Mechanics Lien registered on the 13th day of July 1936 whereby Paul Babits claims the sum of \$27.00 and costs (still the subject of litigation), in order to satisfy the Judgment of \$812.77 in this action, together with interest and costs of these proceedings, which said Judgment was registered in the Prince Rupert Land Registration Office on the 24th day of August 1936, and appears as a charge against the said lands and premises.

The aforesaid interest in said lands and premises will be sold at eleven o'clock in the forenoon of Monday, the 9th day of November 1936, at my office in the Court House, Prince Rupert, B.C.

Dated at Prince Rupert, B.C. this 6th day of October, 1936.

S. A. NICKERSON  
Sheriff of the County of Prince Rupert

## Tea In Honor Of Bride-Elect

Mrs. Jack Durran is Hostess For Miss Beulah McKinley

Yesterday afternoon Mrs. Jack Durran was hostess at her home at 120 Fifth Avenue West with a delightful tea in honor of Miss Beulah McKinley who is to be married tomorrow evening to Gordon Daniels.

Pale pink and mauve chrysanthemums in a silver basket centred the attractively arranged tea table at which Mrs. F. W. Dafoe and Mrs. Norman Fraser presided while serving were Mrs. Saunders and Mrs. W. Pierce.

After the dainty refreshments were served, the bride-to-be was presented with a beautiful upholstered walnut occasional chair which was decorated in pink and mauve, caught at the top with a lovely bouquet of mauve chrysanthemums.

Among those present were Mrs. Jack Durran, Miss Beulah McKinley, Mrs. J. W. McKinley, Mrs. F. W. Dafoe, Mrs. W. Pierce, Mrs. Bert Morgan, Mrs. Saunders, Mrs. F. W. Hart, Mrs. N. Mussallem, Mrs. T. Priest, Mrs. Norman Fraser, Mrs. J. Murray, Mrs. J. Irvine, Mrs. E. Hart, Miss Kay Watson, Mrs. C. Campbell, Mrs. J. C. Gilker, Mrs. J. L. MacIntosh, Mrs. R. Barclay, Miss Ruthana Wood, Mrs. A. Durran, Miss Myrtle Kinslor, Miss Elsie Finley, Miss Bea Svenson and Mrs. J. McLeod.

## Changed Her Shoes Five Times a Day

Suffered For Twenty Years With Rheumatism

Try and picture the life this woman led for twenty years—changing her shoes several times a day in a vain endeavor to attain some relief from the rheumatic pains that were constantly troubling her. Then imagine her joy when she found that Kruschen was driving away the rheumatism. This is what she writes:

"I have been using Kruschen Salts for four years. For twenty years previously I had suffered with my feet, sometimes changing my shoes five times a day, and frequently sitting without any as the pain was so great. Now I can wear the same pair of shoes all day with comfort. I cannot speak too highly of Kruschen Salts. Only those who had been in constant pain with their feet for years can realize what it is to be free."

(Mrs.) E.A.

It is deposits of excess uric acid, lodging between the joints, which are frequently the cause of rheumatism. Kruschen Salts contain two ingredients—sodium and potassium—which are effective solvents of uric acid.

## The Letter Box

POPPY DAY

Editor, Daily News:—

I should be glad if you would allow me the publicity of your correspondence column to inform those of our citizens who may not be conversant with the situation just what Poppy Tag Day means.

In the first place the poppies and poppy wreaths are made by disabled veterans in the Vetracraft Shops in Victoria. These men are too severely crippled to be able to engage in ordinary civilian occupations. The local branch buys all its supply of poppies from the Vetracraft shops.

The profits from the sales are all expended locally among needy ex-service men and their dependents. Last year a sum of \$159.38 was cleared. All of this, with considerably more from its own funds, has been spent under the direction of the Poppy committee. Each case is considered on its own merits.

While the sum may seem large I believe that most of our citizens will not be satisfied that it is commensurate with the sacrifices made by disabled ex-service men. These men offered "their all" in the war. Shall we pay our debt adequately by spending ten cents on a poppy?

The Canadian Legion is not asking this money for itself. It is your opportunity to show your appreciation to the needy veteran.

Thanking you, Mr. Editor,  
J. S. WILSON.

## Capitolians Entertaining

Another Excellent Program Rendered Last Night and Will Be Repeated This Evening

The Capitolians concert party under the direction of Dr. H. N. Brocklesby, put on another acceptable program of special musical entertainment from the stage of the Capitol Theatre last night, winning the plaudits of a large audience. The program, which will be repeated tonight, included the Russian folk song "Two Guitars" and an arrangement of Victor Herbert selections by the orchestra; a vocal solo, "Where E'er You Walk" by David Jones, boy soprano, who also assisted the orchestra in the popular number "Let's Sing Again," and a clarinet duet "La Sorella" by Tom Johnston and Wilfrid Hicks. Al Small was master of ceremonies.

Mrs. George Cam will sail on the Prince Rupert this evening for Vancouver, New Westminster and Trail where she will visit for a month before returning to her home in Dawson.

## GORDON'S HARDWARE

## She was only a DRESSING-TABLE BEAUTY

SHE SPENT a lot of time and money on her face. She knew the tricks of make-up, and sought the flattery of soft lights wherever she went. But day after anxious day, she watched the growing defeat of her youth. In those frightening signs of age that women know only too well: Rebellious wrinkles that refused to be covered up. Dull eyes. A sallow skin. Why had this happened to her? So young in years, so eager for life!

Lipstick and powder are grand beauty-aids. But they were intended to assist glowing health — not to replace it. If she had only known that a poorly balanced diet, over a period of years, can affect how people both look and feel. For instance, meals low in "bulk" may develop constipation.

Continued neglect of this condition causes discomfort, may lead to headaches, loss of appetite, listlessness. Fortunately, a delicious cereal supplies the "bulk" you need for regular habits.

Scientific tests show that the "bulk" in Kellogg's ALL-BRAN is both safe and effective. It absorbs moisture within the body, forms a soft mass, gently cleanses the system.

Two tablespoonfuls daily are usually sufficient. Stubborn cases may require ALL-BRAN oftener. If not relieved this way, consult your doctor. You may serve ALL-BRAN as a cereal,

with milk or cream, or cook into tempting muffins, breads, waffles, etc. Isn't this natural laxative food better than taking pills and drugs?

ALL-BRAN is not a "cure-all" — but it does correct constipation due to insufficient "bulk." Guaranteed by the Kellogg Company. Sold by all grocers. Made by Kellogg in London, Ontario.

Serve ALL-BRAN regularly for regularity
